Indian to Lecture—James W. La-blanche, a Sloux Indian graduate of the Oregon Indian school and the fed-eral institution at Carlisle, is here from Umatilia, Or., to lecture on the status of the Indian. He holds-that status of the indian. He holds-that one great factor in the failure to properly manage the red man is the administration of his affairs by white men at Washington. He would put an educated and trained Indian in office as commissioner of Indian affairs. Then there will be some show to do something with them.

"In what particular," is asked by thinking citizens, "has the police de-partment been improved by the re-moval of Capt. Burbidge and many competent officers? Has there been more harmony and less crime? And, is it not a fact that the police depart-ment is in worse condition today than it has been in a score of years, in spite of the fact that Tom Pitt is doing all he can to combat the baleful influence of the inner circle? Have conditions been improved in the police depart-ment by the removal of Capt. Burbidge and other officers? As to the fire department: Bywater was removed "for the good of the ser-vice," and Vall was appointed by the same gang. Now Vall has been kick-ed out "for the good of the service," and with him his assistant, Byron Crosby, thus leaving the department without a regularly appointed head, and all this for "the good of the ser-vice." What is the result?

and all this for "the good of the ser-vice." What is the result? Efficiency does not exist in either the police or fire departments. The men are in constant fear that their heads will fail into the basket and for that reason they do not take the inter-est in their work they would if they knew that their positions depended upon merit and not upon their re-ligious standing. Did it benefit the police department to remove Burbidge and a score of men under him? Did it benefit the fire department to remove Bywater, Vail and many com-petent and experienced fire fighters? Did these removals benefit the citizens who pay taxes?

who pay taxes?

No! Who was benefitted by them? The so-called "American" party. Oh yes. "Thank God for the Ameri-can party!"
