GENERAL NEWS.

THE PRESIDENT'S MESSAGE NEARLY FINISHED.

The Chicago Anarchists Appeal for a Stay of Execution.

Railroad Magnates Considering the Situation, Etc.

BY TELEGRAPH TO THE NEWS.

The President's Message Nearly Finished.

WASHINGTON, 23.—All the members of the Cabinet were present at the meeting to-day except Secretary Manning. The session was devoted to the consideration of the President's message. The document is nearly finished. The President read completed portions of his message to the Cabinet to-day. It is understood that the message will be much shorter than the one submitted to Congress last year.

THE NATIONAL BANKS.

Inquiry at the Treasury Department shows that as the time for the assembling of Congress approaches, public interest in the National Banks question is visibly increasing. The Comptroller of the Currency is now receiving letters from all parts of the country making suggestions as to the more permanent basis for national banks. These letters come not only from persons interested in national banks, but from officers of State banks, private bankers and prominent manufacturers, and many merchants seem also to have directed their attention to the maintenance of the existing system.

Comptroller Trenholm said to-day he was very much pleased to receive suggestions, and hoped everybody having any ideas on the subject would communicate them to him, so that he would be prepared to lay them before the proper committees in case Congress should take up the consideration of the subject.

TRAINING CRUISERS.

Commodore Schley, the Chief of the Bureau of Equipment and Recruiting, in his annual report urges the necessity for two modern-make steam cruisers. It is only on such vessels that the training necessary for modern warfare can be given, because the improvements in naval warfare have made it impossible to recruit our navy in case of war from merchant seamen or the watermen of seaports.

SUBMERGED.

The annual report of Quartermaster-General Holibird states that by each large rise or flood of the Ohio river, the buildings and ground at Newport Barracks, Kentucky, are partly submerged, and it is therefore recommended that steps be taken toward the purchase of higher land in that vicinity and that the building of proper quarters for troops thereupon be provided for by Congress.

THE NAVAL ACADEMY.

Nearly all of the annual report of Commander W. T. Simpson, Superintendent of the United Ctates Naval Academy, is devoted to an argument in support of the proposed change in the Academic course. The change, which he gives various reasons in favor of, is that the cadets should be assigned to different branches of the service at four years, instead of six, abolishing the two years' course at sea before graduation, as useless.

CHOLERA.

The Marine Hospital Bureau is officially advised of the prevalence of cholera in Buenos Ayres.

The Chicago Anarchists Call for a Stay of Execution.

CHICAGO, 23.—An application for a supersedeas was made before Justice Scott of the Illinois Supreme Court to-day in the case of the seven condemned Anarchists. The matter has not yet been decided.

Bloomington, Ill., 23.—This afternoon Captain Black, who conducted the defense of the Chicago Anarchists, Leonard Swett, associate counsel for the defense, and his partner, Mr. Bates, arrived from Chicago with a trunk full of testimony, for the purpose of asking Justice John M. Scott, Bloomington, for a supersedeas in the case of their clients, who are sentenced to hang December 3rd. They called upon Judge Scott and spent a few minutes with him, and it is understood they will hold another interview with him to-night.

Nothing will be done to-night in the matter of considering the application to Judge Scott. He will begin work to-morrow upon the consideration of the testimony and will work upon it steadily, and as rapidly as possible until the end. It is understood that there will be no oral argument. It seems apparent that no conclusion will be reached for a number of days.

The Amnesty Association Society, recently formed to assist the movement in favor of the condemned Anarchists held a meeting to-night at which the principal speakers were: State Representatives-elect Charles P. Dickson, M. J. Dwyer, George Roorback and Senator R. M. Burke, each of whom was a successful candidate on the United Labor ticket in the recent election. While disclaiming Anarchism or Communism as they understood those terms, the speakers vehemently denounced the verdict in the Anarchist trial and demanded a commutation of the sentence. The belief was asserted that if condemned men were sent to the penitentiary now, they would be in the near future pardoned. All the speakers declared that the 25,040 votes for the United Labor ticket were cast as a protest against the verdict. It was decided by the meeting that the entire delegation elected by the Union Labor party would present a petition to Governor Gleesby asking executive clemency. A committee was appointed to arrange a meeting to protest against the verdict in case a supersedeas is not granted by some one of the Supreme Court Judges.

About 100 persons were present at to-night's meeting.

New Railroad Arrangements.

CHICAGO, 23.—At to-day's meeting of the Pacific Coast passenger agents, the committee on eastern roads replied that an agreement could not be reached, owing to the refusal of the B. & O. road to consent to abolish the payment of commissions. That company insisted that such an agreement would be a farce, as its competitors had evaded the pledges by making contracts with outside agencies. No agreement would be consented to until this method was done away with. Another meeting will be held to-morrow.

New York, 23.—A conference was held this afternoon between President Harris and a committee of the Northern Pacific directors and President Smith and several directors of the Oregon Navigation Company. The subject of the conference was to consolder the plan of the Northern Pacific Company in joining with the Union Pacific Railroad in leasing the Oregon Navigation route. President Harris, after the adjournment, stated that nothing could be given out in regard to the conference. President Adams of the Union Pacific Road was not present at the conference.

CHICAGO, 23.—An important conference with far-reaching results, was had here to-day between Traffic Manager Muir, of the Chesapeake & Ohio road, General Manager Walker and a committee from the Central Traffic Association. E. W. Geiger, of the Pennsylvania Company, J. N. Culp, of the Louisville & Nashville, G. P. Granemer, of the Evansville & Terre Haute, and Commissioner Blanchard represented the Central Traffic Association. After some discussion the fact was conceded that the Chesapeake & Ohio was not necessarily to be regarded as a formidable rival of the Central Traffic Association. Both parties agreed to do what they could to promote the others' interests. The Chesapeake & Ohio promised to maintain by its all-rail lines the Central Traffic Association's all-rail rates. The differentials heretofore awarded the Chesapeake & Ohio road on the business taken by its water route will be continued. That road will also charge Baltimore rates on business taken by it to Newport News. It was also agreed that the Central Traffic Association and the Chesapeake & Ohio will hereafter exchange statistics, that each may know the amount of business carried by the other.

Cuban Sharpers Swindling Gullible Philadelphians.

PHILADELPHIA, 23.—The *Record* will to-morrow publish an article exposing the well-laid plans of Cuban sharpers to swindle gullible Philadelphians. It is supposed they have reaped a rich harvest. The plan of procedure adopted by the swindler was to write to his victim representing himself as a prisoner in the royal prison in Havana, and offering to reveal to him a spot where $412,000 was buried in a glass jar in the outskirts of New Orleans. He obtained this money, he said, on drafts on a New Orleans bank, and finding he would be arrested he buried it. He offered to disclose the place of burial and allow the person addressed a quarter of the amount—$103,000—if he would endeavor to obtain the writer's liberty. After receiving a reply from his victim, he would again write enclosing what purported to be an official order of the court refusing him permission to have his baggage unless he deposited with the court $1500 as security for the safe return of the same. As the baggage contained the plan of the location of the hidden money, and as he had not the $1500 to deposit as security, he thus gave an opportunity for his victim to volunteer to send that amount of money to Havana. The *Record* asserts that a number of persons have been victimized. It is uncertain whether or not anything can be done towards securing the arrest of the swindlers. The Spanish authorities have, however, been notified, and an investigation into the management of the royal prison at Havana will be made.

Jewish Rabbis Call for a National Marriage Law.

NEW YORK, 23.—The semi-annual conference of the Jewish Rabbis today discussed the report of the Committee on Home Prayer Book. The argument was very heated between the orthodox and reform ministers, but the question was finally settled by accepting the manuscript of the committee, which excludes all ritualistic prayers, and empowering the committee to amend and revise it and make arrangements for its publication under the title of "Aids to Devotion." Then the matter of the unification of the marriage laws of the United States came up. After a lengthy discussion, a special committee was appointed to draw up a petition to be presented to the Fiftieth Congress, urging upon that body the necessity of the establishment of a national marriage law.

Smuggler Arrested.

NEW YORK, 23.—Lace goods of much value have been smuggled into New York through various channels for some time. Miss Josephine Schouviens, a young and lovely Belgian living in this city, was arrested to-day. The young woman says she has relatives in Belgium whom she frequently visits; they send lace by her to sell in this country. The last time she returned by the steamship *Switzerland*, landing in Philadelphia. It is alleged that she brought the lace to this city. In her apartments was found lace valued at nearly $3800. The young woman made no secret of the way in which it came into her possession. She seemed to be unaware that she had committed a crime in smuggling lace into the city.

Methodical Madness

DETROIT, 23.—Charles Richardson, of Alpena, died about a year ago, leaving a will bequeathing to his widow property valued at $900,000. The will was contested by his brother and sister. The wife employed R. J. Kelly, J. D. Trumbull and Geo. H. Sleater as attorneys and then, contrary to the advice of all three of them, compromised the suit by paying the relatives $120,000. When the attorneys brought in their bills for services, according to their own statement, Kelly demanded $6,000, Trumbull $10,000 and Sleater $8,000 as recompense for their advice. Mrs. Richardson considered the charges exhorbitant and refuseit to pay. Saturday she drew $162,000 from the Alpena bank and came to Detroit to keep it away from the lawyers, placing $50,000 in the American Exchange National Bank in this city. However, the lawyers followed her, and, learning that they had taken out a garnishment for the bank, she drew her money out and has since kept it about her person. It is impossible to tell the outcome. The lawyers say she is a miser and crazy.

Another Embezzler.

BOSTON, 23.—This morning Wm. Reed, treasurer of the South Boston Horse Railway Company, was arrested on a charge of embezzling $100,000 in cash and $100,000 in over-issue of the stock of the company. It is charged that the embezzlement has been going on for the past five or six years. Reed has been treasurer of the company for ten years, and always has been trusted with all the funds. He was arrested at his home in South Boston. He refused to say anything in regard to the accusation against him. Reed, in addition to his treasurership of the railway company, has been for some time engaged as a broker at No. 53 Devonshire Street. The surplus of the railway company on Sep. 30th was stated at $70,000.

Later facts show that the total amount embezzled is $104,000, of which $24,500 is over-issue of stock. Reed has confessed to the police and turned over all his property to the directors of the company.

The McQuade Jury.

NEW YORK, 23.—At half past 5 o'clock the jury came into court and reported to the Recorder that it had been impossible to agree upon a verdict and expressed the belief that further trial to do so was useless. The Recorder lectured them on the importance of the duty before them and sent them back until 11 o'clock. It is understood that the panel has stood ten for conviction and two for acquittal all day.

At 9 o'clock to-night the jury reported that they were unable to agree. They were then locked up for the night.

FOREIGN.

NINE THOUSAND MEN SLAUGHTERED IN AFRICA.

A Sanguinary Rebellion in Afghanistan.

The Branch Widening Between Russia and Germany.

A Bloody Battle in Africa—Nine Thousand Slaughtered

LONDON, 23.—Advices from Durban November 3d state that a general and apparently successful revolt is in progress among the natives against the Portugese authority in Southeast Africa. The American missionary, Rev. Mr. Wilcox, arrived in Durban from Portugal, a settlement on the east coast above Transvaal. He reports as follows: The natives at Inhambane, a Portugese port town 200 miles above Delagoa Bay, rose up against Portugese taxation, and murdered the collector.

On October 23d a battle was fought between 9000 Portuguese and the friendly natives on one side and 30,000 hostile natives on the other. The Portuguese were defeated and routed, and the loss in killed on both sides is estimated at 9000 men. Mr. Wilcox says the governor of Mozambique has gone into the country to endeavor to suppress the revolt and save the port of Inhambane from falling into the hands of the insurgents. The town was barricaded when the missionary last heard from it and the women and children had been removed to ships lying in the roadstead. The entire country roundabout the town had already been abandoned by the Portuguese and arrangements had been made to remove the population of Inhambane ont to sea if the hostile nations attacked the town in force.

The Berlin Budget.

BERLIN, 23.—In spite of the closest watch on the barracks at Berlin, Spandam and Potsdam, a thousand copies of Socialist pamphlets have been found among the troops. The matter seized consists mostly of a newly issued appeal to the soldiers to join the workingmen in hastening the social revolution. The source of the pamphlets has been traced to men who frequent the soldiers' beer houses. A number of men have been arrested.

Herr Schwarzback has returned from St. Petersburg, having suspended negotiations for the proposed Russian loan of 125,000,000 marks. It is reported that since his interview with Prince Bismarck, Herr Bleichroeder has demanded heavier terms for the proposed loan, which Russia has declined to concede.

London, 23.—A dispatch from Berlin to the *Post* says that Count Herbert Bismarck had a long interview to-day with Count Schouvaloff, Russian Embassador at Berlin, in the course of which the latter complained bitterly of the course adopted by the official German press towards General Kaulbars. It is reported that Count Herbert replied warmly to this charge, saying that General Kaulbar's proceedings in Bulgaria were unworthy of the agent of a great Power.

The Italian Green Book.

ROME, 23.—In the Green Book just issued by the government, it is shown that Count Di Robilant, Minister of Foreign Affairs, has sent a circular letter to each of the Powers, assuring them all that Italy is desirous of European concert to maintain peace on the basis of the Berlin treaty and the independence of the Balkan States. The Green Book states that in a recent conversation with Sir J. Saville Lumley, British Embassador to Rome, Count Di Robilant argued that it was immoral for a great Power to morally support a small Power unless prepared to furnish it material support when the small Power needed it.

The Chamber of Deputies Excited.

PARIS, 23.—The Chamber of Deputies to-day voted in favor of the reduction of 625,000 francs in the expenditures of the Central Administration, and the reduction of 150,000 francs in the payment to the Finance Minister. The Chamber referred the question of the other reductions to the consideration of M. Sadi-Carnot, the Minister of Finance. After several divisions it was decided to discuss the amendment reducing the other credits demanded by the government. The attitude of the Chamber of Deputies toward the government has created a sensation. Reports are current that several members of the Cabinet are about to resign and that four under-secretaries have already tendered their resignations.

The Ameer's Troops Defeated.

BOMBAY, 23.—A party of merchants who have arrived here from Ghuznee report that the Ghilzais have beaten the Ameer of Afghanistan's troops. They also report that the rebellion is still rapidly spreading under the influence of the religious fanatics who lead the insurgents. Many of the Ameer's troops are also joining the rebels owing to the honorable reception given to the members of the British Afghan Boundary Commission by the Ameer, which gave rise to the suspicion that he intended to yield to British occupancy.

BRIEF TELEGRAMS.

A Brussels dispatch says: The Senate and Chamber of Representatives to-day agreed to consider the bill making it compulsory for citizens to enter the millitary service at the age of 20 years.

A Tien-Tsin dispatch says: Li Hung Chang presided at the formal opening of the experimental line of the Decanville railway. The occasion was attended with great ceremony and the line was operated successfully.

A Paris dispatch says: A man and his wife, named Thomas, have been sentenced to death and the wife's two brothers, named Lebon, to imprisonment for life for murdering Madame Lebon, their mother, whom they burned to death in order to inherit her money.

A Denver (Col.) dispatch says: While T. K. Stevens and son, twenty years of age, were filling a drill hole in the Plutis mine, near Idaho Springs, with giant powder, last evening, the charge exploded, killing the son instantly. The father was so badly torn to pieces by the rock that he died this afternoon.

A Boston dispatch says: The funeral of Francis Adams, Sr., was held from the Stone Temple at three this afternoon. The services were very brief and simple consisting of the burial ritual and the singing of two hyms by the Temple male quartette. The interment was at Mount Walaston Cemetery, were the committal service was read.

A New York dispatch says: In accordance with the agreement signed by the representatives of the express companies yesterday, the classification rates of last spring were restored on all lines to-day. At the offices of the Adams Express, American, Baltimore & Ohio and other large companies, full rates for the West and other points are now charged on all express matter the same as before the cut.

A St. Louis dispatch says: The Executive Board of the Grand Council of the Grand Army of the Republic will meet here on Dec. 2nd and hold its annual business meeting. Gen. Lucius Fairchild, commander-in-chief of the order, will also be in attendance. Arrangements have been completed to give the commander-in-chief and board a fine reception and a royal entertainment.

A Rome dispatch says: Archbishop Smith of St. Andrew's is visiting Rome on business relating to the affairs of the Scotch diocese. He had a long conference to-day with the Pope respecting the best means to bring about a renewal of the diplomatic relations between England and the Vatican. It is reported that a special apostolic delegate will be sent to England with this object in view.

The roads running through the northern part of Minnesota and in Dakota are having some trouble. In the northern part of the State, along the Manitoba line, there is not much snow. The Northern Pacific is experiencing some trouble with the snow, which is drifting badly and delaying the trains. Throughout the Red River Valley the mercury is down in the neighborhood of zero. It has been snowing nearly all day along the line of the St. Paul & Pacific, but the fall has not been heavy enough to interfere with travel. The mercury ranges from 10 to 30 degrees above.

David S. Weir, of Oscoda, was arrested at London, Ontario, to-day, for the murder of a young woman in that and will be held for extradition. Dr. Weir kept a drug store and private hospital. Miss Mabel Clark, aged 20, was a patient in the hospital for some time, but on November 4 she managed to inform her friends that she had been subjected to the grossest indignities. Intense excitement was caused by the story, and Weir left the town. Two or three days later the girl died. Weir was held to be responsible for her death. A reward of $2,000 had been offered for his arrest.

The Postmaster General, replying to the Trades and Labor League of Dublin said that a new mail system had been adopted because the acceptance of the tender of the Cunard and White Star Companies would have to give these lines a monopoly of the American service, precluding the Postoffice from sending mails by other lines. The Postmaster General will invite offers for mail service after the expiration of three months.

"Red Star Cough Cure cured my cold."—Mr. A. F. Reohstatter, Philadelphia, Pa.

PACIFIC COAST NOTES.

CULLED FROM WESTERN EXCHANGES.

There were 88 deaths in San Francisco during the past week, of which 12 were caused by phthisis, 7 by diphtheria, 6 by pneumonia and 5 by croup.

Considerable indignation is felt at Carson, Nev., because of the failure of Garrard, the Superintendent of the Mint, to display the flag at half-mast out of respect for ex-President Arthur.

Peter Raper, a ship carpenter, who seriously stabbed John Dryer during a row on the water front, San Francisco, several months ago, was held for trial on a charge of assault to murder, in $3,000 bail by police Judge Lawler.

An unknown man was found dead in the woods a short distance from the Island Railway, near Shawnigan lake, Victoria, B. C. He is supposed to be Moreland of San Francisco, who had been drinking heavily, and who went out on the railroad last Wednesday and has not since been seen.

Last week the two-year-old son of A. Winters was struck by the pilot of an engine on the Almadera branch railroad track, near Ione, Cal., and instantly killed. The child had wandered away from home, and was not seen by the engineer until the locomotive was within about 20 feet of him.

A teamster named Wm. Clark was stopped last Thursday by two highwaymen on the Downieville, Cal., road within two miles of Marysville, Cal., and robbed across a mule. The robbers were both masked, and though a good description was given, they have not yet been apprehended.

At Santa Cruz, Cal., November 6th, Henry Miller, an elderly man, committed suicide by shooting himself through the head with a pistol in the waiting-room of the Southern Pacific Railroad, Beach Station. He had recently come from Fresno, where he kept a saloon. Despondency is supposed to have been the cause.

A dispatch from The Dalles, Oregon, dated November 16th, says that the murderer of Grant is surrounded by a sheriff's posse at a place called Cove, in a sheep cabin. He is armed and says he will fight to the bitter end. The place is in a deep cañon, surrounded by rocky bluffs, three miles from Fossil.

Fred Winkleman, the boy who murdered two men in eastern Oregon, set fire to the jail in Baker City, while an inmate, and was fearfully burned; sent to the penitentiary for life, made two attempts at suicide, and was adjudged insane and transferred to the asylum at Salem, died last week.

Louis Gerlach, a drayman, aged 28 years, died at Stockton, Cal., Thursday. Three weeks ago he went into a bottling cellar of the Philadelphia brewery here and quarreled with Geo. Hess, the bottler. It is said Gerlach was the aggressor. He was struck on the head with a beer bottle by some one—supposed to be Hess—and he has been delirious nearly all the time since. He drank considerable, and the cause of his death is not fully determined. Hess is under arrest. Gerlach's father lives at Angel's Camp.

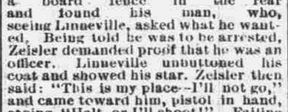
At Redwood City, Cal., Nov. 17th, a young man, aged about 19, unknown, was killed on the railroad about a mile south of the depot. His appearance is that of an Italian, about five feet three inches, dark complexion, with black hair, cut short, a small mustache and small side whiskers. The body was dressed in gray pants, faded blue coat and shoes but no hat. He was without doubt run over by the 5 a. m. north-bound train, as the body was still warm when discovered at 5:30 o'clock. The head was completely cut off and the body was horribly mangled.

At Astoria, Oregon, a few days ago, Police Officer Linneville attempted to arrest a man named Zeisler for beating a French courtesan, his mistress. After beating the woman left the house, taking some jewelry and clothing with her, after which she requested Linneville to arrest the man. While the officer was examining the premises where the assault was committed, in the search for Zeisler, he climbed a board fence in the rear and found his man, who, seeing Linneville, asked what he wanted. Being told he was to be arrested, Zeisler demanded proof that he was an officer. Linneville unbuttoned his coat and showed his star. Zeisler then said: "This is my place—I'll not go," and came toward him, pistol in hand, saying, "Halt, or I'll shoot!" Failing to heed Linneville's warning to drop the pistol, and continuing to advance, Linneville fired and the man fell dead, with a bullet through his heart. Linneville surrendered himself to the authorities.

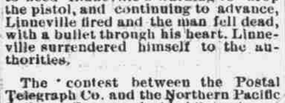
The contest between the Postal Telegraph Co. and the Northern Pacific Railroad Co., was decided Saturday, at Olympia, W. T., in favor of the telegraph company. Judge Hoyt delivered an exhaustive opinion, in which he sustained the position of the telegraph company. He held; in substance, that the railroad company had not such an interest in its right of way as would preclude Congress from granting the use of the same for telegraphic or other public purposes. He held that Congress had granted the Northern Pacific a charter not for the benefit of its stockholders, but to promote the interest and welfare of the people of the United States, and that Congress reserved the right to use the road for any other public or Government use, and that the railroad by its acceptance of the charter, agreed to and was bound by these provisions which were made for public benefit. The Postal Telegraph Company, having complied with the Act of Congress and having accepted its conditions and restrictions, is entitled to use the railroad's right of way for the construction of its telegraph line.

LOOK WELL TO YOUR

Horse's Feet.



The above drawing was made from a nail showing the lamination of iron in the Cold Rolled and Shearing process.



This drawing was made from the nail taken from the hoof and coffin bone as shown in Figs. 1 and 2.

The Only Hot-Forged and Hammer Pointed Horse Shoe Nail in the World that is Not Cut, clipped, or sheared from the point and will not split in driving, is

THE PUTNAM NAIL.

See that your horse is shod with this nail, and avoid all risks.
