TWIN CREEK DISCOVERY.

Excitement over Rich Mineral Near Austin, Texas.

Great excitement exists over the discovery of a deposit of rich gravel containing a stratum of sandstone originally supposed to be bed rock, at the Twin Creek placer diggings, eighteen miles south of Austin.

Peter Dick, an old-timer, the original discoverer of the famous Carlin mine near Lancaster, made the discovery and attempted to jump a claim belonging to William Schlemmer, a wealthy stranger, over of Twin Creek. A row ensued in which Schlemmer struck Dick over the head and shoulders with a bar, inflicting several serious and painful wounds. Dick was brought to Lancaster and his wounds were dressed.

The story of what led to the row, however, returning with him Monday. A preliminary examination at once took place before Judge William C. Carlin, who found that the discovery was made by Dick, and that the claim was rightfully his.

The newly discovered deposit of gravel is at least three feet in width and is composed of sand and gravel, and is situated in a gravel pit. Dr. J. A. Schlemmer, now in Philadelphia, and John H. Schlemmer, now in Lancaster, are the owners of the property.
