EVENING NEWS. . October 24, 1885 THE MAILS WHEN THEY ARRIVE AND DEPART. MALLS. ARRIVE. CLOSE. Eastern alifornia and west . 11 00 am. . . 4 25 pm. the above is standard mountain time. JOHN T. LYNCH, Postmaster. THE STAMP CLERK. THE STAMP CLERK. HE MUST BE A MATHEMATICIAN, ATH-LETE, ACCOUNTANT, ENCYCLOPEDIA AND MIND-READER-AND NEEDS PA-TIENCE AND AN IRON CONSTITUTION. THE works in d narvous allments that prevail in The employment of the clerks in "The employment of the clerks in "Some young ladies." "Does the presence of arsenic in an apartment accessary imply thatitmanst intervent about it was very soon found that one bean unhealthy place of abode?" "Not of mecessity: still, I myself would not care to sleep in such a room Odors may be given out that are sure to sicklen the stomach if the work is and generally watching the good per-intervent of the clerks in "Does the presence of arsenic in an apartment accessary imply that it was very soon found that one worker to superintend two machines; and as the michine in became the custom for one worker to superintend two machines; and as the michine improved in quali-ty, and the turning of the steam engine improved in regularity, another and and nervous aliments that prevail in another loom was added to the charge believer to superinterve of the curve of the present transpondent of the curve of the present transpondent of the clerks in "The employment of the clerks in some young ladies." HE MUST BE & MATHEMATICIAN, ATH-"The employment of the clerks in the retail stamp department of the gostoffice," said one of them the other Quite recently a woman lost her eye-common for one worker to superintend Modern improvements in projectiles postoffice," said one of them the other day, "is generally regarded as exceed- sight in this city while cleaning a carit is exactly the reverse. In my opinion fastened with arsenic. I do not believe loom has progressed rapidly; the num- to be; war is waged on so much larger it is the toughest and most intellectual any physician would maintain that it job under the roof of the government was proper to place such a carpet for oulding. The bare fact that they wait use in any room." work of one clerk in the money-order department is regarded by some as the hard st place, because he has to conhard st place, because he has to con-duct 1,000 money transactions a day. But the retail stamp clerk deals in dol-iars cents and mills, has to do all his and sell our good moder to produce the steam power which has been the proportionate duct and sell our good moder to be induced by some as the state of the number of yards produced has in-other possible issue to a difficulty wars are like duels betweet individ-uais. They still occur sporadically this kind. It is our business to import duct and sell our good moder to be a difficulty this kind. It is our business to import duct and sell our good moder to be a difficulty this has been the proportionate in the strate of most be strated by the strate of the But the retail stamp clerk deals in dol-lars cents and mills, has to do all his ciphering in his head, like the 'lightning guards; after that all our responsibility done this has been the proportionate calculator! on the work of the coal which seem to leave no choice but to calculator' on the street, and has from 3,000 to 4,000 of them a day. That num-ber may seem large to you, but we onen wait on as many as a dozen peoor eight hours that we are on duty." "The preparation of arsenious acid which they cannot provide for them-ple a minute, and will average from is a most bazardous occupation. The selves, the above state of affairs may, men that it is often safe to leave a show or his a most bazardous occupation. The selves, the above state of affairs may, men that it is often safe to leave a show or his own pun for the age of 40, and their mean term for the age of 40, and their mean term for the age of 40, and their mean term for the age of 40, and their mean term for the age of 40, and their mean term for the age of 40, and their mean term for the age of 40, and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and the mean term for the age of 40 and th fore the age of 40, and their mean term from years, indice expectatly we in this isometry, that of life runs from 30 to 35 years. They are obliged to avoid alcoholic drinks and to live principally on leguninous vegetables, with plenty of butter, tak-ing very little meat and that fat. To each man, two glasses of olive oil arc bus from its that ing to roll of the short of the short of the short of the short of the bus from its the short of the short of the short of the short of the bus from its the short of MISTAKES MADE. "What are the chances for making mistakes? "facy are unrivaled. We have seven kinds of stamps, two kinds of postal ach man, two glasses of olive oil are "To what extent is the drug used as grosses, the disproportion between ards, and about twenty kinds of ca-velopes and wrappers to sell. These are disposed around the clerk, not all administered daily. medicine?" "A very small traction of the imporof them within reach, and when he beins to serve customers he looks like a tation is used for that purpose. It is and the nearer we approach to the time undredth of a cent; and if the amount lady will find that not only her dazzling s so many cents and a fraction he must vision but her bodily energies will melt other pursuits. Such, howeves, are harge the next higher number of cents. This is extremely interesting. Some of dealers know a thing or two about ar-

the envelopes are 2.24 cents apiece; and if a customer wants ten of them,

the envelopes are 2.24 cents apiece; indfail a customer wants ten of them, it is comparatively casy to tell what to harge him, but when he wants 20 cents vorth of them the clerk feels like re-digning his position. Of course, when ery busy, he is liable to make a mis-ake about it. "Then the sale of stamps is very isngerons. Some pcople want ten tamps, and the clerk constantly con-tamps, and the clerk constantly con-set acces these calculations would net effect of the drug dies out the horse

ating and beautifying purposes. Some of the chemists, while expressing a desire not to be quoted, freely admit-desire not to be quoted, freely admit-ted that health and life were being en-dangered by a too free introduction of the Bistop's remarks. A chemist who is engaged in the ser-vice of one of our leading importing houses, and who is an an acknowiedged authority among his brethren, such

authority among his brethren, said: case, for it is self-evident, that into a united tiermany was preferrable to a "It is no secret that the careless and unskillful handling of arsenic and ar-senical preparations results in serions liness and in heavy loss of life every work. Quality has been subjected to will record as inevitable and, on the
