LOCAL AND OTHER MATTERS.

SERENADING.—Late last evening Captain Beeler's martial band serenaded a number of our leading citizens.

EXCISE.—WINE AND FAME.—By reference to our dispatches it will be seen that in Washington the Supreme Court decision upon certain Utah questions is "expected next Monday without fail."

INDIAN AGENT.—We understand Mr. Crittenden, Indian Agent, arrived from the Uintah Reservation this morning, where he is now living all winter. He traveled around by the Stage. The Indians struck the U. P. Railroad and came the balance of the way by rail. He had a pretty rough trip, but is in excellent health.

MEMORIAL ADDRESSES on the Life and Character of John C. Frémont, a Representative from Pennsylvania, Delivered in the Senate and House of Representatives, February 9 and 10, 1871, by Mr. Kelly of Pennsylvania, Mr. Banks of Massachusetts, Mr. Niblack of Indiana, Mr. Maynard of Michigan, Mr. Gutz, Mr. Holden, and Mr. Scott of Pennsylvania, Mr. Sherman of Ohio, and Mr. Cameron of Pennsylvania. For the above we are indebted to the courtesy of W. H. Cooper.

FANCY FARMING.—There is not much "fancy farming" in this Territory, but perhaps some of our farmers could almost match the following in results:

"A fancy farmer sent in the following truthful report of his agricultural operation to the Assistant Assessor of the revenue for the U. S. A., my farming operations I have to report as follows: My cattle have eat up my crops, and my hired men have eat up my cattle."

A SHAM COURT.—A gentleman who had occasion to drop into a certain beer saloon on East Temple Street the other evening, stated that he saw there at the head of one of the tables, U. S. Judge, and seven or eight other persons in various stages of exhilaration. The party had formed themselves into a court of Justice (?) the judge presiding, for whom our informant entered a voice, said, "Who will challenge us?" and when who did so, was appropriately responded by the one who had secured their services. The witness of this little farce did not wait to see the jury summoned, in reality fast, wondering if they would be called in another way, wondering if they one thus formed or others that had been called and impounded in another way. He thought, however, there was not a great deal of difference.

PIONEER CELEBRATION CONCERT AND BALL.—A Pioneer Celebration Ball at Corinne came off last night. The poem of Mr. Nat Stein, composed for the occasion and read by the author, was a very fine effort. The instrumental music, brass and strings combined, made by Croxall and Olsen, was all that could be desired. There was singing by the "Pioneer" choir of Corinne which, with the exception of a "venerable" ring to it, was well done. The program was well conducted in good style, which is more than could be said of the speeches, which were the only ridiculous and out of place features in the festive occasion.

Some people were likely to burst were they not permitted to deliver themselves of a tirade with regard to "Mormonism" and the "Mormons." We of course had no objection to those who did to them any good. It may be that in getting two millions, and then it does the "Mormons" no harm. Only think of O. J. H. getting into a bar room where people are supposed to come for a few hours social enjoyment, and reading his virility, three quarters of an hour long, against the "Mormons," and keeping the guests, as the old saying goes, "out of needles and pins." Some people in the "Mormon" were really amusing. If the people of Corinne were the real pioneers of Utah. That's very funny.

General Woods also delivered himself in a somewhat milder strain, and his highfiving, spread-eagle style—plethora with adjectives and with a few extra gestures of the wind-mill kind. Great, glorious, sublime, huge, stupendous, grand—etc.

The ball of bitterness at a social gathering is not in the best taste, but some people don't seem to know that.

ENGAGED.—The first issue of the enlarged form of the WEEKLY DINNER NEWS came from the press to-day. We believe it is now the largest weekly between California and the Missouri River, presenting a full page of closely printed matter, affording instruction and amusement relating to a wide variety of tastes. Those who desire to post their friends at a distance with regard to the progress of manners and things in this western nation cannot do better than subscribe to it. Send it to them. The circulation of the Weekly News is immense. It is a paper suitable to all classes. Single copies can be had at this Office for 10 cents.

Per Desert Telegraph.

PICTON, Nov. 28.—At the office of the County Clerk, Picton, a certificate of incorporation was filed this day for a new banking institution to be called the Bank of Nevada, with a capital of \$100,000 in gold, with authority to increase it to one million dollars. The managing directors for the first month are W. E. Wright, Barnum W. Field, W. H. Henderick, Harry L. Thorntun, C. E. Wiederhold, Edward Danaher and John R. Wilson.

FIRE.—The census returns for Millerton show that there were over 21 years 549; males under 21 years 905, females over 21 years 836. Total 2880.

NOTICE.—The turnout of the inhabitants of the bench north of the city wall, Twenty-third Ward, to-morrow (Wednesday) morning is postponed till further notice. Parties interested will govern themselves accordingly.

MARK LINDSTROM.

HICKMAN.—This notorious self-confessed murderer was riding through the public streets yesterday evening about six o'clock, in company with Gilmore, bailing off the Grand Jury.

MAZZINI.—We were shown the other day by Mr. Sangiovanni, of this City, an auto-graph letter of Mazzini. It is in Italian, and is written by Mr. Sangiovanni's father, who was a warm personal friend of the late deceased revolutionist.

LOST.—LITTLE.—Last night about eight o'clock a drunken man was picked up from the sidewalk on East Temple St., by two men passing. On being asked what he wanted to do, he said he was searching for East Manley.

THOUGHTLESSNESS.—A few persons, wishing to test the explosive powers of the giant powder, induced "Sailor Jack" last evening to fire a small blast in the rear of Mr. Cunningham's store. The explosive blew the drum of an old stove into the air and made a considerable hole in the ground. The explosion of the report drew quite a crowd to the scene.

Sailor Jack was arrested and fined \$10, which was paid by Mr. Cunningham.

This was rather a dangerous frolic with so powerful a substance as giant powder is reported to be.

SHOOTING A SEDUCER.—Yesterday Dr. E. F. Colsey sought Mr. Charles Liggin, the son of Mrs. John Liggin, of this city, and finding him on lower Broad street he confronted him and said: "You know I told you once if you were to violate the sanctity of my house by improper conduct with a daughter of mine, I would take your life." Mr. Liggin, raising his hand up, answered, "The doctor, whereupon he fired two pistol shots at him, one of which took effect in the left;

temple, passing into the brain—which the second did not or we have not heard. Dr. Stanford and Terry were called to see him, but could render no assistance. The young man was carried to his father's residence, where he died. Colsey, Dr. Colsey, hunted up Sheriff Bradford and delivered himself into his custody and he is now in the charge of that officer.—Columbus, Georgia.

Served him right.
