EDITORIAL NOTES.

Of the 325 members in the next national House of Representatives only 149 belong to the present House.

Hawaii comes to the amount of \$200,000, and corresponding in value and domination with our silver coinage, are to be struck at the San Francisco mint.

Chicago is to have an elevated railway, with a capital of \$2,000,000, an underground electric company, capital \$250,000, and an oil exchange.

The New York Mail-Express has investigated the school accommodations in that city and finds that in one ward alone there are eleven hundred children who are unable to get into the schools. Hadn't the M. C. E. better bother its brains about New York more and Utah less?

Leadville, during the past five years, has produced 28,000,000 ounces of silver, 140,000 tons of lead, and 25,000 ounces of gold, exclusive of 100,000 tons of ore shipped to other towns for treatment. It will pay this year to the railroad companies \$1,000,000 for the transportation of bullion to the Eastern markets.

The Philadelphia school boys who embarked in silk culture two years ago have enlarged their commerce to the city to accommodate 60,000 worms, with a branch at Swedenborg, N. J., for the culture of mulberry trees. They have invented a machine for winding the silk from the cocoons, which they have been exhibiting at public fairs.

Dr. Constantine Fahlberg recently described to the German Technical Society a new substance, which he estimates to possess from twenty to thirty times the sweetness of cane sugar. To chemists the new body will be known as "anhydrous phosphoric acid." The substance may be extra sweet, but its name is enough to set one's teeth on edge.

Two monster rattlesnakes have been sent alive to the National Museum in Washington by its Florida agent. One, which came from the banks of the Suwannee river, measured twelve inches around its middle, weighed twelve pounds, and was nearly seven feet long. The other, from Polk County, was eight feet three inches long, thirteen and a half inches in circumference, and weighed thirteen and a half pounds.

The Lancet protests energetically against the habit of smoking cigarettes in the belief that these miniature doses of nicotine are innocuous. The effects produced on the nervous system by a free consumption of cigarettes are stated to be more marked and characteristic than those recognizable after recourse to other modes of smoking, and pulse tracings made after cigarette smoking are even flatter and more indicative of depression than those taken after the smoking of cigars.

It is estimated that within a few years the United States will be paying as much for pensions as Germany pays for her standing army of half a million men. For the year ending March 31st, 1891, Germany's military expenses amounted to \$90,000,000. The pension appropriation of the last Congress was \$100,000,000, but of this only \$55,000,000 is for current pensions and the rest for arrears. With the increase of the number of pensioners, the amount paid on current account will largely increase.

A Mr. and Mrs. Mowbray have been appointed in England to the office of Master and Matron of the Melton Mowbray poor house. The Board decided that they cannot serve because Mrs. Mowbray is the sister of her husband's first wife, and therefore their marriage is illegal. At the same time the Poor Law Commissioners have on appeal, enforced a charge of £30 for income tax on a person in Wales in respect of the income of his deceased wife's sister, whom the law in this case declares to be his wife. There is nothing like consistency and this is a shining example.

Recent evidence seems to indicate that under certain conditions, vegetable matter may be converted into coal in a much less period than many geologists have believed to be necessary. At least an approach to such conversion has been discovered in some of the mines of the Upper Harz, in Germany, where some of the timbers originally used as supports have been transformed into what appears to be a genuine lignite, brown coal. The time occupied by the process cannot, it is believed, have extended beyond four centuries—a very brief period compared with the usually assigned to coal formations.

The New York Sun speaks of the long time it has taken to erect the Salt Lake Temple, and adds: "There is difficulty in gathering the taxes levied upon the believers for this purpose, and the Gentiles count on turning the structure into a State House, when Utah is admitted to the Union." The Sun is doubly fooled. Taxes are not levied for building the Temple. Donations are paid for it freely, and tithing, from which it is chiefly supported, increases yearly. When the "Gentiles" see the structure into a State House at anything like the cost which will have turned into greenbacks, and the "Liberals" see that the temple will be turned into a State House, they are even more equally fooled.

THE FIGHT FOR TEMPERANCE IN LOGAN CITY.

It is pretty well known all over the Territory that Logan City has made a vigorous stand for years against the traffic in intoxicating drinks. Its charter permits prohibition, and the City Council have passed ordinances strictly prohibiting the manufacture, sale or giving away of intoxicants.

Once the Council made a trial of the license system. But it was found that saloons multiplied, drunkenness increased, police cases became numerous, and the general effect of making the traffic legal, thus taking away the ban imposed by law upon drinking, and causing it to be considered respectable, was decidedly disastrous and against the peace and welfare of the inhabitants of that beautiful, thrifty and peaceable city. So prohibition was revived and has worked very well indeed, being only hindered in its benign operations by the lawlessness of a few individuals, who imagined that they could sell liquor on the sly, or, being discovered, would find protection in the higher courts of the Territory if convicted in the local courts of violation of the city ordinances.

Last July two persons, C. H. Smith and W. C. Buck, were caught selling liquor by a "spotter" employed by the city authorities, and were found guilty and fined by A. J. Emerson, who is also ex officio Justice of the Peace. They appealed to the Third District Court and on Wednesday, December 8th, their case came up for trial before Judge Emerson at Ogden. J. L. Rawlins, Esq., appeared for Logan City, Higgins and Smith, of Ogden, and Willard Crawford, Esq., of Oxford, for the defendants.

The jurors were examined by defendant's counsel on the question of polygamy, and one, declining to answer, was challenged for cause. Judge Emerson promptly overruled the objection, when the juror was peremptorily challenged, and continuing this kind of challenging the panel was exhausted and the case went over till the next term of court. That Judge Emerson was right in his ruling is evident from a perusal of the Fifth Section of the Edmunds law—although counsel based their objection on the Eighth Section. It provides that it shall be a sufficient cause of challenge to any person drawn as a juror in any prosecution for bigamy, polygamy or unlawful cohabitation, if he is or has been living in the practice of bigamy, polygamy, etc., or believes that it is right for a man to have more than one living and undivorced wife at the same time. It is only in cases named in italics above that such a challenge is to be allowed. The right to vote and hold an office of public trust, honor or emolument, and the right to serve on a jury are generally governed by different provisions, and the restrictions of the Eighth Section of the Edmunds Act and those in the Fifth Section are to be differently applied, each pertaining to a special object. It is therefore not a proper challenge to object to a juror on account of supposed belief in or practice of polygamy, unless in cases of trial for bigamy, polygamy or unlawful cohabitation.

The same defendants were next charged with the same offense in another case, and a jury was empaneled, but after clear proof of the offense the jury disagreed, standing nine for conviction and three against; so this case also went over for the term. Another case of the same kind was tried, M. G. Connor being the defendant, with the same result. Hyrum Edwards was then put on trial for selling beer, and was found guilty. But notice was given of a motion for a new trial, which will be argued at a future time.

Incidental to the second case of the first-named defendants, the validity of the ordinance was tested. But it was found that the charter was too plain and definite in giving prohibitory powers to the City Council, and His Honor ruled in its favor. This is a very important point, and the position taken by Judge Emerson upon it will strengthen the hands of the supporters of law and order in the north.

We hope the authorities of Logan City will not be discouraged or disheartened by the temporary obstructions which have been placed in the way of strict enforcement of the law. By perseverance they are bound to win and uphold the dignity of their position. Laws when enacted should be enforced. Logan is, in our opinion, one of the places where rigid anti-liquor rules may be established and enforced. We do not believe they would be practicable in Salt Lake City. But we expect to see the no-liquor system work successfully in the glorious and flourishing valley of Cache, where "Mormon" industry, temperance, union and progress are so richly exhibited, and where the demon of drink ought not to be permitted to drink. Keep up the fight for temperance and good order!

MORE ANTI-MORMON LEGISLATION DEMANDED.

The number of votes that the "Mormons" can poll, even when purged of the polygamy objection, seems to be the real trouble with the persons who, styling themselves "the Gentiles of Utah," have applied to Congress for further special legislative legislation. They have to drop the polygamy cry, partially, in order to make out anything like a cause of grievance, and so they cite the figures of the Delegate elections since 1870 to show that the "Mormons" can still outvote the "Liberals" by majorities that leave the memorialists without hope of "running" this Territory.

What memorialists they must be. Their object is apparent on the face of their application, and the fallacy of their claims to it are equally exposed. They want to rule Utah and their numbers are as one to five of the people whom they wish to enslave. The most direct anti-polygamy Congressional legislation has been through their thin pretenses with their own eyes. The Edmunds law does not go far enough for them. Of course not. Nothing will go far

ENOUGH FOR THEM BUT FULL AND FREE OPPORTUNITY TO RIDE OVER AND PLUNDER THE PEOPLE OF UTAH.

They fancy that they can revive the flames of passion that burned so fiercely during the last session, and have sent District Attorney Vanzile to puff upon the embers. We admit that he is a great "blower," he gave plenty of proof of that during the recent "Liberal" campaign, but we do not think he can raise another anti-"Mormon" fire this time. He is more likely to blow out what little caloric is left in the ashes of the burned down agitation, particularly with such bellows as the "Memorial of the Gentiles of Utah."

By the way, we would like to see the names of the signers to that precious instrument of "liberty" for susceptible Conventions. We doubt very much if there are sufficient to justify the claim that it is from the "Gentiles of Utah." There are a few rascally adventurers here who have the presumption to suppose that all they say and do is backed by the non-"Mormon" ladies and gentlemen who have made Utah their home. They act in the same way that a few Federal office-holders perform. Speak of their impertinence, and they declare that the Government of the United States is assailed. Expose their official delinquencies or shortcomings, and it is a "rebellion against the Government." Oppose their assumption of excessive authority, and it is "insubordination." The absurdity of their self-importance is only exceeded by the impudence of those "Liberal" fire-brands who presume to speak for the "Gentiles of Utah."

It is another edition of the "check" of the three tailors of Tooley Street in London, who commenced their grandiose manifesto with "We, the people of England."

We do not believe the majority of the "Gentiles of Utah" want any more disturbance in the way of injurious legislation against the "Mormons," and if they only had the manliness to throw off the yoke imposed upon them by the few adventurers who are plotting the mischief that disturbs our local affairs, they would say so in a manner that would for ever close the mouths of the miserable scamps who are bent on mischief and ravening for rapine.

Zero.

NEW YORK, 8.—The weather is clear and cold. The thermometer registered zero at sunrise.

Special Column of News.

Hinton, W. Va., 8.—A collision occurred at 3 o'clock yesterday afternoon, between a freight train going west and an express passenger train going east at the west entrance of Stretcher's Neck Tunnel, 22 miles west of Hinton. Three persons were instantly killed, five others wounded and two engines, two passenger cars, one baggage car and one freight car were wrecked. The killed were, Henry Ancarrow, of Hinton, engineer of freight; Patrick Goheen, Hinton, fireman; and Wm. Cooper, Fayetteville, W. Va., fireman of the passenger train. The injured are, R. R. Thompson, Huntington, W. Va., conductor of passenger train; and John Madden, Huntington, engineer passenger train, leg broken. John Madden, Huntington, engineer passenger train, leg broken. John Madden, Huntington, engineer passenger train, leg broken. John Madden, Huntington, engineer passenger train, leg broken.

Passengers numbering 76, among whom are Senator Williams, of Kentucky, and Robert Brown, of New York, were uninjured. The accident was caused by a misunderstanding of orders by the freight train men, whereby they were attempting to take an hour that had been allowed them of the passenger train's time, it being late.

Effects of the Storm.
CHICAGO, 8.—Crews arriving yesterday at the breakwater were badly frost-bitten, and two vessels came in harbor completely covered with ice, their crews nearly perished, their hands, ears and feet were frozen. Most of the trains due here yesterday and last night were held at hour to hour by the heavy snow, and many freights were abandoned, not on account of the snow, as that was no impediment, but the roads had a difficulty in making steam enough on account of the snow freezing in the tanks. Not accidents are yet reported.

FOREIGN.

LATEST TRANS-ATLANTIC DISPATCHES.

The Great Fire in London—\$10,000,000 Sweep Away in One Night, and the Fire Still Burning.

LONDON, 8.—Last night's fire was the greatest that has occurred in London since the Great Fire of 1666. The whole block between the London Wall and Pall Mall Lane, and the Strand and Wood Street, except the warehouses on the corner of London Wall has been destroyed. The fire is not subdued and the remainder of the block is still in danger. It is believed that eight persons were injured, some seriously. Foster, Porter & Co. had a stock of silk goods alone estimated to be worth \$500,000. The salvage corps succeeded in saving a large amount of goods. The walls of the warehouses burned on Wood Street and Pall Mall Lane, fell into the roadway with a crash like thunder, filling the streets with burning debris.

LATER.—1 a.m.—The engines are still pouring immense volumes of water on the ruins, and the fire is now under control. It is possible that before the end of the morning the fire will be extinguished. The total loss by fire is now estimated at \$3,000,000.

Cairo, 8.—Caylon is the place selected for the rebel prisoners. See High.

Winnipeg, 8.—The thermometer should have been 30 below instead of 37, in this morning's dispatch. Changing the British Cabinet.
London, 8.—The Times has reason to believe that soon after Christmas, Derby will be invited to form the Cabinet. Children, now War Secretary, will become Chancellor of the Exchequer, and Dilke, now foreign Secretary, will enter the Cabinet. It says these changes may be precursors of even more important ones. It is possible that before the end of the month, the present British Government may be completely reconstituted, and in such contingency there is little doubt that Harrington will become Prime Minister.

LITTLE COLORADO STATE CONFERENCE.

Minutes of the Little Colorado State Conference, held at Sunset, Apache County, Arizona, on Saturday, November 26th, 1892, at 10 a.m.

Present on the stand: Of the State Presidency, Lot Smith and J. Bushman; the High Council, Bishop L. M. Savage, J. L. Christensen and Counselor C. L. Christensen.

President Lot Smith extended a hearty welcome to all that had come to conference. Call for reports from the various branches, and a letter from Apostle B. Young, which were read by Bishop L. M. Savage.

Brother S. M. Farnsworth said the Prophet Joseph had called upon the heads of families to put their houses in order to prepare them for the coming of the Lord. He said that the signs of the times, was glad to see the signs rolling on as they are. Said the Lord was working for the redemption of Zion, and that those who read and lived up to the revelations were on the safest ground.

Elder S. G. Ladd referred to the United Order, and said that it was calculated to make the Saints a free and independent people; portrayed what the Saints might have been had they lived up to the revelations received in the days of the Prophet Joseph. Thought the day was dawning when all should be one as in the days of Noah.

Elder N. Moody of Smithville, thought the young men of Zion should wake up and put on their armor, said he had attended his meeting and Sunday School, since his youth, and had not felt to regret it.

Notice was given that Elder S. G. Ladd would give a lecture on his travels from New York to San Francisco on the ship Brooklyn this evening.

3 p.m.
Bishop S. M. Savage in reporting the condition of Sunset Ward, said the people were feeling better, than in the past. Six hundred yards of cloth had been woven by the sisters since June. Crops the past season very light. Yet they had enough to feed them the year, were at peace with all.

Bishop J. H. Richards of St. Joseph reported his Ward feeling well. The wheat crop was a failure, had a small crop of corn, they had money enough to buy bread for another year. The people of St. Joseph had said that they were getting the water out. Meetings were tolerably well attended, and Sunday School was kept running. Spoke on the duties and responsibilities of the Latter-day Saints.

Elder C. L. Christensen reported the Moon Coppel Ward; said they had raised a good crop, but that the people were not united in their work temporarily as they should be. Said they had baptized as many as twenty a day of the Lamanites; related a vision that an Indian had received; said that their hearts were full with the Lamanites, and he was glad of it. Added his testimony.

Elder J. Bushman presented the general and local authorities, who were unanimously sustained. Elder P. H. McBride, of Smithville, felt well in the Gospel and like doing everything in his power for the welfare of Zion.

Sunday, 27th, 10 a.m.
President Lot Smith thought the young should have a good moral education. Spoke of the Celestial Order of Marriage, and of the Word of Wisdom. Said that the Saints were not content to come, but had purpose. Contrasted the good with the bad way of rearing children and of teaching them by example how to appear in society. Exhorted the Saints to a good example to the rising generation. Spoke of the difference of feeling between the Saints and the world at large in regard to the Lamanites, and the visions, etc., that the Lamanites are receiving.

Elder J. Bushman spoke of the importance attached to the Lamanite work, and said that the Lord would be a great help in this direction, as the brethren could perform missions among them while their families could be supported in their faithfulness.

Elder C. N. Christensen spoke of some people taking advantage of the Lamanites, and thought this was wrong, and that the Saints should not take advantage of them in trading.

2 p.m.
Sacrament was administered. Elder E. Richardson felt like learning to be a speaker if it was in him, and exhorted the Saints to watchfulness.

Elder J. H. James expressed his thankfulness in being counted worthy of being a member of the Church, and bore his testimony to the work engaged in, and felt like doing all he could to perform his mission to the Lamanites.

Elder J. H. James referred to the trouble the Saints in Utah are having. Exhorted the Saints to be alive to the duties devolving upon them. Felt an interest in the Lamanite mission, and said according to his Patriarchal blessing he had a great work to perform among that people.

Bishop S. M. Savage said if every person would bind Satan in their hearts, there would be a change for the better. Exhorted the Saints to attend their meetings. Referred to the duties of the Teachers, that they were to close the Church from within. Said it was inquiry to violate any of the commands of God.

President Lot Smith exhorted the Teachers and Teachers to be faithful in their work. Added his blessing to the Saints, and bore his testimony to the truth of the work of God.

He obtained into the high Quorum of Seventy in the year 1881, and acted as a secretary to that quorum until his death. The last four years of his life he has been a great sufferer with lung disease. He died in full faith of the Gospel.

Funeral services were held at the residence of Wm. A. Stewart, November 26th, 1892, May 3rd.

Deceased was born April 26th, 1832, in the State of North Carolina, and emigrated to Utah in 1847. Buried in full faith of the Gospel.

John, in Malak, Oenida County, Idaho, November 8th, 1892, of diphtheria. Thomas Jones, late of 2000-ft. mine, near Shoshone, Idaho, Oenida County, Idaho, was aged 60 years. He joined the Church of Jesus Christ of Latter-day Saints at the above named town in early days, and proved himself to be a faithful, energetic member, always on hand to defend the rights of his brethren and the principles of the Gospel of Jesus Christ; endeavoring at all times to feed, clothe and make happy his fellow laborers in the vineyard, as a great many of the missionaries can testify. He emigrated in the year 1878. He died in full faith of the Gospel. He was a kind husband and a affectionate father. He leaves a wife and family with a great many friends to mourn his loss. Peace to his ashes. M. L. Star please copy.
