THE TIDE TURNED.

Gold Ordered for Shipment from London to New York.

NET BALANCE IN THE TREASURY.

Seven Million Dollars to Be Released and Put in Circulation in Business Centers.

WASHINGTON, D. C., June 21.— News was received from London to the effect that Haring, Magoun & Co. had ordered \$200,000 in gold for shipment to New York on Saturday. This is looked upon as showing that the tide in gold exports has turned. For the past three weeks no gold has been exported, and as a consequence the treasury department has been gaining gold during the period, the net increase now standing at \$100,000,000. In the full list up to the gold in the treasury department has decreased nearly \$6,000,000 in gold certificates, the amount outstanding today being \$37,670,000, against \$40,000,000 on the 1st of June.

While the receipts and expenditures of the treasury department have kept about even during the month, it was stated that the balance today was \$24,174,000, \$12,223,000 in subsidiary silver and minor coin, \$11,621,000 in national bank notes, and \$470,000 in gold in the vaults of the treasury. The treasury is pro-
viding with a good working currency balance, amounting, it is believed, to \$10,000,000.

TERrible Thunderstorm.
RIVER FALLS, Wis., June 21.—A terrible thunderstorm raged here this afternoon just as ringlings' circus started, and when the clouds of smoke were passing out, a terrific bolt of lightning struck one of the poles of the tent and more than fifty people were prounated. Seven were killed instantly, many more injured and the rest are in a condition of semi-consciousness. Some were temporarily paralysed by the shock. The scene of destruction which followed the bolt surpassed description, and a serious panic was narrowly averted.

Senate's Death.

TAGO AND CALIFORNIA, June 21.—It was five minutes of twelve last night when Mrs. Stanford heard a loud cry or a groan of the senator's. She quickly arose and rushed to his bed, on the opposite side of the room. The senator's pale, sleeping in an adjoining chamber, died before she could get to the senator's side. Mrs. Stanford asked him to speak, but he seemed choking and unable to answer her. The valet raised him up to a sitting posture, but it was no use, and in less than half an hour the senator breathed his last without a struggle of consciousness. It is thought there was an undue rush of blood to the heart, causing paralysis of that organ.

From an early hour this morning telegrams came from all sympathy has been expressed in all cities, and each incoming train is filled with personal friends, Southern Pacific railway officials and those who have been intimately associated with the senator in so many affairs. Mr. Huntington, Jr., came to an interview, but since the senator's death was absent in Washington, his death had been among the probabilities of each day. Although it was thought by all of his friends that he might survive for many years, it was known that he would die of heart trouble, as it was his way and it was known he would resign his seat in the United States Senate unless the Republican party needed him.

Funeral services will take place in the Tabernacle, San Francisco, on Friday evening. They will be very simple. While recently in Europe the senator, who was always a staunch friend of railway engineers, requested that when his pallbearers were selected they should consist of a number of engineers selected from the staff of the employ of the Southern Pacific Railway company. His request is to be honored and of the twenty pallbearers eight will be engineers.

EXPOSITION NOTES.

The Great Ferris Wheel Dedicated in the Presence of a Multitude.

CHICAGO, June 21.—The great Ferris wheel, which in the Columbian Exposition is what the Eiffel Tower was to the Paris Exposition, was dedicated this afternoon in the presence of a great throng. The wheel afterward made the first trip with a number of invited guests.

The Russian section of the Woman's building was opened for private inspection yesterday, and tomorrow will be thrown open to the public.

Another attraction is being arranged by the exposition authorities and the people of Midway Plaisance. It is proposed that all the natives take part in the great fair to be given the first week in July. The bull crop will be presented by a grand general and an exhibition of all the strange dances to be seen on Midway.

The council of administration will, however, have full authority over all matters of general administration and management of the fair. The directors this afternoon adopted the executive committee as outlined last week. The action abolishes all of the committees of the local directory except the executive, finance and legislative, and the council of administration with authority set out the work of these three committees. The council is given authority to discharge or employ any officer. Director General Davis is made the executive officer of the council, and Director of Works Burdesham is made the chief executive officer of the director general.

FEAR BREAKS FEAR.

LOS ANGELES, Calif., June 21.—Fear breaks closed their doors today. They were the First National, the Southern National, the Broadway bank and the Bank of America.

At 10 o'clock a notice was placed upon the door of the Southern Cali-

fornia to the effect that the bank would not open to-day. The door closed was in front of the First National and the Farmers and Mechanics bank. A notice was placed upon the doors of the First National to the effect that owing to a heavy run upon the bank amounting to over \$100,000, the bank had been closed by order of the board of directors.

The East Side bank doors bore the following notice: "On account of not having sufficient cash to meet the demands of the public we are compelled to close the doors. Depositors will be paid in full."

Promptly at 10 o'clock this morning the Los Angeles National bank opened its doors. A long line of depositors stood along the street waiting to be served. No opening was announced but on hand. Just before the bank gates swing open Mayor Hollenbeck appeared on the steps and bade him a short talk with his master. The speech was greeted with cheer.

The Farmers and Mechanics bank also a strong talk with his master.

The officers of the First National said:

"When this thing commenced we had over \$100,000 gold in hand and with our correspondents subject to draw we have sufficient gold to serve us, from the class of men who, in

my opinion, are most creditable."

The next bank to open was the First National and the depositors were satisfied. The amount paid was \$240,000 and the balance is still in the vaults of the bank. The amount of money in circulation is \$100,000,000 in gold certificates, the amount outstanding today being \$97,670,000, against \$100,000,000 on the 1st of June.

With the receipts and expenditures of the treasury department have kept about even during the month, it was stated that the balance today was \$24,174,000, \$12,223,000 in subsidiary silver and minor coin, \$11,621,000 in national bank notes, and \$470,000 in gold in the vaults of the treasury.

The treasury is providing with a good working currency balance, amounting to \$10,000,000.

SUSPENDED PAYMENT.

SAN FRANCISCO, Calif., June 21.—Following in the wake of the financial troubles in Los Angeles the Consolidated National bank suspended payment. The reason given is the same as that given by the First National bank, that is, the wants of the financial situation.

The savings bank of San Diego, which has an office with the Consolidated National and which is closely related in management, suspended its payments on February 12th, but no complete statement is now obtainable.

The Savings bank of San Diego, which has an office with the Consolidated National and which is closely related in management, suspended its payments on February 12th, but no complete statement is now obtainable.

CROP PROSPECTS.

BALTIMORE AND THE SOUTH.—Another week of fine weather followed by rain and then a return of fine weather.

FOREIGN DISPATCHES.

prizes and gratifications of the people. The improvements of Chicago, the greatest triumph of the century, are to be the example of the other great emigrations and churches.

In another, the Duke requests Secretary Goodrich to express to the President his regret at his inability to offer thanks to persons and say his farewell respects to the chief magistrate.

He added, "The Temple Spoon.

The George looked and breaking in the glass witnessed a horrible sight. In the main body of the hall a woman, who had just come from the church, was dead. On either side lay two others, who had been slain. The bodies had been removed. The bodies of twenty-six women and ten men were taken from the church, but this was the fifth folded number of victims.

Several other victims, who had been killed and twenty-four injured by being

knocked down, had been removed.

It appears there were some of the victims of the accident buried, and one lady, that of Judge Quincy of Utica, N. Y., who had gone to his home to the west of town with a dollar or two dollars of his, and the man who was carrying him but the man in the wagon said he was a doctor and was going to take Quincy to a Norwegian hospital. He never arrived there and the carriages which were trying to him the body. Was in the city of Utica.

There are nine bodies left in the carriages.
