It is not yet clear which wing is making a demonstration, and which will deliver the main blow. It is evident from Linevitch's preparations that he intends to accept a decisive battle.

OYAMA TAKING OFFENSIVE.

St. Petersburg, May 20.—The war office confirms the report from Gunshi Pass that Field Marshal Oyama is on the eve of taking the general offensive in which the Japanese armies in the present positions. The general staff believes Oyama's advance was precipitated by the doubt regarding the issue of the command, a battle between Admirals Rojdestvensky and Togo. With an unbeaten army in front of him Oyama's position might be critical if communications with Japan were interrupted even temporarily.

PRESIDENT ASKED TO TAKE UP EQUITABLE LIFE MUDDLE

New York, May 20.—President Roosevelt has been requested to take cognizance of the situation that has brought out the Equitable Life Assurance company in trouble and to institute a national investigation of the insurance business as it is now conducted. The inquiry into the best trust and the present standard of investigation are quoted as precedents.

This request was made by W. F. King, former president of the Merchants' association of this city, who has written the president as a policy holder in several companies, asking that such an investigation be made under the interstate commerce law; that should this course be deemed not practicable, Mr. King asks the president to appoint a national commission on the issue of the coal commission that settled the anthracite strike, to make an inquiry and report.

THE CLIMATE IS AGAINST THEM

Minister Barrett Considers Report of Yellow Fever Cases at Colon as Alarming.

New York, May 20.—Sanitation and preservation of health is the one great problem which confronts the American authorities in the Panama canal zone, according to a statement given out by John Barrett, the American minister to Panama, who arrived here today on the steamer Advance from Colon. He considers as alarming the report of five cases of yellow fever at Colon.

THE CLIMATE IS AGAINST THEM

Minister Barrett Considers Report of Yellow Fever Cases at Colon as Alarming.

"Existing conditions on the isthmus present many difficulties," said Mr. Barrett. "The sanitation problem is new and presents many difficulties. The climate is against us, and is ever present. Under the efficient care of Dr. Georagk, the eminent yellow fever expert, everything possible is being done to offset the increase of mortality. An alarming condition is the report of five cases of yellow fever in Colon. It is alarming because up to the time there were reported, no yellow fever had appeared, and it was hoped that the situation was in hand. Considering the enormous number of canal employees on the isthmus a very small percentage of illness prevails, but you know how these things are. If one half was sick with malaria nothing would be thought of it, but a case or two of yellow fever appears and all the employees want to quit and get away. I believe those sanitary and health problems will be met successfully, but they far overshadow all others."

PARTY ON ARIZONA DESERT RESCUED JUST IN TIME.

San Diego, Cal., May 20.—George W. McKane, who has arrived from Imperial, tells of the rescue of four persons on the desert, who were almost dying for lack of water. The party consisted of a Mr. Priest, and three women, formerly of Phoenix, Ariz. They undertook to cross from the latter place to California, and had been driven out, and at a point between Imperial and Old Beach they were almost ready to give up. Just then McKane and his party arrived, and with water and directed them to the nearest well. Their subsequent movements are not known.

N. G. U. BOOKLET.

Historical Sketch of First Battery Comes From the Press.

A very neatly gotten up historical sketch of the First Battery, field artillery, National Guard, has been published for circulation among those interested in the advancement of the cause of the Guard in this state. It is a booklet of 15 pages with every other page occupied by half tone illustrations exhibiting the work and maneuvers of the battery. This valuable little work states the purposes of the Guard, the requisites for membership with advantages to be obtained by the same, and gives a succinct and readable history of the battery organization. An interesting feature of the history is the account of the battery during the service in the coal fields of Carbon and Emery counties, where the soldier boys made such an excellent reputation for themselves.

Battle of Utah Giants on University Campus

Great Athletic and Speed Contest in Progress on Cummings Field This Afternoon—Out of Town Teams Arrive From the North and South to Engage in Struggle of Strength and Prowess.

Today at 2 o'clock the four-cornered track meet for first place in the state of Utah, was begun. Aheady breeze marred an otherwise ideal opening, but it is thought that this will not seriously interfere with the time made, as its direction makes it quite as much of a help on one half of the track as it is a hindrance on the other. The contest is expected to last until nearly sunset tonight, when the fate of the day will be known.

The visiting teams for the meet arrived in Salt Lake last night, and this morning entered the field in the pink of condition, and piping full of energy. The rosters from all four colleges were out in force, backing and blowing over into long standing lines on either side. At the north end were the L. D. S. U. supporters, next to them the B. Y. University men, and women, and on the south end were the A. C. U. and the U. of U. sections. The grand stand was neutral ground, filled mostly by citizens and alumni.

LOGAN IN FINE FETTER.

Logan, going over each man's muscles till every sign of stiffness and soreness was gone. For careful training and condition, his men are perhaps the best in the meet.

New York, May 20.—Sanitation and preservation of health is the one great problem which confronts the American authorities in the Panama canal zone, according to a statement given out by John Barrett, the American minister to Panama, who arrived here today on the steamer Advance from Colon. He considers as alarming the report of five cases of yellow fever at Colon.

Prisoner Was Discharged and Bail Was Turned Over to One of His Attorneys.

The sum of \$200 deposited in the criminal division of the city court as bail bond for N. Karatzias, who was charged with burglary, is the cause of a suit being filed today in the civil division of the city court by L. G. Skirris, ex-officio clerk of the city court. The complaint alleges that plaintiff deposited the money with the clerk on March 16, 1905, as bail for Karatzias, and that the latter was bound over to the district court.

SHEA IS HOLDING OUT FOR TERMS.

Is Seeking to Secure Reinstatement for Other Employees of R. R. Express Companies.

THIS ROCK MAY WRECK PEACE

Strike Waits on it, All Other Matters in Controversy Apparently Being Settled.

Chicago, May 20.—Formal conclusion of peace in the teamsters' strike waited today on the efforts of President Shea and an associate, A. J. Reed, to secure terms of some sort for the former employees of the railway express companies, all other matters in controversy apparently being settled. The express drivers have even a single instance. At the solicitation of the union leaders the express companies' representatives here agreed to communicate with their offices in New York on possible concessions. This phase of the situation threatened today to prove a rock on which possibly the peace plans might be wrecked. A preliminary statement by the New York officials of the express companies to modify the stand taken by Chicago representatives it was contended that the labor leaders might endeavor to center a fight on the express companies, lifting the ban from all other concerns. No definite steps in the direction were taken, however, pending a reply from the higher officials of the express companies.

COMMITTED TO REFORM SCHOOL.

Two boys about nine or ten years of age were committed to the reform school today by Judge Brown of the juvenile court for being drunk.

The boys had been before the court on a previous occasion, one for stealing chickens and the other for truancy. They had both been placed on probation and were to have reported to the court yesterday. Instead of reporting they went off to the copper plant in the northwestern part of town and stayed there nearly all day.

JIM PLAYED WISE.

A saloon keeper by the name of Jim Tatum was fined \$50 and costs by Judge Brown for selling liquor to minors.

He paid his fine and was discharged. The court tried to induce Jim to take his case to the police court so that he could be tried under the brother law but the latter played wise and submitted to the jurisdiction of the court and got off with a fine as stated above. It is thought that enough evidence could be obtained against the saloon keeper to have given him the maximum penalty had he appeared before the city court, as a number of people on west Second south near the saloon say that he makes a regular business of selling liquor to young boys.

MYSTERY CLEARED UP.

Missing Boat on Green River Was Forced to Turn Back.

The mystery of the missing boat has been cleared up. Word received from the south indicates that the steamer, City of Moab, which was thought to have gone down on Green river several days ago, had encountered a slide of earth on route to Moab, and was forced to turn back, arriving at Green river station last night. The voyage was a pleasant one, and aside from the unexpected obstruction, caused by recent heavy storms, all on board had a highly interesting time.

WEDDING OF CROWN PRINCE FREDERICK

Entertainments in Celebration of The Event Will Last for Four Days.

THEY BEGIN SATURDAY, JUNE 3

Duchess Cecilia of Mecklenburg-Schwerin Will be Received at the Brandenburg Gate.

ONE HUNDRED YOUNG LADIES

All Dressed Alike in Gretchen Costumes Will Present Flowers to Their Future Empress.

Berlin, May 20.—The entertainments in celebration of the wedding of Crown Prince Frederick and the Duchess Cecilia of Mecklenburg-Schwerin, will last four days, beginning Saturday, June 1, the day the bride and her family arrive here from Schwerin and take up their residence in the Bellevue palace.

The duchess will be received at the Brandenburg gate by the chief burgomaster and the city fathers, and by 100 young women of well known families, who have been drawn by lot from several hundred candidates and who will present flowers to their future empress.

The girls will be dressed alike in Gretchen costumes, with their hair in braids down the back. Behind the crown prince and his bride will ride the butchers, postmen and deputations from other trades and occupations, according to immemorial custom.

Those chosen to form the cavalcade are now in training at the garrison riding schools.

The emperor has commanded that the entrance into the city, which will be the only public celebration, shall be simple and if possible beautiful.

The three-quarters of a mile of Unter den Linden from the Brandenburg gate to the palace where the emperor and empress will await the Duchess Cecilia will be hung with garlands of roses. Artificial ones naturally will be the only sort used, as they will have to stand four days' exposure. Eighty thousand garlands have been ordered, and windows along Unter den Linden have been selling for from \$30 for the former to \$125 for the latter. Except for the numerous court equipages and uniforms which will be seen in the streets, and the princess coming and going from every hotel, there will not be anything for the public to see, for the services will be private and only members of royal families, ambassadors and a few other important personages and government officials will take part in them. The chapel of the palace where the wedding will take place only holds about 300 persons, and there will be a service at the cathedral on Monday and a dinner at which the Hohenzollern and Mecklenburg-Schwerin families and the visiting princes, of whom there are 50 or 60, will be present. There are so many princesses coming, each of whom must be treated ceremoniously, that the imperial court marshal's office is perplexed over questions of precedence. The ambassadors probably will be invited to only one or two functions so as to avoid placing them below members of small German houses.

The wedding gifts will be presented in the palace on Monday morning, June 5, when deputations with congratulations will be received. Later there will be a sumptuously attended breakfast and the state dinner will be served at 5:30 p. m. the afternoon so as to be ended in time to permit of the punctual appearance of all the guests at a gala performance at the opera the same evening. The civil ceremony of the wedding Tuesday, June 6, will be performed by House Minister von Wedel and the religious rite will be celebrated by Dr. Brander, the court chaplain, in the palace chapel. The procedure to be observed in the wedding of the crown prince fills 13 pages of the book of ceremonies of the house of Hohenzollern.
