Chicago News.

At a civil war or two will render a man happy. A French king, who must be a wretch indeed who will not give up his crown for a disposition to like lighting another man's candle by one's own, which loses none of its brilliancy by what the other gains.

An educational journal advises that there should be a regular physical examination to every school of importance to overlook the physical development of the pupils. The system has already been adopted in Paris, the physicians making regular tours of inspection, being paid for the inspection.

At Goshen, Ind., two boys, Hoefler and Bartholomew, aged about 12, were playing in a flouring mill, when Hoefler was caught by a shaft, making 150 revolutions per minute, which around one arm torn from its socket and his body thrown in feet. Bartholomew was struck by Hoefler's feet while revolving and his face badly crushed.

The Rev. Dr. John recently received a gift which he prizes highly. Some months ago in the course of a sermon he described a piece of Western prairie. Mr. Bierstadt, the artist, had painted Hoefler's feet while revolving and his face badly crushed.

Dr. Hall was the author of the picture he bought to be the owner of it.
