Relations of Chili and Argentina Very Strained.

ARMED CONFLICT POSSIBLE.

U. S. Minister at Santiago Tenders Good Offices of His Government To Settle Difficulty.

New York, Dec. 12.-In official circles there is a growing conviction that Chill is seeking a pretext to escape from giving a definite reply to the Argentine proposals for the settlement of the dispute in regard to the roads opened in the disputed territory, says the Buenos Ayres correspondent of the

This belief is based upon the request by Chill for the postponement of the next conference between Senor Yanez, the Chilian secretary of foreign affairs and Senor Portela, Argentine minister to Chill, until next Friday.

It is believed that the dispute will not be settled on that day, that Argentina will be forced to recall Minister Portela, that the government will send troops to occupy the roads in the disouted territory, and that a statement will be made to King Edward, of Great Britain, the arbitrator of the boundary

"Are we on the verge of war? We hesitate to believe it, but it is certainly true that the government of Chili is not firm enough to decide the question

in favor of arbitration and dignity.

"This is very bad. The Argentine government cannot adopt the Chilian policy of withholding a decision. We will therefore, be obliged to break off diplomatic relations with Chili and to accept a situation which though not war, is not very far from it. Another Buenos Ayres newspaper Santingo says that the United States minister in Chill had tendered the good offices of his government to prevent hostilities between Argentina and

In explanation of the South African military situation the London correspondent of the Tribune cables: Lord Kitchener has not had to walt long for some result from his new plan of operations against Gen. Botha, by constructing a line of blockhouses. He has had Gen. Botha's force inclosed in an area of ten thousand square mi'es. There was, however, a general expression of satisfaction with the present officials and Senator Jones was re-elected chairman of the caucus. The old committee on order of business also was reappointed and the one vacancy on that committee was filled by the selection of Senator Dubois of Idaho, who was the choice of all the western members of the caucus.

During the proceedings Senator Till-man suggested that there should be frequent conferences and continued ef-fort to agree upon the main features of all political controversies. There was a quite general response to this suggestion and the response was fairy unanimous that the party should bermit no more straggling than was absolutely necessary.

Senator Jones presented a statement

from the Republican committee on committees outlining its wishes as to the committee assignments, from which it appeared that the Republicans were anxious to increase the Republican membership of several commit-tees and to decrease the Democratic nembership of a few of the committees The most important change suggested by them was that the Republicans should be allowed to add one member to their side of the committee on commerce, while the Democrats should agree to surrender one of the places on that committee held by them.
