

LOCAL AND OTHER MATTERS.

**Lost.**—Yesterday, near the Tabernacle, a shaded gold bracelet, with coral set. Please leave it at this Office.

**"Farmer and Dealer."**—A special edition of the San Francisco Farmer and Dealer, for circulation at the semi-annual Conference of Latter-day Saints at Salt Lake, April 6th, 1880, is received. It is mainly devoted to advertising agricultural machinery, and in its columns we notice the names of the Osborne Manufacturing Co., and H. B. Lawson, Esq.

**"Pinafore" Last Night.**—A full house witnessed the production of "H. M. S. Pinafore" by the juveniles last evening. The acting of little Billy Pratt, as Postswain, was as near perfection as possible, and his song "He is an Englishman" was heartily encored. The part of "Josephine" was well performed by Miss M. Frenze, and Master Nelson as "Admiral" did some very graceful dancing. The choruses were well rendered, but the whole performance lacked the vim and spirit which characterized it last fall.

**"Enquirer" Notes.**—Several cases of diphtheria have been reported and one death from the disease this week. Measles still continue to rage among the children.

A Manti correspondent writes that a four-and-a-half-foot vein of coal has been discovered about five miles southwest of that place, at the mouth of Six Mile Creek.

The Manti Temple has about fifty men working on it, and the structure is steadily progressing. There is quite a supply of stone already cut, waiting for favorable weather to lay it.

**Items from the Depot.**—Superintendent Sharp returned last evening from his trip down the road. An unusually heavy Conference travel prevails, big trains from both directions being loaded down with living freight. Last night's southern express brought about 650 passengers.

An army deserter was one of the passengers on the 11:40 train this morning. Besides being well guarded, he was handcuffed and had chains on his legs. He is said to have deserted eleven years ago, and at last voluntarily surrendered himself to the authorities.

**Illusionists.**—Messrs. Thorn and Darwin, illusionists, have been engaged to give one exhibition in the Theatre, and will appear on Saturday evening next. The Eureka Street has had the following concerning their performance:

Thorn and Darwin gave the most successful legendarian performance last night we have ever witnessed in Eureka. Thorn is far superior to Hermann, and uses no apparatus. His bird-like trick was the best that we have ever seen, and he did the goldfish trick in a much neater manner than Hermann. The expose of spiritualists was complete, and created a good deal of excitement among the believers, many of whom were in the audience. There was a good house last night, which will doubtless be increased to-night, as these gentlemen are very clever artists.

**A Good Job.**—G. M. Ottinger, Esq., Superintendent of Water Works, has completed a strong dam in City Creek; just below the old saw mill, at the mouth of the canon. The water pipe runs underneath the bed of the creek, and is only covered by a small layer of gravel. Should that trash out, as it probably would have done this spring when the stream rises, the pipe would be laid bare and might easily be broken, the disastrous consequences of which can be imagined. The old wooden dam, which has heretofore kept the bed of the creek intact at that point is badly rotted, and any unusual rush of water would sweep it away. Just below this old dam the work of strengthening and securing has been done, in addition to the immense timbers used in the construction of four hundred feet of stone have been made use of, and Sup. Ottinger flatters himself that all the water in the mountains cannot move the dam now.

**The "Romance" Once More.**—The contemplated repetition of the "Romance of a Poor Young Man," on Friday evening, will meet the general approval of the theatre-going public. Many who witnessed the successful debut of the Home Dramatic Club, last Thursday night, in this beautiful and thrilling drama, have openly expressed their intention of going again, while a large number who were kept away by the storm, are equally anxious to see the performance which has since elicited so many favorable comments from all classes of critics. With these encouraging assurances, the Club might reasonably expect a crowded house on Friday night, even if it depended entirely upon city patronage. But no doubt many of our friends from the country will remain over for the purpose of witnessing this performance. It is a play that abounds in interest, and is a character to delight everybody. Humor, wit, philosophy, sensation, and refinement are its moral elements of popularity, while its striking situations, fascinating plot and magnificent stage settings are such as to keep the eyes, ears, and general apprehension on the edge from beginning to end.

As before, the Carolea Orchestra will represent the instrumental department, and by special request will play the ever popular "Turkish Revue," while the stage is being set for the beautiful scene of the "Bride of Effen," wherein Manuel makes his faithful leap from the gallows to the tower. The opening overture, "Bastien is Savoyard," and will be commenced precisely at quarter to eight o'clock. The box-office will open on Thursday, at 10 a.m., for the sale of reserved seats, which should be secured early.

**City Council.**—At the appointed hour, on Tuesday evening, April 6th, 1880, the City Council met for the transaction of business. Mayor Little presiding.

Louis Reggel petitioned for a franchise to run a cable car from April 6th, 1880, Granted.

A petition was presented, signed by D. M. McCallister and 15 others, asking that a water right be secured from the City of Salt Lake to supply water for domestic purposes and irrigation to residents of lots in the 14th and 15th Wards, lying west of the city.

A statement from the chief engineer of the department was received, calling attention to the fact that, in view of the probability that the street sprinkling during the summer months will develop upon the city a large number of water rights, it would be well to consider that the department has no old or imperfect hose suitable for that purpose. To effectively and properly perform this work, would call for a supply of 300 feet of hose daily, and heretofore the firemen have been under the necessity of dragging this hose from hydrant to hydrant, rendering the same utterly useless in a few months. The only way to remedy this destruction of property would be to feel the hose upon water, and thus obtain a labor and friction caused by dragging. The cost of three small hose carts, which the chief engineer thought would be sufficient for this service, would be \$270, (\$300 each) being less than the value of the hose required for the service and would in reality be a saving as well as a service to the department.

The committee on claims reported back the quarterly report of this street superintendent as correct, and recommended the appropriation of \$2,882.25, balance due him on street improvement. The same committee reported upon the petition of Hon. Joel Grover, probate judge of Juila County, in relation to the remittance of asylum dues for insane person from said county, and recommended in consideration of all the circumstances connected with the affair, that the prayer of said petition be not granted. Report adopted.

The committee on irrigation to whom was referred the verbal petition of Lorenzo D. Young asking protection from probable high waters the coming spring reported that they had examined Mr. Young's premises near Red Butte, and recommended that the watermaster be instructed to render Mr. Young what protection he could by drawing off in other directions all the water that can be so diverted, without injuring other inhabitants of that portion of the city. Adopted.

The committee on irrigation, to whom was referred the petition of Thomas L. Lanning asking for reconsideration of a former report of the committee on irrigation upon the subject of appointing a watermaster for the north ward bench people, reported that in view of the prospect of an increased supply of water from all the streams during the present season they would recommend that the watermaster be requested to appoint an assistant watermaster to distribute the water flowing on said bench, provided that the parties interested bear the expense, and that the watermaster be instructed that this action shall not be construed as granting any right to the use of water to the inhabitants of the bench lands. Adopted.

On motion, the matter of preparing the bonds to be issued by the city was referred to a special committee, consisting of the Mayor, Councilor Joseph F. Smith and Alderman Calder.

The committee on streets and alleys, to whom was referred the petition of Robert Patrick and others, asking that Garden Street be opened from the corner of Walnut to the City Creek Canon road, reported that they had considered the matter and recommended that said Garden Street be opened without delay, provided the title to the street is first vested in the corporation free of cost. Adopted.

On motion, the committee on construction of the Jordan and Salt Lake City Canal were authorized and empowered to call to their assistance such persons as they may consider most advantageous to the interests of the city and the advancement of the work assigned them.

Alderman Fyler submitted a report of the Police Court for the month ending March 31st, 1880, showing that 52 cases had been tried and \$757.05 collected in fines, \$28.45 was paid in cash, and \$501.20 in labor on the public works. Report approved and placed on file.

The following bills for the month ending March 31st, 1880, were presented and allowed: Marshal's expense bills, \$338.88; expenses of fire department, \$148.34; gas for street lamp, City and Engineer's bill, \$1,081.50; boarding city prisoners, \$254.55; meals at H. C. \$279.95; collecting dog tax, \$14.50.

Bill of G. C. Ferguson for winding, attending and keeping a dead animal in Hall clocks for the quarter ending April 6, 1880, \$2.00, was allowed.

Bill of A. G. G. agent, for coal furnished to City Hall, \$55, was allowed.

An appropriation of \$100 was made to the Jordan and Salt Lake City Canal, to be drawn as provided by law.

Adjourned till next Tuesday evening at the usual hour.

**Matinee Postponed.**—Foster are out announcing the postponement of the "Grand Duchess" matinee until Friday next, on account of the performance of the same being placed to-night, as advertised. Go and see it.

**"Sorcerer."**—Gilbert and Sullivan's comic opera, "The Sorcerer," will be presented by Zion's Musical Society to-morrow evening. A number of diligent rehearsals have been had, and all those taking part have improved in their acting. A good performance and a crowded house expected.

**Accident in Bingham.**—An accident occurred yesterday, about 3 p.m., in the Victor Mine, Bingham, by which Gus Reamer was badly injured, his face, breast and arms being burned and cut with pieces of rock. Two charges of powder had been put in place, and after the first explosion, Reamer went into the mine, when the second one went off. His injuries are not fatal.

**MINUTES**  
Of the Fourth Semi-annual General Conference of the Young Men's Mutual Improvement Association held in the Salt Lake Assembly Hall, Tuesday evening, April 6, 1880.

On the stand were President John Taylor, Apostles W. Woodruff, O. G. Rich, F. D. Richards, Joseph F. Smith, Moses Thatcher and Counselor H. W. Wells.

The President of Salt Lake and Utah County Stakes, Junius F. Wells and Milton H. Hardy, and the Stake Superintendents of Box Elder, Davis, Morgan, Salt Lake, Utah and Weber Counties, and representatives from Beaver, Juab, Sanpete, St. George, Sevier, Summit, Tooele and Wasatch.

Superintendent Woodruff then briefly addressed the meeting, expressing his interest in the work of mutual improvement among the young, and called for the statistical report, the totals of which were accordingly read as follows:

Stake organizations, 240; members, 6,284; quarterly conferences, 45; weekly meetings, 2,456; conjoint sessions, 592; extra meetings, 145; total meetings, 171; visitors, 1,311; visitors received, 1,148; visits of county and general officers, 384; members gone on missions, 71; members returned, 3,384; value of books, \$3,704.55; manuscript papers, \$283; financial exhibit showed cash and other property on hand, \$3,794.57; Scripture reading, total chapters read, 75,912; subjects lectures given, 3,038; testimonies borne, 3,355.

After the reading of the Report Superintendent Woodruff made a few remarks, and called for a vote of the Apostles in relation to the organization, which was unanimous. A preamble and resolutions, respecting cruelty to animals and the killing of birds was presented and read, and the sentiments expressed thereon adopted.

The meeting was dismissed by President John Taylor.

**SPECIAL BUSINESS NOTICES.**  
This first lot of goods of this season's make has arrived from the Provo Mills, consisting of Sailing Cloths, Linseys, Flannels and Fancy Colored Blankets. Call and examine them.

**During the Week of Conference**  
The great Register of the Stake-baker Bros. will be open for signatures. Each person visiting the house will, on signing the name, receive a ticket which will entitle them to a free ride on the Improved Utah Wagon, free of charge, and be shown through the extensive Carriage Repository and Wagon Yards, in which you will find set up ready for the road all sizes of their newly improved Utah Wagons, from a 2 to a 4 horse, cast steel, and steel and iron, and wagons of all styles, sizes and prices. Also Buggies and Carriages of the most unique styles. The fact is, it will be the spring opening of this house. Two of their new Green Cars will be here direct from the factory with Buggies and Spring Wagons this week, so that by the time you have a look at the new stock, you will have a look at the best of the season. We bespeak for the Stake-baker Bros. a large and successful business, and we wish them a pleasant journey.

**Sunday School Notice.**—Don't forget the Deceit Sunday School Union meeting to-night, in the Salt Lake Assembly Hall, at half-past seven o'clock. A pleasant and full attendance is desired.

**AN INTERESTING EXHIBITION.**  
Among the many attractions of this city during the present Conference of Latter-day Saints, nothing of more solid merit is to be seen than the grand display of Mowers, Reapers and Self-Binders by D. M. Osborne & Co., at their extensive branch house No. 101 and 103 East Temple Street, where they have a complete line of their celebrated machines in motion during all hours of the day.

A small water motor is attached to a line shaft and pulleys, which connect by belt with the different machines, thus enabling persons to observe and understand the mechanism and utility of every part that enters into the construction of these machines.

The busy whirl of Mowers, Reapers and Self-Binders affords a very interesting and instructive sight, as the constant flow of visitors pouring into that establishment.

**AUCTION.**  
Commencing this morning at 10 a.m. and continuing from day to day until the entire stock of B. Malise is closed out, consisting of wains and marble bedroom sets, 50 good cooking stoves, Parlor Sets, Tables, Chairs, Pictures, etc., etc. On account of the business everything offered will be sold.
