Those men who have been discharged "for the good of the service" will not be taken back under any consideration They can have this consolation, however, that those who have been chosen to fill the vacancies caused are in every sense of the word good men, who, in the opinion of the Rio Grande Western officials are a decided improvement up-on their predecessors. To Conductor Morris has been assigned the not too pleasant task of examining the trainmen and his report is acted upon by Trainmaster Cotter. The examiner is a well known railroadman who has a record of being in the railroad service for nearly a score of years during which time he has never had an accident. At the present time he is running on the Sanpete branch and puts in his spare time as stated. He has the entire con-fidence of the men and may be relied

upon to pass on a man's fitness for a position, without fear or favor. The men who have already been dis-charged are beginning to scatter, some have secured employment on the Ore-gon Short Line and other roads, others have left the city for their homes else where, while a few yet remain in town General Manager Herbert has been notified in writing by the heads of the various railroad organizations that there is no contemplation of any strike that those who have agitated for the removal of Mr. Cotter have been voted down. As Mr. Herbert will only deal with the labor organizations through the medium of a grievance committee duly appointed by the various lodger interested the men who claim they have a grievance have howed to the majority and will not have an audience

with the general manager. Despite the assurances that have been printed that all is serve in the Brotherhood of Railroad Trainmen the

Descret News Building Will be Ready By End of Month.

Within the next four days, so says Mr. Burton, the three top floors of the Deseret News building will be vacated by the workmen and the Oregon Short Line new quarters will be practically ready for occupancy. The metal door have arrived and are being rapidly hung throughout the building. A big gang of men is at work installing the elevators, which will be in running or-der by the end of the week. The metal staircases, however, have not yet an rived, owing to a strike at the works. There are two temporary staircases from the top to the bottom of the building and Mr. Burton states that everything will be ready for the Oregon Short Line by the end of the month.

committee consisting of James J elville of the State Land board, E. W Kelly of the state legislature, and Al Greenwood, ex-mayor of Fi which was appointed by the Millard unty at large, visited on Engineer H M. The gentlement were listened to attentively by the En gineer who promised to make a person al investigation by going over the ground and later sending a corps of engineers to demonstrate their asser-

The committee claimed that this route was shorter than the one already surveyed and that it would furnish a first class roadbed, good grade, plenty of water and a decidedly shorter route than the Oregon Short Line had at present. The gentlemen also asserted that providing the San Pedro built over this route that it would to all intents and purposes control the livestock, freight and passenger business in that section of the country which is now di-vided between the Oregon Shori Line

and the Rio Grande Western. By the building of this road as asked the development of Kyune stone quar-ries, low grade mining propositions, hot springs resorts and other enterpris es would follow. The Milford Times to hand has the

Another bunch of blessings arrived Baturday in the shape of Senator Clark's San Pedro railroad surveyor is quite among the possibilitie and it is quite among the possibilitie that Milford will have two transcontin ental lines, besides a branch to Frisc and a branch to Beaver. The San Pe dro engineers, 15 in number, with L. 1 ovelt in charge, came along from th north early Saturday morning and ra their survey right through town a 1 east of the Short Line tracks Their survey is so close to the O. S. I. that it cuts the "Y" switch in two. Th stake opposite the Short Line depot is numbered 4634, being the 4634th from Salt Lake. The surveyors went on to Springs and established camp there Monday.

"Mr. Blovelt professed ignorance as to the route to be taken beyond this point. It is believed by some, however, that this route is being surveyed for purpose of determining the feasibil fty of taking in the iron fields of Iron county with the main line, while others think it is the purpose of parallel the Short Line all the way through. Mr. Blovelt stated that this was but one of five or six routes that are being sur-veyed and that later on the directors

Catarrh The best authorities say, is a disease

of the blood. Therefore local applications cannot ure.

Being a constitutional disease it requires a constitutional remedy-Hood's Sarsaparilla.

By thoroughly purifying the blood, this great medicine reduces the inflammation of the mucous membrane

and stops all catarrhal discharges of the nose, throat, stomach, bowels,

bladder and generative organs. Catarrh is especially dangerous in

persons who inherit or have acquired a predisposition to consumption.

In these and all other catarrhal cases, Hood's Sarsaparilla so thoroughly renovates the blood and restores strength and vigor that it permanently cures. In fact, because of the character of

> the disease, and the peculiar merit of the remedy, Hood's Sarsaparilla is the common-seuse treatment for catarrh.

"I was a sufferer from naval catarrh, gradually growing worse, I began taking Hood's Sarsaparilla which completely cured me of that troublesome disease." MAUD DOAN, 1615 Arrow Ave., Indianapolis, Ind. Be sure to get

BUSINESS NOTES. -----

Today's bank clearings amounted to \$843,451.25, as against \$535,227.54 for the same day last year.

A copy of the articles of incorpora-tion of the Fort Field Irrigation com-pany of Provo was filed in the secretary of state's office today. The capttalization is \$2,680, representing 335 shares of the value of \$8 each. Its officers are H. J. W. Goddard, president; James Fisher, vice president; John E. Lewis, secretary and treasurer, who, with Herman Knudsen and E. S. Goddard, compose the board of directors. The company is organized to convey water from the Provo river to Fort Field and lands adjacent thereto for irrigation purposes.

The general increase of business in this city is well illustrated in the in-crease of the deposits at the Zion's avings Bank and Trust company. which now amount to over \$3,000, nd the number of depositors is 30,923. In the last 11 months the deposits have ncreased by \$335,000, and in three years he increase of deposits has amounted \$1,116,000. . . .

The present clear weather has start d architects and builders to actively repare for an early resumption of Operations on the Catholic athedral will be resumed about the irst of the month.

Commission men say that the reason why Utah ground flour is selling 10 ents higher than the northwestern arcie, is because the northwest millers are sending in here consignments taken rom stock for the Chinese trade, in which is ground considerable of the oran and shorts of the wheat. This enables the Oregon and Washington mil ra to sell for less in this market. The from a bushel of wheat, whereas the

ltah millers get but 40 or 42 pounds. Working plans are now being pre-pared for the First Presbyterian church edifice, with a view to advertising for excavation and construction as early

as possible. There is general satisfac-tion that so fine a structure will be shortly added to the city's attractions.

The directors of Cunnington & Co. heid their annual moeting this morning at the Deseret National Bank, and re-elected the same officers that have served for years.

Parties interested in the new B. Y Frust company buildings are hoping that the one to go up on State street will be made to conform with the plan iginally drawn by Architect Kletting 1 1891, which provides for an immense six story structure with a frontage or State street from First South street to Wyndam alley, and blotting out the ather insignificant structures which at resent cover the site. The cost of such a building would be about \$250,000.

HART-SPALDING CONFERENCE. Refused to Discuss Subject of Meet-

ing to Newspapers. San Diego, Cal., March 10 .- Prest

Hart of the Chicago National league ball team continued his conference with . G. Saplding through Sunday at the atter's elegant home, nine miles from this city, at Point Loma Both of the baseball men continued to refuse to discuss their meeting to newspaper men, but it is now understood hereabouts that a crisis in the present baseball war is the cause of the 'hicegoan's visit.

It is believed that Spalding will not make any definite move in his cause until the courts have reached their deision as to the legality of his presi-ency. According to report, Hart was called here to give Spalding the exact situation in the east up to date, and as soon as the lawsuit in New York is settled Spalding will return to the east and renew his fight in support of his offey.

If the courts declare in favor of Mr. Spalding he is expected to at once start vigorous campaign unless some com promise agreement is reached in the meantime. If the war is continued and Spalding is upheld in his claims by the ourt Spalding may even accompany Hart on the latter's return east. It i believed that an effort is being made for some sort of a compromise before he season starts.

NEWS OF "PINK" HAWLEY.

Genial Southpaw has been Released And Managers are After Him.

"Pink" Hawley, the popular southpaw who held down the rubber for the White Wings here last summer, has been released from the Spokane team, and is now debating with himself whether he will play ball this year or drive an engine. Following is a clip-ping from the Spokane Review: "Marvin Hawley, who pitched, the

ast of the past season for the Spokap baseball club, received his released to day, and is now free to play where he may please. Hawley has been trying secure a release for some time, as e management of the ball team did not feel as though it could pay him the price he asked for his services.

"Hawley pliched the first game in Spokane for the S. A. A. C. team two years ago against the Stanford team, and won a place with the fans by his clever work. Last year he was signed by the Spokage team, but went to Salt Lake, where he pitched good ball. Near as decided to hold its next annual con-Lake, where he pliched good ball.
