**HONEY.**—Why is it the purest sweet in the world? It is, and has been, used in the healing art, to the satisfaction of thousands, who can say aught of white, beautiful honey, gathred from the countless thousands of the splendid flowers that adorn our fields and gardens. Honey! What mother lives that is not acquainted with its virtues in banishing coughs and colds from the family; why is it so well known that every candy shop would lose its custom unless Honeybound candy occupied a place, and the most prominent position in every show case. Tar looks black, and ladies raise their skirts for fear of getting their clothes soiled; yet it is the vegetable production of the beautiful pine tree that grows in our southern forests; and by the aid of chemistry it is found to contain medicinal qualities universally admitted by physicians of the highest standing. It is preserving qualities are well understood by every shipowner, and when contagion, disease and death infect their vessels they fumigate the polluted ship from stem to stern with tar, thus removing the demon of disease and death, insuring the health and life of every passenger on board. Honey, Honeybound and Tar combined together, aided by science and the highest chemical skill, form a remedy admitted by the most experienced physicians as the best, most certain and harmless preparation ever made for the radical and speedy cure of Coughs, Colds, Hoarseness, Indigestion and all Bronchial Affections leading to Consumption, from which thousands are suffering. ## EVENING NEWS.

Saturday, October 5, 1878.

### PRICE OF COIN.

Corrected daily by Deseret National Bank. SALT LAKE CITY, October 5, 1878. GOLD. Buying at \$1.95; Selling at \$1.96 1/2. SILVER. (Half Dollars). Buying at 93c; Selling at 94c.

### LOCAL AND OTHER MATTERS.

**Thermometer.**—To-day, 1 o'clock p. m., the thermometer noted 74 degrees F. in the shade. Clear.

**Police Court.**—Wm. Evans and John Doe were fined \$5 each for drunkenness.

**Bee Meeting.**—An important bee meeting will be held in the Council House at 7 p. m., on Monday next. Everybody invited.

**The Fair.**—The fair closes this evening. Exhibitors will please take away their exhibits as early as possible on Monday morning. The delivery doors will be open at 7 a. m.

**Home Again.**—Mr. S. W. Sears, who has been absent several weeks, on business to San Francisco, returned home yesterday in good health, having recovered, we are happy to say, from the sickness which assailed him at the Coast.

**Mutual Improvement.**—A correspondent from Panguitch, Iron County, writes that on the 23rd inst., Elders J. F. Wells and M. H. Hardy addressed an attentive congregation at that place, and organized the Stake in the interests of the Y. M. M. I. A., with Elder David Cameron, superintendent, and Elder M. M. Steele, secretary.

**Election of Trustees.**—Pursuant to a call made for a meeting of qualified voters of the 13th School District, for the purpose of electing three school trustees, to serve a term of two years, a meeting was held at the school house of Hon. Brigham Young, last evening. The trustees elected were B. H. Schettler, John T. Caine and Thomas Latimer.

**Obsequies.**—The funeral of Sister Lydia A. Horne was held in the 14th Ward Assembly Rooms, on Thursday afternoon, at 1 o'clock. Instructive and consolatory remarks were administered by President John Taylor and Elder Joseph F. Smith. The service was largely attended, and thirty vehicles of mourners followed the remains to their last resting place.

**Coal Indications.**—Mr. Jeremiah Gibson has laid upon our table some specimens from a shaft he is sinking up in the mountain north-west of our city, in which the indications of bituminous coal are distinctly evident. Prof. Barfoot and several coal miners of experience have passed favorable judgment upon the specimens. We hope the anticipations of the discoverer will be realized.

**Fire.**—The Salt Lake Post Office had a narrow escape from destruction last night, about 11 o'clock. A roaring fire had been kindled by the clerk on night duty, and the stove became red-hot. The heat was so intense that it communicated a flame to the floor of the building, and a huge conflagration was imminent. Providentially, however, some young men who were passing made the discovery, and with the assistance of the night watchmen and some other parties, broke into the building, and with great promptitude extinguished the flames.

**Sabbath School Notice.**—There will be a meeting of the Superintendents and Teachers of Sabbath Schools held in the Theatre, tomorrow (Sunday) evening at 7 o'clock p. m.

It is very desirable for every Stake Superintendent and other officers of the Sabbath Schools to be present.

A cordial invitation is also extended to the Presidents of Stakes, Bishops, and all others who are interested in the Sabbath School cause.

A special invitation is hereby given to the Tabernacle choir, also the Union Glee Club, that so important a meeting may be cheered with some of the best musical talent the city affords. GEO. Q. CANNON.

**Changes in Office.**—Our dispatches bring information of the appointment of John B. Neil to fill the vacancy created by the resignation of Mr. Barbour Lewis, late Register of the Salt Lake Land Office. Mr. Lewis recently purchased a large tract of land in California, and wishing to bestow upon it his individual attention, about two months ago sent his resignation to the department in Washington. During the whole term of his office here, he has labored faithfully, efficiently and honestly in the discharge of his duties, and for the benefit of the people of this Territory. He has, accordingly, made many friends among the various classes of people here, all of whom will join with us in an expression of regret at his action in the matter, and also in wishing that in future, he may achieve the success to which he is entitled by his integrity of character and business ability. Utah has lost a good official, but California will gain a good citizen.

Of Col. Neil, we can say that during the long time of his service in the Salt Lake Postoffice, he, so far as we can learn, has conducted himself as a gentleman; and we presume that he has the necessary ability to enable him to fill his new position properly. We earnestly hope that for the good of the government and the advantage of the people in this Territory, he may prove as efficient and honest as his predecessor has been.

**Returned Missionary.**—Among the elders who arrived home with the emigrant company Thursday night, was Brother C. D. Evans, of Springfield, who made us a call this morning. Elder Evans left here in November, 1876, and labored in England, from the time of his arrival there, up to the date of his departure for home. He succeeded Elder W. W. Taylor, as president of the Leeds Conference, and on leaving was in turn succeeded by Elder Walter J. Beale. A great many were baptized in the Leeds Conference, and a spirit of inquiry was largely manifested. Some opposition, but no violence, was offered to the Elders, and the people would throng to hear the Gospel, as preached by them. Many outdoor meetings were held, some on Leeds Moor, attended by crowds numbering 4,000.

In Hull, Elder Evans baptized 20 persons, as the result of 12 lectures on "Mormonism." He informs us that the company, just arrived, were in a fine condition all the way across from Liverpool, but one death occurring on the way, and that of an old man, who died from advanced age while on the Atlantic. A birth also occurred while the company was on the cars. Elder Evans returns in good health.

**From Toquerville.**—Brother Isaac Duffin, of Toquerville, Kane County, called upon us yesterday. He arrived in town on Thursday, with the intention of remaining during conference, and to attend the territorial convention, to which he is the delegate from Kane County.

Brother Duffin reports that, owing to late frosts and heavy winds in the Spring, the grape crop of Toquerville will be but one-fourth of the usual yield, and the apple and peach crops but one-half. Some little distress will be occasioned by this partial failure of the fruit crops, inasmuch as the people raise no grain and are therefore dependent for subsistence upon their vineyards and orchards. There is no sickness among the people, nor has there been illness to any great extent during the past year. The settlers there are industrious and frugal, and there is no doubt of their being able, with the blessing of Providence, to speedily recover from their losses.

Brother Duffin located and now owns the "Duffin Mine," at present under lease to Colonel Neckolls, of this city, who is working it energetically and successfully.

**The Fair.**—The attendance at the Fair to-day has been very large, notwithstanding the counter attractions of the matinee, the races, and the base-ball match. None of the stock has been on exhibition, for some reason. This has been a matter of great regret to visitors who had not the opportunity to attend on previous days. In this community an exhibition of stock draws a large class of people who would not otherwise be attracted to exhibition of any other character, therefore these people were greatly disappointed to find that owners had withdrawn all their animals. The directors cannot, of course, be blamed now, but we think that in future some regulation should be made whereby exhibitors would be required to leave their stock at the Fair until the close. Aside from the objection on this account, visitors to-day, especially those from the country, have expressed themselves as being very well pleased with the showing in the numerous departments and the performance of the Martial Band.

**From Spring City.**—Elder Orson Hyde arrived from Spring City, Sanpete County, night before last, for the purpose of attending the General Conference. He reports affairs as prosperous in the community from which he comes, the crops as unprecedentedly bounteous and the people feeling and doing well. They have been so busy this season that the work on the Mani Temple has been measurably delayed, their force of work hands being engaged in attending to the crops. Elder Hyde desires to say to the people of the several stakes, interested in the erection of the Temple, that a stronger effort must be made, a better turnout of men and teams, in order that the foundations of that edifice may be finished for the laying of the corner stone at the next quarterly conference.

**Stockholders' Meeting.**—At a meeting of the stockholders of Z. C. M. I., held in the Council House, Oct. 5th, at 2 p. m., a dividend of three per cent, was declared on the capital stock of the institution, for the last six months. The following are the new officers:

W. H. Hooper, President; Wm. Jennings, Vice-President; Directors, John Taylor, H. E. Eldredge, W. Woodruff, Geo. Q. Cannon, Moses Thatcher, John Sharp and David O. Calder; Secretary and Treasurer, Thomas G. Webber.

**Theatre.**—A crowded house at the Theatre last evening made the building ring with laughter over the quaint and humorous performance of Haverley's minstrel. It is a first-class company, the best of the kind ever seen on the Salt Lake stage, and a bill will be given tonight that will delight all who attended.

**Plowing Match.**—The plowing match which took place yesterday at the field of Mr. Alma Pratt, south of the city, resulted in a victory for Mr. Isaac Hunter, of the 16th Ward. The committee awarded the prize to him for having done better, cleaner and more even plowing than any of his competitors.

**Quarterly Conference.**—The Quarterly Conference of the Salt Lake Stake of Zion began this morning, at 10 o'clock. The forenoon session was occupied by Elders Joseph E. Taylor, Angus M. Cannon and Joseph Young, Sen.

**Lost.**—A black money purse was dropped on the Utah Central cars which arrived here a few minutes before 10 o'clock this morning. The finder will oblige by leaving it at the Deseret News Office.
