THE EVENING NEWS.

Monday, - - - June 26, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, June 26, 1871.

Buying at $1.09; Selling at $1.12.

LOCAL AND OTHER MATTERS.

THEATRE.—The performances on Saturday night gave great satisfaction, the playing of the Carter Troupe, particularly of Messrs. W. J. Coggeshall and E. B. Marlon, being very good.

WANTS TO HEAR FROM THEM.—Albert Clements, of Emerson, Mills County, Iowa, had six children who, he says, came to Utah, and he has heard nothing from them for a long period. He would like very much to hear from them.

Mr. Clements is old and infirm. Direct as above.

JAMES HALE.—There is a letter for you at this Office.

REMNANT SALE.—Z. C. M. I. being desirous of making room for a brilliant and extensive stock of seasonable goods, purpose holding a remnant sale, the goods included in which will be sold at the lowest possible figures. The sale will commence to-morrow (Tuesday) and will continue for ten days from then. Those who wish to make good bargains should read the advertisement, which will be found in another column.

SERVICES IN THE TABERNACLE YESTERDAY.—In the forenoon the time was occupied by Elders Wilford Woodruff and George Q. Cannon, and in the afternoon by Presidents George A. Smith and Brigham Young.

THE CACHE VALLEY CROPS.—Bishop Henry Hughes, of Mendon, Cache County, informed us on Saturday that he thought some of the reports concerning the destruction of the crops throughout that Valley are rather exaggerated. He is of the opinion that, notwithstanding the visitation of the grasshoppers, more grain will be raised in the county this season than in any previous one during the last four years. The grain in some of the settlements, however, had been almost totally cleaned off, while in others a good deal of wheat will be raised. If the grasshoppers continue to keep away from Mendon the crop of grain will be larger there this season than in any previous year since its settlement.

GONE NORTH. — Presidents Brigham Young and George A. Smith, some of the Twelve Apostles and other leading Elders left this morning on a trip through the northern settlements.

MR. SILVESTER'S ENTERTAINMENT.—The first of a series of entertainments in natural philosophy and *leger-de-main*, will be given by Mr. Silvester, assisted by Miss Schott, at the Theatre this evening. A private entertainment was given on Saturday afternoon, before President Young and a number of the leading citizens, and the general opinion expressed was that Mr. Silvester was a highly accomplished professor of his art. Some of his tricks were not new, but they were executed in a very neat style, and without the aid of machinery and apparatus. Other tricks were new, and totally inexplicable to the uninitiated. The professor is wit, his play upon words being very amusing. All lovers of the marvelous had better attend Mr. Silvester's entertainments this week; they are elegant, and in many respects wonderful, and cannot fail to delight those who patronise them. They must be seen to be appreciated. Remember to-night, at eight.

DEPARTED.—P. W. Gillett, Esq., of the firm of Gillet, McCulloch, & Co., manufacturers of Baking Powder, flavoring extracts etc., Chicago, who has been visiting this city for a few days, left, to-day, for the East.

A GLANCE AT SALT LAKE.—A correspondent of the Daily *Territorial Enterprise*, published at Virginia, Nev., in a letter published in that paper last Wednesday, says:

"It is the most difficult matter that I ever undertook in my life to form an Opinion of Salt Lake City and Utah Territory, generally, that would be satisfactory to myself. There seems to be a great deal of ore in the different mining localities around Salt Lake City, in the mountains; but according to all I could learn there are no true veins, such as are found on the 'Comstock.' There is one thing about the country, however, that gives it a great advantage over any other mining locality discovered in any of our States or Territories, and that is this: There is an agricultural country right there in the midst of the mines capable of producing—and is producing—all the real necessaries of life, which latter are selling quite cheap. Labor is, and I think will continue to be, cheap up there, as it is the policy of the Mormons, and they have been so instructed by their leaders, to work so low as to keep even the Chinamen from coming into competition with them. Two dollars per day are the standing wages there for able-bodied men, and this in United States currency—'greenbacks.'"

TERRITORIAL ITEMS.—Received by Deseret Telegraph:

FILLMORE, 24.

The Corn Creek Indians have been out and taken Sissick, the murderer that escaped from the posse from Beaver. This is another proof of their fidelity to the whites. Mosquap, the war chief, says Sissick ought to die and the whole tribe sustains his decision. He also says he will expect the same treatment from the whites provided any of his Indians are murdered.

INFORMATION WANTED. — Benjamin Jones, of Fairview, Sanpete County, is desirous to learn of the whereabouts of his son Heber Jones, who left this Territory for Montana, about a year since. Any person giving the desired information will confer a great favor on an anxious father.

ACCIDENT AT FARMINGTON. — Hyrum Workman writes from Farmington that, a few days since, a team ran away, pitching Sister Lucy Workman and a little baby she had in her arms, out of the wagon, the wheels passing over sister W. Dr. Heber J. Richards was immediately sent for, who discovered that no bones were broken, although the lady was otherwise severely injured. The baby escaped without hurt.

WATER.—The following was handed in this morning, with a request to publish it in the News:

"Much annoyance during the irrigation season might be avoided if each Ward in the city, as well as elsewhere, had a good thorough district water-master; also a water-master on each block, to conduct a fair distribution of the water, be it much or little, to each lot or parcel of land, and no one be permitted to meddle with the water save in his regular turn. If all would do this, irrigating might be made as pleasant as any other avocation, but when persons turn on the water when it best suits their convenience, causing the rightful owner to run up and down the ditch trying to get it, until his time is up, with his garden perhaps but half irrigated, it makes unpleasant feelings. I am sorry to say this is, and has been the case on the ditch conveying the water into the 16th Ward. Mild remonstrances have been used heretofore, but after this date any person taking water, except on his regular turn as designated to him by his water-master, will be differently dealt with.

E. B. TRIPP, Water-master,
16th Ward.

Read, Ponder and be Wise—Housekeepers should bear in mind that of all the different baking Powders in market, none have stood the test of a strict chemical analysis like DOOLEY'S YEAST POWDER. Dooley's Yeast Powder contains no ingredients but such as are healthful and chemically pure. This insures uniformness in the making of rolls, biscuits, &c., which inferior articles do not. Manufactured and sold at wholesale by DOOLEY & BROTHERS, 79 Read St., New York, and at retail by grocers generally.

CHEAP LUMBER.—All common lumber at three cents at the Utah Lumber Yard. Terms cash. See advertisement of J. J. Thays.

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The natural condition of man is a thirsty one, and it has long been an established fact that water will not quench thirst. The question then arises, can we find a substitute as harmless in its effects, and more delicious in taste than anything yet discovered? We find it in Day & Co.'s Soda and Sarsparilla. If every one would sign the Pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in the world. If any one doubts the truth of our remarks let them step into the first place they come to and try it. It will vouch for itself. em(170)tf
