## TRUANT AND INCORRIGIBLE

Number of Youngsters Arrested for Truancy and Disturbing the Peace of Schools.

Fatal Accident at Green River—Victim a Resident of Manti—Wedding Held—S. P. Cut Off.

During the past few weeks a number of boys have been disturbing the peace of the schools, and playing truant, and the superintendent has come to the conclusion that if the parents of such boys cannot keep them under control and make them behave themselves the officers of the law must take the matter in hand and see what can be done. With this idea in view, Superintendent Allison swore out a complaint charging the following boys with incorrigibility and truancy: Joseph Whitaker, Samuel Royce, Roy Wheelwright and Joseph Harpup. The boys were arrested before the sheriff's office and given a good talking to, but they all seemed to be so hardened that little or no impression could be made upon them. Hence the officers have decided to give them a chance before Judge Rolapp, and some of them or perhaps all of them may be sent to the reform school. One or two of the boys have been before him before, and were permitted to go upon their promising to reform.

## FATAL ACCIDENT.

A fatal accident occurred at Killebrew, Green River, Wyoming, on Tuesday last. A young man named Staker, from Bannette, Utah, was driving a team and wagon along at a good speed when the wagon reached a rough crossing, throwing the man to the ground, crushing in his skull and bruising his body considerably. It was not thought that his wounds were fatal, and he was taken to Ravins and placed on the west side of the river, but before the young man reached Ogden he died, and was taken off the train at Ogden. His father, who had been notified, came here and had the remains prepared and taken to Manti for burial. The young man is a grandson of John Staker, of Wilson's Lane, this county, and is very much respected in the community where he resided.

## THE S. P. CUT OFF.

Chief Engineer Griffith of the Southern Pacific and about twenty men have come to Ogden and set their stakes for a short time. The engineer is in the purpose of completing the work of the survey of the lake cut-off. The work has been completed except a few miles near Ogden and from the present junction of the chief engineer's cut-off will connect with the old line at about twenty rods north of Ogden river. The company want to make the line as near straight as it is possible, and not destroy too much good farming land. When a complete survey is made the directors and managers of the company will in all probability advertise for contracts for the construction of the road, which will mean much for Ogden.

## LICENSED TO WED.

Marriage licenses were issued to Joseph S. Jenkins, 25, of Wilson, and Miss Annie M. Hess, 25, of Ogden; Lewis Brown, 18, of Ogden, and Miss Annie Amidan, 18, of Marriott. The last named couple were married by Judge Breeden.

Steps are being taken to cut down the corporate limits of the town but there is some opposition to the lines suggested for the boundary.

Hon. James T. Hammond and Hon. Geo. A. Smith spoke to a large meeting of the citizens Saturday at 2 p. m. Both the gentlemen discussed the principles of the Republican party in a masterly manner, without running down the opposite party.

ADVENT OF THE SALOON.

To the regret of a number of the good people of our place a saloon has been opened up in our town. A meeting of indignation and protest was held last night, and a petition is being circulated prohibiting such a thing. This is the first time in our history that a saloon has made its appearance in our midst.

The farmers are all busy preparing the soil for the crops they expect to raise and harvest. The health of the people is good and general prosperity reigns.

A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stand, and he was confined to a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which affected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at Z. C. M. I. Drug Dept.

MALAD, IDAHO.

Board of Health Would Force Vaccination—Other Notes.

Special Correspondence.

Malad City, Idaho, March 12.—Some time since, the board of health ordered and required the vaccination of all the inhabitants in Oneida county, whenever in their opinion the public health demanded it, the vaccination of all persons, who do not furnish satisfactory evidence that they have been successfully vaccinated or re-vaccinated within five years, "and the interment of persons dying from smallpox shall take place within six hours after death."

A new set of city officials have been nominated.

There have been quite a number of marriages in Malad this winter, yet there are some folks preparing to unite the matrimonial knot at the next term of court.

The program for the Relief Society Dime Day is excellent. This year the Elks-Edwards was held in the "Mormon" tabernacle, where there was plenty of room, and the affair was a grand success.

An Important Test.

Your Life May be Prolonged by Applying it.

Do you realize the importance of the Kidney and Bladder? When diseased they make a lot of trouble—tear down the system and create gravel (stone in the bladder). Women often suffer from so-called "female weakness," when their trouble really lies with the Kidneys and Bladder. Try this test. Put some urine in a tumbler. Let it stand twenty-four hours. If there is a sediment, a cloudy or milky appearance, your Kidneys are sick. If you are obliged to urinate often, especially during the night; if your urine stains linen, if you have aching pains in passing it, if your back pains you, your Bladder and Kidneys are diseased; you should at once take the greatest of all Kidney medicines, Dr. D. W. Kennedy's Favorite Remedy. It has cured the most distressing cases; it will cure you.

It corrects the bad effects of beer or whisky, will cure old and chronic cases of Rheumatism and Diarrhea and acts gently yet promptly on the Bowels. Favorite Remedy is sold for one dollar a bottle at all drug stores.

You may have a trial bottle of Favorite Remedy by sending a pamphlet to the Dr. D. W. Kennedy Corporation, Rondout, N. Y., and mentioning this paper. The proprietors of this paper guarantee the genuineness of this liberal offer.

all that could be desired. The roads are dry, farming and gardening will begin at once if the weather continues fine.

DISTRESSING ACCIDENT.

Russell Homer, son of ex-Sheriff W. H. Homer, broke his right thigh about two months ago. Russell was just beginning to recover from the accident when one day last week his father was assisting him into the buggy, in which they were going to take a ride, when he sprang to say with but little cause he broke his other thigh.

Eugene Harris has been quite sick for the past ten days, but is much better now.

Miss Nellie Thomas of Oxford and George Boyce of Cottonwood valley, will be married in the Logan temple on Wednesday.

The majority of the people have enjoyed good health here through the past winter. The different ward organizations are in good running order.

ROCKY MOUNTAIN TREES FOR THE ARID PLAINS.

The division of forestry of the department of agriculture has decided to investigate early next summer the extreme eastern distribution of the Rocky Mountain trees. The information will be for the benefit of tree planters on the western plains, for the success of planting in these regions must largely depend upon introducing the trees which are naturally adapted to them.

Heretofore a large proportion of the trees planted upon the plains have been eastern species, the effort of planters to introduce western species has been slow and unsatisfactory. There is reason to believe that a number of Rocky Mountain trees, accustomed to an arid environment, will be apt to succeed better in the more western plains region, than the eastern species. This is particularly true of trees which grow naturally on lower elevations and which follow the streams for some distance into the plains.

This work will be done largely by collaborators of the division who are familiar with the region. To each will be assigned a certain area in which, following the trees eastward, he will study their habits of growth in varying situations.
