WASHINGTON, 22.—Counsel for the Oregon Pacific Railway Company will appear before Assistant Secretary of the Interior Department today, when arguments will be presented in favor of the vacation of the land to public settlement and the indemnity limits of the

Treasury Commission, of which Secretary Fairchild is chairman, appointed to investigate the different bureaus of the Treasury Department with a view of a reduction of the expense and the improvement of the management, had a meeting and heard the report of the committee of clerks detailed to make a thorough investigation of the work of the Supervising Architect. The report will not be made public until the Commission submits its conclusions to the Secretary. It is expected that the Commission recommends several reductions in the clerical force and one or two radical changes in the present system of

MONROE, 22.—The Right Rev. John J. Keane, of the diocese of Monroe, recently wrote a letter to the terms the "shameful persecution" that gentlemen are suffering. The letter is written from St. Paul, the bishop at present being in the West conducting a series of retreats for the clergy. The letter says: "I allude to the treatment which you as an insult, not to one of the most highly and deeply esteemed Catholics of the diocese of Richmond, and of the most devoted citizens of Virginia, but to him to all his fellow-Catholics who-citizens in this country and Holy Father himself. But in this to you, I can see no humiliation, to those who have offered it. It is an honor to be unwelcomed by a government whose course has been marked by injustice and irreligion, and whose acts made itself the abettor of guilt and partner in the shame, thereby made itself incapable of humiliating you. While I have regretted the attacks made upon you by the part of the daily press, still that does not concern us much, as nothing was to be expected from such a partisan and interested source; but I especially deplored the criticisms upon you by some Catholic clergymen, who, in their zeal to appear orthodox and ultra-orthodox, have overlooked the fact that the cause for which you were suffering was their reputation as well as the condemnation and the of their strictures. But it is a matter to know that the utterances of wholly unauthorized critics have absolutely no weight beyond the insubstantial weight of the individuals themselves. I am confident that all Catholics whose opinion you would honor you for the persecution you suffered for truth and justice. Your position is indeed an enviable one, with a family to protect and your business transferred to others, but surely it cannot be that government, whose well-meant has placed you in this embarrassing position, will leave you in it, or fail to provide that you be in no way the victim; and even should that happen, which I cannot believe, still I am confident that your well known qualifications of head and heart will yet secure you a career both of honor and of

convention was the largest ever held, 618 delegates having answered to the roll call on organization.

MILWAUKEE, 22.—The business of the convention of the German Journalists of America, which has been in progress for the past three days, was concluded to-day by the formation of a permanent organization, the adoption of a constitution, the election of officers, etc. It was decided to hold the next meeting at New York a year hence. The officers elected for the new organization are as follows: President, Herman Siegel of Milwaukee; vice-president, G. Koepfer, of Milwaukee; secretary, Dr. T. A. Knotzer, of *Der Leebote*; treasurer, Julius Goldsmith. The trustees chosen are as follows: Thos. Kershoff, of San Francisco; Curt Herfelden, of Belleville, Ill.; H. Bender, Detroit; Dr. E. Preatorius, of St. Louis; A. Jurgmann, Newark, N. J.; Felix Triest, New York; G. E. Leinecke, Cincinnati; H. Dicke, Philadelphia; R. R. Hansche, San Antonio, Texas; S. Kander, Milwaukee. To-night the visitors are being entertained at Schiltz Park, by a grand ball. Tomorrow they will participate in a picnic at Whitefish Bay, a few miles north of this city.

CHICAGO, 23.—*Daily News* Springfield, Ill., special: "This city is greatly excited over a double, and what may turn out to be a triple murder, which occurred in broad daylight today on one of our principal streets. This morning Leonard Gardner, who spent the night in jail for wife beating, procured bail and was released. He immediately armed himself with two revolvers of large calibre and became loud in threats against policeman W. J. Camp and Fred. Gall, who arrested him. About noon-time Gardner saw two officers approaching him on Washington Street. Hastily entering a hallway he opened fire and Officer Camp fell dead. Gall returned the fire rapidly, and in a moment Gardner fell pierced with three bullets. He died instantly, and Officer Gall with two bullets in him is not thought likely to recover.

CHICAGO, 23.—Edgar L. Wakeman, founder and manager of *The Current*, a weekly periodical first issued here December 22d, 1883, to-night sent a communication to the papers announcing that the publication would probably suspend immediately. In his statement Mr. Wakeman says that the obligations of *The Current* amount to but a few hundred dollars, but that in his efforts to attain success which appeared almost assured, every dollar of his personal means has been sacrificed. *The Current* has been devoted wholly to the literature of good order and to unbiased discussion of events of the day.

CHICAGO, 23.—Late on Saturday night, in a sparsely populated section of the Town of Lake, Sarah Snyder, Mistress of Cornelius O'Leary, was shot and instantly killed and Kate O'Leary, sister of the supposed murderer, was so seriously wounded by a pistol shot that she will probably die. It is believed almost certain that O'Leary killed his mistress and attempted the life of his sister, as shortly previously to the shooting the trio were seen together drinking beer. O'Leary has not yet been found. The wounded woman refuses to say anything whatever about the affair. The occurrence assumes an historical aspect in that Cornelius O'Leary is the son of Mrs. O'Leary, whose fractious cow kicked over the lamp that started the fire that burned Chicago.

KANSAS CITY, 23.—A telephone report comes from Armourdale that the St. Louis order, boycotting the Wabash cars, went into effect to-day in the Union Pacific yards at this point, and no more switching of Wabash cars there has been done. The Wabash repairs is done in the U. P. shops. The full effect of the order cannot be determined till to-morrow. No movement has yet been made in the Wabash freight yards of this city.

BOSTON, 23.—Rev. Wm. Downs, pastor of the Bowdoin Square Baptist church, who with Mrs. Tabor is under \$860 bonds for alleged adultery, preached two sermons to-day, in each of which he reiterated his statement that his arrest and the charges were result of a vice conspiracy and reasserted his innocence.

PHILADELPHIA, 23.—W. A. Shaw, a stenographer, employed in the office of Wayne MacVeagh, has, through the descriptions and newspaper cuts of Maxwell, the alleged murderer, of Preller, at St. Louis, identified the accused as Hugh Brooks, a former acquaintance at Hyde, Leicester, England. Mr. Shaw last saw Brooks in August, 1884, when on a visit to his parents, who reside near Hyde. Brooks then had an office as solicitor in Hyde, but did not have much practice, and amused himself with various scientific pursuits. He was much devoted to magic lanterns, and apparently was accustomed to make experiments. He had many notable eccentricities and in personal appearance was strange looking. His eyes would wander, and he seemed engaged in study. His father had been summing at the Isle of Wight, and during his absence the son spent money extravagantly, and to cover his expenditures forged his father's name to a note for £300. On account of this misdeed he left Hyde and went to Dublin, afterwards drifting to America.

FLAGSTAFF, Arizona, 23.—Meagre reports received here state that the east-bound passenger train on the Atlantic and Pacific was derailed near Rowell Station. Two white passengers and one Indian are reported killed.

NEW ORLEANS, 23.—A special to the *Democrat* from Meriden, Mississippi, says:

It is currently reported that the Knights of Labor have ordered a strike in the shops of the Queen and Crescent railway, to take effect this midnight. It is impossible to-night to verify this report, but it is believed that at least a portion of the force is determined to work no longer. It is also said that engineers enough will quit work to render it impossible for their trains to go out to-night.

INDIANAPOLIS, 23.—The *Journal's* Salem, Ind., special reports a terrible case of drunken madness. Fred. Berkey, Jr., son of one of the leading citizens of the place, while intoxicated, appeared on the streets and began an indiscriminate fusillade. He fired nine shots, aiming at whoever happened to be in range. Laura Klerner received two balls, one in the wrist and one in the shoulder, Wm. McClanahan was shot through the hand, W. S. Percise sustained a flesh wound in the thigh, Jordan Payne received a ball through the body, just below the heart, and will probably die. Payne when shot was in a buggy with a companion. Dragging Payne from the buggy, Berkey compelled the other man to drive and attempted to escape. Finding this impossible he placed a pistol to his head and fired. The ball took effect and the young man died in 15 minutes. No cause is known for the bloody work, except that Berkey was completely maddened by liquor.

PHILADELPHIA, 24.—The *Record* this morning says: Charles A. Gambrell, a wealthy Baltimore merchant, died suddenly at the Continental Hotel, last night, under peculiar circumstances. Mr. Gambrell arrived at the hotel on Friday last, and since is said to have been drinking heavily. A number of empty bottles were found in his room, one of which had contained spirits of ammonia, and another valerian. Both these were empty.

BEAUFORT, S. C., 24.—The steamship *Alexandria*, which arrived here yesterday, reports of the Scotch steam dredge *Beaufort* on August 8th, off the Bermudas, that Captain Penny and crew of 10 or 12 men are believed to have been all lost. The *Beaufort* cleared from Savannah, July 20th, for Grenock, Scotland.

NEW ORLEANS, 24.—Nothing for a long time has created so much excitement here as the news of the arrest in Emporia, Kansas, of Mrs. Minnie Wallace Walkup, for poisoning her husband. The marriage took place just a month to a day before the death of her husband. Mr. Walkup had been a familiar figure on the streets of New Orleans. He was a Virginian and a handsome, energetic man of considerable wealth and ability. He was about 45 years of age, and a widower, with two daughters, the youngest a year older than the wife he recently married. Minnie Wallace Walkup is 17 years old. Her father is James E. Wallace, lawyer, and formerly United States Commissioner.

Every one who saw her noticed her beauty of face and form and ladylike deportment. Walkup had met Minnie when a child, and watched her bloom into womanhood. The wedding took place at Covington, Ky., July 22d, and was a brilliant affair. From her letters Mrs. Walkup seemed to be living a happy life, with wants all provided. Her last letter, received five days ago, said Mr. Walkup was going on a short trip on business, and that she was to go along. Willie Willis was eleven months older than Minnie. He was a son of John D. Willis, who died in Florida several years ago. His mother was a niece of Mrs. Walkup's mother. Mrs. Willis died when her boy was three years old and left him to the care of Mrs. Wallace, with whom he has lived ever since. Willie and Minnie were raised together; Willie was a delicate boy of slender build. He was as much attached to his cousin as a brother. Mr. Walkup asked the boy to go out west as his protegee and intended to assist him in carving out a successful career. Her friends say the purchase by Mrs. Walkup of arsenic may be accounted for by the fact that she was addicted to the use of the drug for the sake of her complexion.

NEW YORK, 24.—A Washington special to the *Sun* says: The Treasury Commission, which has been investigating the office of supervising architect has ordered the suspension of all the payments in case of the new post-office building in Kansas City, as a bad state of things has been developed there. At the last session of Congress \$20,000 was appropriated for the completion of the approaches to the building, for a clock, and for sewer connections. On the strength of this appropriation citizens subscribed \$15,000 for a fine clock bell, which was to enable the residents of the city and vicinity, within a radius of six miles, to keep the time and set their watches by. But months passed, and there was no sign of a clock. This led to inquiry, and inquiry led to disagreeable revelations. It appears the supervising architect, Bell, has spent the whole \$20,000, and that only \$1,400 of that sum has gone for any of the objects embraced in the appropriation. This sum was paid for an iron fence. The sum of \$18,600 has been spent for heavy marble wainscoting within the post office, for which there is no warrant in the appropriation. The result is that the accounts are suspended, and Mr. Bell finds himself charged with alleged improper expenditure of public funds.

St. Louis, 24.—There were very few new developments in the railroad

St. Louis, 24.—A dispatch from Vinita says: Frank P. Cass, and A. P. Goodykoode, two prominent citizens of Vinita, who left there a week ago for Cheyenne and Arapahoe reservations to buy cattle, were murdered while asleep in camp, about two miles from the Sac and Fox Agency, last Monday. The deed was committed for plunder.

Fiske of New York. W. D. Sherwin, of the Boston Conservatory of Music, announced the organization of the Chautauque musical reading club. The Chautauque annex for the season will continue the exercises until Friday noon.

The railway will be a most important work, will be about one hundred miles long, and will give Peking direct and easy communication with the Yellow Sea. The road is to be built and operated by a Manchester firm, with Chinese labor and capital. China is now engaged in raising in Europe 100,000,000 florins to be expended on internal improvements.

HORROR ON HORROR'S HEAD ACCUMULATES.

Marseilles, 23.—The cholera is assuming a form which the doctors are unable to cope with. The victims are dying suddenly without the occurrence of diarrhoea or vomiting. The patients feel a coldness which cannot be counteracted by the use of reactives, or even by the most violent friction. Two hours after death the body becomes black. Although the epidemic is not contagious, it is feared that 100 deaths daily will soon be recorded.

PARIS, 23.—The silence of Gen. De Courcy, French commander in Anam, is supposed to be due to his visiting towns in Tonquin.

BERLIN, 23.—Bismarck is surprised at the prevailing excitement in Spain. It is thought that a compromise is probable as Bismarck said he would prefer to abandon his claim to permanently offending Spain.

LONDON, 23.—The *Standard's* correspondent at Berlin says: In consequence of the furor in Spain Prince Bismarck has ordered the German ministers of different foreign courts to hold over the notes intimating Germany's occupation of the Carolines.

BRUSSELS, 23.—Le Nord, Russian organ here says that Russia has reassured China and Japan of her pacific intentions.

LONDON, 23.—The *Standard* this morning confirms the statement that Russia has abandoned her claims to Zulikar Pass and says that peace is thus secured.

The *Standard* this morning has a very strong article on the demonstration at Hyde Park on Saturday. It says the meeting was composed mainly of lookers on, and that the procession was a miserable affair. The *Standard* openly charges that the meeting was got up by the *Pall Mall Gazette* purely as a stroke of business and recalls how the *Gazette*

blessed the details of the Pearce-Dike scandal, adding that the *Gazette* would publish anything that was of a "beastly nature."

LONDON, 23.—There was a fatal fire at Haxeton, a poor and crowded quarter of London. Owing to lack of room it was impossible for the firemen to work effectively. There was a terrible scene when a lodging house full of people took fire, and in spite of gallant efforts to rescue the inmates, a man and two children were burned to death.

A terrible collision occurred this evening on the Metropolitan District Underground Railway at Earle's Court. The signals had broken and become unmanageable and two trains collided, engine against engine. One engineer was killed and a stoker and five others were so badly injured that they cannot recover. There was a horrible scene when the collision occurred as the railroad at that point is underground.

MADRID, 23.—An anti-German demonstration was begun in Madrid to-day. At 4 o'clock 40,000 persons had assembled on the Prado, with banners and other emblems. Speeches were made in Spanish and French denouncing Bismarck's action in annexing the Carolines. The chief speaker was a Spanish colonel in full uniform. No insulting reference was made to Germany, but the rights of Spain were fully proclaimed. A procession marched through the streets arousing great enthusiasm. Opposite the Prime Minister's palace, cheers were raised for the Premier, but as he did not appear the cheering changed to howling and whistling. Several men scaled the balconies and planted the national flag amid a storm of enthusiasm and cheers. Clubs, including military and Arosto, displayed banners. The procession was headed by a democratic leader. It did not pass through the street on which the German legation is situated. At a meeting of the military club, General Salamanca presiding, it was unanimously agreed, amid intense excitement, to expel the German honorary members.
