## Fashionable Foolishness.

There is no modern fashionable notion quite so absurd as the generally received idea that to be beautiful and attractive a woman must possess a wan, spirituelle face and a figure of sylph-like proportions—a fragility in nine cases out of ten the result of disease. By many fashionable belles it is considered a special compliment to be spoken of as frail and delicate. They forget that the naturally delicate face and petite figure are very different from the pale and disease-stricken faces that meet us in the city thoroughfares, look out from the luxuriant carriages of wealth, and glide languidly through our crowded drawing-rooms. If disease were unfashionable, as it ought to be, not a lady in the land but would take every possible precaution to secure the fresh, blooming face and well-rounded figure that only health can give. Ladies should remember that much as gentlemen may profess to admire the face and form paled and emaciated by disease, when they choose a wife they prefer a blooming, healthful, buoyant-spirited woman. Dr. Pierce's Favorite Prescription is the acknowledged standard remedy for female diseases and weaknesses. It has the two-fold advantage of curing the local disease and imparting a vigorous tone to the whole system. It is sold by druggists.
