DR. PRICE'S FLAVORINGS are rapidly growing in the popular favor, as it is becoming known that they are produced by extraction from the fruit carefully selected, not made up with chemical poisons.

Each flavor is from the true fruit and aromatic, free from poisonous oils and strong, rank tastes. They are natural flavors, obtained by a new process, which gives the most delicate and grateful taste.

They are of great strength, and both contain half more than those purporting to give the same quantity. We conscientiously commend Dr. Price's flavors as being all that they are represented.

TO LOVERS of good biscuits, rolls, pastry, etc., we can cheerfully recommend DOOLEY'S YEAST POWDER as being not only reliable, convenient to use, but the cheapest in the end, of any Baking Powder offered to the public. THE EVENING NEWS.

Thursday, Nov. 13, 1874.

Thermometer 57 degrees F. in the shade, at 1 p.m. to-day. Some clouds.

LOCAL AND OTHER MATTERS.

There is a dispatch at the Western Union Telegraph Office for Mrs. John Clowes.

Got Struck.—We are informed that a young man who formerly worked at Mark McKimmon's livery stable got somewhat of a pounding last night, but says he doesn't know who did it.

Retaliated.—Last night G. Levy and R. Condy were arrested on account of a little unpleasantness between the two. It appears that the first insulted the second, whereat the second was sorely indignant and retaliated by striking the head of the first.

Arrived at St. George.—By dispatch from St. George we learn that President Young and party arrived there at one o'clock yesterday. The President's health was rapidly improving, and the other members of the company were all well.

More Iron.—The Great Western Iron, Mining and Manufacturing Company have ordered a hundred tons more of their iron to be delivered in this city; five tons of it have already arrived at Provo, and will probably be here to-day or to-morrow. It is considered by many judges as good as any produced in the United States.

Theatre.—The Fourteenth Infantry Combination Troupe, from Camp Douglas, will appear in the Theatre to-morrow evening, in the drama of the "Robber's Wife" and "Michael Erle." The Troupe will be assisted by Miss Jean Clara Walters, Miss Carrie Cogswell, and Mrs. Belle Douglas. The Fourteenth Infantry band will furnish the Orchestra music. In both the band and the Troupe there is considerable ability. A creditable performance and an interesting time may be expected.

Delegate Cannon Arrested Again.—While Hon. George Q. Cannon was in the Third District Court this morning for the purpose of having the time fixed for his trial on the indictment for lascivious cohabitation (with his own wives) he discovered that there was another warrant for his arrest, on an indictment found against him by the grand jury for polygamy. The bonds in this latter case were fixed at \$5,000, for which Honorable W. H. Hooper and William Jennings became sureties.

It is understood that both indictments were found about the same time, but for some unexplained reason, the one on which he gave bonds to-day has been withheld until now.

A Young Burglar.—Mr. Henry Wallace, confectioner, had occasion to visit his store, Kimball Block, on Sunday, when, to his surprise, he found a deaf and dumb lad, named Joseph Barnard, kneeling behind the counter. The young fellow had been exerting himself to open the till, but his efforts were unsuccessful, owing to it having a patent lock.

An examination of the premises showed that Barnard had gained access by the back window of the bake-house, from which latter he emerged into the store above, through a trap door.

Barnard was arrested yesterday, and is now in jail. He is an old offender.

Illegal Voting.—Parties are being punished in the District Court, for alleged illegal voting, because they voted at the late election under the impression that they were citizens of the United States, having declared their intentions, many years ago, of becoming citizens, and subsequently receiving full papers of citizenship from the Probate Courts, which then claimed the right to naturalize aliens. Now there are men, who ought to know that, are of the opinion that the Poland bill, in its validating clause, relating to the Probate Courts, covered the action of those courts in the matter of naturalization as well as other points. Here it is:

"All judgments and decrees heretofore rendered by the Probate Courts, which have been executed, and the time to appeal from which has expired, are hereby validated and confirmed."

There appears to be no reason for the exclusion of the naturalization judgment or decree from this validating clause, and at all events, as justly admitted by his honor Judge McKean, the greatest leniency should, at the very least, be extended in such cases, although we are not willing to admit that they should be punished at all, in view of the Poland bill validating clause. Those parties who declared their intentions in the Probate Courts did so in good faith, and when they obtained their final papers they did so in good faith, firmly believing that they had thus become bona fide citizens of the United States, and therefore, even leaving the validating clause of the Poland bill out of consideration, viewing the matter as if it did not exist, they were virtually if not actually citizens of the United States, for even if the papers could not be considered legal, which we do not, however, admit, they were not personally at fault, having, according to the best of their knowledge and belief, fulfilled the naturalization law.

While on this subject we may say that the illegal voting business ought to be a tender subject with some Federal officials that we met of.

Utah County Times, Nov. 10.

Dr. R. M. Rogers, of this city, returned a day or two ago from a trip to Fountain Green, Sanpete County, where he was called by dispatch to attend to the case of a man who had been shot by the name of Lagon, who had emigrated to Utah. The accident which resulted in the amputation of the leg, occurred as follows: The man had been seen out with his gun, and on returning put the gun, which was loaded with a heavy charge of shot, in a crack of the log house and when Huntington went to get the gun, he foolishly, pulled it through with the muzzle towards him, and the hammer, coming in contact with a log of the house, caused the gun to discharge the contents into his right leg, just below the knee, literally shattering the bone, the shot taking a downward course after striking the leg, and the Doctor arrived at the residence of the young man, he decided that nothing but amputation would save him. He accordingly took the leg off at the knee joint, and the Doctor is confident that the young man will recover.

The Times speaks of telegrams that the garrison of Irwin in their sortie, burned houses and farm buildings belonging to the Carlists, and that some Carlists, on the 10th, had taken them a shelter. The havoc thus created was immense, all the country round was in flames.

The New York correspondent at Madrid telegraphs that the story that Don Carlos was in Hendaye originated in an alleged telegram from the Spanish consul at Bayonne, and that the Carlists, on the 10th, had taken them a shelter. The havoc thus created was immense, all the country round was in flames.
