Y. M. M. I. A. Notice.—At a meeting of the Mutual Improvement Associations of this State, held in the Council House last evening, the following named brethren were elected as a committee to attend to the business of the Y. M. M. I. Association of this State in making the necessary arrangements pertaining to the celebration of the Twenty-fourth of July: Joseph H. Felt, George C. Lambert, John W. Taylor, J. W. Summerhays, Wm. N. Williams, James H. Anderson, E. N. Child. It is expected that every Association which intends taking part in the procession will have an appropriate banner or flag. Those having none may obtain them by writing immediately to the committee, giving name of Association, date of organization, and the motto desired. The banners will cost from \$3 to \$5 each. Any Association desiring information, will please communicate to the committee at once.

An Interesting Letter.—From a private letter written by President A. O. Smoot, at Honolulu, on the 14th ult., we learn that he intended starting for home on the 5th inst. last Monday. His health has improved during his absence in the "Islands," and he will return, no doubt, much benefited by his trip abroad.

Among other interesting items in his letter appears the following: "I have had quite a social conversation with King David Kalakaua. I find him to be quite a free and easy gentleman. He speaks the English language quite easily and fluently. I should judge him to be a well educated man of about 40 or 45 years of age, possessing a medium education and talent." Our interview was of but a few minutes. When we arose to leave the palace, I made the request of him to deal kindly to our people, and bore to him a faithful testimony of the truth of the great work which we are engaged. The captain of his guards belongs to our Church and attended our meeting to-day.

To the Farmers and Stockmen of Salt Lake and adjoining Counties.—At a special meeting of the directors of the Deseret Agricultural and Manufacturing Society, a committee was appointed to invite your aid and cooperation in making the celebration of the approaching anniversary of Pioneer Day, July 24th, memorable long to be remembered by all of us, and more especially by those whose parents have helped and labored so richly in the freedom they so richly enjoy in Utah to-day.

Will you please bring in the best samples of various industries and join in the procession which will be organized on that day. We are artistically arranged with appropriate motives and banners, and laden with choice samples of grain, grasses, vegetables, and forest crops, also home raised hoes, hoes, hoes, and sheep. Bring your families in carriages or wagons, dressed in holiday attire.

If you will report to us on an early day what part you will take in this celebration, we will see that you are assigned a proper place in the procession. In behalf of the committee,

JOHN R. WILDER.

City Council.—Proceedings at the City Council on Tuesday evening, July 6th, 1920, Mayor Ellis presiding.

A report was submitted by the Mayor, reading that 100 corporations have been organized in the city, and that the same have been organized for the purpose of the provision of the law on that subject. Thereport was accepted.

The committee to whom was referred the report of the superintendent of water works reported that they had examined the report and found the expenditures thereon set forth correct, and recommended that the additional water tank, thought by the superintendent necessary, be constructed. The report was also reported that they had examined the suggestions of W. J. Silver for making a machine to connect the water tanks, and bore holes at a less expense than now incurred, and recommended that his suggestion be adopted. The report was also reported that they had examined the assessment of a special tax for improving the sidewalks on First South, between Main street and the State Road, and that the same had been signed and filed. Report adopted.

The committee on enrollment reported that they had properly enrolled the resolution and the assessment of a special tax for improving the sidewalks on First South, between Main street and the State Road, and that the same had been signed and filed. Report adopted.

The quarantine committee reported that they had inquired into the matter of the scourge diphtheria, and reported the result of their investigations with suggestions, and recommended that these be ordered published; and that an ordinance governing certain things relative to pools and vaults be reported by the committee on municipal laws at once. Report received and laid over until the next meeting of the Council.

The police judge reported that during June he had tried 51 cases; received cash fines for the month, \$108.50; old fines, \$36.50; total cash paid in, \$145; bills received and paid into the treasury, \$15; labor fines, \$28.75; total \$141.75. Report received.

The marshal reported his expense account for the month of June, \$260.40; received and amount appropriated.

The following bills were allowed for the month: Fire department, \$109.55; gas company, lighting, \$10.55; to collecting dog tax, \$14.50; City Hall janitor, \$30; to Dr. J. R. Clinton, \$30; night watchman on Market Block, \$5; to J. C. Ferguson, reprinting and binding, etc., city clock for quarter, \$22.50; work on Washington Square, etc., \$48.

The Mayor was authorized to superintend the work of building a vault for the safe keeping of the city books.

Adjourned until next Tuesday evening at 7 o'clock.

Caught a Whale.—Yesterday morning a party of clerks from one of our leading mercantile houses, with a view to making the "glorious 5th" profitable as well as pleasant, started off on a fishing excursion.

Arrangements had previously been made for a mammoth "haul," one of the company furnishing a barrel, another donating the salt, and others various things necessary for the preservation of a large quantity of fish, while all the rest of the employees had handed in applications, in advance, for various quantities of the surplus of the haul.

The brave party were gone all day, and returned late in the night, tired, dusty and well loaded down with themselves, which was about all they could afford to carry at the time. They got nary nibble for their pains nor fish for their supper.

The barrel and salt are for sale, cheap. The owners have already been sold, very cheap.

Ashley Fork Items.—Mr. Jos. H. Black, who arrived last night from Ashley's Fork, gives us the following particulars of the progress of affairs in that locality. The valley is from four to eight miles wide, and fifteen miles long. The winter has been a very severe and trying one to the settlers, but the prospects for the future are now very encouraging.

A mining camp, likely to be established at the head of Brush Creek, will furnish a market for the produce of the settlers. The government has surveyed a road by Port Bridge to Utah Agency, which will be a great convenience to the inhabitants of Ashley's Fork. Mr. Black says he learned on the way that a man and horse were drowned in Green River, while attempting to cross. The unfortunate man, named Matt Welch, had only one leg, and had been drinking. The body was not recovered.

Doctor Talmage.—The public of Salt Lake are soon to have an opportunity of hearing the celebrated orator and preacher, T. De Witt Talmage, who will deliver his noted lecture entitled, "Big Blunders," at the Theatre, on the evening of Wednesday, August 4th. The New York Independent says:

Mr. Talmage is a phenomenon. His conceptions of man and things are so broad and so deep that he is able to possess them—they possess him. He is dramatic, and cannot describe without acting. He has a clear, incisive mind, a broad and genial heart, and a magnetic personality, a vivid imagination, a vehement passion, and every blow hits.

Out His Foot.—From the Junction of Saturday. On Thursday afternoon, Mr. David Scott met with a serious accident while on his way to Ogden Valley. While he was chopping timber, the axe slipped off from some ice which was on the tree and glanced off, cut his right foot to a very serious extent. He was conveyed to his home in this city in Franklin Street and Dr. Carman was sent for, who attended to the wound with his usual skill. He is now getting along as well as the circumstances allow.

Utah Western.—A gentleman just in from Colorado reports that the Union Pacific "teams" which had commenced grading this side of Colorado, have for some reason been withdrawn. A few Utah Western work is progressing rapidly and admirably.
