

DEMOCRATS DON'T AGREE ON TARIFF

Those of Senate Hold Long Conference and Reach Partial, Non-Binding Agreement.

FOR INCOME TAX AMENDMENT

Some Frankly Admitted They Would Seek Protection for Industries of Their States.

Washington, April 14.—For more than four hours the Democratic members of the senate conferred today in an effort to agree upon a tariff policy. After the session Senator Culberson, the minority leader, announced that the Democrats had agreed to support an income tax amendment and to stand for substantial reductions in schedules, and particularly for a decrease in the rates in the necessities of life.

The decision is not binding and the meeting was not entirely harmonious. Some senators admitted frankly that they could seek protection for the industries of their states. Senator Stone spoke in favor of his program for independence of the Philippines after 15 years, and absolute free trade with the islands during that period. Senator Dyer was opposed to free trade with any of the colonies. Neither of these senators, it was apparent, could have obtained a majority of the Democrats for their propositions had a vote been taken.

Only on one question was the conference agreed, and that was the income tax. The conference adjourned until Friday, as those present agreed that they were not sufficiently acquainted with the bill to pass judgment intelligently upon it.

While the Democrats were in session the committee of the finance committee tomorrow were delivered to the minority members of that committee.

In view of the criticisms made of the tariff bill as amended by the senate finance committee, particularly the objection that the bill will not provide sufficient revenues, Senator Aldrich will undertake, on Monday, satisfactorily to explain the revenue features of the measure.

The senate committee has the benefit of the advice of the best experts in the government service. These experts declare the bill, as amended by the senate, will raise much more money than appears, and Senator Aldrich still insists that no additional internal taxes will be needed.

Great dependence is placed by the senate lawyers on the work done by the new senate committee on public expenditure. Information is being collected by him which will be used in making down annual appropriations. The senate leaders have taken the position that governmental extravagance must cease, and it is reported that Mr. Aldrich will recommend a reduction of about \$25,000,000 from the \$150,000,000 of permanent funds, and that a like sum may be pruned from the regular annual appropriations for the various executive departments.

CHILD STRAYS TO ROOF AND DIES OF EXPOSURE

New York, April 13.—Jacob Cohen, a little boy of 2 1/2 years, died of exposure early today after having been found on the roof of the tenement house on the East Side last night where he was reported to be at least 12 hours, possibly 20. His moans and cries were heard from time to time Tuesday night and during Wednesday, but not until 11 o'clock last night was he found.

The janitor, who lives on the top floor, heard faint moans from overhead that drifted in through an open window of his room. Taking a lighted lantern he made his way to the roof, but in the rain and darkness could see nothing. For a moment he stood still

A Tonic or a Stimulant?

Ayer's Sarsaparilla is a tonic. It does not stimulate. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your doctor all about this. Trust him fully, and always do as he says.

BALTIMORE BRIDE WHO GETS \$500,000 DOT; NEW YORK SOCIETY MAN WHO WEDS HER.

The wedding of Miss Harriet Stewart Brown of this city and T. Sufferin Taylor of New York, which took place at the brown mansion in Baltimore on April 14, was the biggest society event of the season. Miss Brown is a daughter of Alexander Brown, Baltimore's wealthiest banker, and Mr. Taylor is one of the most prominent society men in America. Mr. Brown gave his daughter a check for \$500,000 as a wedding present. Among the guests were Mrs. Cornelius Vanderbilt, Mrs. Armstrong Smith of London, Mr. and Mrs. Harry Lehr and Mr. and Mrs. Livingston Beckman. Mrs. B. Howell Griswold, Jr., sister of the bride, was her only attendant. Edward de Ruyter Livingston was the bridegroom's best man. The ushers were R. Howell Griswold, Jr., and George May of Baltimore. George Gould, Robert Russell, Benjamin Nicol, Ford Huntington, George Baker and Lytle Hall, all of New York.

and listened and in a little while was guided by the repeated sounds, to a chimney. There huddled in its slight protection he found the boy in overall, unconscious, soaked through with the rain, "cold as a lump of ice," he said, and dying.

As the child of Ignatz Cohen had been missing since early Tuesday night, the parents were notified of the finding of the little form on the roof and the father identified the body of his son at a police station. Cohen told the police that he and his wife thought that the boy was sleeping soundly in another room Tuesday night, but that in some way he had slipped from his bed and left the house. He could not imagine, he said, how the little fellow had made his way to the tenement where he was found, nearly three-quarters of a mile from the Cohen home, or how he had reached the roof.

KILLED BY A DISCUS.
Springfield, Ill., April 13.—Barrett F. James, 14 years old and a freshman of the Springfield high school, is dead as the result of a fracture of the skull suffered on the school campus when a four and one-half pound discus slipped from the hand of a schoolmate during athletic practice.

PLEADS GUILTY TO MANSLAUGHTER
Sarah Koten Says She Was God's Instrument in Killing Dr. Martin W. Auspitz.

WILL BE SENTENCED FRIDAY.

SHE WAS A NURSE AND SAYS THAT HE ATTACKED HER WHILE UNDER INFLUENCE OF ANAESTHETICS.

New York, April 14.—Sarah Koten, the young Russian woman charged with shooting and killing Dr. Martin W. Auspitz, on Aug. 7 last, pleaded guilty to manslaughter in the first degree when called to trial for her life in the supreme court here today. She was remanded for sentence on Friday.

The crime to which the young woman pleaded guilty was sensational and the story which the prisoner told shortly after she had killed the physician in the vestibule of an uptown apartment house aroused widespread interest in her case. She had killed Dr. Auspitz, she said, because he had attacked her while she was under the influence of an anaesthetic during her term of service as a nurse in a sanitarium which the physician conducted. She brought with her today from Blackwell's Island, where she had been a prisoner, the baby boy born to her since the shooting. She had expressed confidence that entire justice would ultimately be done to her. In a statement, she declared that she was merely the instrument of God in the killing of the physician, as her efforts to punish him in the courts had not succeeded.

HARRIMAN'S PLANS FOR FREIGHT TERMINALS

New York, April 13.—Yesterday's decision of the supreme court which confirms the title of the city of New York to 11,000 acres of land in and adjacent to Jamaica bay is looked upon as opening the way to the realization of a project formulated in 1882 by J. H. Harriman, whereby freight terminals involving the expenditure of \$25,000,000 were to have been erected at Rockaway Point.

Mr. Harriman's plan as announced at the time was to dredge and maintain a channel across the narrow bar at the entrance to Jamaica bay and to build a breakwater for a distance of a mile and a quarter out to sea. A series of piers with water alongside of a depth of 50 feet were to have been utilized by the Pennsylvania railroad.

Mr. Harriman is known to have owned a tract of some 400 acres.

Way above them all. Its popularity has ever risen since first it saw the light of printer's day. No magazine excels it, no magazine even approaches it, in literary merit, in artistic illustrations, or in excellence of the publisher's art. For twenty years it has gone into the same homes uninterruptedly. It was the first to blaze the way for a 35-cent magazine to be sold for 15 cents. Its price remains the same to-day, but its quality surpasses the same publications. Never has the number of the paid-in-advance subscribers been approached—much less equaled—which shows that its readers do not buy it on the newsstands occasionally in order to read only certain articles, but they want it regularly that they may read all of its contents every month.
