

### FLIGHTING FRAGMENTS.

The Bear Lake Democrat states that Gen. C. C. Rich had a severe cold a week ago last Monday, but had since been improving.

Yesterday, Sisters M. Isabella, E. B. Wells and E. M. Whitcomb, went to Union and attended the annual meeting of the Relief Society of that place.

On Sunday evening a little son of Mr. M. Packard, of Springfield, while out riding, fell from his horse's back, breaking both bones of the forearm midway between the elbow and wrist. — *Enquirer.*

### LOCAL AND OTHER MATTERS.

Returned Home. — President Taylor and party returned from the north this morning. The President was met at Ogden by a number of leading business men who went up for the purpose, and was accompanied by them to the city.

Secure Them. — As there will likely be an immense audience at the benefit concert at the Tabernacle on Thursday night, it will be well for persons intending to be present to secure their tickets. They can be had from James Dwyer, D. O. Call, John Dwyer and Dwyer & Call.

Deseret Hospital. — The Deseret Hospital is now an excellent working order and facilities for the convenience and comfort of patients are being constantly increased. There are at present nine cases in the institution, some of which are very important. This benevolent institution is deserving of the liberal support of the people.

Large Excursion Party. — The excursion of the Uniform Rank Knights of Pythias left this city for Ogden at 5 o'clock this morning. The party was a large one, occupying ten cars and was accompanied by two bands. The third match game between the Salt Lake Olympians and the Ogden Base Ball club was to be played to-day and a shooting match at Ogden had been arranged for.

An Accidental Fall. — Yesterday Miss Saville, about eight years old, daughter of Mr. George Saville, of the 18th Ward, fell over the banisters at the head of the staircase, and fell to the floor below. She was lacerated for a time, but no bones were broken, though she was considerably bruised about the head and body. She will probably be all right shortly.

A Grand Treat. — Tomorrow night, in the Tabernacle, which will be illuminated by seven electric lights, there will be one of the finest entertainments ever presented to the public of this city. The published programme speaks for itself. It is all that could be desired. Do not fail to get the proceeds of the affair will be handed over to the Deseret Hospital fund.

A Little Light. — It now comes to light that last Sunday night three ladies saw the body of a man floating in the distance east and north of Black Rock. They did not know by the person was alive, but considered it singular that he should be in the water alone and so far from shore as late in the evening. They called that the person was dressed in a blue bathing suit slashed with white, this being the kind of clothing worn by Mr. Farmer when he disappeared. These ladies state that the body was floating face down when they saw it, as they distinctly saw the back of the head. It is probable that when the body was discovered it will be found either close to Church Island or near the town toward the southwest part of the County.

Smallpox in the North. — The Ogden Herald of yesterday containing communication stating that James Rice, second son of Mr. J. Rice, of North Ogden, died of smallpox at Bailey's Camp, on the Oregon Short Line R. R., at Arimo, Idaho, on Saturday last. The same correspondent states that there were, at that date, nine cases in the pest house established in that locality. The same paper says:

We are credibly informed that the dread disease smallpox has already held two victims into an untimely grave at North Ogden. On Saturday the 5th, Bryan Orton, a married man, father of three children, and Wm. Love, a young man, single, succumbed to the dire affliction. They had contracted the malady while working on the Oregon Short Line. Their remains were interred in the evening of their demise.

The Walker Opera House. — The grand concert of the Mendelssohn Quartette Club at the Walker Opera House, yesterday evening, if we judge from the applause which greeted their efforts, may be considered a decided musical success. Considering the sultry weather and the eminently classical nature of the entertainment, it speaks well for the musical culture of Salt Lake City to see so large and appreciative an audience present as that which listened to the admirable music of the Quartette Club last evening. Almost every selection on the programme called forth repeated encores and the applause was hearty and unaltered.

The club is one well known in musical circles, and has occupied a deservedly distinguished position in the harmonic world for several years. Of course our musical critics were out in force, and were warm in their commendations on the excellence of the entertainment, particularly in regard to the admirable accompaniments and harmonious blending of the varying voices of the different instruments.

Miss Miller's singing was bird-like and was enthusiastically applauded. The club will appear again at the Opera House this evening for the first time, for which an entire change of programme is announced.

### ANOTHER GUN ACCIDENT.

ARTHUR BANT HAS A HOLE SHOT THROUGH HIS HAND.

On Saturday, August 5th, Arthur Bant, aged 17 years, son of John Bant, Junr., of Clifton, Idaho, met with a very severe accident. While at a shooting match at Tremonton, about eight miles from Clifton, he was brushing the dust from the muzzle of a Browning rifle, when it was prematurely discharged. The bullet entered near the center of the right hand and came out at the back near the wrist, tearing a ghastly hole in the member about two and a half inches in diameter. The unfortunate lad was conveyed to his home by his uncle, George Bant, and Dr. House, of Oxford, was summoned and dressed the wound. At last accounts the patient was progressing favorably.

Water Wanted. — A suggestion was made to the city Council last night with a view to the solution of the "North Bench" water question. The proposal was to get Jordan water to that section by means of a force pump to be placed in an eligible position in the Salt Lake and Jordan Canal.

An engineer of this city estimates that the machinery would cost about \$5,000. (Also that a house to enclose it, the necessary piping and other expenses would require \$10,000, making \$15,000 in all. For this amount it is claimed that 50,000 gals. could be forced to the desired altitude in ten hours. It is also estimated that the cost of working the machinery, including fuel, would not exceed \$10 a day.

If the plan is feasible, and the estimate anything near correct, the cost would be a mere trifle in comparison with the character of the boon that would be conferred upon a large number of people suffering for the lack of one of life's most needed commodities.

The subject was referred to the committee on irrigation.

While on the subject of water we may state that there is now a stream running into the "North Bench" water ditch, but it is entirely monopolized by the residents of the eastern part of that elevated locality, while the citizens located more to the west have not been refreshed by a single drop for over a month. The City undertook the control of the water in that section, and all the citizens who have pay their portion have an equal right. This being the case it is, to say the least, rather singular that people should be allowed to continue to encroach on the rights of their neighbors with impunity. Why is the law not applied to the water-stealers? Why are the bench people not protected in what limited water rights they appear to possess?

From the Atlantic and Pacific R. R. — This morning we were pleased to receive a call from Mr. B. S. Young, who arrived yesterday from Arizona, where he has been railroad riding for about a year and eight months. A portion of the time he was in the direct employment of Hon. John W. Young, and for a considerable period he and several of his brothers took and operated sub-contracts for grading the line and hauling ties.

We learn from Mr. Young that the Atlantic and Pacific road is now built to within about five miles of Flagstaff, the first and principal station in the San Francisco Mountains. He describes the country in those mountains as indescribably beautiful, being heavily timbered and largely covered with grass. It will never become an agricultural district, but is admirably adapted for stock ranches. Life along the railroad is described as exceedingly rough. There are many characters in the locality who hold life cheaply, and affairs are frequently disturbed by acts of violence. Mr. Young and party started for home, by teams, on the 19th of July. Two or three days previous to that date a sub-contractor named Stone addressed a slighting remark to a leader at Flagstaff, when the latter immediately drew his revolver and shot Stone five times, killing him on the spot. The party who did the shooting immediately left the place with a companion and a number of citizens started in pursuit for the purpose of visiting summary vengeance upon the murderer.

An Exceptional Incident. — On Sunday evening, at the commencement of the storm that prevailed over this valley, Mrs. Luce, of Big Cottonwood Ward, observed, immediately after the first thunder clap, that the wheat stacks in the rear and immediate vicinity of the house had ignited and were enveloped in flames. She, with a number of other parties, rushed to the spot and commenced to extinguish the fire. While this way engaged lightning struck the same spot a second time, scattering the ashes all over the people and giving them a terrible fright. Mrs. Luce being slightly shocked. Fortunately no body was injured in any extent. This incident appears to develop something "new under the sun," a universal theory having heretofore existed to the effect that the electric fluid would never strike the same spot twice.

### CITY COUNCIL.

Proceedings at the City Council on Tuesday evening, August 8th, 1922, Mayor Jennings presiding:

A petition was submitted from Wm. Fuller and thirty-four other residents of the bench portion of the First and Tenth Wards, representing that in the division of the Sunday water, (on which day alone they are entitled to water for irrigation) they had only a very small stream, compared to what is given to the same quantity of land on every other day in the week, in other localities, and asking for allotment of some portion of the stream in addition to the Sunday water. Referred to the committee on irrigation.

A communication from Henry Wood, superintendent Denver and Rio Grande Western Railway, addressed to the city of Salt Lake, was presented in which it was suggested, in view of the already increasing traffic of the road and for the public security that a policeman be detailed at said depot, same as at the

Utah Central. Referred to the committee on police.

A long communication from Abraham Taylor making complaint in regard to water for the irrigation of his lot in the Twelfth Ward was submitted and referred to the committee on irrigation.

A petition was read from Point-dexter Hunt for permission to establish a bookbinding stand on the sidewalk in front of the Watch Building, East Temple Street. Laid upon the table pending a report from the committee on license upon application of a similar nature for John Jellish.

A communication was presented from B. Y. Hampton, suggesting to the Council the feasibility of pumping water from the Jordan and Salt Lake City Canal, to supply the inhabitants of the dry bench, north. Referred to the committee on water-works.

A petition signed by Eli H. Murray, Governor, and 109 others, business men, officials, etc., was read, requesting that there is not a present within city limits any recognized grounds or place of resort for those desirous of engaging in athletic sports, such as base ball, cricket, bicycle riding, etc., and asking that the east half of Washington Square be set aside for the purposes mentioned, by lease or otherwise. Referred to the committee on public grounds.

Don C. Tufts applied for license to transact business as retail liquor dealer, at No. 10 First Street, for three months from August 14th, 1922, under the ordinance regulating the sale of liquor, etc. Granted.

The committee on construction of Jordan and Salt Lake City Canal reported that there was expended on account of bridges and flumes, land purchase, right of way, day labor, engineering, etc., during the month of June, the sum of \$8,795.90, as detailed in the vouchers accompanying the report. Approved and filed.

The committee on streets and alleys, to whom was referred the petition of Wm. H. Hooper and 13 others in relation to the east end of Third North and Quince Streets, reported that they had visited the locality and examined into the matter, and recommended that the prayer of the petitioners be granted and the supervisor of streets instructed to cause the work asked for to be performed in the order of business. Adopted.

The committee on license, to whom was referred the petition of N. Groesbeck and others, asking that John Jellish be permitted to put up a confectioner's stand across the water ditch in front of the Watch Building, reported that it was contrary to the policy of the city to allow obstructions over the water ditches or on the sidewalks. The committee therefore recommended that the petition be not granted, and that the marshal be instructed to cause the removal of all such stands as are now located across the water ditches. Adopted.

The committee on public grounds, to whom was referred the petition of G. H. Snell, for permission to purchase a certain tract of land on the mountain north and east of the Warm Springs, reported they had examined into the matter, and were of the opinion that it would be of advantage to the public to dispose of the ground described, and recommended that the petition be not granted. Adopted.

The Police Court report for July was submitted by Alderman Spier, showing that 152 cases had been tried, and thirty-three dismissed; \$490.80 had been collected on fines and paid into the city treasury; besides assessments in labor amounting to \$448.90, making the total of cash and labor fines for the month \$936.70. Approved and filed.

The following bills for the month of July were presented for action and allowed: Marshal's expense bill: On expense account, \$31.45; on police account, \$85.50; on prison expense account, \$19.15; on fire account, \$15.00; total, \$151.10. Salt Lake City Gas Company, for street lighting, as per contract, \$920.83; for gas to city buildings, \$44.45. A Bart, jailor, for boarding prisoners, 2,779 meals at 15c, \$416.85. Adam Spitzer, for services as police magistrate for the month ending July 13th, \$125. R. B. Williams, for collecting dog tax, \$48. Special policemen on 4th of July, \$27.

The subject of the salary of the quarantine physician, was referred to the committee on sanitary regulations and quarantine. Adjourned for one week.

There was a bad gun accident at Clifton, Cache Valley, on Saturday.

### SPECIAL BUSINESS NOTICES.

#### NEW RESTAURANT.

The Universal. D. J. Griffiths begs to announce that he has commenced business at his new establishment, 1227 1st South Street, and is prepared to furnish Lunches, Dinners, Suppers, etc. from 25c. to 75c. Ices, Jellies, Creams, American food Drinks. 6218 ft.

#### \$500 REWARD.

They cure all diseases of the Stomach, Bowels, Blood, Liver, Nerves, Rheumatism and Urinary Organs, and the \$500 will be paid for cases they will not cure or help, or for anything injurious or injurious found in them. Hop Bitters. Test it. See "Truths" or "Proverbs" in another column.

The proper course to be pursued by any one troubled with a disease of the skin is to procure and use without delay CLAY'S SULPHUR SOAP, the most reliable of purifiers. It completely removes those eruptions which often result from impure blood, and remedies irritation, abrasions and roughness of the skin. Pimples, blotches, tan, freckles, in short all complexional blemishes are eradicated by it, and it affords prompt relief to muscles and joints racked by rheumatism. Clothing and linen which have been used in the sick room, can be thoroughly disinfected by it, and diseases of an obnoxious nature prevented by its use. It is especially popular with the highest eminence speak in the highest terms of its remedial properties, and it has been used as a disinfectant and deodorizer in hospitals and infirmaries with the most satisfactory results. It is extremely popular with the fair sex on account of the clearness and smoothness with which it removes the cuticle, thus heightening personal comeliness as well as promoting a healthy condition of the porous system.

Sold by Druggists. Price, 25c. per cake. 1 Box (3 cakes) 75c. sent by mail, prepaid, on receipt of price. C. N. CHRISTENSEN, Prop'r, New York.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c. d&w.

MRS. DR. BURE, HOMEOPATHIST and Electrician, treats the diseases of women and children. Pleasant accommodations for lady patients, 3rd South, 13 blocks West of Cliff House, 7th Ward.

BENEFACTORS.

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical, but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

#### FROM "THE TIMES."

Editors Times: — The veterinary department in your valuable paper is always read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing sprains and splints with Kendall's Spavin Cure, and he alludes to using it now in his practice for several human ailments on account of the success he has always had with it. The above statement from so prominent a veterinarian gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk at times, I procured a bottle and as it has completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thanks to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflicted in body, that you continue to make known to the world the great value of Kendall's Spavin Cure for both man as well as beast. Respectfully yours,  
ARNOLD PARKER.  
Rochester, N. Y., Sept. 1st, 1921.
