below normal. Accumulated deficiency of tempera-ture since first of month, 13 deg. Accumulated deficiency of tempera-ture since January 1st, 73 deg. Total precipitation from 6 a. m. to 6

a. m., 0 inch.

Accumulated deficiency of precipitation since first of month, .05 inch. Accumulated excess of precipitation since January 1st, 2.32 inches.

FORECAST TILL 6 P. M. SATURDAY. Local forecast for Salt Lake City and

vicinity: Probably light snow tonight; Satur-

day fair, colder. Forecast made at San Francisco, for

Utah Fair and colder tonight and Saturday.

WEATHER CONDITIONS.

The north Pacific coast storm is now central over British Columbia. The creat of the "high" apparently lies over the Ohio valley. Precipitation has fallen along the coast north of San Francisco, over Idaho, New Mexico, Oklahoma and Texas, It is warmer over the great Basin and the middle Rocky Mountain slope; elsewhere temperature changes have been slight.

L. H. MURDOCH, Section Director,

By January 1, 1900, the DESERET NEWS hopes to be able to record that the Semi-Weekly Edition has reached the 15,000 That figure can undoubtedly be mark. attained if our agents will work with the same will between now and Jan. 1 that they have done in the past ten months. We sincerely thank all our representatives for their previous hearty endeavors, and trust they will do all in their power to help us reach the 15,000 goal by the NEW YEAR

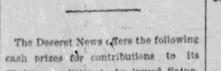

IBLISHED THESDAY'S AND FRIDAY'S

Christmas edition to be issued Saturday, December 23, 1899;

First, \$50, for the best Christmas story, not to expeed 8,500 words, (about seven columns of the News type.)

Second, \$25 for the best Christmas poem, not to exceed 1,200 words.

Third, \$25 for the best article on "UTAH'S UNDEVELOPED RE-SOURCES," not to exceed 5,000 words (about four columns of the News type.) All contributions to be in the News office by December 10th, 1899. Nothing received later than that date will be considered. Contestants are requested to sign their articles with an initial or nom de plume to conceal their identity and to forward in a separate envelope, securely sealed, their real names and the initial or nom de plume appended to their articles. All members of the News staff will be excluded from the contest. The awards will be made by three competent judges, to be announced later, and their decision will

WOMAN'S WORK FOR WOMEN Dr. Roberts Renews Her Volunteer Services of Last Year.

be final.

One of the chief points scored by Mrs. Charlotte Perkins Stetson in her recent lecture here was the noticeable and absurd discrepancy between the careful training considered necessary to fit the average individual for a trade, profession or art, and the lack of any such method and preparation as are deemed requisite for ordinary occupations, in that most important of all vocations-motherhood. It was pointed out that this vocation or sphere, which involves the rearing and training of human souls, stands as an isolated in-stance in which no previous preparation or training is necessary to fit one for the important work pertaining to the sphere of motherhood, and that to this laxity, indifference and pitiful carelessness is due a majority of the spirit-ual, moral, mental and physical allments and harmful abnormalties which are witnessed in the human race and in human life around us today. The truth of the point scored cannot be gainsaid, and the logic of the inference that careful and scientific training should be as much and more a qualifi-cation of motherhood, than it is of any other branch in the economy of human life, must be certainly evident from a thoughtful consideration of the subject.

LOCAL TEST PUBLIC HEALTH IS SOUCHT FOR. A BIG SUCCESS Ladies of the Literary Club Before Silver Bros. Apply Hemingway Process to Iron County Coal. the Board of Education.

Drs. Beatty, Bascom and Keogh Also Give Their Views-Scarletina and Scarlet Fever the same.

The meeting of the board of education last night was more animated than is customary in the sessions of that body, the cause thereof being the presence of Mrs. J. C. Elliott King, Mrs. Igleheart, Mrs. Jennings and Mrs. Osmond of the Ladies' Literary club, Drs. Bascom and Beatty of the State board of health, and Dr. Keogh of the city board of health. These ladies and sentlemen had come by invitation of the board to discuss with them means in the way of preventing the spread of contagious discases in the schools.

SUBJECT INTRODUCED. Mrs. King introduced the subject by explaining the methods used in the Chi-cago schools, by special medical school inspectors, and she thought it would be a good thing to have inspectors for the Salt Lake schools if sufficient means were at the disposal of the board.

DR. KEOGH'S DISCOVERY. Dr. Keogh said that in visiting one of

schools he found two cups chained to the faucet, and that the cups were never cleaned. At another school there were three towels used by two hundred children. He thought each child should have his own pencils, books, paper and other things, and that these ar. per and other things, and that these ar-ticles should be cleansed every night by some disinfectant, and the rooms fumigated each night. It was his opin-lon that it would be too expensive to have inspectors to examine all the children in search of disease. The teachers could do much in this respect, as could also the persons. as could also the parents

MOTHERS AND TEACHERS. Mrs. Jennings said that teachers and mothers for the most part could not de-tect disease in its early stages. She She suggested sending out circulars, setting orth in plain language the symptoms of all children's diseases

POPULAR MISTAKES. Dr. Beatty said the State board of

health intended sending out bulletins as suggested by Mrs. Jennings. Im-proper quarantine, he thought, was responsible for much of the trouble was true also, that diseases in mild form were the most dangerous, and hardest to combat. Scarletina is but the medical term for scarlet fever, and yet many people think that scarletina is comparatively harmless. A fatal dis-ease in one child is often contracted from a mild form of the same disease in another.

AGAINST PAID INSPECTORS.

Dr. Beatty did not think paid inspectors practicable. The should inspect the children, and when a child is out a day for sickness the parents should furnish a statement. There are people in Salt Lake, he said, who do not believe in disease. It is "mortal mind" that carries off the children. These people evade the quarlaw. They should be investi-The floors of the school buildantine law. gated. ings should be frequently and thoroughly scrubbed to kill the disease

DESERET EVENING NEWS: FRIDAY, DECEMBER 8, 1899.

TELL WHAT SHOULD BE DONE | ELATED WITH THE SUCCESS

Brigham Young, Charles Kraft, Col. Milner, the Walker Bros. and Others in Attendance.

There was a severe test put upon the Iron county coal by the Hemingway process yesterday afternoon at Silver Bros,' foundry, and it was again demonstrated that that product can be succersfully coked, and that one more great industry that is destined to help make this one of the richest States in the world, is on the eve of awakening. Brigham Young and C. H. Kraft, as was announced in the "News," returned from Chlcago some time ago. and ever since they have been awaiting an opportunity to show the people of Utah that their experiments in the East have swept away the only barrier that

has stood in the way of the development of the great coal deposits in Utah, and that now may be launched one of the greatest industries in the United States.

Although it was known that vast deposits of coal existed in Southern Utah, it was supposed to be valueless, so far as its uses for smelting purposes were concerned. Many attempts to coke the coal in the usual way were made, but they were unsuccessful. Messrs. Kraft and Young were confident that the diff-culty could be overcome, and hundreds of dollars were spent in making experiments.

They met with failure, every time, until at their own expense, they shipped to Chicago a carlond of coal and a large quantity of iron ore, taken from near Cedar City. The coal was taken to the Hemingway ovens, in South Chicago, which are owned by the Leiters, and after a number of tests, it was clearly proved that the Iron county coal can be successfully coked. It was used in the reduction of the ore and in the smelting of iron with satisfactory re-

THE HOME TEST.

sults.

Some of the product was shipped back to Utah and yesterday afternoon it was subjected to another test in the melting of iron ore. A cupola charged with 150 pounds of coal as a bed, on which a charge of 200 pounds of iron and then a charge of 50 pounds of doke was placed, continuing in this way until a cast of 1,500 pounds was run off. About twenty minutes after the blowers were turned on, the moulten iron was run off into moulds and converted into castings, SILVER BROS, SATISFIED.

Joseph A. and Hyrum A. Silver conducted the test, and they said they were perfectly satisfied with the result. They stated the coke was freer from sulphur than the Pitsburg product, which is used at the foundry

plans, giving authority to Nathan Strauss to build the statue if he desired. If the statue goes to Paris it will there-fore be exhibited as the product of Colorado, for, as a matter of fact, it is reported Mr. Strauss has taken pains to see that Colorado gold was used. Ac-cording to the report circulated yester-day the statue was east hat week by day, the statue was east last week by the Henri-Bonnard Bronze company in the Henri-Bonnard Broaze company in New York, upon the order of the New York banker, and it contains several hundred thousand dollars worth of gold. The Paris board will probably meet some day this week, and it is said it will then give ont a surprise in the shape of the general facts herewith related.

INDIANS CELEBRATE.

Assisted by Jamaica Ginger and Essence of Lemon, Become Dangerous,

For several days a number of Indians have had their wicklups pltched near the corner of Fifth West and North Temple streets, and all has been well until last night. A telephone message to police headquarters conveyed the hair raising intelligence that the redskins were on the war path and indulg-ing in a horrible revel. The fact of the matter is, Chief Rain in the Face thought it was about time to mark their advent into Salt Lake by a celebratio and procuring some Jamaica ginger and essence of lemon proceeded to have a gay time. The Indians did no damage beyond disturbing the peace and quie of the people, who were in hearing dis-tance, by uttering flerce and blood curdling war whoops.

INFORMATION WANTED.

Mrs. Martha Wimmer Henderson would be pleased to hear from the children of her brothers, John and Robert W. Wimmer. Also from her sister's family, if any are living. The sister's name, when she emigrated to Utah, was Jennie Poweli, and both she and her brothers were among the first to emigrate from Western Iowa. The old lady who lives at Moorhead, Mon-ona county, Iowa, has heard nothing from any of these for a number of years and is extremely anxious to

learn of their whereabouts. SALT LAKE STAKE CONFERENCE.

The quarterly confernce of this Stake will convene in the Assembly Hall, Salt Lake City, on Saturday, December 9th, 1899, at 10 a. m. and 2 p. m.; also at 10 a. m. Sunday, the 10th, and in the

Tabernacle at 2 p. m. Officers and members of the Stake will please govern themselves accordingly

No ward meetings will be held in the evening in the city wards on account of an evening session of Young Men's M. L. A. Conference.

Your brethren, ANGUS M. CANNON, JOSEPH E. TAYLOR, CHAS, W. PENROSE,

Presidency of Stake.

SALT LAKE TEMPLE

The Salt Lake Temple will close on Friday, Dec. 23rd, 1899, and reopen on Tuesday, Jan. 2nd, 1900. LORENZO SNOW, President.

LOCAL BRIEFS.

A contagious disease ward has been established at St. Mark's hospital.

Secretary Hammond has made a call on all the corporate and private banks in the State to report their financial condition at the close of business on Dec. 2.

The funeral over the remains of Leigh R. Brown were held from the residence of his sister. Mrs. F. W. Scarff, 870 Second street, at 2 o'clock this afternoon.

President G. W. Megeath of the Rock Springs Coal company, quoted as being of the opinion that the price of coal will before the season is over. He says that laborers are hard to get.

Architect Nebausen is working on the plans of a new \$4,000 residence on Tweifth East and First South streets. The house will be built of brick and stone, with eight rooms, and all the modern improvements.

Bernard Plaut of the firm of Plaut & Well, died yesterday at his residence, 1059 First street, of lung trouble, after an lliness of several weeks. Plaut was 38 years old and a native of Cincinnati. He leaves a wife and two children. The remains will be shipped to Cincinnati for burial

Leadville Herald-Democrat: Next Monday evening the Woodmen will en-tertain in honor of John Menkin of Salt Lake City, who has charge of the or-canization work of the jurisdiction. He will be here Monday and Tuesday and will deliver his lectures on "Progress and Fraternity."

The meeting of the Microscopical so-clety in the University building last night was very interesting. Frofessor R. H. Bradford delivered a lecture on "The Microscope in Mineralogy," which was listened to with close interest. Dr. Talmage took several photographs through a microscope magnifying a spi-der's foot to the size of a mrc's hand. The election of officers was postponed until the next meeting, the second Thursday in January.

Dr. D. Moore Lindsay yesterday after. noon performed a very critical opera-tion upon little Don Leon Lenzi, the 9-year-old son of Mrs. John A. Lenzi, of 753 east Third South street. The opera-tion involved the cutting of an operture through the best work behind one of through the boy's neck behind one of the ears, in order to open an abscess that had formed there as the result of an attack of scarlet fever. It is thought now that the lad will recover rapidly.

efficient method could be devised than to establish classes in which the important elements of the subject should be thoroughly taught, thereby giving the many novices an opportunity to equip themselves efficiently for the patent responsibilities that full to the majority of women in this life.

With a view to carrying out this scheme Dr. Margaret Roberts under the auspices of the Relief society has generously volunteered to teach a free class on this subject during the winter so that all who are alive to the oppor tunity and duty of such instruction may not be debarred the privilege through lack of means.

The lectures will be given in the lecture hall in the Templeton block, commencing tomorrow at 3 e'clock and continuing through the winter. All those who may be desirous of attending them may do so by applying to Dr. Roberts. The opportunity is an exceptiona one and all should appreciate the privilege it bestows and avail themselves of the advantages which the offer places at their convenience. Dr. Roberts taught a similar class

last year and the subjects included in last year's series of lectures will be covered in this with the addition special topics, in the way of sugges-tions and lessons in practical house-keeping, cookery and kindred subjects. The enterprise is most laudable, and more especially so, since it is doubtless the forerunner of institutions which the State will undoubtedly establish for the benefit of its communities when the agitation which is now going on in re-gard to this and like vital questions shall be soberly considered and acted upon.

annununununununun anb

POLICE POINTERS.

monummun Charles Schewed, the little wildeyed German who has a manla for

locking himself in a room and demolishing everything breakable, will be sent to the county infirmary. The police and city physician, Keogh, agree that the city jail is no place for Schewed. Dr. Keogh examined him today and arrived at the conclusion that he should be taken either to the infirmary or to the asylum at Provo.

The friends of Bob Smith, who was sent up for five days for getting in-toxicated too frequently, came to his rescue today and paid his fine. A po-sition has been secured for him, and it, is hoped by the officers that "Bob" will keep himself straight in the future.

Night Watchman Curry observed a man last night prowling around the yard of the Co-op, Wagon & Machine company. "I want a drink," said the company. "I want a drink," said the fellow. "I wasn't doin' nothin' to no. body, no siree." He gave his name as John Barrow, and was booked for trespass.

. . . Several forlorn looking individuals crept up to Jailor Kimball last night and asked for entertainment for the They were given berths in the night. portion of the jail over which Frank Dooly presides.

PLAYED OUT.

PLAYED OUT. Duil Headache, Pains in various parts of the body, Sinking at the pit of the stemach. Loss of appetite. Fever-lahness, Pimples or Sores are all posi-tive evidences of impure blood. No matter how it became so it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure Scorofileus or Symbilitic poisons to cure Scrofulous or Syphilitic poisons or any other blood discases. It is cer-tainly a wonderful remedy, and we sell every bottle on a positive guarantee. Z. C. M. I. Drug Dept.

There was quite a raid on the New York Stock Market today. Many of the stocks showing declines of 3 to 5 points. Stocks bought now will show a good profit. B. H. Lawver & Co., 411 Auerbach building.

germs. DR. BASCOM TALKS.

Dr. Bascom endorsed the idea of medical pamphlets to educate the teachers and parents. He also suggested that when a child was out two days because of sickness he should furnish a physician's certificate before being admitted back to school. WATER AND SOAP ARE CHEAP.

Mrs. Osmond thought that inasmuch as water, soap and scrubbing brushes were so cheap, they should be used oftener. The scrubbing is not so well done now as any good housewife would have it done.

SCHOOLS WILL BE CLOSED. Mr. Bamberger thought that few of

the suggestions made were practical and the subject belonged more properly to the city and the board of health rather than the school board. Scrub-bing was a good idea-the buildings would be thoroughly scrubbed and renovated during the holidays. REFERRED TO A COMMITTEE.

Various ideas were brought forward on the subject, by Mr. Newman, Mrs. Igleheart, Mr. Wilson and Dr. Beatty, the latter calling the attention of the board to the act of the last Legislature providing for the inspection of al school buildings by the board of health The whole matter was referred to the committee on teachers and school work also the buildings and grounds commit. tee, with power to act.

Coke containing support objectionable, because the sul-phur is absorbed by the iron, the lose its textlie causing it to lose its textile strength, becoming too brittle for genits textile eral use. A casting was cut into two parts, showing the metal to be open grain and soft, which was one proof that the coke contained comparatively

no sulphur. WITNESSES OF THE TEST.

The test was witnessed by Colonel S. B. Milner, George W. Smail, Ben Hampb. Janner, George W. Shina, Den Hang, J. R. Walker, Joseph A. Silver, Hyrum Sil-ver, W. J. Silver, J. R. Walker Jr., S. V. Shelp, Colonel A. C. Eilis, R. B. Dear, B. S. Young, A. S. Lerca and a free others. few others.

EXPERT METALLURGISTS. Messrs. Dear and Lerch are skilled metallurgists and having had years of experience in the Lake Superior iron mines. Both the gentlemen were highly pleased with the result of the test, and expressed the opinion that there was nothing standing in the way of the building up of an immense iron in-dustry in this State. These gentlemen are associated with Colonel Milner in twenty-one claims in the Piute district. and have made minute examination of the ground. In many respects, they

say, the ore is superior in quality to the Lake Superior product. Mr. W. J. Silver, who has the distinc-tion of being the first man in Utah to establish an Iron foundry, was as highly pleased over the developments as any He built the first steam engine manu-

factured in Utah, and many years ago built the first pumps used in the On-tario mine, out of Iron county product, which he affirms is much better than that coming from Pennsylvania.

HOGLE FILES AN ANSWER.

Denies the Allegations Made by His Wife.

Owen Hogle, the well known saloon man, who was some time ago made defendant by his wife, Jessie L. Hogle, in a suit for separate maintenance, has filed an answer denying the material allegations of plaintiff's complaint. Mr. Hogle denies that he has neglected

his wife since May, 1898, and denies that he ever deserted her. In May, 1895, he says he paid Mrs, Hogle a sufficient sum of money to make her gomfortable for life. He further al-leges that he gave her the money with the distinct understanding there is more leges that he gave her the money with the distinct understanding that it was to quiet all claims she might have against him. Defendant denies that he is worth \$50,000 or any sum larger than \$25,000; denies Mrs. Hogle's plea of poor health and poverty and says her physical condition is good and that she is possessed of a large amount of prop-erty. Hogle prays that his wife's ac-tion against him be dismissed.

GOLDEN GIRL STILL LIVES.

Mand Adams Said to Hzve Been Cast for Paris Exposition.

On the authority of a member of the Paris exposition commission appointed by Governor Thomas, the efforts to squeich that body made by United States Commissioner Fred Peck will fail, says the Denver News. It was stated yesterday that the recent offer of Nathan Strauss of New York to build the famous golden girl had borne fruit, and that the much-talked of American beauty had really been cast within the last ten days in New York city. It has been rumored for some time that the French government had consented to furnish space for the Colorado exhibit outside of the regular United States concession, provided the golden statue were made as planned. The Paris com-missioners, since Commissioner Peck visited Denver, have carefully avoided publicity, and it is now learned that they have been going ahead with their the 22nd of December, 1999, 10th of January, 1900. JOHN D. T. MCALLISTER, Presider President.
