Nor to the Sierra Nevada, nor to American Fork Canyon and the

of that Territory states that about greedily devoured by these who a month age Messrs. J. F. Bond, delight in it. Tastes differ, and Ed. Bright, Al. Helt and John Selles, in prospecting on the Red Mountain, near the head of the able.

Purgatoire, about thirty-six miles due west of Trinidad, "discovered the long sought treasure vault,"

but, the rainfall being very severe, further prospecting was postponed. out again, some to explore new to say-who has a distinct idea of the nature of the offense committed old lead. He shortly returned with some fine specimens of honeycomb quariz a piece of thesize of a we but quartz, a piece of the size of a walnut, w hen pounded and washed, yielding fifty cents in pure wire gold, being about twenty-five cents to the ounce avordupois, or about \$7,500 to the ton. More recently Mr. George Hartman made another test from the same lead, which showed from the same lead, which showed are supposed to be-and a party of \$3,330 to the ton. These showings, Indians had entered the Hills to it is affirmed, do not approximate dig gold; does any one imagine that the real value of the lead, as a even the laziest of white men chemical assay would be likely to double the amounts, pulverizing and washing never saving more than one half of the gold present in the quartz. Still more recently, Mr. John Bloom struck a small streak of pay dirt, of which he took half a miner's shovelful and washed out gold to the value of fifteen

cents, or, at the rate of four dollars to the pan. Last of all, Mr. Whiting showed the editor of the Piopiece of quartz the size of a bazel have such confidence in the rich- of grain and other farm crops, ness of these new discoveries that which however they have not had formed, one of them containing they had, and the neighboring Inthirty-two of the leading men of d'ans had pretended to be scared at that city.

THE Bible talks of certain characthorities the expulsion of the Coreing given up to strong delu-that they might believe a lie, innites from their farms, and the sions dispersing of them, the sending of etc. This can hardly apply to those them back to the places whence people who believe in these Indian scares, with all that the term is as fair and honorable as the behavmade just now to imply, for these ior of the Corinnites toward the prevailed in this section was the are the weakest kind of delusions, the flimsiest of pretences. It must be that some people love to be de-luded. Dupes they are determined to be, and if they cannot pick up strong delusions to believe, they will make weak delusions subserve their insane purpose. A weaker de-lusion then the Corinne robbers their insane purpose. A weaker deare the weakest kind of delusions, their insane purpose. A weaker de-lusion than the Corline scare could hardly be originated. The whole affair was of the most puerile and contemptible kind. Yet it is played upon as if it were a harp of a thou-sand strings, and weak imitations and plagiarisms of it are invented, as in the Beaver scare and the Deep Creek scare.

Ho! all ye hungry, starving souls, That feed upon the wind,

In vain ye strive with earthly Joys To fill an empty mind.
