

of limestone and quartile, striking nearly east and west, and dipping about 45 degrees to the north. To date three ore bodies have been developed, all in the eastern half of the property, and in one of the limestone beds on or near its function with one of the

ear its junction with one of the uartzites, which forms the footwall, These ore bodies are known as Nos. 1. and 3, counting from east, and have been opened up by means of five tun-nels, Nos. 3, 4, 5, 6 and 7. No. 7 tunnel is the most recent and deepest of these, and all the ore development 5.62% in it has taken place during the inter-val covered by this report. The results are satisfactory, and are most impor-tant as bearing on the future of the mine in depth. Nos. 1 and 2 ore chutes have been cut and drifted on, the for-mer by No. 1 crosscut and east drift and No. 2 crosscut, the latter by No. 3 crosscut and east drift. While this work is not sufficient to entirely define their extent, the width of ore shown in all three crosscuts compares favor ably with the upper levels, and the development on them, as a whole, indi-cates that they fully maintain their ize, and compared with No. 6 tunnel, their percentage of copper and other values. The length of underground development in tunnels, crosscuts, raises, vinzes, etc., amounted on June 30th to 15.470 feet. The estimated ore reserves in sight are 920,000 tons of sulphide and 150,000 tons of low-grade exidized gold ore, Regarding the smelter, Mr. Fischer, under whose supervision it was edect-od save: ed, says! "The present plant, as completed in May 1899, is working satisfactorily in its various branches, the best evidence of which is the number of tons treated and economy of production; I therefore and it not advisable to depart from our present system of metallurgical treat-ment, and the extension is being built on the line of the present methods, The roasting plant will be different, but this will be a mechanical and not a metallurgical difference. The excela metanurgical difference. The excel-lent results obtained by the MacDou-gall roasting furnaces at Anaconda and Great Falls warrant their installa-tion in our extension. I expect these furnaces to make a saving in the cost of treatment of 30 cents per ton over our present furnaces."

"I certainly have no reason to com-plain of my reception in New York," said Professor Munyon yesterday after-noon, as he stood near the main door-way of his splendidly appointed new medical institute, at Twenty-sixth street and Broadway. The spacious calosroom and affeor on the scould

salesroom and offices on the ground floor were crowded. Thousands had

JOB PRINTING

AND BINDING.

The Job Printing, Bindery and Publication departments of the Deseret News now include all the type, ma-chinery, presses and supplies of the combined plants of the News and Geo. Q. Cannon & Sous Co. Estimates furnished on contracts of any size. Rush orders a specialty.

The progressive nations of the world are the great food consuming nations. Good food well digested gives strength. If you cannot digest all you cat, you need Kodol Dyspepsia Cure. It digests what you cat You need not diet your-celf. It contains all of the digestants combined with the best known tonics and reconstructives. It will even digest all classes of foods in a bottle. No other preparation will do this. It instantly relieves and quickly cures all stomach troubles. F. C. Schramm.

Old Books, Music and Magazines. Put them in strong new covers for preser-vation. Many records of value can be eaved by having them bound. The News bindery can do the work in any form at any price.

You can spell it cough, coff, caugh, kauf, kaff, kough, or kaugh, but the only harmiess remedy that quickly cures it is One Minute Cough Cure, F. C. Schramm.

MERCHANTS' PRINTING Turned out on short notice at the Descret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, en-velopus, pada, etc., etc., are unexcelled by any stabilishment in the Wast by any establishment in the West.

or present furnaces." Regarding the report, the Boston News Bureau says: "It dends of \$1,25 per quarter will begin soon after the first of the year. Of course an important contingency on which this expectation must hang is the maintenance of the couper market

which this expectation must hang is the maintenance of the copper market, which is now in prime condition with the producer looking for im-provements. To pay \$5 a share on the company's 300,000 share capital." adds the publication, "necessitates the carn-ing and distribution of \$1,500,000. The task of maintaining \$5 per share divi-dends therefore, is by no means an easy one, and depends primarily on the successful doubling of production (the successful doubling of production (the cost per pound being very low) and secondarily on the maintenance of a high copper market."

PARK CITY ITEMS.

Anchor Meeting-Silver King Tram Terminal-Ore Shipments.

In its story of the week at Park City the Record says: Work on the Creole is going right

along, with better indications coming to light with every shot in the drift and crosscut At the Midnight Sun group, head of

Iron canyon, operations are being push-ed right along, and the showing is very ed right along, and the showing is very gratifying. At the meeting of the Anchor com-pany directorate the other day E. F. Holmes was elected president of the company. David Keith, vice president, and D. D. Irwin as director. The other officers are the same as before. F. A. Nimms of Muskegon, Mish, came out to attend this meeting. Superintendent James Hickey of the Comstock went to the metropolis the first of the week on Dusiness connected

Keene and a number of local men. Dexter-Tuscarora Meeting.

The directors of the Tuscarora and Dexter Mining companies met on Sat-urday afternoon and authorized the secretary to call a meeting of the stockholders of both companies for Nov, 15th, at which time the proposition to concellent the Navada properties Nov. 15th, at which time the proposition to consolidate the Nevada properties under the name of the Dexter-Tusca-rora Con. Gold Mines company, will be voted upon. It is proposed to incor-porate the two mines with a capital of \$1,000,000 divided into 500,000 shares of the par value of \$2 each. Of this number 200,000 shares will go to the Dexter and a like amount to the Tus-carora, the remaining 100,000 shares be-ing to be used as treasury stock to wipe off the indebtedness.

MINING NOTES.

Manager J. E. Bamberger of the Daly West has gone East. The Mammoth of Tintic had six cars f ore on the market today.

The Utah of Fish Springs has anoth-er care of ore on the market. Three cars of ore from the Carlsa of Tintle were reported today.

Five cars of ore were marketed today from the Swansea of Tintle.

The Eureka Hill had 5 cars of concentrates on the market today.

The Star Consolidated of Tintic has another car of ore on the market. The Shawmut of Bingham had a car of concentrates on the market today.

Two cars of ore from the Yankee Con of Tintic were on the market today. The Ophir Hill reached the market today with seven cars of concentrates, The Grand Central of Tintic has ten more cars of ore on the way to market. The Beck-Cunningham suit was to-day decided in Mr. Cunningham's favor.

A car of ore reached the market to-day from the Great Bonanza at Stock-

The Mountain Gem of Bingham reached the market today with a car of ore,

An assessment of 2 conts per share has been levied by the Star Gold Mining company of Pine Canyon. The Carbonate Hill mine near Peter-sen, Morgan county, was on the mar-ket today with a car of ore.

Charlie Brown formerly superintend-ent of the May Day, reached town today from American Fork.

J. H. Clive reports the concentrator at Pony, Mont., handling thirty tons of ore per day very profitably. George K. Fisher who is in charge of

the Construction work at the Highland Boy smelter, is back from Dillon, Mont, An assessment of 12 a cent per share has been levied on the Golden Eagle Mining company to operate its properties in Nevada.

John C. Griffith purchased the lot of high-grade ore from the Golden Star Mining company. It netted the com-pany almost \$4,000. The Conklin sampler reported seven

cars of ore from Tintic, one from Bing-ham, one from Petersen, one from Fish Springs and one from Stockton.

The Wild Dutchman, in American Fork canyon, marketed a car of ore today. It is being worked by George Summerville of American Fork.

The Taylor-Brunton Sampler reported 15 cars of ore from Tintle, 1 from Bing-ham 1 from American Fork canyon and 7 from Stockton today. The meeting of the Con, Mercur Min-ing company was scheduled for late this

afternoon. It was expected that the value of the last month's run would be

oult, but desires a little backing to en-

Fut don't let me talk about this New York venture, look around and speak about it yourself."

The huge place glass windows give the passer-by a splendid view of the of-fices. But one has to inspect the de-partment devoted to Munyon's Doctors to get a correct idea as to just what this institution means for the sick of December wheat opened at 75%, and leclined to 74%. Close-Wheat-Oct., 73%; Nov., 73%; New York. A generous share of the ground floor space of the mammath establishment has been surrendered to the medical branch. His physicians ask Dec., 74%@%. Corn-Oct., 40%; Nov., 37%@%; Dec., Oats-Oct., 21%; Nov., 21%@%; Dec. no fee for either examination or advice. They simply give the patients the best advice of knowledge and skill, and show ndvice of knowledge and skill, and show them how to get well. In many cases a simple remedy is all that is needed. Then, again, if the visitor has nothing the matter with him, he is told so frankly. It is a great satisfaction when a man has been examined from head to toe by a competent physician, and then told "there is nothing the matter with him." with him."

Professor Munyon's great success is due to tireless energy, unceasing thought, and an abiding faith in his system of improved Homeopathic Remedies, a system which enlisted the best thoughts and skill of the most unceasing eminent specialists and chemists of the world. Munyon was not prejudiced in favor of any one school of medicine. He have of any one school of medicine. He believed there was good to be found in all; in fact, he knew it. His mission was to take the proved curative, the best thought of all the schools, and combine them in one. His remedies are not "cure-alls"—he has prepared a separate cure for each disease.
