FLORENCE**Sewing Machine!**

In point of labor there is the same difference between thrashing with a flail, or using a Thrashing Machine, that there is between sewing by hand or using a good Sewing Machine.

We have just received a consignment of forty Machines and can now offer an assortment of all the various styles manufactured by the Florence Company.

PARTIES INTENDING TO PURCHASE SHOULD MAKE THEIR SELECTION EARLY.

CHAS. S. HAMMER, General Agent.

The Florence Sewing Machine has no fancy combinations or other complicated attachments; it has no uncertain wire coils or wire levers. Its manufacture is conducted by a thoroughly RESPONSIBLE COMPANY, and in purchasing a machine you need have no fear of ever being unable to purchase needles and other findings. The Florence is the ONLY COMPANY that keeps its machines in repair free of charge, no matter when sold or where. It is our ambition to have every Florence Machine give entire satisfaction.

The Florence lays no claim to cheapness, we aim at perfect finish; every machine goes through the company's adjusting room, and must then pass the Inspector's office, before going out to Agents; the least inaccuracy will condemn it.

They are probably the highest priced Machine in the American market, and being built of HARDENED STEEL by SKILLED WORKMEN, aided by all the appliances that capital can bring to bear, it is offered at a price commensurate with the value of the article, and can be brought into about as honest comparison, with its numerous CAST IRON competitors, as a watch from Jergenson or Jacot may be compared with the Nickel or Oroide offerings of a Chatham Street Mock Auctioneer.

It is a growing knowledge of these facts that has gained favor so steadily for the Florence Machines, and made them the Universal favorites, wherever prejudice is laid aside and honest comparison made.

That very excellent authority the American Institute, New York, awarded the FIRST PREMIUM to the FLORENCE over Thirteen Competitors, and in their report the committee very tersely remarked, "This is better than any of its class known to the Judges."

It may be proper to remark here that the Florence Machine, of the present manufacture is vastly improved, and the first of these Improved Machines ever offered in Utah are those sold at the Branch Office at Salt Lake.

Among the recent purchasers from this office, we beg leave to refer to the following parties:
