

JAPAN SIMPLY BULLDOZED KOREA

Korean Emperor Says He Will
Never Sign Agreement Be-
tween Countries.

IT WAS OBTAINED BY FORCE.

His Agent Blames Washington Auth-
orities for Precipitate Action in
Recognizing Protectorate.

Washington, D. C., Dec. 12.—Homer B. Hulbert, the special messenger from the emperor of Korea, is in receipt of a cablegram from Korea, in which the emperor declares that the agreement between Korea and Japan is null and void, because it was obtained by force. He also declares that he will never sign this agreement in its present form and that the disturbance which attended the "outrage" of Nov. 17 are likely to occur again.

Concerning the cablegram from the emperor of Korea Mr. Hulbert said: "This is the first genuine word that has been received from Korea giving the real attitude of that government toward the treacherous act of the Japanese. For several weeks the emperor was practically in confinement, and Japan gave out the false statement that an amicable agreement had been made. This is now proven to be untrue. The agreement was made under duress and at the point of the sword, but the emperor has at last succeeded in piercing the curtain and getting information into the outer world."

"As long as my mission to America is no longer a secret, it may be that the emperor, anticipating some such act of bad faith on the part of Japan, tried through me to forestall it by lodging an appeal with President Roosevelt. The object of the coming was surmised and the coup in Seoul was hastened so that it occurred on the very day of my arrival in Washington. The emperor felt certain that if President Roosevelt could be made aware of his sentiments, the American government would hesitate and ask a few questions before accepting Japan's statements alone. The authorities in Washington were almost immediately notified that this petition was here, but no arrangements were made for its reception until after Japan's statement was accepted and acted upon."

"The object of this cablegram is to disavow any acquiescence in the so-called agreement and, incidentally, call attention to that clause of the treaty between Korea and America in which the United States definitely promised to use its good offices in case Korea were oppressed or wronged."

"The United States was in full treaty relations with Korea up to the time when, upon the representations of Japan alone, and apparently without consulting Korea, this government took the lead in cutting off direct diplomatic relations with Korea."

THE FALL OF A MAN.

William J. Smith Hounded to Commit
Crime by Money Sharks.

Chicago, Dec. 12.—William J. Smith, for 12 years confidential bookkeeper for the Robert Stevenson Drug Company, was yesterday arrested for forgery.

Although he had taken almost \$2,000 from the funds of the company in less than a year, little or none of it was spent on himself as was evinced by his appearance when arrested. His clothing was old and worn and his overcoat was not warm enough to protect him from the weather.

"The money all went to the loan sharks," he said. "They kept threatening to garnish my wages and I knew if that happened I would lose my job and be able to do nothing for the children."

Smith lived with his wife and two children in a cottage.

"My first false step was taken about three years ago when a friend of mine invented a candy slot machine," Smith said. "I borrowed \$200 from the money lenders and signed a note for \$150, which he borrowed to put the machine on the market. Well, it failed through. I lost my \$200, my friend disappeared and I was at the mercy of the money lenders. All the money I took was paid to them. I didn't get any of it, neither did my wife and children."

"I shall make a clean breast of it," Smith said. "I guess I can do my family as much good while in the penitentiary as I have in the last year."

REPORTERS MAKE J. B. COREY'S LIFE MISERABLE.

New York, Dec. 12.—A dispatch to the Tribune from Pittsburgh says:

J. B. Corey, uncle of William Ellis Corey, president of the United States Steel corporation, issued a remarkable letter this afternoon, addressed to "The newspaper reporters of Pittsburgh."

In it Mr. Corey tells of how his quiet life had been made miserable by the demands upon him for information about his nephew's affairs, and says he has decided to make good use of the additional information he possesses.

Mr. Corey tells in his letter of having recently given \$20,000 to the fund for the relief of the suffering Jews in Russia and says that more money is needed. He says that, inasmuch as the public likes to read about scandal they should be compelled to pay for it. He declares that he has a number of letters which were exchanged between himself and Andrew Carnegie, Charles M. Schwab and E. R. Corey, which he is ready to hand over to the public for \$100,000, the total amount to be applied to the Hebrew relief fund. He does not care, he says, in what sums the money is subscribed, or whether it is made up by one individual, 100, 1,000 or 100,000. In giving the letter to the public, in consideration of the above mentioned amount, Mr. Corey says he will guarantee the contributors "that they will get their money's worth, or their money will be refunded."

Mr. Corey was seen after he had issued the statement and declared he was in earnest about the matter.

THE INDEPENDENCE LEAGUE.

Feder that Name Municipal Ownership League to Extend Its Work.

New York, Dec. 12.—Announcement was made at the Municipal Ownership League headquarters last night that the organization would extend its work throughout the state and country under the name of the Independence League.

Byronne Court Justice Storer, on application of Thomas Gilleran, yesterday signed the articles of incorporation of the league.

The petition, among other things,

CONSUMPTION

Is It Inherited and Can It Be Cured?

Many of our leading scientists are spending much time in the study of this great white plague, and find that more cases are caused by neglect than are hereditary.

Neglected coughs and cold gradually weaken the whole pulmonary system, and before people realize it there is a diseased spot in one lung, spitting blood soon follows and eventually a collapse.

Our local druggists, Druehl & Franken, say there is nothing known to medicine equal to their cod liver oil preparation, Vinol, for consumption, especially in its early stages, and while they do not guarantee it will cure real consumption they have many letters from people who were given up to die, and who declare they were saved by Vinol.

Among others Mrs. J. G. Brown of Anderson, Ind., writes: "Our daughter Mary was in consumption and given up to die by our family physician. Vinol completely restored her to health, and would fail to express our gratitude for this valuable cod liver oil preparation."

Mr. Joseph Denis of Winslow, Me., says: "Vinol cured my son of consumption after he had been given up."

We believe Vinol is the most perfect cod liver preparation known, as it contains no grease to clog the system, upsets the stomach and retards its work, yet it does contain all the curative, medicinal and body-building elements of cod liver oil, actually taken from fresh cod's livers, and is acceptable to the weakest stomach. It is worth trying on our guarantee." Druehl & Franken, druggists, also Smith Drug Co.

The eleven directors who sign the petition for incorporation are William Randolph Hearst, Samuel Seabury, Thomas Gilleran, James G. Phelps-Stokes, C. Augustus Hayland, Max F. Himes, John Palmeri, Melvin G. Fallis, John Ford, Clarence J. Shearn and Bird S. Coler.

THE OBJECTS FOR WHICH THE LEAGUE IS FORMED ARE "voluntarily to obtain and promote by educational means and political action such legislation as will secure independence among electors, an administration of government independent of corporate and corrupting influences and the application of public property to public uses."

ATTY. JEROME'S CHARGES.

N. Y. Bar Ass'n Will Take No Notice Of Them Until Made Specific.

New York, Dec. 12.—The New York Bar association, at its meeting last night, decided that until Dist. Atty. Jerome made specific charges against one or more of the justices of the supreme court, the association would take no notice of him. A resolution to act on the district attorney's charges was lost.

A resolution was adopted declaring that payment of assessments by candidates for judicial office or contributions by them, or on their behalf, to campaign expenses, should be prohibited by law.

"It was much afflicted with scatica," writes Ed. C. Nud, Iowa, Sedgewick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three six bottles. It is the greatest liniment I ever used; have recommended it to a number of persons all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm. Sent \$2.00. Sold by Z. C. M. I. Drug Dept. B."

THE MUTUAL LIFE REORGANIZATION.

Temporary President Frederick Cromwell Says It Will Be Thorough.

SAVINGS TO BE TREMENDOUS.

The Amount to be Saved Through Reforms is Simply Amazing.

New York, Dec. 12.—Discussing last night the expected election today of Charles A. Peabody as president of the Mutual Life Insurance company, Frederick A. Cromwell, temporary president of the company and a member of the board of trustees, said:

"I wish that you would say for me and make it as emphatic as possible, that the Mutual's new president will represent no interests other than those of the company."

"Let me say that it is the intention of the company to restore whatever confidence in the public they have lost since the affairs of the various insurance companies have been under fire."

"There is going to be a thorough reorganization of the Mutual, and you would be amazed if I should tell you the amount of money that will be saved to the company through reforms which have now and will in the near future be put into effect."

"These tremendous savings will make it possible to increase the dividends paid to the policyholders, and this will be done. Within 10 days or two weeks the complete reports of three investigations that are now being made will be made public and when they are there will be no room for doubting the financial strength of the Mutual and the stability of its assets."

Thomas H. Rowles, who was for many years general agent for the Mutual Life Insurance company in Louisiana, Mississippi and Wisconsin, it was said yesterday, is one of a delegation engaged in forming a policyholders' protective committee.

FINALLY GOT MARRIED.

But It Took Two Interpreters and Three Languages to do It.

Chicago, ec. 12.—A dispatch to the Tribune from Ashtabula, O., says:

"Miss Letitia Abdo and Salen Abood, Syrians, were married yesterday with the aid of two interpreters and three languages. The daughter of the Rev. William Williamsen, Finnish Lutheran preacher, and a Syrian friend of the young couple who could speak English, were the links between the pastor and the bride."

Miss Williamsen translated her father's words into English and the Syrian her words into the language the couple understood. The responses went back over the same route.

A REFORMED ROBBER.

Now Anxious to Find Victims and Make Restitution.

New York, Dec. 12.—Reformed by religion and desiring to clear his conscience before he goes to India on a missionary tour, John H. Page, a carpenter of Williamsburg, has written to Frank P. Grace, sheriff of Sonoma county, Cal., asking him to find persons whom Page robbed there and in the neighboring county of Mendocino in 1895, so that he may make restitution.

An answer from the sheriff received yesterday said that none of Page's victims had yet been discovered.

the department of geology of the state university, Fred R. S. Holway, one of it as a characteristic feature of the physical geography of the west coast of the United States.

In defining the extent of this cold belt, Prof. Holway fixes its southern limit at Point Conception, and shows that it does not continue southward along the coast of the peninsula of Lower California, as has been supposed by other geographers. In summer the coldest part of this belt is in the vicinity of Cape Blanco and Cape Mendocino. The source of this cold coast water, according to Prof. Holway's hypothesis, is in the ocean depths to the northwestward, whence it drifts at or near the ocean bottom, in agreement with the average direction of the surface drift, and is driven to the surface on striking the slope of the continental shelf.
