

port of polygamy; his "shibboleth to position and power" is professed devotion to monogamy.

And wherein does he trace the necessary connection between the practice of plural marriage and a union between church and state? Does marrying more wives than one make a man desirous of uniting church and state? Or does marrying only one wife tend to promote a separation of church and state? How does it happen that in England, Russia and other monogamic countries, church and state are united and have been for centuries, and that in Utah, where plural marriage is advocated and practised to some extent, church and state are distinct and separate in spite of all the stuff that is repeated to the contrary?

There is one more point in the report to which we will refer and then dismiss it from consideration:

"The relations with the Indians are reported, as in general satisfactory, many of them having abandoned their tribal relations and engaged in farming and stock-raising."

This statement is correct. But would it have hurt the Governor's feelings too much to accord the credit of this to the proper parties, and by so doing to silence the senseless clamors about "Mormon" influence with the red men? But perhaps the Governor was as little informed about the facts in this case as of others. If the Indians have been influenced to quit their roving, thieving, begging life and learn the arts of peace, it has been through the labors of "Mormon" missionaries, who have not only taught them but shown them how to work for a living, and exercised an influence which has led them to fear God and try to keep His commandments.

After the Governor, whom we do not accuse of being a bad man, has been here a little longer and resolved to be Governor of the people of Utah, instead of a numerically insignificant faction, he may learn something about the people of this Territory, their spirit, intents and actions, and find out that he has made many mistakes concerning them, quite as egregious as his estimate of the increase of mining population during the last decade.

Correspondence.

WASHINGTON, D. C.,
Dec. 8, 1880.

Editor Deseret News:

Judge Kelly calls attention to the fact that his proposition to issue a two per cent. bond, if the government shall issue any refunding bond at all, is one that would have been impossible in another country at any time. He is confident, however, no matter what the immediate effect of issuing such a bond might be, its ultimate effect would be good. However, if the talk of members of the committee and other Congressmen can be considered reliable, a bill will be passed authorizing a three per cent. bond to a sufficient amount to retire all maturing bonds and giving increased discretion to the Secretary of the Treasury as to the amount of them to be sold.

The announcement of General O. O. Howard as commandant at West Point, will displease the generality of army officers located at Washington. Howard is not popular among them. They will say, and I know many intelligent officers who believe it, that the General is a "politician." He is not, though he certainly has convictions on political subjects. It is one of the peculiarities of army officers who remain here long, that they become extremely conservative without knowing it, and hold other officers to be of another faith who say nothing whatever of politics. The General, however, has the educational qualifications for the position. He was for a time professor of mathematics at the Academy. I think he will become a popular commandant in time.

Mr. Hurd will not ask for early action on his anti-protection resolutions, introduced in the House last Monday.

I am informed that Mr. Bicknell will not have the full democratic support in pushing the resolutions as to the count of the electoral vote. In fact, there seems to be no assurance that the House or Senate democrats can be relied on during this session to vote solidly on any party question. This may be because all of them do not wish at this time to make political questions prominent, preferring to see what President Garfield's course will be. I think

that every attempt on the part of a democrat to inaugurate a political fight will be defeated by his democratic colleagues. This, at least, during the early part of the session. Whenever the sentiments of Gen. Garfield are or seem to be ascertained, it may be, if those sentiments are not considered reasonable, that the democratic Congressmen will unite.

Secretary Sherman will, in a day or two, submit to Congress estimates for the deficiency in the payment of the interest on 3.65 bonds that have been issued by Act of Congress for the board of audit certificates.

KNOX.

LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, DEC. 17.

The Dorseys.—The Dorsey Brothers (colored) Frank and Samuel, for grand larceny, were this morning each sentenced to one year in the Utah Penitentiary. In two other cases, in which they are defendants, the sentence was suspended.

At Boise.—Hons. William Budge, Jas. H. Hart and Jos. C. Rich, members of the Idaho Legislature from Bear Lake County, arrived at Boise City on last Saturday night, after a tiresome trip of three days by coach from Kelton. Worn out for want of sleep, but otherwise well.

Salt Lake Ahead.—The shooting match yesterday, the result of which up to the 8th round, was a tie, as stated last evening, terminated in favor of the Salt Lake team, by one bird. The score at the close of the 15th round stood 67 to 66. At the conclusion of the match, Mr. Beardsley, of Ogden, started his carrier pigeon to that town with the news.

Eight More.—Eight more indictments were brought in by the Grand Jury this morning. One under the laws of the United States, and the others under the laws of the Territory.

The jury are working almost incessantly and have done some fast work since they began, less than two weeks ago. They have returned 28 indictments in all, and their labors are drawing to a close.

Welcome and Emerson.—This morning Fred Welcome and Jack Emerson, the supposed murderers of John Turner, were arraigned in the District Court, and each plead not guilty. They did not desire the court to appoint counsel for them, and demanded separate trials. Welcome gave as his real name, Frederick Hopt; Emerson as his true name, John McConnell. They were remanded. Their trial will come off during the February term.

Two Men Killed.—A dispatch from the mayor of Manti, Sanpete County, to Superintendent John Sharp, states that two men, of 30 who went from Manti to work on the Denver and Rio Grande Railroad, have been killed by a cave. The telegram asks the cost of transporting their bodies from the terminus home, for burial. No names or particulars given.

Superintendent Sharp, on receiving the dispatch, informed the mayor that the cost for each body would be \$120, but afterwards telegraphed to Omaha and got a reduction in the rates, so that both bodies will be transported by express to York at the usual passenger fare for one.

From the Southern States.—Elder Levi P. Helm, of Mill Creek, who returned from a mission to the Southern States on the 15th inst., called in to-day. It is 18 months to date, since he left home for Virginia, where he labored for about seven months, meeting with gratifying success, in company with three of his fellow missionaries. They baptized 50 persons during the time Elder Helm remained in that region, from which he removed to go to the State of Kentucky on the 20th of last January. He staid there until released on the 23d of last November, met with good treatment generally, and baptized one person in Muhlenburg County.

In his travels he found the gospel tracts, by Elder John Morgan, of great help in the dissemination of the gospel. More preaching, he says, can be done with them, than with two elders. He left Kentucky on the 28th of November, and visited relatives in San luskus County, Ohio, by whom he was treated with kindness and consideration. Remained there about two weeks and then left for home. In Chicago

he met Bishop Jacob Weiher and wife, of this city, who were also on their return to Utah. They remained in Council Bluffs, expecting to visit there a couple of days and then to come directly home. Elder Helm enjoyed his mission first rate, returns in excellent health, and is delighted to be in the midst of the Saints once more.

LAND PATENTS.

U. S. LAND OFFICE,
Salt Lake City,
December 17, 1880.

The following patents have been received at this office and will be delivered upon surrender of the duplicate receipt endorsed:

CASH ENTRIES.

No. 1569 Edward Baynham,
1735 Harmon D. Persons,
1948 Caleb Hartley,
2057 Silas Hoyt,
2058 Henry B. M. Jolley,
2060 Andrew C. Van Buren,
2068 Daniel B. Funk,
2072 John C. Sharp,
2073 John A. Egbert,
2075 Philander J. Stewart,
2077 Robert Gardnier,
2080 James Peterson,
2103 Thos. W. Ross,
2104 Hemming O. Ungerman,
2106 Ephraim Watson,
2166 Hugh A. Jehu,
2171 Sidney Bailey.

Very respectfully,
H. McMASTER,
Register.

FROM SATURDAY'S DAILY, DEC. 18.

NOTICE.

GENERAL TITHING STORE,
Salt Lake City, Utah,
December 17, 1880.

To all Latter-day Saints who believe in and practice the law of Tithes and Offerings:

The time for closing our accounts for 1880 is fast approaching, and those who wish their credits to appear in this year's settlement will please prepare themselves by the 1st of January (if possible), or by the 10th at latest, for on that day our books will be closed.

We say to all Israel, pay your tithes and offerings that the blessings of the Lord may not be stayed.

E. HUNTER,
L. W. HARDY,
R. T. BURTON.

The Ice Harvest.—Notwithstanding the moderate temperature of the past few days, ice of excellent quality is being hauled with rapidity. Pitts' pasture seems to be furnishing the greatest supply.

Locust Eggs.—The curator of the Museum will be glad to obtain eggs of the destructive "hoppers," from the neighborhood of Nephi city, and from other places where eggs have been deposited this last season. Any naturalist or other person who may be disposed to collect the eggs of these insect pests, by writing to Joseph L. Barfoot, Salt Lake City, will greatly oblige, and all postage expenses will be repaid.

Coal at Kimball's.—By a young man who has been working on the Utah Eastern, the report is confirmed that coal can be obtained at Kimball's, by teamsters, at \$4 per ton. The company are erecting sheds at that point and expect to keep a full supply on hand. They are also about to build a mile of track from Coalville, to connect the road with other mines further up the canon, so as to insure a constant supply which cannot be done from one mine. Our informant was shown through the old Spriggs' mine last Tuesday, by courtesy of Prest. Cluff, and examined the various rooms where the coal is now being taken out; also the old workings, some of which are filled up with water, and others where the roof has caved in. Two pumps are kept constantly at work drawing the water from the old works, by which means a large amount of coal can be taken from the lower cuts. It is of an excellent quality.

Another Railroad.—A new railroad company, under the name of the Utah Southern and Castle Valley Railroad, has been incorporated. According to the articles of incorporation, the object of the new organization is for:

"The purpose of building, owning and operating a railroad from Juab

Station, Juab County, Utah Territory, by way of Sevier River and Salina Canyon to the junction of Muddy and Ivies Creeks in Castle Valley, Emery County; also a line from the mouth of Salina Canyon, thence by the Sevier River to Marysville, Piute County, Utah Territory.

"The railroad, so to be built, maintained and operated, will extend from Juab Station, in Juab County, Utah Territory, thence in a southerly course along the Sevier River, to the mouth of Salina Canyon; thence through said canyon by the most feasible route; thence in an easterly course to the junction of Ivies and Muddy Creeks, in the County of Emery, the length of said line being about eighty miles; also a line from the mouth of said Salina Canyon, thence by way of Sevier River to Marysville, in Piute County, Utah Territory, a distance of about 40 miles; the entire length of said road being, as near as may be, 120 miles, situated in the counties of Juab, Sanpete, Sevier, Emery and Piute, Utah Territory."

The leading spirits of the new enterprise are Jay Gould, Sidney Dillon, John Sharp, W. H. Hooper, Wm. Jennings, F. Little, L. E. Holden, H. S. Eldredge, L. S. Hills, J. F. Little, Messrs. Rosborough and Merritt, et al. The capital stock is \$1,800,000, in \$100 shares, par value. The company is to run 50 years.

FROM MONDAY'S DAILY, DEC. 20.

Marriage Notices.—Persons sending Marriage Notices for insertion in the DESERET NEWS, will please enclose at least fifty cents to pay cost of publication.

Postmasters Appointed.—John Morgan has been appointed Postmaster at Mill Creek, Salt Lake County, and Mrs. M. A. Barnum at Hebron, Washington County.

Parrish Arrested.—Ray Parrish, the Springville rapist, has been captured at Fillmore. Sheriff Turner has gone after him, and will probably return to Provo with his man to-night.

Horses Stolen.—Horse thieves are plying their vocation rather diligently in these parts. A Mr. Hutchison had a mare stolen in this city on Saturday night, and a resident of Cottonwood lost an animal in the same way a day or two ago. The latter horse has been found in Ogden, but the thief has not been discovered.

Bible Almanac.—We have received from J. H. Heman, Esq., his Bible Almanac for 1881. It is published in this city, and contains over 20 pages of reading matter, inclusive of the Calendars. The intermediate pages are filled up with interesting historical facts, scriptural sayings, religious essays and other useful information. Get one.

Sitting Up.—We are pleased to learn that Apostle Charles C. Rich is able to sit up in his chair. He arose from bed, for the first time since his paralytic attack, this morning, and was able to help himself considerably in getting up. We congratulate Brother Rich on his improvement, of which thousands of his friends will also be gratified to hear.

Suicide.—The following special came at 11 a. m.:

ST. GEORGE, Dec. 20.

Editor Deseret News:

John Empey committed suicide on Saturday evening by shooting himself through the heart. His wife died about three weeks ago, and since that happened he has been very low spirited. Before shooting himself he wrote full instructions concerning his property, debts, etc. He was about 20 years of age.

Shot by Accident.—Mr. Jake Heusser, gunsmith, was accidentally shot in the left arm on Saturday afternoon. A customer was examining some pistols, with Mr. Heusser, and one of them, a self-cocker, was loaded and lying on the show case, when a Mr. Hamilton, of Mill Creek stepped into the store, and picking up the loaded weapon with the remark that it was just the kind of a pistol he wanted, accidentally discharged it with the result stated above. The ball entered Mr. Heusser's arm above the elbow, and inflicted a flesh wound which is not considered dangerous.

Thrashed.—The editor of the Idaho Enterprise has been the victim of what he considers "a cowardly and assassin-like assault," by an individual named Coffin, a citizen of

Oxford, concerning whom the Enterprise has published certain domestic matters which were not relished by the subsequent assailant. After administering the castigation to the knight of the quill, Coffin complained of himself to a justice of the peace and was fined \$25 and costs. The editor darkly hints of future trouble the affair "may cost" those who instigated it, and who, he says, used Coffin "only as a tool."

Caught At Last.—Several months ago a burglary was committed in Grass Valley, by which the co-op. store suffered quite heavily. The particulars were published in the News soon after the robbery was perpetrated. Diligent search was kept up for the burglars, but with no success until recently, when Joseph Riddle, an old jail bird, was arrested and some of the stolen goods found in his possession. He was found living at the residence of a man named Carpenter, whose family had made up some of the goods into articles of apparel for the women and children of the household. Riddle was taken to Beaver and lodged in jail, where he awaits the action of the grand jury in his case. We are indebted for the above item to Brother J. C. Anderson.

Meetings in Ogden.—President Taylor and party, who went to Ogden on Saturday, and those who joined them next morning, returned to Salt Lake last night. Saturday was occupied by Priesthood and Seventies meetings, in the former of which prayer meetings were organized, and local affairs of the Priesthood of the Stake arranged and set in order. The meeting was interesting and very profitable. The Seventies convened in the evening, when remarks were made by Presidents: John Van Cott, W. W. Taylor and Elder Aurelius Miner. The Seventies of Ogden City were organized in a ward capacity. On Sunday the Ogden Tabernacle was crowded to its utmost. In the forenoon the congregation was addressed by President John Van Cott, Elder S. B. Young, President W. W. Taylor, Elder C. W. Penrose and Apostle John Henry Smith. In the afternoon Apostle Wilford Woodruff was the first speaker, President Joseph F. Smith next, and afterwards President John Taylor. The meeting was exceedingly good, a rich portion of the Holy Spirit was present, and all who attended felt blessed and benefited.

DR. ROGER'S VEGETABLE WORM SYRUP instantly destroys worms and removes the secretions which cause them. (1)

Cleopatra!

Her power was retained by force of personal charms. She led the old "boys" captive whenever she talked "pretty" to them and showed her teeth. History should tell us that she used SOZODONT, but it don't. The preparation she used might have had another name then. deod & w

They Can't do It.

We understand that some physicians are crying out against HALE'S HONEY OF HOREHOUND AND TAR to their patients, telling them that it will do them no good, and endeavoring in every way possible to injure the sale of the same; but that cry comes too late, as the people of this city and country have learned by experience that this article is a certain cure for Coughs, Colds, Influenza, Hoarseness, Difficult Breathing, and all affections of the Throat, Bronchial Tubes and Lungs, leading to Consumption, and that instead of having to pay their physicians from \$2 to \$5 for advice and prescription, and then paying their druggist for putting up the same from 50 cents to \$1, they can go to any drug store and get a bottle of Hale's Honey of Horehound and Tar for the small amount of 50 cents, which is sufficient to cure any ordinary Cough or Cold, and \$1 size will annihilate the worst cases. Depot, Crittenton's 7 Sixth Avenue, New York City. Sold by all druggists.

Pike's Toothache Drops cure in one minute. deod & w

The Pleasures of Hope.

When the body is bowed with pain an intense longing for relief brings hope. This may brighten the suffering but it does not cure. At a time like this how welcome is such a friend as Warner's Safe Kidney and Liver Cure, bringing home, health and happiness and the joys of a renewed life. sw & w
