

cial envelope of the Tennessee Legislature. The letter vows bitter and bloody vengeance upon Robert for killing Jesse James. The Ford boys are in excellent spirits, and are treated royally by friends and admirers. Robert admits he said he regretted the killing of James, but maintains he said it in fun. He would have shot James if he had known he would be sent to the penitentiary for a year, as James would have killed him if he learned of his connection with the detectives. The boys talk defiantly regarding the Nashville letter. They sat for their photographs to-day.

PHILADELPHIA, 7.—United States Senator Mitchell, in a letter to-day to the Press, virtually declares independence of the Cameron Administration, and takes the leadership of the Reform Republican movement.

BLOOMINGTON, Ill., 7.—Last night over 30 Bloomingtonians left for Oregon and California. Many intend to make those States their future home. A large immigration to the West will be made during the present spring from McLean County, most of the emigrants intending to go to Oregon and Washington Territory.

CHICAGO, 7.—Early this morning, at a point near the city, well known as a sporting place, Owen McManis, of Syracuse, and John Flies, of New York, fought with hard gloves for \$200 a side. After McManis had delivered three knock-downs in succession to his opponent, he was declared loser on a foul.

PUEBLO, Col., 7.—The friends of the men lynched here recently, on suspicion of stealing cattle, will sue the county for \$50,000 damages, on the ground that while they were in the hands of responsible officials, they were permitted to be taken away and killed. Able counsel is retained.

STREATOR, Ill., 7.—The Streator window glass factory caught fire at 1 o'clock this afternoon, and was totally destroyed with most of the contents. Loss \$70,000 to \$80,000; insurance \$30,000.

MUSKOGEE, Mich., 7.—Yesterday morning 400 boom boys quietly struck for a reduction of hours of labor from 11 and a half to 10 hours a day. The booming company were willing to pay the advanced wages, but the boys prefer a short day. No disturbance has resulted as yet.

CHARLESTON, W. Va., 7.—A mob of 10 men last night captured the steamer *Saltie Bruce* at Raymond City, went to Winfield, took Joseph Smith (negro) out of jail and hanged him to a tree. He had committed an outrage upon a woman, who was reported dying on account of the shock.

COHOES, N. Y., 7.—Harmony mills contemplate ten per cent reduction in wages. The hands want an increase. There are 1,500 persons dependent on the mills.

MORGAN CITY, La., 7.—Eight feet of water over all of this country. Seven thousand orange trees are killed on Parde's plantations, and 60 head of cattle abandoned to drown.

LA CROSSE, 8.—Early this morning a boiler of the *Bellama* exploded with terrible loss of life, near Brownville, a few miles below this city. The *Bellama* was on her way up, at the time of the disaster, and only about 10 miles below the city. Everything was running smoothly, and the head engineer and necessary night watch had changed watches and retired for the night. The accident occurred about 1.30 a. m. The explosion completely wrecked the upper works of the steamer, causing great loss of life and injury of officers and crew. The crew consisted of 17 men, including officers. Of this number, five are missing. One is dead and three are probably fatally injured. The remainder are more or less hurt.

The following is a complete list of killed and missing: Charles R. Martin, son of Mrs. C. B. Lambert, of Winona, aged 18. A negro on watch at the time of the explosion, body found on the wreck about mid-ship, covered with debris, badly cut about the face and horribly scalded, is the only body recovered. Frank McIngre, second pilot, brother of Mrs. A. C. Moods, of La Crosse, off duty at the time, and supposed to be drowned; John Nolan, of New Orleans, fireman working his way up, supposed to be in the wreck; Swift Bell, a deck hand, son of Geo. Bell, painter at La Crosse.

Missing: George and William McCormick, brothers of the clerk, supposed to be drowned.

Injured: Captain W. Gordon, pilot on watch at the wheel, head cut, lips and nose badly lacerated, generally bruised; will recover; James Tully, of Dubuque, head engineer, off watch, scalded about the face, and blown into the river; Charles Monahan, of Dubuque, second engineer, on duty, with hands on throttle at time of the explosion, arm hurt and scalded about the face; Morris Lisur, of La Crosse, foreman on watch, leg broke twice, burned in the back, injuries probably fatal; Tom Rice, La Crosse, negro tender off duty, both legs broken, badly burned, amputation necessary, cannot recover; Henry Tully, Dubuque, brother of James Tully, scalded about the hands and face, will recover; Dave McCormick, clerk from Cassville, very badly scalded and otherwise injured, will probably die; Dick Wagoner, La Crosse, fireman off duty, slightly burned, hand injured, not seriously; W. T. Lechide, of La Crosse, cook, slightly injured but not seriously; Louis Snellbhn, mate, from Sheboygan, scalded and bruised, will soon recover; Thomas Johnson, of La Crosse, a little boy taking a trip on the boat, arm hurt not burned.

The injured men brought to this city are being cared for. The citizens of Brownville deserve great credit for the excellent services rendered in saving the crew after the

accident. All was dark and the cries of the men for help from on board and in the water were most heartrending. Seldom has such an accident occurred in the vicinity and with such loss of life and destruction.

The *Bellama* was comparatively a new boat, this being her third year of service, and she has been considered perfectly safe. She is owned by McDonald Bros., of this city and valued at \$8,000. The cause cannot be learned. The second engineer says the boiler had plenty of water and at the time only carried 135 pounds of steam.

LITTLE ROCK, Ark., 3.—A special from the Indian Territory gives the particulars of one of the most thrilling events in the criminal annals of that country, the occasion being the execution by shooting of Haney and Lilly, two Indian murderers, at Ocmulgee. The crime with which they were charged and declared guilty was the murder of an Indian named Ochunhajo on the night of February 12th. Lilly had some weeks before robbed the murdered man's house. Being detected, he determined to destroy the only witness of his guilt. He prevailed on Jones and Haney to join him, and the three went to Ochunhajo's house and demanded admittance. The Indian refused to open the door and threw himself against it to prevent the intruders pushing it down. While in this position Haney and Lilly fired through the door, and the Indian was shot six times. He fell on his face, dying in a few minutes. Having accomplished their object, the two fled, but were hunted down, tried, and sentenced to death. Jones was pardoned by the principal chief a few days before the time set for the execution. His tender years—he being a mere boy—and it being his first offense, secured executive clemency. Lilly and Haney both professed religion, and were received into the Methodist Church some hours before the execution. They expressed themselves as being happy and having no fear of the future. At about 5.30 o'clock, after bidding the chief and a number of their friends good-by, they were taken from the prison and conducted to a spot west of the Ocmulgee. Arrived there, the prisoners were bound and placed in an upright position only a few feet apart. The executioners then stepped forward, raised their weapons, took deliberate aim, and at a given signal fired. Both culprits fell down simultaneously, struggled once or twice, and died at the expiration of six minutes. About 100 persons witnessed the execution. Lilly was 24 and Haney 20. Their bodies were taken charge of by relatives and decently interred.

LARAMIE CITY, Wyo., 7.—Samuel H. Foreman, Indian trader at Ouray Agency, just in from the Ute country, says that the White River Utes have all gone peacefully to their agency at Uintah. Jack was absent from his people at the time, it is claimed, securing aid for an outbreak in the spring. His people had promised him they would not leave before he returned, but they were prevailed upon by Major Bryant to go in accordance with their promise of last fall, and there is not an Indian now in the vicinity. Foreman says this shuts off all chance for an Indian outbreak in the spring, unless there is a union of the White River and Southern Utes, or a union of either with disaffected Mormons against Gentile whites. Advice received this evening at the *Boomerang* office from Meeker, Colorado, confirm Foreman's statement.

KALAMAZOO, Mich., 8.—Additional particulars of the cyclone show the devastation to be greater than at first supposed. Houses were unroofed, and in a number of places torn to pieces. One man had the timbers of his barn driven through his house; in another case the front of a house was torn off. Isaac Simmons' house was torn to pieces, and he fatally injured by falling timbers. A swath 12 to 40 rods wide was mowed across the north of the county, timber and everything being destroyed. The storm seems to have originated near the west edge of this county, and moved northeast across this into Barry and Eaton counties, in the former, and from Charlotte and Kalamazoo township in the latter. Devastation and death are reported.

QUINCY, 7.—A special to the *Whig* from Kahoka, says: A tornado yesterday struck the town of Ashton, doing considerable damage. Houses were destroyed, and fences and trees blown down. Parties from the scene of the disaster say four houses in

the village were demolished, and others suffered the loss of roofs and chimneys. No loss of life is reported. Farm houses and barns in the surrounding country sustained great damage. The force of the storm seems to have spent itself at Ashton, as it was not perceptible at Kahoka.

BOSTON, 8.—The market for wool is unsatisfactory. Transactions have been considerable, but holders had made some slight concessions. Sales can only be forced at low prices. The arrivals of foreign have been considerable, comprising Australian and two cargos from Cordova, the latter for our leading carpet mills.

WASHINGTON, 8.—The Peru Chilian inquiry was continued to-day. Shepherd testified that the prospectus of the Peruvian company were chiefly sent to senators. Being further pressed about the pending copies of the prospectus by members of Congress, he at first declined to give the name. Finally he stated that the only member of the House to whom he recollected sending a copy was Hewitt. He mentioned his name, as that gentlemen had already stated the fact in the House, and distinct recollection was that from Hewitt he had only a verbal response. He had recognized Hewitt as being among the capitalists whom he desired to approach, and as a capitalist he had sent him the documents with a note stating that if he wished to look into the subject he (witness) would be glad to confer with him. Hewitt sent him a very courteous verbal response by a young man who took the papers to him, and to the best of his recollection that was all the negotiations that he had with any member of the House.

Rice asked witness if he had any reasons other than those already stated, for believing in advance, what he affirmed he did believe of Gen. Hurlbut. Witness answered, I have General Hurlbut's letter and some correspondence that is closely affiliated with them.

Mr. Rice—Anything that you have to sustain the allegations which you have made against Gen. Hurlbut you are now requested to produce. Witness thereupon produced the following letters from Minister Hurlbut which were read by the clerk:

Belvidere, Ills., June 6, 1881.  
*Jacob R. Shepherd, New York:*

Sir—I am in receipt of your favor of June 3d. I think I understand the case of your clients. You must, however, be aware that the decision of affairs so grave, and involving such enormous possibilities does not belong to me. Whatsoever may be the solution of the matter it must come from the President. It is my duty to carry out such instructions as I may receive.

Yours, S. A. HURLBUT.  
CINCINNATI, 8.—The Hamilton fire is now under control, loss \$40,000.

MOPHERSON, 9.—The storm of Friday night blew down a stone-house in Delmer Township in this county, in which Wesley Bryant and family resided. Mrs. Bryant and two children were buried in the ruins and were dead when taken out. The husband labored in the darkness of the storm so long as the cries of his wife were to be heard and when these ceased he went for help. The bodies were got out about four o'clock.

ST. LOUIS, 9.—The (Josephite) Mormon conference now being held at Independence, Mo., is making vigorous war upon polygamy, and has unanimously adopted a resolution introduced by President Joseph Smith, thanking in warm terms, Pres. Arthur and all the senators and members of Congress for passing the anti-polygamy bill.

ST. LOUIS, 9.—The *Republican's* Jefferson's City special says: Gov. Crittenden left for Washington to-day to attend to some business connected with the landed interests of the state. The recent trial of Robert L. Lindsay and others for fraudulent land entries and forgeries connected therewith have developed the fact that these frauds have attained some five or six million acres of land in southeast Missouri. The United States Government is about to commence proceedings for the possession of these lands. A large amount of these lands has passed into the hands of innocent parties who have spent much time and money in improving them, and to now dispossess them would work great hardships.

PORT PLAINE, N. Y., 10.—About 400 Italians have been at work here on West Shore R. R. Not getting there pay to-day, as expected, they

congregated around the Zoller House, where the contractor was stopping, and commenced stoning and firing into the house. The Grand Army of the Post was called out and dispersed the rioters, but not before they had done considerable damage.

A few of the inmates of the hotel were seriously injured, though some of the Italians were wounded by pistol shots fired by the inmates. Trouble is feared to-night. The Italians have threatened to burn the town. Help from neighboring towns is asked for, and when it arrives will be enough to protect the village.

DALLAS, 9.—The north bound train on the Gulf of Colorado and Santa Fe Railroad was robbed a few miles south of Cleburne, at 10 o'clock on Friday night, at a water station called Blum. Six men wearing masks, and roughly dressed, entered the passenger coaches. Two took position to guard the doors at either end. The other two going through the car with cocked pistols, one carrying a pillow slip ordering contributions to the "missionary fund." All the passengers gave up money. When they were about through the passengers, the conductor entered the car, and seeing what was up, rushed for the express car. One of the robbers fired at him, but he escaped unhurt, the ball passing through the express car door. All the robbers then jumped off and disappeared. The amount secured is not known. Several parties gave up large sums. One of the passengers says the robbers got about \$1,300, others say not over \$400 or \$500. The officers were notified at Fort Worth, and a posse of men with bloodhounds was put in pursuit. No arrests reported as yet. It is thought this is the gang who attempted to wreck the north-bound night train three weeks ago by removing the rails. The authorities suspect certain parties who are green hands at the business, and will endeavor to secure their arrest. They used old cap and ball navy revolvers.

#### FOREIGN.

LONDON, 6.—In the Commons, this afternoon, Gladstone stated that negotiations with the government of the United States respecting the suspects of American nationality continues. To the representation made by Great Britain to the United States last June, respecting certain Fenian literature, no answer has been received. The announcement was received with an ironical cheer from the conservative benches. Gladstone also stated the government was sensible of the condition of Ireland, but must select its own time for proposing any desirable measures; it was a social and not a political revolution.

DUBLIN, 8.—Smythe, of Westmeath, the landlord who, while returning from church last Sunday with some ladies, was fired at but who escaped, while one of the ladies was killed, has written a letter to Gladstone, in which he says:

"Your practical adhesion to the principle that force is no remedy in the case of Irish savagery has culminated in making it easy for the land league assassin to murder my sister-in-law at noon-day. I lay the guilt of that deed of blood at your door in the face of the whole country."

Moses How, Esq., of Haverhill, Mass., strongly indorses St. Jacobs Oil for rheumatism, etc., from the observation of its effects in his factory as also in his own family—so we see from one our Massachusetts exchanges. — *Bridgeport (Conn.) Standard.*

#### PROMPT ACTION OF COMPOUND OXYGEN IN LUNG DISEASES.

The promptness with which Compound Oxygen acts in throat and lung diseases is very remarkable. Mrs. Alice A. Daniels, of Ramsey's Station, Alabama, sends, without solicitation, and for publication, a statement of the results of its use in her case, from which we make a single extract. She says, "In four days after commencing to inhale the Compound Oxygen, chills, fever and all night-sweats were all gone! My appetite, which before was at its lowest ebb, soon became good. My strength increased very rapidly, and improvement has been steadily going on ever since the first inhalation. My cough slowly became milder, and to-day I can truthfully say that I am almost a well woman." Send for our Treatise on Compound Oxygen. It will be mailed free. Drs. Starkey & Palen, 1100 11th Girard Street, Philadelphia, Pa.

#### TEETH! TEETH!!

People from the country wanting anything done in the way of dentistry will do well to call on Dr. Van Aukin. He makes full sets of improved teeth for \$18.50, the same you will have to pay \$45 for elsewhere. By the Doctor's new process, everyone can have teeth that they can wear. Satisfaction guaranteed.

DR. VAN AUKEIN,  
10th East and 2nd South Streets,  
Salt Lake City.  
Take the 11th Ward street car.

#### PLOWS.

If you want a Plow that will give you satisfaction and make a good clean furrow, try a Gale Chilled Plow, to be found at the Mitchell Wagon Yard.

L. B. MATTISON.

No hair preparation in the world has attained such a world-wide reputation as Ayer's Hair Vigor. This is due to its healthy action on the hair and scalp, and its remarkable power of restoring gray hair to its original color and imparting a gloss and freshness which makes it so desirable to all classes and conditions of people.

#### BURNETT'S COCOAINE

Promotes a Vigorous and Healthy Growth of the Hair. It has been used in thousands of cases where the hair was coming out, and has never failed to arrest its decay.

Use BURNETT'S FLAVORING EXTRACTS—the best.

#### COMBINATION.

SALT LAKE CITY, UTAH,  
February 23rd, 1882.

L. B. Mattison:

Dear Sir—The Albion Spring Tooth Harrow I bought of you last year was used over two hundred and fifty acres of plow land and meadow and gave good satisfaction. I also used it in cultivating corn and potatoes. I also put in ten acres of oats on newly broken sod and it did its work well and with ease to the driver and team. This year I want the seeder attachment.

To use the harrow successfully as a cultivator the corn must be planted in straight rows from three and one half (3½) to four (4) feet apart.

Respectfully,  
s & w tf ALMA PRATT.

#### COMBINATION.

The Gales Combination Broadcast Seeder and Harrow, Corn and Potato Cultivator and Potato Digger speaks for itself, the way the large numbers are going off at the Mitchell Wagon Yard.

L. B. MATTISON.

The Best Remedy in the World For the Blood and Liver, is SASSA-PARILLA, DANDELION & IO-DIDE POTASSIUM. For sale by all Druggists.

#### STOCK RAISERS, TAKE NOTICE

The Norman and French stallion, "Major," originally known as "Duke of Kendall," brought to Utah by McIntyre Brothers, will stand during the present season at my place, two and one-half miles south of the Sixth Ward bridge.
