RAILROADS IN DEMAND.

This Caused a Pronounced Improvement in Wall Street.

Later, There Was a Drop, and the List Became Dull—Live Stock and Produce Slow.

New York, Feb. 20.—Wall Street: Trading was active and well distributed at the opening, but changes in prices were small. A brisk demand arose for the lower priced railroads. Improvements elsewhere were also pronounced, the high priced coals rising on an average of 1 1/4. Heavy liquidation of third avenue, coincident with a raid on sugar, checked the rise and realizing set in. Third avenue dropped 4 points. The bear traders extended the scope of their operations. Sugar, People's gas and some of the steel stocks broke rapidly, and Third Avenue sold down to 9 1/2. Covering then commenced, and the price of Third Avenue worked up on the shorts 3 points. Evidence of support in that stock induced buying for both accounts elsewhere, and the most active specialties recovered from sharp fraction to 2 points. The general list became dull at a sharp fraction below the best. Bonds were quiet and slightly higher.
