The Semi-Weekly News.

THE GREAT COUNTRY PAPER OF THE WEST.

Is issued Mondays and Thursdays and contains all the cream of the Daily and Saturday News.

LOCAL BRIEFS.

Robert Higbee, formerly of England, has been admitted to citizenship by Judge Morris.

Troop A is preparing for inspection next week, with all the important inspections following later.

The north side barracks at Fort Douglas are to be taken down to make way for the new buildings to be erected in the near future in their stead.

The Skandia Singing and Dramatic association will hold its annual outing at Calder's park July 20, with a novel program, including a concert by 60 persons on the lake.

A company of Ogden is drilling three times a week, and proposes to beat the other companies of the national guard in its showing at the coming summer encampment.

There was another attempt at advertising kites flying this morning on East Temple street, near the south end. The effort was disastrous, as the great red cloth flyer got mixed up in the street wires, and staid there.

The state engineer has been asked by the users of Spanish Fork irrigation water to apportion the water among them, the petitioners install gauging devices to measure the water.

This will do away with the six watermasters who have not always been able to agree.

George W. Burratt will exhibit for the next two weeks, in room 310 Atlas block, a collection of pen and ink work. Mr. Burratt is only 19, and graduated from the Salt Lake High school in 1903. The hours for public inspection will be 10 a. m. to 12 m. and from 2 to 5 p. m.

Landlord Holmen of the Knutsford expects to make a trip to Gloucester, Mass., later in the month, where Sylvester Cunningham, owner of the Knutsford hotel property, is lying dangerously ill of kidney troubles. Mr. Cunningham's business partner, Hon. Charles P. Thompson, died some months ago, and now Mr. Cunningham himself may be called away.

About 6 o'clock last evening there was a fire in a barn and a stack of hay belonging to W. E. Wykes, 2455 Locust avenue, below Twelfth, South between Fifth and Sixth East streets. The apparatus from No. 4, and the steamer and Chief Bywater from No. 3 responded, and soon had the blaze out with a loss of about \$25 to the hay. The firemen did good work in saving adjoining property.

The local national guard authorities have adopted a new "faithful service" badge in place of the old insignia which has not given satisfaction. The new design consists of a bronze star having raised edges with a beehive surmounted by an eagle with wings spread as the center piece. The star is surrounded by a cross bar on which appears "faithful service" with a wreath in the center enclosing the figures "5" or "5" to denote the number of years of service.

We pay 4 per cent interest per annum on \$1 to \$5,000. Zion's Savings Bank & Trust Co. Joseph E. Smith, President; George M. Cannon, Cashier.

J. M. HIGLEY, HONEST PLUMBER. Reliable Electric Wiring. 109 E. First South. Phone 752.

Excursion to Maanti. Sunday, July 17th for the Scandinavian Reunion. Tickets \$2.50, good till 20th. Special train returning Sunday night.

Genuine ROYAL BREAD, pure and hearty, and soon had the blaze out with a loss of about \$25 to the hay. The firemen did good work in saving adjoining property.

Daily Reporter Co., Job Printers. 21 E. First South St., Salt Lake City.

KOLITZ-BICYCLE RIDERS. Excursion to Ogden.

Sunday, July 17, via Oregon Short Line. Round trip \$1. Special leaves 10 a. m., returning leaves Ogden 10 p. m. Refreshments free on train. 40 fast bicycle riders in grand competition races. Trout and chicken dinner at the Hermitage in Ogden canyon.

DEAD MAN FOUND THIS MORNING.

Body of Arthur G. Hughes Discovered at Rear of a Saloon

HEMORRHAGE WAS THE CAUSE

Body Removed to Undertaker's Parlor and Coroner and Jury Will Hold An Inquest Tomorrow.

A dead man was found at the rear of the G. & G. saloon on East Second South street at 3:55 o'clock this morning by some "night-hawks" who happened to stroll there. The police were quickly notified and the man's body was removed to S. D. Evans' undertaking parlors.

The man's name was Arthur G. Hughes, about 30 years of age and, so far as known, was unmarried. Coroner Clark was notified, and after viewing the remains, impelled a jury to hold an inquest, which will be held late this afternoon or tomorrow morning. The jury is composed of Peter Lochrie, J. P. Eitenberger and Alex. Escandon. It is quite certain that the man died from hemorrhage. Whether or not he had been on a long spree is not known, but the general belief around police circles is that he had been drinking heavily of late.

So far the police have been unable to locate anyone who knew the man intimately, or anything about his family or where he came from. He had worked for a short time in various barber shops around town, but practically nothing beyond what is here stated, has been learned about him.

THIS YEAR'S POLL TAX.

Collectors Doing Well, but There Are Some Still Delinquent.

Poll Tax Collectors Nichols and Cowan are meeting with success in the collection of poll tax this year, but there are some delinquents who have not yet paid up and these will be given an opportunity to do so before suits are commenced to collect the same. City Attorney Day is of the opinion that the present poll tax ordinance is good in every respect and should any of the delinquents attack the ordinance they will have to fight the case through the supreme court should they be successful in the lower courts, as the attorney is positive that that court will uphold the validity of the ordinance.

TEMPLE NOTICES

The Salt Lake Temple will close on Friday evening, July 1, and reopen on Monday morning, Aug. 8, 1904.

JOS. F. SMITH.

The Manti Temple will close Friday evening, July 15, 1904, and reopen Tuesday, Sept. 6, at 8 a. m.

JOHN D. T. McALLISTER.

The Logan Temple will close on Friday, July 22, and reopen on Tuesday, Sept. 6, 1904, at 8 a. m.

M. W. MERRILL, President.

p. m.

CHURCH NOTICES

The general committee appointed to arrange for the joint Mutual Improvement excursion to Saltair Wednesday, Aug. 10, will meet at room 301 Deseret News building, Monday, July 18, at 5:30 p. m.

M. THOMAS, Chairman.

A BUSINESS OPPORTUNITY.

Fine barber shop for sale at a reasonable price. Owner wishes to retire from business. Perfect location, old established trade, and a modern shop having baths and all conveniences. Write for particulars to Box 1074 City.

Tired Mothers.

It's hard work to take care of children and to cook, sew, wash, and mend besides.

It makes a shop of the home—a shop, too, where sixteen hours make a day, and yet there is much working overtime.

Hood's Sarsaparilla helps tired mothers in many ways—it refreshes the blood, improves the appetite, and assures restful sleep.

BREAD MADE BY MACHINERY

BREAD IS THE STAFF OF LIFE—Why not have the purest and cleanest, that can be obtained? We have just installed a modern steel plant for making bread, and are prepared to put on the market the very best, Vienna Model Bakery, 19 E. 3rd St.

PROVO CANYON

And Return \$1.25. Via D. & R. G., Sunday, July 17.

Under the auspices of the Order of Washington. Special train leaves Salt Lake 9:30 a. m. Returning leaves Upper Falls 1:10 and 9:00 p. m. A splendid outing for everybody.

One Good Argument

Is that the scenery along the line of the Erie Railroad is unequalled for beauty and charm. The train carries others. Three fine trains daily to the East. Excursion Rates. Free stopovers at Niagara Falls, Chautauque Lake and Cambridge Springs. Write the Erie Railroad Company, 555 Railway Exchange, Chicago, for booklets of Summer Tours, special Chautauque Lake low-rate excursions, etc.

Daily Reporter Co., Job Printers. 21 E. First South St., Salt Lake City.

KOLITZ-BICYCLE RIDERS.

Excursion to Ogden.

Sunday, July 17, via Oregon Short Line. Round trip \$1. Special leaves 10 a. m., returning leaves Ogden 10 p. m. Refreshments free on train. 40 fast bicycle riders in grand competition races. Trout and chicken dinner at the Hermitage in Ogden canyon.

"It places the mountain more than 2,000 feet below the crest. The formation is solid granite, and no timbering or masonry will be necessary. The tunnel dimensions will be 16 feet wide and 24 feet high. Precipitous cliffs, sliding rock and snow slides are avoided

OFFICIAL ROUTE OF MOFFAT ROAD.

Engineer Sumner Authority for Statement That Line Will Run Via Provo City.

BEGINNING OF A NEW EPOCH.

Looks as Though Salt Lake Will be Center of Construction Activity By Next Spring.

The filing of the first accepted maps of the Denver, Northwestern & Pacific as set forth in the "News" last night was the principal topic of conversation in local business and railroad circles today. The general verdict is that at least it looks like business and that active work will commence on railroad construction not only east of Salt Lake but south and west. The general sentiment seems to be that Salt Lake will participate in the good things to be practically at once and that dirt will be flying next spring on the Moffat road, the Western Pacific and the finishing touches on the Salt Lake Route. The

Manager and vice president of the Utah Construction Co., Wattle, came in from the front today and went on to Salt Lake. He states that his company's graders are rushing the line through and hope to keep in advance of the railroad company track layers until the line reaches Los Vegas ranch, which will undoubtedly be by Aug. 14. It is reported here that Senator Clark, president of the San Pedro road, is expected through here by special this week.

A special came in yesterday from Salt Lake and departed in the evening for Provo with General Manager Wells, Superintendent Henderson and their staff on board. They would not state the object of their visit and returned as soon as the engine was coaled.

SHAKEUP IN PORTLAND. Consolidation of the Southern Pacific and O. R. & N. offices.

Dispatches from Portland, Or., state that the work of consolidating the general offices of the Southern Pacific com-

NEW HEAD OF NAVY DEPARTMENT.

PAUL MORTON Vice President of the Santa Fe Railroad.

Mr. Paul Morton resigned as second vice president of the Santa Fe railroad to become secretary of the navy in President Roosevelt's cabinet.

sentiment expressed is that Salt Lake is on the verge of a property wave and that there are good things in store.

Regarding the Moffat road the following extract from the report issued some months ago by Engineer Sumner of the Denver, Northwestern & Pacific as to the route to be taken makes interesting reading:

"The general physical features of the route adopted can be summarized into mountain mileage 125 miles and valley mileage, 375 miles, making a total of 500 miles. There is no dreary desert to cross. The mountain mileage embraces the ascent from the plains near Denver, through the front range of the mountains to Continental divide, about 60 miles west of Denver, elevation 10,100 feet above the sea level and the descent to the valley of the Fraser river; the ascent from the valley of the Grand river up the Muddy creek valley to the summit of the Gore range, elevation 9,000 feet and the descent to the valley of the Yampa river near Steamboat Springs, the ascent in the upper valley of Strawberry creek to the summit of the Wasatch range in Utah with an elevation of 7,500 feet and the descent to the Great Salt Lake valley.

"The grades of these mountains will not exceed 116.2 feet per mile, properly equated for curvature, and this maximum will be required only on certain limited portions of the road. The curvature on the mountain sections will be limited to a maximum of 12 degrees. From a point near Steamboat Springs, the valley mileage passes through the Yampa or Bear river valley, down that valley to the mouth of the Snake river, across the plateau between the Yampa and White rivers to a crossing of the Green river near the mouth of the Duchesne, up that valley and the lower portion of the Strawberry creek valley and from the vicinity of Provo down the valley of the Jordan to Salt Lake City.

"Light grades prevail in the valley portion, especially through the route just described. Curves not to exceed six degrees will be located in the valley portion. The grading in the mountain sections will require excavations of large quantities of solid rock and the driving of short tunnels to preserve proper alignment and eliminate high trestles where the grading will cost; but the heavy expenditure will be offset by the small cost on many miles of valley sections of the line, to bring the aggregate cost within the estimate.

"In locating the line attention was given to the matter of eliminating high bridges and viaducts, which will also somewhat increase the cost in the mountain sections. The tunnel to be constructed through the Continental divide is the most important and expensive single undertaking on the line. The east portal is located near the head of Salt Boulder creek and the west portal at James creek, about two and a half miles north of James peak. Its length is 11,300 feet and its elevation 10,100 feet above the sea level.

"It places the mountain more than 2,000 feet below the crest. The formation is solid granite, and no timbering or masonry will be necessary. The tunnel dimensions will be 16 feet wide and 24 feet high. Precipitous cliffs, sliding rock and snow slides are avoided

as a result of the elevation, which is 1,000 feet below timber line. There are no obstacles to be overcome other than those usually encountered in mountain railroad building."

KILLED AT CALIENTE.

Brakeman Sullivan Crushed to Death—News on San Pedro.

Special Correspondence. Caliente, Nev., July 13.—John Sullivan was almost instantly killed and G. McConaghy injured by piles falling from the train while running about 30 miles an hour, 18 miles west from Caliente on the San Pedro line. Both were brakemen. Relatives in Salt Lake wired for the remains of deceased to be shipped there and the body was sent to Salt Lake today. McConaghy will recover. The coroner's jury returned a verdict of accidental death due to cause above stated.

Manager and vice president of the Utah Construction Co., Wattle, came in from the front today and went on to Salt Lake. He states that his company's graders are rushing the line through and hope to keep in advance of the railroad company track layers until the line reaches Los Vegas ranch, which will undoubtedly be by Aug. 14.
