Threatening Talk — Lively Times Expected—Garcelon Speaks.

BOSTON, 27.—A special to the *Herald* says: The bitter feeling and chance of trouble seems to increase rather than diminish. The Governor's letter to ex-Senator Morrill does not mean so much as it at first sight appeared to. He expresses a willingness to refer the points that have not already been adjudicated upon; but it is understood he believes that these points are extremely few and that he has the decision of the court to back him in nearly every case. This leaves the hope for a peaceful settlement through Morrill's plans decidedly a faint one. Though the attempt was creditable, it now looks as though nothing can prevent trouble on the assembling of the Legislature but a square backdown on the part of the fusionists; and how much chance there is of this, one can judge as well as another. Men who do not encourage violence openly, do not hesitate to say they fear and expect it. Congressman Frye's speech last night was not reassuring, and Congressman Reed thinks blood will be shed before the trouble is over. The excitement in the country towns and villages grows more rapidly than in the cities even. In one of them it is understood there is an excellent prospect of mob violence to-night; but it may be prevented. Meetings of both parties to-night will be numerous, and few of the speeches conducive to peace. To-morrow's sermons will be more war-like yet. Things are decidedly hot considering the mercury is below zero in the middle of the forenoon.

Lewiston, Me., 27.—The fusionists had a large meeting in the City Hall to-night to ratify the action of the governor and council. One thousand people were present and they were very enthusiastic. The meeting was called to order by D. T. Noyes, and Nathan Morrill was made chairman. A committee was appointed to wait on the governor at his residence and request him to address the meeting. The speakers were T. B. Swan, of Mechanic's Falls, T. B. Torry, of Bath. While Torry was speaking Governor Garcelon came into the hall and was received with cheers, the audience rising. Governor Garcelon said:

"I most heartily thank you for this expression of your confidence. A long life of 70 years has been spent in this community. If there has been any act of mine in any way treasonable or in violation of law and order, I am unconscious of it. I do not come to apologize for what has been done in the way of counting the returns made by the municipal officers. The records speak for themselves. Almost immediately after election it was hinted there would be unfair means used in counting the vote and that an attempt would be made to steal the State. The election returns were placed in the hands of the committee on elections in October last. Until November 17th no person save the committee had access to them. Prior to November 17th I had hardly seen a newspaper for a fortnight, as I was busy removing my residence and office. That day I went to Augusta and went directly to my chamber in the Capitol. In five minutes I was called upon by a committee of republicans who demanded to see the election returns. The conference that followed has been reported, and has been reported correctly. The very fact of these republicans presenting themselves served to make me more cautious in counting the returns in a lawful and constitutional manner. If there has been any act of my life which I am proud of, it is of the performance of my duty in tabulating and counting those returns. We have simply followed the Constitution and laws as interpreted by the Supreme Court time and time again.

Every method that could be devised has been brought to bear on me to induce me to change my line of conduct, not only by the usual forms of sour faces and villification, but also by threats of assassination. I received a letter last night warning me to be careful on my trip to Augusta; to watch the very food that I put into my mouth. This is only one of many similar letters from various parts of the State. I have faced more terrible guns than these paper bullets. I have slept where bullets whistled through the trees, and I am not to be frightened by these despicable threats. If I am to be assassinated for obeying the laws of the State, my life could be offered on no better altar.

Portland, 27.—The greenbackers have issued a call for a meeting of citizens at Farwell Hall, on Monday evening, to give expression to their determination to vindicate the integrity of the Constitution and laws, and to uphold the Executive of the State in the faithful discharge of his duty, and to rebuke violent and incendiary utterances.

Augusta, 27.—Lot M. Morrill came to Augusta to-day by early train, and returned home by special train at 6.30 p. m. It is understood the object of his visit was to have a conference touching points to be presented to Gov. Garcelon for submission to the Supreme Court. Some 75 brief questions, it is said, has been agreed upon. Morrill expresses great confidence that Governor Garcelon will agree to submit the questions.

Petitions are coming in from all parts of the State urging the Governor to submit the questions to the Supreme Court.

GARDINER, Me., 27.—Considerable dissatisfaction is reported among several prominent delegates and greenbackers on account of clergymen addressing the indignation meeting Monday night. There is much excitement here over the Bangor affair.

A correspondent of the *Herald* telegraphs from Augusta that he met one of the republican congressmen from the State and had some conversation with him on the affairs in the State and what the future was to bring. He declared himself unable to foretell, but said he should be gratified, not to say surprised, if a settlement was reached without bloodshed, which he evidently feared. He did not think any violent or radical talk would have much to do in increasing popular excitement. All that was needed to enrage any honest citizen was to read the account of what the Governor and Council have done, that would make any man boil. He endorsed the statement of another congressman, but he did not believe eight such scoundrels could be found outside the State prison as those who had perpetrated this outrage. This talk shows how deep the prevailing resentment is against the authorities. The congressman went on to declare that no excuse would be made for crime.

Agreeably to a call signed by a large number of republicans, a citizen's meeting, to discuss the "coming out" action, was held this evening. Speeches were made by several prominent citizens of the country and a number of letters read. The general tone of the speeches, letters and resolutions were unqualifiedly condemnatory of the counting out action of the Governor and council, and while deprecating and disavowing all intention of resort to arms, yet the constitutional right should be maintained, and where set aside or overridden must be contested step by step, and final resort must be at the bar of public opinion, as expressed at the polls, in future elections.

CAPITAL CHAT.

The Utah Governorship — Grant Blaine and Bayard, etc.

WASHINGTON, 27.—It is confidently asserted here to-day that the appointment of Gen. Charles Ewing, to be Governor of Utah Territory, has been definitely settled upon. Although a brother of Gen. Tom Ewing, he is an uncompromising republican. This report is probably premature; but Ewing is very strongly supported, and his chances for appointment seem to be increasing daily. The President said to some of Governor Emery's friends yesterday, that he would reappoint him if he believed that Emery had no sympathy with or disposition to tolerate polygamous Mormonism, and if he believed that Emery was the man for an emergency in case one should occur in Utah. The intimation of this remark was of course that he did not so believe. There is no doubt that the polygamists are henceforth to be vigorously prosecuted, and it is understood here that District Attorney Van Zile, who has the prosecutions in charge, complains that he has not had the full sympathy and support of Emery.

The report that Gov. Vanzandt, of Rhode Island has been tendered the Russian mission, is generally credited, and it may also be considered practically settled that he has accepted the position. He was an ardent Bristow man three years ago, and after President Hayes' election, became a very active supporter of his southern policy, accompanying the President on his celebrated tour through Kentucky and Tennessee in June, 1877, and making conciliatory speeches.

The republican politicians of Philadelphia are generally pronounced Grant men, but Blaine has many strong friends in Philadelphia, and a devotedly attached following throughout the State, sufficiently numerous to make him unquestiodably the choice of the Pennsylvania republicans, unless their preferences are overborne by the political manipulations of the party managers.

Gen. and Mrs. Grant arrived in Washington from Philadelphia at 4 p. m. They were accompanied by Ulysses Grant, Jr., Col. Fred Grant, Miss Phelps Ells and Miss McKennan, of Pennsylvania. It was not generally known by what train the General would arrive, but a crowd of several hundred people had assembled at the depot.

A very shrewd political observer who has been spending some time recently in Philadelphia, says there is undoubtedly an organized movement to secure for Senator Bayard the support of the Pennsylvania delegation in the next democratic national convention, and that he is quietly gaining much strength.

All United States interest due on the 1st of January will be anticipated by the payment on Monday next. The Treasurer to-day sent to the postoffice for mailing 560,000 checks for the payment of interest on registered bonds. The interest on district securities, due the 1st of January, will be paid on Monday next.

Quartermaster General Meigs left to-day to make an extended visit to the principal military depots in the West and South.

Corcoran, the well known Washington millionaire and philanthropist, celebrated his eighty-first birth-day this evening.

Disparaging Edison's Light.

NEW YORK, 27.—The electrical inventor Brush also disparages Edison's asserted perfection of the electric light. He says the same ground has been worked over by a great many able experimenters, but nothing practicable in this line has ever appeared. The apparatus or lamp has never been made durable, and is liable to fail at any moment owing to the destruction of the incandescent matters. There is nothing to indicate that Edison has made any improvement in this direction. But even if an incandescent burner, either of platinum or of carbon, could be so constructed as to be entirely trustworthy, of which there is no present prospect, the applicability of this system of lighting would be very limited indeed, on account of the great amount of electrical energy necessary for the production of even a small light by this means. Brush contends that Edison's machine is a poor copy of a generator that is common enough abroad.

Suit Against Fremont Discontinued

The suit begun September 20th, 1877, by the United States against General John C. Fremont, to recover $1,108 claimed erroneously paid him as Major General of the United States army, from May 14, 1861, to July 16th, of the same year, has been discontinued. District Attorney Woodford, in a letter to the solicitor of the Treasury gave as his reasons for discontinuing the suit that the General had failed to file the acceptance of his appointment the alleged offence was merely a technical mistake.

Sad Joke.

CHICAGO, 27.—John M. Waite and M. B. Gould, both prominent and respected business men, this afternoon, thinking to play a practical joke upon the colored janitor, disarranged the contents of Mr. Waite's room, and then concealing themselves in a closet, waited until the janitor appeared. The latter becoming excited at the condition of the room, procured a revolver and hearing a noise in the closet, tried to pull the door open and failing in that fired through the door. The shot passed through Gould's head and he died shortly after.

Steamboat Explosion.

EVANSVILLE, Ind., 27. — The steamer *Prairie City*, plying on the Wabash between New Harmony and Wabash stations, on the St. Louis and Southeastern Railroad, blew up this afternoon above Hodge's landing. The fireman, cabin boy and cook are missing. The body of Mrs. Captain McIntyre was found on shore with both arms off. Capt. Cox was blown up with it and fell in the wreck beneath the debris.

St. Louis Enterprise.

ST. LOUIS, 27.—The project of bridging the river at Carondelet, six miles south of the centre of the city, is broached, the purpose being to transfer the immense amount of tonnage recently created by the revival of the iron industries. It is also in contemplation to build an elevated steam railway in the Seventh Street Depot of the Missouri Pacific Railroad to the Central Depot.

Foreign Notes.

LONDON, 27. — The *Economist* says: It seems as if another scare had set in in consequence of telegrams reporting Edison's completion of his electric light. All gas company's have suffered more or less, the heaviest decline being £3 per share and the smallest £1.

The death is announced of Wm. Hepworth Dixon, historian and traveler, for many years editor of the London *Athenæum*, in his fifty-ninth year. The cause of his death was apoplexy.

Nine Internationalists have been convicted at Florence, of conspiracy against the Government, and four acquitted, including a Russian lady.

Six Inhabitants to the Square Mile.

The population of the State being about 900,000, there are on the average six inhabitants to the square mile, but the distribution of the settlement over the State is unequal. Thus, San Francisco has about 8,000 people to the square mile, while those portions of San Diego and San Bernardino Counties in the Colorado Desert and Inclosed Basin, with an area of 14,000 square miles to each white inhabitant. The counties of San Francisco, San Mateo, Santa Clara, Contra Costa, San Joaquin, Sacramento, Yolo, Solano, Napa, Sonoma and Marin, fronting on San Francisco, San Pablo and Suisun Bays, and the deltas of the Sacramento and San Joaquin Rivers, all within thirty miles of Mount Diablo and distinctly visible from its summit, have 580,800 inhabitants, or about fifty-eight to the mile, leaving a little more than two to the square mile for the remainder of the State. In general terms, one-fourth of the State belongs to individuals, one-twelfth is fenced in, and one twenty-fourth is cultivated.—From the San Francisco (Cal.) *Alta.*
