# BIG SALE OF COPPER.

(Pollock Special Wire.) Boston, Dec. 11.-Boston News Bureau says: A lot of 400,000 pounds of electro-lytic copper has just been sold at 13½ cents, immediate delivery being called for. The market thus far this morning has developed no feature of interest and the increased demand which made its appearance last week has simmered down to a minimum. Some few sales of 13½ cents have been made by the United Metals Selling company in the past day or two. The export movement of copper to Europe continues large, and if shipments recorded since the first of the month are any criterion, the month of December will have shown another record in exports of copper. (Pollock Special Wire.) New York wires: Copper metal re-duced % cent today. Lake, 13%@13%; electro, 12%@12%; casting, 12%@13%;

The three miners entombed in the Alpha shaft of the Giroux Consolidat-ed, are hopefully awaiting their libera-tion by the herole men who are work-ing night and day above them, says the Ely Mining Expositor. The resences are in more peril than

The rescuers are in more peril than are the men imprisoned by the thou-sands of tons of rock and earth, for should such another run start, which in the terms of the start of

The entrapped men are in no danger of perishing so long as the 6-Inch over-flow pipe, which was used to carry water to the surface from the 1,100 foot jevel remains intact. Through this pipe

water to the surface from the 1,00 tool ievel remains intact. Through this pipe food and water are lowered in vessels made of 2-inch pipe cut six inches long, with caps screwed on each end. Two men are kept constantly on a windlass lowering these vessels, filled with food and water, and hoisting them up again when emptied by the men below. The food and water are stored to insure a sufficient supply to last the men until they can be liberated, in case the pipe should become detached from the pressure of the ground on the side of the shaft on which the pipe is fas-tened, which, it appears, has not been seriously disturbed yet. Two weeks, at least, will be required to reach the men through the mass of debris. Aside from removing the im-mense amount of earth and rock, it will be necessary to "catch up" the loose erround as the shaft is onened a task

be necessary to 'catch up' the loose ground as the shaft is opened-a task requiring great care and skill and one which a practical miner only can fully appreciate.

# TO BUILD AT LEADVILLE.

TO BUILD AT LEADVILLE. A inte dispatch received yesterday from Leadville. Colo., says: One of the largest independent smelters in the west will probably be built at Lead-ville within the next year by the own-ers of he famous Greenback mine a. Bingham, Utah. This syndicate owns the smelter at Bingham, which has been closed down by injunction pro-ceedings. The Utah men flud that they can ship their ore to Leadville and smelt it here just as cheap as they can at Bingham, as the necessary fluxing ores they must have can be obtained in Leadville. Leadville

In addition to treating its own ore the Clah syndicate promises to go into the Leadville market for custom ores.

# MAMMOTH DIVIDEND.

# One Will Probably be Posted Today-Utah Tomorrow.

Utah Tomorrow. The directors of the Mammoth Min-ing company are scheduled to meet in regulai monthly session and it is pre-sumed that among other things to re-relve attention will be the matter of the December dividend. This company has distanced two dividends this year, such for \$20,000. It is believed the usual amount will be divided atmong share-holders this mouth, making the total for the year \$60,000.

The directors of the Utah mine meet tomorrow. An official of that corpora-tion said lodgy that the usual \$3,000 nd he ordered said, making the total for the year \$36,900

# DEVELOPMENTS IN NORTH.

# Spokane Organization Opening Up Big Mines in Yukon Territory.

special Correspondence Special Correspondence. Spokane, Wash., Dec. 11.-W. J. El-mendorff of the Arctic Cliff Copper Mining company, a Spokane organiza-tion headed by T. B. Garrison, presi-dent; Col. W. J. C. Wakefield, sec-retary, and C. P. Robbins, president of the Spokane Tin Mine company, and operating a group of claims in the White Horse district, Yukon territory, said on his return from the north-land:

"Considerable development was done in the district last summer, and large

In the district list summer, and large hodies of copper were discovered. In the Arctic (Tiff claims alone there are now blocked out 100,000 tons of ore. This carries about 5 or 6 per cent of cop-per, and from \$4 to \$5 ln silver and gold to the ton. The entire deposits of the district are of the same quality.

of the district are of the same quality. Much development work has been done by other companies also. "Our development has been on the Rest Chance near White Horse. The White Pass & Yukon railway is now building a spur 12 miles in length to penctrate this district, and open up also the Pueblo mine, where Byron N. White of Spokans, has been oper-ating for two years. We expect the railway to have reached the mines by next July, and then shipping will be-gin. By that time there will be sol tons of, ore daily for shipment. This will be treated at the various smelters on the Pacific coast. Our own company expects to ship about 100 own company expects to ship about 100 tons a day.

# "We have shipped out already gas tons of ore, this amount being having by wagon a distance of seven miles."

NEW CHARGES BY RAILROADS.

# Important Order Issued That Will Regulate Reconsignment of Ores.

A new order that will full hard upon the already over-burdened chipper of ores, has been issued by the Oregon Short Line. In connection with the Ban Pedro, Los Angeles & Balt Lake railways. The order is operative after yesterday, and really means that the element will have to give the railroad companies a consignment charge. A part of the order which is caus-ing and little amount of uncatives among mine operators is as follows. "Bection C. If destination is changed before arrival at first destination and before delivery is made, i. e., before cay is set on warehouse or team track for un-A new order that will fall hard upon

#### icials of Amalgamated Decide to Further Curtail Production.

A Boston News Bureau special over e Pollock wires late yesterday tells of directors of the several subsidiary companies of the Amalgamated Coppor several subsidiary company having decided upon radical neasures Saturday to meet the unfavorable conditions prevailing in the cop-per trade. It was decided to suspend operations entirely at all the producing mines of the Butte Copper company, with the single exception of the Boston & Montana mine, where the business of the great copper trust will be concen-trated. An accurate idea of the stag-nation in the concen-producing business

trated. An accurate idea of the stag-nation in the copper producing business of Montana can be gained by the news made public Saturday that only 7,000,-000 pounds of copper were produced by the Amalgamated Copper properties in Montana, during November. This amount marks a decrease in production of more than 70 per cent from the nor-mal production. Before action was taken to close down the Washoe smeller and Butte mines, the situation was carefully canvassed by officials of the various Amalgamat-ed subsidiary companies. There were present at the conference, which lasted three days, H. H. Rogers, James Still-man and William Rockefeller. One of the conference said: "There was nothing else to do but to

"There was nothing else to do but to close down the mines. When the cost sheets of the various companies under they showed a copper cost in some in-stances as high as 20 cents a pound. We could not very well resume operations in full, under existing metal trade conditions, so there was only one this to do--close down.

# MANY MEN FOR GOLDFIELD.

MANY MEN FOR GOLDFIELD. A wire from William Bird, secretary of the Goldfield Mine Owners' associa-tion, declares that no effort will be made to employ men from outside points, if a sufficient local force can be secured. Mr. Bird is in receipt of letters and telegrams from Great Fails, Bingham, Buito, San Francisco and Pittsburg offering miners and mack-ers. One hundred and fifty strike-breakers from Cripple Creek and Coour d'Aleme, now at Bisbee, want to come, Great Fulls wires for transportation for 50 or more men, to be deducted for 50 or more men, to be deducted from wages, and San Francisco is able to furnish from 500 to 1,000 miners and markers. Yow local applications have been received.

#### CONCENTRATES.

Dan Clays, one of the leading bust-ness and mining men of Blackhorse, Nev., is in the city for a few days.

W. G. Adamson, a prominent min-ing man of Winnemucca, Nev., is in lowu for a short stay.

John G. Stilwell, postmaster of Alta, has returned to that camp after a short trip to Salt Lake.

The Robert Hurns Copper company, operating in the Deep Creek region, is figuring on installing a mill in the near future.

President C. M. McNeil of the Uiah Copper company and Chester Beatty will arrive this afternoon from Colo-rado Sectors rado Springs.

Ore and buillion settlements in this city, as reported late yesterday by W. E. McCernick & Co., amounted to \$57,-000 as follows: Silver, lead, gold and copper ores, \$10,000; hase buillion, \$40,-000.
