CHICAGO LETTER.

HYPOCRITICAL JOBBERY IN THE CAPITAL OF THE NORTHWEST—CIVIL SERVICE AND OFFICE BROKERAGE—THE "INTER-OCEAN" A MUD CATAPULT—REPUBLICAN STRATEGY, ETC.

CHICAGO, May 9, 1885.

Editor Deseret News:

If President Cleveland peruses the Chicago "organs," he cannot fail to observe the deep interest taken in his administration of affairs. It is said that Joseph Medill and W. P. Nixon are so anxious lest the President should make any false step, that they have lost many a good night's sleep. These learned gentlemen devote much time and space to show what

"CIVIL SERVICE"

is and how it ought to be carried out. A few weeks ago they proved themselves really valiant while attached to the apron strings of Miss Sweet, the pension agent in this city. In fact the average citizen of Chicago was surprised at the reckless bravery of these knights of the shears. A knight of the shears is not necessarily a tailor nor a barber. He may be one who lives on the product of authors' brains. However Messrs. Medill and Nixon manifested such boldness and intrepidity behind the crinoline of Miss Sweet, that they have been compared to the evicting Irish landlord who travels in Ireland under a lady escort. They actually confronted the whole government and dared it to touch a maiden lady. But these gentlemen seem to mistake "civil contract" for "civil service," and endeavor to make them synonymous. Miss Sweet got her position by

A CIVIL CONTRACT

with Blakely, who drew her wages for a year or two, while she performed the work. Really it is a hardship under these circumstances to deprive the lady of the fruits of her contract, but as Mr. Nixon at this time was running an office brokerage in this city, he ought now to hand over his commission to Miss Sweet, unless he can persuade President Cleveland to retain her in office. In fact, the law of Contract, civil or political, ought to be more sacred than any civil service regulations. But it is to be feared that Miss Sweet will have an opportunity to marry her chief clerk at the expiration of the present fiscal year. What a happy clerk, and what unhappy editors President Cleveland will make.

It was rather discourteous of the President that he did not consult Medill and Nixon before suspending Postmaster Palmer. Palmer was a good officer, they say, so good in fact that his carriers took a census of the adult male population of Chicago, in order to facilitate the work of letter delivery. The carriers took the names and occupations of all male persons in their routes. They used to state as a reason for this that it was a postoffice regulation to ensure the certain delivery of any mail addressed to that name. Now, this was really very considerate of Mr. Palmer, and such a good public servant ought never to be removed. Besides, he endeavored in many other ways to benefit the people. He used to work in the office all day, and at night used to march behind a brass band, refulgent in pasteboard helmet, prairie grass plume, and wooden sword. Such a patriot ought not to be removed. He was too modest to remove himself. If a government mule were in his place she might "take a tumble" and remove herself, but the modesty of a republican officeholder will not permit him to do anything rash.

THIS REMOVAL BUSINESS

is very awkward, since it will lead to other complications. The brokers who procured these places during former administrations are liable to be held for breach of contract. The *Inter-Ocean* will have a good deal to answer for if this keeps on. We will next have the Governor of Dakota, who is also an *Inter-Ocean* official, claiming his contract. Mr. Nixon no longer runs his paper as a brokerage. It is run now as a mud catapult. It is hurling showers of mire on Mayor Harrison. It publishes cartoons enlightening its esthetic patrons on the characteristics of our worthy Mayor. These artistic touches bespeak the chasteness, delicacy and taste of broker Nixon. He tried throwing his slush at the President with a sieve, the consequences was that he himself suffered the most damage. Now he tries the shovel at Carter Harrison, and a right good sewer-digger he makes. He will become so expert with this shovel that the mayor says he will give Mr. Nixon a contract to empty the city cess-pools. The *Herald* is very uncharitable to Mr. Nixon. It says there used to be a ducking stool for common scolds, but there ought to be at present a halter for the cartoon editors.

If ever a community was

CURSED WITH A DOUBLE CALAMITY

it is Chicago, in having two such vampires as Medill and Nixon in its bosom. One runs a paper which is but a blackmailing detective agency, the other a paper which has been a gigantic intelligence office. Where party or self can be forwarded no reputation is safe in the hands of these men. Last fall they used to state Mr. Blaine was a deadly enemy to Utah, and Governor Cleveland a friend. This was done for effect at home. The fact was, these two men were the cut-throats who stalled Mr. Blaine many years ago. In 1876 they sent out their private detectives to hunt up every item and incident in the career of James G. Blaine from the day he left his father's hearth until he sat in the Speaker's chair at Washington. And it was only owing to a trifle that what was published in the Indiana press respecting Mr. Blaine was not published in the Chicago *Tribune* in 1876. A man who keeps a paper of this kind, and supported by a corps of hired scribblers, is not as good as the Italian chieftain who organizes a band of stiletto men for removing persons for whom they are paid. Good heavens! what a community ours must be to tolerate such institutions in our midst. This Medill one day the moral assassin of James G. Blaine, the next his champion. One day the advocate of free trade, the next a rabid protectionist. One day the calumniator of Mgr. Capell, the next god-father to the Pope. One day asking for a State commission to govern Chicago, and the next calling out for a vigilance committee. Poor Medill: his occupation is gone. The days of the shoddy preacher and the carpet-bagger are gone.

THE REPUBLICAN PARTY

of this State is congratulating itself on its recent victory in a Democratic assembly district. It may have reason both for felicitation and congratulation, the result of the election in the 34th district clearly demonstrates that the Republican party is no longer a party but a vast secret society, a huge conspiracy, a conscienceless organization. This district, an overwhelmingly Democratic one, is now conceded to the Republican party. Of course the tactics of one party does not exceed the supineness and stupidity of the other. The Republican papers maintain the victory to be an honorable one. Honor, like religion is what a community or people make it. However, the result of the recent election shows what a dangerous organization is in our midst. When a party can so manage affairs that an understanding exists among all its members to come out at a certain time without any public announcement of the fact, then it is time for the people to think. The Republican party of the 34th district was apparently slumbering until noon of election day, and then, as if by one of those Arabian legend strategems every member, in several miles of country turn out like an army in ambush and sweep the polls. Democratic farmers were quietly putting in their crops while all this was doing. And this is the way Democratic farmers and non-Democratic farmers will yet lose their homes and their franchise if they do not watch the vast machine in their midst. Every Republican office-holder, every political preacher, every carpet-bag orator, constitutes himself the nucleus of a political club, and this is how the 34th was carried without noise, without talk, without a public meeting. If this can be done it shows the conspiracy which performs the feat in our time, to be a dangerous one. It is little wonder that Utah is under penal law when such an organization as this was pitted against her.

The very admirable manner in which Governor Oglesby, of Illinois, has inserted

THE SHARP END OF THE WEDGE,

which is destined to disrupt the Republic is worthy of all praise. The old gentleman acted with as much energy and promptitude so commendable that the *Inter-Ocean* and *Tribune* are very pronounced in their encomiums on him, owing to his conduct in the recent strikes in this State. It is true that there were only a few Poles and Bohemians shot by the gallant militia boys, and these ignorant foreigners had no right to be in the way of a militiaman's bullet. These Poles and Bohemians were brought here a few years ago under the contract system, to take the place of German, Irish and American workmen. Inducements were held out to them and promises made which caused them to come here; and now, because they require the capitalist to adhere to the contract, the poor men and women get mercilessly shot down. When Gasbag Oglesby was stumping, last fall, he laid particular stress on "Mormon" emigration from benighted Europe. He claimed that the innocent peasants of England and Wales, of Switzerland and Sweden, were hoodwinked by a wily priesthood from Utah; and that he and his party would set right the evil. Now we hear nothing of the "Mormon Victims," but a good deal about the Oglesby *Inter-Ocean* victims. The poor creatures are lying in their cold graves near Lemont, and Sheriff Hauchett and Gallant Dick will not deign to venture an explanation before a coroner's jury. If Oh!o had such a governor during the Hocking Valley strikes we might be now luxuriating in all the delicacies of a civil war. So.ne of our papers commend the energy of a Republican administration as represented by Alcohol Dick and Onearmed Hauchett, but the

POLES AND BOHEMIANS

say they had learned to play with arms before leaving Europe; and that they have not forgotten the method of using them; and that probably they would not strike again unless prepared to defend themselves.

The people of Illinois should take Oglesby in hand, before he goes too far. The man is too old for useful work. During the political excitement last year it used to be a stock argument with the preacher who mixes religion and political economy for the entertainment and instruction of deluded Christians that if the democratic party got into power business would be paralized in the future, manufacturing enterprise would cease, and that prosperous factories would go to the hammer. But to-day in Chicago we have witnessed an estab.ishment go to the hammer, which it ought to be supposed would be independent of parties, and factions, and administrations. This was nothing more nor less than

A UNIVERSITY

which has been "operated" under the ægis of the great Baptist Church of America. For the last four years we have had Baptist parsons and Baptist newspapers howling themselves hoarse about Utah and its people. Even some of the representatives of this Baptist church used to travel all the way from Utah here to tell us that in the Territories existed an evil destined to overturn the American Republic. These fellows used to come and prescribe State remedies to be compounded by legislators and statesmen. Aye, they used to call on devoted followers to contribute money for enlightening the sinful world, and used to get it too. Well, these were the unwashed hypocrites who could not run a simple school without sinking it in the mire. The building has been sold and is

TO BE TURNED INTO A SAUSAGE FACTORY,

but whether the faculty and the alumni and the theological politicians are to be used as material for the production of the succulent sausage has not been determined. If so, it is to be hoped the sausages will be shipped to the islands of the Pacific and not consumed in this country. The system of operation as practised by the righteous and the orthodox cannot be better described or more succinctly stated than was done by the *Evening Mail* of this city the day of the sale. The description will apply to many of the so-called Christian sects as well as to the Baptists, and the paper in question does not hesitate to use the University system as illustrating alleged Christianity in general. The report reads as follows:

"As the Hon. Leonard Swett said in concluding his argument in the foreclosure case, it was reserved for the elect, the predestinated, the foreordained, to borrow other people's money to build the walls of their building, to roof it in from the storms of winter, to pay bills long past due for its construction, to insure that building from year to year, to erect lamp-posts, to light them at night, to build pavements and walks to walk over and even, lastly, to borrow $13,000 to pay their own salaries, and then repudiate the debt, and still to believe that such election would not be contested. It is to be hoped when the president and professors teach moral philosophy and the evidences of Christianity to the youth of our land, that they teach solely the principles laid down in the text books, keeping far in the background and if possible wholly out of sight their own personal example."

DANGEROUS SUBSTITUTES FOR HORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their actions.

One preparation that is being offered for sale, by the gallon, contains Meta or Pyro Phosphoric Acid, which are declared by the highest authority to be poisonous. The same preparation also contains Chloric Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK.

A QUESTION ABOUT *Brown's Iron Bitters* ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfect satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily.

BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active, in women the effect is usually more rapid and marked. The eyes begin at once to brighten, the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is put in various *Physicians and Druggists recommend it.*
