AMERICAN.

THE PRESIDENT'S CONDITION.

MacVeagh to Lowell.

To Lowell, London:

ELBERON, 14.—There is an increase this evening in the President's temperature, pulse and respiration, but it is so slight as not necessarily to indicate that the condition of the blood is producing any new complications. The trouble in the lung is not increasing and is causing less annoyance. He has taken adequate nourishment, and his sleep has been natural and refreshing, so that if he has gained nothing he has probably lost nothing the day.

(Signed) MACVEAGH.

High Temperature.

LONG BRANCH, 14.—With the exception of the high temperature and pulse, noted in the afternoon bulletin, the President's case is conceded to be as favorable as yesterday. The doctor said the high temperature was simply owing to the earlier presence of the usual febrile rise; no apprehension was warranted.

Extremely Weak.

Col. Rockwell considered the President slightly better. He passed last night very well. He coughed but about three times, expectorated quite freely and without difficulty. I feel encouraged with his general condition, especially as there have been no unfavorable symptoms. I think it will be quite comfortable for the President here until the early part of October. The weather is generally pleasant until that time. I think when he gains strength he will desire to go home to Mentor. Of course he is a very sick man and extremely weak; but each day that passes without developing any unfavorable symptoms is a day of progress. By the time the cottage is closed and the season is finally over here, I think the President will be sufficiently recuperated to be moved by car without annoyance.

Stationary.

Considerable comment was made to-day, relative to the statements published to the effect that the President's blood is perfectly pure. The prevailing opinion among people of high official rank is that the President's blood is impure and scepticemic, and many go so far as to consider it chronic blood-poisoning or pyæmia; although probably of a very mild character. Boynton says the figures of the bulletin are not higher than they have been for weeks. At nights the usual febrile rise always increases the pulse and temperature more or less, and when at its height for weeks past the pulse has run up to 120. I think the President remained stationary to-day. I do not consider he has gotten back to the point where he was Friday, before Sunday's relapse. This atmosphere is good for him. I doubt if he would have survived in Washington. His condition continues critical, because the state of his blood is such that similar abscesses are liable to form either in his lungs or other vital regions. There are good reasons, however, for hoping such will not be the case in his improved condition. The original wound is healing. Sub cutaneous abscesses over different portions of the body indicate improvement in his general condition. The e are indications that he is making better blood. Just in proportion as the blood improves in quality and quantity, the liability to further complications diminishes. Another favorable condition in his case is the febrile rise comes on later, and does not stay so long as heretofore. The nightly febrile rise still marked a feature in his case. For some weeks his pulse has risen at the same period of the night. Generally about midnight, increased in frequency, and by seven in the morning, his temperature and pulse rise to the point indicated in the bulletins. The change is undoubtedly doing much for him, and should no further trouble rise his prospects for final recovery are good.

Rumors.

The fact that no mention was made in official bulletins about the President's lung causes comment. Three surgeons are here and will remain over to morrow. This has given rise to various rumors, among them, one to at an attempt will be made to morrow to draw off pus from the inflamed lung, with a view of relieving the President's cough. One story is that Agnew brought an instrument with him for that purpose. Agnew said this evening he considered the President clearly better than when he left here. No doubt is entertained by those who hold the President is suffering from pyæmia that there is a strong probability of other complications.

Metastic Abcess.

Agnew, it is alleged, had recently expressed his opinion to a friend that the President is suffering from metastic abscess, and he has the present complication well in hand, though he does not by any means feel less anxious about the gravity of the situation.

Further Trouble Apprehended.

To sum up: There has been no change in the case since yesterday, and the probabilities for further trouble from impurities of the blood continue; and if this suddenly culminates death will not be surprising.

At 7.30 to-night the cottages were closed. The President is asleep, and a favorable night is expected.

The Indian War.

WASHINGTON, 14. — A telegram received at the War Department to-day, to General Sheridan, dated Chicago, September 10th, says: The Indian troubles in Arizona are confined to the White Mountain Utes, and there is no reason to believe it will spread. Bradley has gone towards Fort Apache with two companies of cavalry and three of Infantry, and will be soon joined by McKenzie, with six companies of the 4th regiment. Additional companies of infantry are being collected at Wingate, and the nine companies of infantry at Uncompahgre will be sent there if necessary. It is thought best to hold them in the Ute country a little longer, although the Utes seem to be going to the new place all right. Pope has been of the opinion he controls sufficient troops to protect New Mexico and help Wilcox. If I get the slightest information that will lead me to believe the trouble will be spread, I will order the whole of the Third Cavalry and one regiment of infantry from the Department of the Platte, one from Texas, and one from Dakota, and one more can be rushed out from the Department of Missouri. We cannot prudently spare these forces, but will take chances as cold weather is coming on, and the Indians will keep quiet in the north.

Another dispatch dated Sept. 11, from Sheridan, is as follows: Gen. Pope telegraphed me last night that advices from Wilcox are to the effect that there was no connected attack of Indians on Fort Apache; that what occurred was merely a temporary outbreak, occasioned by the arrest of the medicine man and the unexpected firing of Carr's scouts, which killed Hentig and six men. There have been no depredations since the firing on the burying party the day after officially reported. General Pope expresses some doubts as to whether the Indians will fire on the troops now advancing on them from every direction.

Secretary Kirkwood has requested General Sheridan, through the War Department, that if the movements of troops become necessary to relieve the troops now guarding the Ute Indians until the last that are sent away. The Indian Bureau regards the outbrake at Apache as temporary and thinks the trouble is now all over. Governor Sheldon, of New Mexico, in a letter to Secretary Kirkwood, writes that the Indian troubles have been greatly exaggerated. As a matter of precaution, however, Sheldon urges that arms be sent out to arm companies of citizens that have been formed, lest the Indians that have been fighting might seek to join with Nana in his raid.

Destructive Conflagration.

KANSAS CITY, 14.—A terrible disaster occurred at the fair grounds this afternoon, resulting in the destruction of the main hall and all surrounding buildings. A fire broke out in the west end of the main hall at 4.45 p.m. At that hour the hall was densely crowded, and at once a panic seized the multitude. All efforts to quiet the excited and terror stricken people were of no avail, and in their confusion they rushed hither and thither, trampling each other down, while shrieks, groans and cries filled the air. An immense heavy black cloud of smoke came from the building in vast volumes, and settled as a pall over the grounds, which were literally black with a moving mass of humanity estimated at 20,000 people. A strong wind was blowing and the fire spread with wonderful rapidity, quickly communicating to the surrounding buildings. In an almost incredible short space of time the main building with all its contents, was reduced to ashes; the flames leaped across the Avenue to Newspaper Row, quickly swallowing the temporary buildings of the *Times*, *Journal* and *Mail*, the secretary's office and a number of refreshment stands in that vicinity. They next attacked the grand stand in which not less than 12,000 people were seated, watching the races. The people flew in terror before the advancing fire. Many fell and were trampled upon, and a large number were maimed and mutilated. The confusion was indescribable. A panic had seized upon the vast multitude, and it seemed impossible to quiet their fears. No facilities for extinguishing the fire were at hand, and it did not stop until there was no more material to burn. The fire department arrived too late to be of any service. It had to lay 1,500 feet of hose to get water. It is believed there was no loss of life. No one is reported missing up to the present time. Losses will foot up full $50,000, including buildings and their contents, distributed among various exhibitors and there was very little insurance. The exposition company's loss is about $10,000. The board of directors held a meeting after the fire, and announced to the public that they will clean up the debris to-night, and proceed with the programme to-morrow, beginning where it was broken off to day.

Northern Pacific.

NEW YORK, 14.—The annual report of the Northern Pacific Railroad Company, to be submitted to the stockholders to-morrow, says: The earnings for the portion of the year ending June, 1881, were from 754 miles, against 722 miles in 1880, and shows an increase of $764,335 over the same time in 1880. The expenditures were $2,025,890, leaving a balance in the treasury of $937,129. The work of laying steel rails in the different divisions of the road has steadily advanced. The net earnings of the express business were $51,579. The report shows 22 locomotives, 23 passenger and 1,270 freight cars have been added to the equipment during the year. The capital stock was reduced last year by $1,100,956. Total capital stock, $91,312,588. There remains to be constructed to complete the line between Lake Superior and the Pacific Coast, 816 miles; 868 miles being in operation. Other portions of the main line to be constructed, 618 miles. It is understood the following names have been agreed upon by the majority interested for directors and executive officers to be voted for at the annual election to-morrow: Directors—Frederick Billings, Ashbel Barney, John W. Ellis, Roswell G. Ralston, Robert Harris, Thomas F. Oakes, Artemus H. Holmes, Henry Villard, New York; J. L. Stockhold, Elijah Smith, Benjamin P. Cheney, Boston; John C. Bullett, Philadelphia; Henry E Johnston, Baltimore. Executive Officers—President, Villard; Vice-President, Thomas F. Oakes.

Stock Rumors.

There is a Bear feeling on 'Change because of rumors that the Lake Shore dividend would be less than 2 per cent., and that the Michigan Central would pass its dividend.

Publisher's Troubles.

The *Tribune* notes the financial embarrassment of the book houses of Wm. T. Ames and James Gordon. The latter has a branch in Chicago.

Nebraska's Fair.

OMAHA, 14.—The Nebraska State Fair was attended to-day by about 10,000 people, and is proving a great success in every respect. It is being run day and night. The electric light is being used to illuminate the grounds in the evening. An interesting programme of races and amusements is given afternoon and evening. Exhibits are both numerous and of great variety. This afternoon United States Senator Van Wick, delivered an able address, the principle topics being finance and transportation, civil service and the Indian question. He denounced the present system of Indian management, and maintained that it should be turned over to the War Department. He approved the prospect of modern civil service reformers, and expresses the view that business qualifications should be preferred to competitive examinations. He urged a liberal qualification of the tariff, to relieve the people of taxation, and advocated further improvements on the western rivers.

The Aztec Club.

PHILADELPHIA, 14.—At a meeting of the Aztec Club to day, Gen. Hancock was elected President, Gen. Grant, Vice President, Gen. P. V. Hagner, Treasurer, and Prof. Henry Coppee, Secretary. The Club and other guests dined with Geo. W. Childs. Remarks were made by Gen. Grant, Sherman and Preston, of Kentucky, Mr. Walters, of the London *Times*, and others. Walters closed his speech by an expression of sympathy with President Garfield, and said the heartfelt prayers of the English people from the lowest cotter to the highest nobleman alike were offered up for his speedy recovery.

Dasterdly Assassination.

LITTLE ROCK, 14.—The *Democrat* has the following particulars of the tragedy enacted yesterday in Conway township, near Booneville. Two young men, Robert and William Hamby, brothers, while riding down the south side of Petit Jane creek, were fired on by an assassin from the steep banks of the creek. Robert was killed by shot; two buckshot penetrating his heart. William was fatally wounded, having received two buckshot through the intestines and two in the left arm. He rode half a mile before falling from his horse from exhaustion and loss of blood.

A Hero.

SANDY HOOK, 14.—The engineer of the New Jersey Central Railway, by his coolness and bravery, shown in sticking to his post when the boiler of his engine had exploded, scalding him and the fireman and causing the latter to jump from the cab, prevented what would have been a horrible collision between the train and a steamer at the dock.

Liquor Kicks.

BLOOMINGTON, Ills., 14. — The State Liquor Men's Association decided to organize in each district for the State Assembly to defeat candidates of either party who would not allow their business a fair and equal chance with all other business interests. A resolution was inserted expressing indignation at Guiteau's crime and hope that the President will recover.

Shot.

LEADVILLE, 14.—James Caldwell, a negro, was shot by unknown parties yesterday morning. He will probably die. Policemen were pursuing him at the time he was shot, and it is supposed one of them fired the shot,

"Star" Cases Postponed.

WASHINGTON, 14. — The grand jury of the district adjourned until October 3d. This action created some surprise, for the announcement had been made that some Star route cases would be ready.

FOREIGN.

Iroquois' Victory.

LONDON, 14.—The St. Leger stakes at the Doncaster September meeting were won by Iroquois, Geologist, second, and Lucy Glitters third.

The betting immediately before the start was one hundred to thirty against Iroquois, four to one against Ishmael and five to one against St. Louis.

Another dull day but no rain; attendance very large, Iroquois' victory is extremely popular, and he and Archer were enthusiastically cheered. Iroquois attracted much attention by his excellent style in the preliminary canter. An excellent start was effected at the first attempt. Iroquois was quickest away, but Archer immediately pulled him back. Josy Ann then took the lead, attended by St. Louis, Limestone and Geologist, with Iroquois next. By the time Rifle Bullets were reached Falkirk had taken the lead. Ishmael and Lucy Glitters having joined, leading in front of Iroquois, which continued at the head of the second division. At Red House, Falkirk succumbed to Ishmael, Lucy Glitters second, with St. Louis, Geologist, Scobell, Limestone and Iroquois well up until a half a mile from home; when Limestone joined Ishmael. After another quarter of a mile had been traversed, the two leaders were beaten, and Balgal and St. Louis became distressed. Lucy Glitters momentarily took the lead, but before the distance place was reached, Iroquois came on in fine running, winning easily by a length, passing Lucy Glitters in the last fifty yards. St. Louis pulled up fourth, followed by Eulalie, Ishmael, Fortissim, Limestone and Scobell in the order named. Lord Chelmsford, Josy Ann and Privateer were the last three except Voluptuary, which was kicked in. Time of race, 3 minutes and 20 seconds. There was three-fourths of a length between Geologist and Lucy Glitters.

Sacred Legion.

It is stated 300 Russian nobles have organized themselves under the name of the Sacred Legion, as a counter association to Nihilist attempts on the life of the Czar. They will dispose of a large fund and employ a complete system of secret organization.

Case Postponed.

At the Central Criminal Court to-day, the charge of perjury against Miss Mabel Wilberforce, was postponed until next session of court, she alleging she had witnesses to bring from San Francisco.

A Swift Runner.

George, ex champion runner, made a half mile at Birmingham, in one minute an $\frac{1}{8}$ of a second.

The Land League.

DUBLIN, 14.—The executive committee of the land league, will submit resolutions to the national convention declaring the cause of the political and society ills impoverishing the country is the detestable system of alien rule, and that the people can never be prosperous and content until they enjoy the right of self-government, for which they will never cease to struggle, and a resolution denouncing the coercion act as having been devised in a spirit of malignant hypocrisy, and executed for the gratification of private vindictiveness, and for the suppression of admitted public rights upon men who bore a heavy share in the movement which led the government to initiate the land bill. Another resolution characterizes the land bill as radically insufficient, and says it cannot be accepted as a just, wise, or even temporary settlement of the question. The Executive Committee invites the League, therefore, to solemnly pledge itself to a determined adherence to the principles of the Land League until all its aims are fully accomplished. It is already decided by the Land League to establish a labor league, but to be composed entirely of representatives of *bona fide* laborers. The objects of this executive are the extension of the franchise to laborers, the return of labor representatives to Parliament, and the establishment of peasant proprietary.

Boycotting.

The Inspector General of the Irish constabulary directs the police to oppose the renewal of licenses to publicans who refuse to supply travelers or the police with refreshments, and to publicans keeping posting busine s who refuse to supply cars to police when on duty.

Railway Collision.

In a railroad collision at Patrick's Well, County Limerick, 56 persons were injured.

Another Avalanche.

GENEVA, 14.—With reference to a land slide near Elm, on Sunday evening last, it is feared the list of victims must include 40 men of the neighboring villages who came to aid when first the land slip occurred in the evening, and before the village was overwhelmed by a second slip, which took place at midnight. The river on which Elm is situated has been turned into the lake, and it is feared the valley below will be flooded. As the place is much frequented by strangers this season, it is feared some perished. A fresh land slip at Elm is feared. The rescuers are obliged to proceed with great caution.

Deadly Pestilence in Russia.

ST. PETERSBURG, 14. — Russian journals publish terrible details of a disease now prevailing in the Russian provinces. In certain communities and parishes, all children under 15 years old have died. The origin of the attack dates from 1872, when the disease first appeared in Bessarabia. Since then it has spread far and wide over the southern empire, whence it lately began to make rapid progress toward the east and northwest. In Pultowa, a province of considerable less than two million inhabitants, there have been 45,543 cases, of which 18,765 were fatal.

Change of Ministry.

CAIRO, 14.—The new ministry is definitely constituted. The principal members of the cabinet are Hadai Pasha, minister of finance; Baroude Pasha, minister of war; and Maroshali Pasha, minister of public works.

Submission.

The disaffected officers have signed an act of complete submission to the Khedive, and notables guarantee its fulfillment.

Pork.

PARIS, 14.—Leon Chattau has just published two letters, one addressed to the minister of foreign affairs, the other to the French chamber of commerce, demanding the abrogation of the decree of February, prohibiting the importation of American pork. Chattau proposes organizing shortly a meeting at Paris against the decree.

Settled—Cotton.

MADRID, 14. — France concedes Spain's claim to compensation for the victims of the attack on Soudan. The matter is therefore settled.

Nearly seven-eighths of the firms using American cotton have expressed a determination to stop looms for a week.

French Cut Off.

TUNIS, 14.—Official reports state that the Arabs attacked the French camp at Zaghouan, and the fight lasted 48 hours. Supplies being entirely cut off, the French position is regarded as difficult.

NOTICE.

In the Probate Court, in and for Salt Lake County, Territory of Utah.

IN THE MATTER OF THE ESTATE OF WM. C. STAINES, DECEASED.

Pursuant to an order of said Court in said matter, notice is hereby given that Saturday the 17th day of September, 1881, at 10 a.m. of said day, at the County Court House in Salt Lake City, has been appointed by said Court the time and place for the hearing of a petition of H. T. Burton and James T. Little filed therein, praying that a certain document therewith also purporting to be the last will and testament and codicil thereto of the said deceased, be admitted to probate, and that letters testamentary be issued to petitioners, at which time and place all persons interested may appear and oppose the probate of said will.

D. BOCKHOLT,
Clerk of the Probate Court, Salt Lake County
Salt Lake City, Sept. 8, 1881.
