

JUDGE HEBBARD AFTER ATTY. HENEY

Swore to a Complaint and Asked
For His Arrest for Criminal Libel.

HE FAILED TO GET WARRANT.

Trouble Arose From Remark That Attorney Had Made About Judge Hebbard Before Stanford Students.

San Francisco, April 26.—Superior Judge Hebbard of this city, who was denounced by Asst. Dist. Atty. Francis J. Heney last night in an address to the students at Stanford university, appeared before Police Judge Weller this morning and swore to a complaint asking for Heney's arrest on the ground of criminal libel.

Heney is quoted as saying that Hebbard had been repeatedly characterized as a disgrace to the legal profession.

Shortly before noon today Judge Hebbard visited the district attorney's office and demanded a warrant for the arrest of Asst. Dist. Atty. Heney upon the charge of criminal libel. It was refused. Dist. Atty. Langdon subsequently gave the following account of Hebbard's visit:

"Judge Hebbard came to my office drunk. He demanded the warrant. I told him that under the statutes he was required to show that Heney was in some way responsible for the publication of the report of his speech which quoted him as denouncing Judge Hebbard as a 'henchman of Ruess'; that the mere delivery of the speech might constitute the offense of slander, but to constitute criminal libel, the responsibility, even remote, of Heney for the publication must be shown. I told him that I would gladly issue the warrant if he could make such a showing, for we would be glad to get to the bottom of this matter on the merits of the alleged statement."

"This seemed to greatly infuriate Judge Hebbard. He created a disgraceful scene, abusing the warrant clerk and myself in ugly language. Finally I ordered him out of the office. I have given instructions to have Judge Hebbard arrested if he reappears at the district attorney's office and tries to make another scene."

SIX MINERS KILLED BY EXPLOSION IN COAL MINE.

Seattle, Wash., April 27.—Six miners were killed in the Morgan mine of the Pacific Coast Coal company at Black Diamond early yesterday. A cave-in caused an accumulation of gas and when workmen descended with open lamps the gas ignited.

THE DEAD.

Mike Mitchell, 45, miner, died from burns, leaves a wife and four children. Reese Reese, leaves widow and five children. Mark Dentley, leaves widow and one child. F. L. Domenico, Joe Delmonte, A. Domingo.

The explosion occurred on the sixth level, 2,700 feet under ground. The bodies were hurled 700 feet through the gangway, striking the cars and were horribly mangled when picked up.

SECY. TAFT GOES TO OHIO.

Washington, April 26.—Secy. Taft left Washington this afternoon for Cincinnati, where he will address a meeting of the Western Federation of Miners clubs tomorrow night. He also will make an address at the dedication of the Young Men's Christian association building at Dayton, O., Sunday afternoon, and on Monday evening will address a meeting of the business men's clubs of Cincinnati.

HOLY GHOST SOCIETY.

Members Return. Their Leader, Rev. Sanford, Having Deserted Them.

Portland, Me., April 26.—The barkentine Kingdom, which sailed from Rockland, Me., Aug. 25, 1905, with 70 members of the Holy Ghost and United States society at Stillport on board for the Holy Land, arrived here today on her return. Those on board reported that Rev. Frank W. Sanford, the leader of the society, who sailed with the party, left them in January and they had not since heard from him.

GOING TO DESOLATE ISLE IN THE GULF TO STUDY BIRDS.

Chicago, April 26.—Prof. John B. Watson, a member of the psychology department of the University of Chicago, left yesterday for a desolate and uninhabited isle in the Gulf of Mexico, where he will live, attended only by a servant, in the interests of science.

His destination is not recorded on many maps, the island being out of the path of commerce, unpeopled and for the most part barren of vegetation. It is a member of the Dry Tortugas

HUSLER'S FLOUR!

Is not an accident but the successful accomplishment of years of experiments.

group and is 70 miles off the west coast of Florida.

The nearest point accessible to the island is Key West.

Prof. Watson's purpose in his visit to the island is to study a species of birds believed to be extinct in many parts of the world, and of rare value to zoologists and psychologists.

Scientists have made several observations on the islands off the east coast of Florida and expect rich findings by Prof. Watson.

Little is known of the birds which he will study. It is believed that those which nest about the island have kept away from mankind for centuries and his observations may solve some of the missing paleontological links.

For a long time these birds have excited wonder among zoologists and no attempt has been made to study them until the Carnegie institute asked Prof. Watson to make the investigation at its expense.

ANOTHER REVOLUTION DUE.
Mexico City, April 26.—The Daily Record today says:

Believing that another revolution is imminent in Guatemala and that the revolutionists will be successful, the Guatemala exiles in Mexico and Central America expect to organize in this city a provisional government for Guatemala.

Gen. Salvador Toledo, who is now in Central America, is said to be slated for provisional president and a full corps of other government officials will be elected. The exiles here are in communication with those in Central America and the movement is said to be one of unanimity, and that it will result in Gen. Toledo leading a revolution in Guatemala within a few months. Gen. Toledo probably will be requested to come to Mexico to take active charge of the provisional government.

The fact that all the provisional leaders who oppose the Cabrera administration in Guatemala are exiles makes it impossible to form a provisional government in another country.

WM. A. BREWER.

Ex-President of Washington Life Ins. Co. Offers to Plead Guilty.

New York, April 26.—William A. Brewer, former president of the Washington Life Insurance company, who is under indictment on charges of perjury and making of false official statements concerning his company's affairs, tentatively offered today to plead guilty to the latter charge. It was understood the plea was offered with the idea that only a fine would be imposed.

Asst. Dist. Atty. Nott said he would oppose a fine as the penalty because a prison sentence was deserved and should be imposed. The tentative plea was then withdrawn.

BRYAN AT DARTMOUTH.

Hanover, N. H., April 26.—William J. Bryan addressed an audience of Dartmouth college students today. Mr. Bryan said that after visiting many countries he had found no government better than this in form.

After luncheon at the college club Mr. Bryan left for North Stratford, where he will speak tonight.

EX-PREST. WILCOX OF D. & H. RAILWAY COMMITS SUICIDE.

New York, April 26.—David Wilcox, former president of the Delaware & Hudson Railroad company, committed suicide at sea last Wednesday while a passenger on the North German Lloyd steamer *Barbarossa*, according to a report made by Capt. Langranter at midnight tonight.

The *Barbarossa* arrived at quarantine this evening from Genoa and Naples. Up on the arrival of the ship it was reported that Mr. Wilcox had died of heart failure. As he had been known to be in ill health and had gone abroad recently in the hope of regaining it, it was no great surprise to his friends to learn that he had succumbed.

Subsequent investigation, however, according to the captain, developed evidence that Mr. Wilcox had shot himself. Mr. Wilcox, broken in health, sailed some time ago, and recently, because he had not secured the benefit of his resignation of the presidency of the railroad, which was accepted by the directors who chose his successor in Leonard F. Loree, former president of the Baltimore & Ohio and Rock Island railroads.

As president of the Delaware & Hudson Mr. Wilcox took an active part in the negotiations with the anthracite coal miners whenever a strike threatened the "coal route" in which group his company was classed.

With the late Samuel Spencer, president of the Southern Railway company, Mr. Wilcox acted as representative of the railroads of the country in a discussion preceding the enactment of the railway rate law in 1906 and contributed articles to various periodicals.

Under his administration the Delaware & Hudson made steady progress but not without a severe tax upon the president's nervous system. A severe fall while skating last winter caused injuries from which he has not fully recovered. It was because of this condition he sailed for Italy.

The news of the nature of the death of Mr. Wilcox came as a shock to his friends in this city. The general impression of those seen tonight was that his health only had prompted suicide. For

years, they said, he had suffered from gout, rheumatism and an affection of the kidneys.

OFFICIAL FAMILY AWAY FROM WASHINGTON.

Washington, April 26.—For the first time in many years the president and his entire official family are absent from the national capital. A number of the cabinet members accompanied the president to the Jamestown exposition; Secy. Wilson has gone to Pittsburgh; Secy. Root to Clinton, N. Y.; Secy. Taft to Cincinnati; Postmaster Gen. Meyer to New York and Boston, and Atty.

Gen. Bonaparte to Boston. The only other occasions upon which there have been similar withdrawals from Washington of the president and heads of the executive departments in many years were in connection with the funeral of Secy. Grosham, when President Cleveland and all of the colleagues of the deceased cabinet officers went to Indiana, and at the time of the death of President McKinley at Buffalo.

UNIONS INDORSE PRESIDENT.

Green Bay, Wis., April 26.—Resolutions were adopted last night by the local trades council informing President Roosevelt that the labor organizations of this part of Wisconsin place un-

divided confidence in him as a friend of labor and justice.

LONG BRIDAL TRIP.

Couple Will Ride From St. Paul, Minn., To Seattle, Wash.

New York, April 27.—Quincy Scott, a young newspaper illustrator and cartoonist and his bride expect soon to begin an old wedding trip. Next week they will start on a horseback ride from St. Paul, Minn., to Seattle, Washington, a distance of about 2,000 miles. They expect to cover this distance following the line of the Northern Pacific road.

In about 100 days, or at the rate of about 20 miles a day. They will leave New York for St. Paul next Monday and expect to begin their ride on Wednesday.

Mrs. Scott before her marriage was Miss Ella L. Allen of Seattle.

VOLCANOES ACTIVE.

Lima, Peru, April 27.—News is received from Puerto Montt, a seaport in the extreme south of Chile that the volcano of Calbuco and Huque are in a state of eruption.

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows. Trust him. We have no secret! We publish.
