### AMERICAN.

**THE PRESIDENT'S CONDITION.**

WASHINGTON, 20.—Dr. Boynton, who came out of the President's room at 3.30 this afternoon, said to an Associated Press reporter, there is no truth in the report that the object of introducing the tube into the wound to such a depth was for the purpose of reaching the pus accumulations. While washing out the wound yesterday, the surgeons found there was no longer any resistance to the pressure of the tube, and they therefore let it go in as far as it would, and to a depth of 11 inches, and afterwards 12 inches. Healthy pus is never absorbed, and cannot be absorbed, consequently, there can be no foundation to the theory that the depth of the wound would indicate that the pus had been absorbed. The introduction of the tube to so great a depth gives no further evidence of the location of the ball. The tube was a flexible rubber catheter, used in washing out the wound, and we could tell in a general way the direction which it took through the body. That direction was forward and downward toward a point in the anterior wall of the abdomen, where the ball has always been supposed to be. Nothing new was ascertained. The surgeons think it possible that the ball has moved downward since it first lodged in the abdominal wall, but this is not certain. The surgeons regard the opening of the wound as favorable. It is better to have the wound open throughout than closed or obstructed in the middle. It can now be gotten at and cleansed thoroughly; in fact, this recent exploration shows no unfavorable symptoms, but on the contrary. The President swallowed about three teaspoonfuls of beef steak juice to-day, and has also taken more milk gruel this afternoon. The swelling of the parotid gland is only of half size and is slowly diminishing.

**Hamilton.**

Dr. Hamilton said, he thought the end of the tube lacked about three inches of reaching the ball, and the intervening space had healed. In his (Dr. Bliss) opinion however, the tube to the ball was not so great. In reply to a question with regard to bed sores from which the President has been reported to have been suffering, Dr. Bliss said emphatically the President has not on his body a single sore, swelling or abrasion of any kind except the parotid swelling.

**Bliss.**

The inflammation of the parotid gland has not diminished much since yesterday. The swelling of the surrounding parts has subsided, so that the expression of the face is again natural, but the gland itself is troublesome. A scattering application of collodion and sodiform has been made to it, but it is impossible to say yet whether suppuration can be prevented. In the meantime the patient suffers to some extent from stiffness of the jaw, and from an accumulation of phlegm in his throat. Upon being asked whether there were any indications yet in the President's case of malaria, Dr. Bliss replied in the negative. Quinine had been given, he said, in five grain doses at intervals, but rather for its general tonic effect than because of any particular symptoms to call for it. The President's fever in his opinion, is not of an intermittent type, and not influenced by malaria. The whole question of the future of the President's case turns now upon the stomach. If that organ can receive and assimilate food enough to make good the present drain upon the system, and enable the patient to regain his strength, he will stand a fair chance of recovery. If, on the contrary, the stomach becomes intolerant of nourishment and refuses for any great length of time to receive food, the consequences may be fatal. At present all indications are that the stomach is recovering its tone, and upon this fact we base our hopeful anticipations.

**Criticism.**

CHICAGO, 20.—The *Inter-Ocean's* Washington special says: The accidental discovery of obstructions in the track of the ball so near the mouth of the wound is regarded by unofficial physicians as evidence of great neglect. The official physicians have frequently announced that the wound was healing nicely to within three or four inches of the mouth of the wound. It now appears that eight inches beyond has been suppurating all this time, and the light flow of pus was due to the obstruction just discovered, and to the fact that a considerable amount was absorbed. This accounts for the inflammation on the neck and satisfies at least unofficial experts that the President is and has been suffering from blood poisoning. For weeks that eight inches of suppuratory surface has not been cleansed and the result will probably be serious complications yet to come. The official surgeons, however, profess to think the President is doing well and take a more conservative view of the case than many of their professional brethren.

**Abusive Cards.**

WASHINGTON, 20.—With a view to affording relief to persons who receive abusive and annoying postal cards through the mails, the following circular to postmasters will soon be issued from the Postoffice department: When any one is annoyed or expects to be annoyed by postal cards sent from any place or from any known persons he may direct the postmaster at the point named to destroy all postal cards addressed to him, or from any person named so addressed, and as far as the discharge of the duties of the office permits sufficient examination, the postmaster should comply with the request. The same request may be made of the receiving postmaster. Directions to the postmaster should be in writing, and should be filed for preservation.

**Bail or Jail.**

Capt. Howgate has not obtained bail yet, and if he does not get it to-day or Monday, he will be sent to jail. Investigations show he has robbed the government of a large amount of money through the dotting out of the *Gulnare*, which was ostensibly paid for out of his own pocket.

**An Arrogant Assault.**

The recent demonstration of the wretch Guiteau seems to have had no other incentive than his inordinate desire for notoriety. When District Attorney Corkhill was here he visited him almost daily. He gave him a stenographer to take down his endless jumble of words, which has led Guiteau to think himself an important personage. His picture was taken, and the wretch seemed to know it would be sought everywhere, and this fed his vanity. He is treated as the other prisoners. He has been somewhat arrogant to his keepers, but it did not change his treatment. Some days since he complained of headache, and imperiously demanded a bandage for it, which, not coming promptly, as he thought it would, he tore up his pillow-case for a bandage, and as the discipline for misdemeanor, his next meal was made of bread and water, of which he complained to Warden Crocker, asserting that the value of the pillow-case should not be taken into account when it was needed to relieve pain.

**Curious Malt.**

NEW YORK, 20.—The brewers among their answers, yesterday, given to the interrogations of the temperance society about the modes of manufacturing beer, which they adopt, admit they often use "instead of barley and malt, such substitutes as cornmeal, cornstarch, rice, grape sugar and glucose." They add: "We will discontinue to use these when your society shall show them to be deleterious.

**Noyes on the Canal.**

Minister Noyes arrived yesterday, and being interviewed by a *Tribune* reporter, said: You know deLesseps has obtained all the money he asked for, although I don't imagine it is nearly enough. It was gotten in England and some in Spain, as well as in France. I think the first thing to be done is that the United States of Colombia should make an agreement which should be satisfactory to the United States of America. Unless this be done, I don't believe the canal will be a success, even if it is a physical possibility. Hayes stated the whole matter rightly when he said that the canal was part of the coast line of the United States, and as such its political control should be in our hands.

**On France.**

He says France is the most prosperous country in Europe to-day. The death of the Prince Imperial dealt a staggering blow to the Bonapartists, and to-day the three monarchial parties in France, even combined, would not present a formidable front in contest against the republican party—hardly to be defeated unless by serious division among their leaders, and nothing can be seen in the present state of affairs in France to justify this apprehension.

**On Immigration.**

The exceptional prosperity of the United States is attracting large immigration from the Old Country; and the military system in Europe greatly helped the exodus of thousands of industrious men who hope to enjoy in the New World a freer and more prosperous life than they had in the Fatherland.

**The Untutored.**

The following dispatch was received to-day:

WELL STATION, New Mexico, 20.—The Apaches made a raid on our settlement this morning in heavy force. They have not attacked the mines so far. We can probably stand them off. (Signed) GEORGE DALY.

WELL STATION, New Mexico, 20.—George Daly, general manager of our mining companies here, was killed this forenoon by the Apaches, while pursuing them with a company of soldiers and citizens, we have brought his remains into Lake Valley, and will have them buried here. The fight took place fifteen miles west of Lake County.
(Signed) L. H. EDELIE.

**They Grind Exceeding Fine.**

At the Produce Exchange, to-day, wheat, corn and oats were two and three cents lower and fairly active, transactions still being almost entirely speculative. The magnitude of speculation in cereals of late is strikingly illustrated by the fact that during the past week transactions in wheat alone have involved no less than 18,000,000 bushels, making the total for the fortnight of fully 25,000,000 bushels, at least 90 per cent. of which was in option transactions. Corn within two weeks aggregated 13,000,000 bushels, and even of oats sales have been over 2,000,000 bushels the past week alone. The export business is hardly a drop in the bucket. Speculation absorbs all attention, and alone directed the course of prices. The actual position of our foreign trade in grain just now is reflected in the fact that exports of wheat from New York since January 1st have only been 26,642,000 bushels against 37,525,000 bushels for the same period last year, while of corn shipments there have been 22,413,000 bushels against 30,714,000 during the like period in 1880. It is interesting to observe, however, that our foreign exports of flour are materially larger than last year, having exceeded 3,000,000 bushels thus far, against 2,250,000 bushels the same time in 1880, a fact which, as is well known, has of late given British millers no little uneasiness.

**Fatal Explosion.**

CHICAGO, 20.—At 6 o'clock this morning the tug *A. B. Ward* exploded her boiler, killing three of her crew of five persons—Capt. E. S. Butler, Mike McDonald, fireman and Ole Osen, engineer. The immense boiler was fired like a bullet into the boat house under the north end of Clark Street bridge, near which point in the river the explosion took place. Two bodies have not yet been recovered. The tug sank out of sight.

**Dead.**

GRIGGSVILLE, Ills., 20.—Captain Samuel Rider, one of the oldest and most widely known of Western men who has been master of vessels on the Illinois, Missouri, Red, and Mississippi Rivers, died here this evening after a lingering illness. He acquired considerable reputation during the war as commander of the great steamboat *Empress* on the Lower Mississippi trade, and is known in Illinois as the commander of the first boat that ever ascended the Illinois River, the *Tamaleon*.

### FOREIGN.

**Political.**

LONDON, 20.—A Berlin correspondent says: It is said that the Ultramontane leaders lately received instructions from home to support the government as much as possible, but particularly in its financial policy. Catholic journals are consequently beginning to recommend their leaders to support the Conservatives in districts where the Ultramontanes have but little chance. It appears from the quiet preparations the Socialists have been making, that they, although unlikely to return more than six members to the Reichstag, will muster sufficient strength to necessitate a number of second ballots, and failing to elect their own candidates, will be more disposed to support the conservatives than the liberals, as the former are willing to vote for Bismarck's semi-socialist ideas.

**Unpopular Forster.**

In the Commons last night during the debate on the vote for the salary for the Chief Secretary for Ireland, Parnell said he thought Forster was more detested by a large body of the Irish people than any of his predecessors on account of the mode in which he administered not only the coercion act but the general law of the country. With regard to the future he said if the land bill brought about a substantial abatement of rent, the Irish people, he though, would make the best of it and would regard it as an instrument for the attainment of complete land reform.

In the House of Commons, to-day, Parnell, in calling attention to the arrest of Michael Davitt and moving for his release from imprisonment, said it was currently believed Davitt was arrested because he called Forster Mr. Outrage Forster in a speech. Parnell said it was the meanest and most contemptible act ever committed by any government.

**Our Gold Still Coming.**

A Paris correspondent says: No large movements in gold are reported, some small sums being sent to Austria for the purchase of grain. The Bank of France is again restricting its issue of Napoleons, which command 1 per cent. premium. French houses are said to be buying gold in London and Amsterdam, for shipment to the United States, but it is not sent direct hence.

**Zulus.**

Dispatches from Durban state that Zululand is still very unsettled.

**Kingdom of the Rhine.**

BADEN, 20.—It is said a scheme has been submitted to the German Government, providing that Alsace be united with Baden, and in conjunction with that grand duchy be erected into the new kingdom of the Rhine, Loraine to be united with a Prussian province, Rhineland, and become a part of the kingdom of Prussia. The Grand Duke of Baden expects to be the first sovereign of the new kingdom.

**Brigandage.**

CONSTANTINOPLE, 20.—Telegrams received here from the consuls at Janina state the British member of the Dalmatien Convention was attacked by brigands near the frontier of Epirus, and after a sharp encounter, in which the commander of the Turkish escort was killed, the brigands were driven off.

**An Avalanche.**

GENEVA, 20.—A Dutch gentleman and two ladies of his family were killed in a land slide on the road to Tete Noir.

**More Trouble.**

PARIS, 20.—A dispatch received here announces the outbreak of fresh troubles at Suss. Four Europeans were reported killed and her Majesty's ship *Monarch* sent a detachment of marines ashore to protect Europeans.

### BRIEF TELEGRAMS.

Theodore Thomas' six weeks of concert in Chicago, closed on the 20th, netting him over $20,000.

The business portion of Irvin, Ky., is burned. Loss, $60,000 to $75,000; small insurance.

The *World* yesterday morning appeared in a new dress and with a new head, apparently copying after the *Herald*.

An aged negro woman, Betsy Stokes, was killed, and a little negro boy crippled at Princeton, Ky., last night, by a stroke of lightning.

A Vienna dispatch says: Excessive rains the last few days damaged the harvest in many districts of Lalbach, and Covinthia is entirely destroyed.

### Christian Drummers.

One of the travelers for a New York dry goods house, says an exchange, recently arrived in an interior state to find that one of his best customers was about to transfer his business to a Boston firm."

"Didn't we always do well by you?" asked the New Yorker as he sat down for an explanation.

"Yes, I believe so."

"Didn't we ship goods to you promptly?"

"Yes."

"And did we ever press you an inch?"

"No, I can't say that you did."

"We can't understand why you should leave our house all of a sudden, after buying of us for several years."

"I should make some explanation, and I will make one," replied the merchant. "You know that I attend church?"

"Yes, and so do I."

"Do you? I don't know that. I am looked upon as a Christian."

"So am I. I have got the date of my baptism right here in my notebook."

"Is that so. Well, our church is in need of repairs. We were talking it over the day when the Boston drummer was in here, and beat once subscribed $10.

"Ten dollars! Why that's only two kegs of nails! Put me down $30 cash, a new silk hat and a new suit of clothes for the minister."

"Do you mean it?"

"Of course I do, and if that two-cent Christian from Boston dares give another $5, I'll send you down a $600 church organ and a $500 man to play on it. We are a house that never makes any great display of gospel hymns and religious tracts, but when a Boston drummer bluffs, we show our religious hand, and scoop in the pot every time."

The merchant still continues to deal with the New York firm.

### Telephoning to Heaven.

A mother living not very far from the post-office in this city, tired with watching over a sick baby, came down stairs for a moment the other day for a few seconds rest. She heard the voice of her little four-year old girl in the hall by herself, and, curious to know to whom she was talking, stopped a moment at the half-open door. She saw that the little thing had pulled a chair up in front of the telephone, and stood upon it, with the piece pressed against the side of her head. The earnestness of the child showed that she was in no playful mood, and this was the conversation the mother heard while the tears stood thick in her eyes, the little one carrying on both sides as if she were repeating the answers:

"Hello!"

"Well, who's there?"

"Is God there?"

"Yes."

"Tell Jesus I want to speak to him."

"Well?"

"Is that you, Jesus?"

"Yes. What is it?"

"Our baby is sick, and we want you to let it get well. Won't you, now?"

No answer, and statement and question again repeated, finally answered by a "Yes."

The little one put the ear piece back on its hook, clambered down from her chair, and with a radiant face went for mother, who caught her in her arms.

The baby whose life had been despaired of began to mend that day and got well.—*Elmira Free Press.*
