DURYEAS' "SATIN GLOSS."—After the laundress has washed and cleansed, it is desirable, as a finish, to use the purest starch she can get. The best is snow white and easy to use. By asking the grocer for Duryeas' "Satin Gloss Starch," the laundress or housekeeper will be sure to get the best article.

NOTICE.—It is advisable that ou settlements take immediate steps to raise the molasses-producing variety of sorghum, also broom corn and mustard, and prepare in time for drying, canning and otherwise saving the different varieties of fruit, and for making pickles, that, so far as possible, these products may be supplied without importing.

ANOTHER IMPROVEMENT.—The proprietor of Lindsey's Gardens is still adding to the variety of amusements offered to pleasure seekers. He has just had laid out an excellent croquet ground under a pleasant shade of trees and vines.

WHAT THEY SAY.—Chicago *Journal of Commerce* says: Dr. Price's Flavoring Extracts are the finest, purest, and best to be found in this or any other city, only necessary to visite his Laboratory to be convinced that they are perfectly pure and superior in strength. The *Tribune* Review says: Although the company, Steele & Price, have enlarged their facilities for the production of Dr. Price's Cream Baking Powder and True Flavorings, they are hardly able to meet the rapidly increasing demand for them. In this age of adulteration, it is gratifying to find one honest effort to stick by the old path of honesty, and consumers owe it to themselves to patronize those making the effort. For natural flavorings none can compare with Dr. Price's, and to make the sweetest, most wholesome, and easily digested bread use Dr. Price's Cream Baking Powder.

SALT LAKE CITY, June 29.

Personal.—John Clowes, Esq., formerly of the W. U. Telegraph Company, is in town.

Emigration Agent.—Elder William C. Staines left Omaha, on his way home to this City, at half-past eleven o'clock to-day.

The Comet.—The plain, unvarnished tail unfolded in the heavens is all that can be seen of the comet after dark now.

Will be Open To-morrow.—Owing to the growing interest of the public in the horticultural exhibition, the Society have concluded to open it another day. It will not close till late to-morrow night.

For Europe.—By letter from Elder David McKenzie we learn that he, in company with Elders J. H. Smith and L. John Nuttall sailed from New York, for Liverpool, in the S. S. *Idaho*, on the 14th inst., all well.

Sultry.—The weather to-day has been hot and sultry. At half-past four o'clock this morning, the north-eastern sky was all aglow with fiery red light, which is an indication, say the weather prognosticators, of an extra hot spell.

Off For Old 'Kaintuck."—Col. Peter Saxe informs us by letter from Ogden, July 14, that he is *en route* for Kentucky, to assist his sons to buy some 100 cattle at the public sales at Lexington and Paris, in that State, occurring from the 22nd to the 30th inst. The Col. claims that all who have had his Cotswold sheep are more than satisfied.

A Pleasant Time.—About four hundred persons participated in the choir excursion party to Lake Side yesterday, and a most agreeable time was spent, nothing occurring of an unpleasant character to mar the enjoyment of the day. There was instrumental music, dancing, singing, bathing in the Lake, and everybody seemed to desire the comfort of his neighbor as much as his own, and when that is the case people never fail to have a good time.

Arrived.—The company of emigrants, the list of the names of the persons composing which was published in the NEWS a day or two since, arrived at the depot about nine o'clock last night. A large number of them were met at the depot by personal friends and relatives and conducted to the homes of the latter, while those not thus provided for were taken to the Tithing Office premises, where a considerable number are still located and cared for. Before long they will be distributed in various parts of the Territory, contributing to swell the census of the population.

Spilled.—This morning a boy who drives the delivery wagon of A. M. Smith, wine merchant, turned the corner of this office a trifle too short, the result of the indiscreet proceeding being that the vehicle suddenly turned bottom side up, throwing the driver out upon the hard road, with which his head came in violent contact, cutting him rather severely. The horse was also thrown down, so that the accident did not result in the usual runaway. A crowd soon collected, assisted the lad to unhitch the horse, adjust the wagon, harness up again, enabling him to drive off. That boy drives too fast and is too liberal in the use of the whip.

Coal.—We understand that the Union Pacific Railroad Company are endeavoring to lease a lot in this City for the purpose of piling up a large quantity of coal with a view to supplying the community with that necessary article. The ability of the company to meet the demand, however, is very much doubted, as we are informed that heretofore it has found all it could do to supply its contracts, let alone the meeting of the demands of a large and growing community. To say the least, that source of supply would be one which could not be securely relied upon, especially when it is considered that this part of the country is liable to railroad blockades in the winter season. It is true that, although the railroad tariff on Weber coal has been so suddenly and unwarrantably raised to about double the former rates, between Echo and Ogden, the agent in this city for the coal from the mines in which the Union Pacific Company are interested has received no instructions to raise the price of the article. There is not the least guarantee, however, that this will continue, for a company that would not scruple to raise the freight tariff so enormously in order to monopolize the coal market might not hesitate, in the same way, to enormously raise the price of coal in case of a pinch or scarcity, which is liable to occur at any time in the winter season.

We keep alluding to the coal question because we are impressed with its great importance to the entire community, and the necessity that exists for the adoption of measures for protection against the encroachments of monopolists. The main features for consideration are how to prevent the recurrence of a scarcity, how to maintain an even and fair price of the article in question, and how to encourage the owners of home mines, so as to enable them to develop their property and compete with would-be monopolists. In our opinion these can all be met by the opening up of a direct line of railroad communication between this City and the coal beds of this Territory that it is possible to reach at present in that way.

Reception.—Last evening the ladies of the 14th Ward tendered to Hon. George Q. Cannon an ice cream reception. Presidents B. Young, Geo. A. Smith and D. H. Wells and other prominent gentlemen were present. The guest of the occasion delivered an appropriate address, expressive of the pleasure he felt at the honor done him and altogether a very pleasant time was spent.

Papers Missing.—John Hooper writes from Hooper, Weber Co., July 14, as follows—

"As postmaster of this place I beg to inform you of the failures of the Salt Lake papers. They have missed four times within the last six weeks, which is more than have occurred in four years previous. The postmaster at Ogden says they do not arrive in time. It is a great disappointment to the subscribers. Something is out of joint somewhere."

The papers are mailed punctually and regularly from this office. The fault must be with the postal arrangements, and very likely with the connections with the railroad.

Premiums Awarded.—The following is the premium list of the Deseret Horticultural Society's show, the awards having been made by the committees yesterday afternoon—

The attendance at the show yesterday was not very large, but visitors have been much more numerous to-day. The display is well worth a visit, and the details of the exhibition have been well and carefully managed.
