TIGHT LACING.

We notice an increasing tendency of late, especially among young ladies, to tight lacing. There are some who in walking through the streets look as if a moderately heavy shock would cause them to break in two—their waists are so reduced by lacing. This fashion can not be too strongly condemned, and parents are unfaithful to their trust, who suffer their daughters to adopt this health-destroying habit. Mrs. Clemence S. Loefer, a doctor of medicine, recently delivered a lecture on "Tight Lacing," in Brooklyn, New York. She advanced some very excellent ideas on the subject, which should be made familiar to every lady.

One of the saddest things she had seen, she said, in traveling in Europe and America, has been.

"In many of the first schools for young ladies, young and growing girls so laced and stiffened up with corsets that they could neither think clearly or act naturally, and I could scarcely forbear telling the learned professors who were trying to beat into their dull and aching heads and stupid brains some occult problem, that they had far better let science alone and turn their attention to the art of dressing their pupils healthfully—or at least give them some practical lessons in physiology, beginning by clipping their corset strings and putting shoulder-braces or suspenders to their skirts."

Not only headaches and backaches, but how many heartaches arise solely from a want of proper circulation of the blood. Death by strangulation will take place by compressing the waist as well as the neck, and although it is slower, it is more deliberate suicide. Free circulation of the blood is the primary principle of life! Why? The larger veins in the human body lie very near to the surface, and any undue pressure upon them immediately forces the blood into the smaller and interior veins, where, being gorged, congestion and inflammation ensue and aggravate numerous and fatal results. Pressure upon the abdomen is equally as pernicious as tight lacing. Men may legislate for the future generation, but women must first produce the children that must make up the generation.

The defeat of Horace Greeley, who ran as Comptroller of New York State on the Republican ticket, at the election on the 2d inst., has disappointed his friends and party, who counted largely on his popularity. It is consoling, however, to him to know that he ran ahead of the ticket.

The exclusion of the Bible from the common schools of Cincinnati, calls forth from the Cincinnati Evening Chronicle severe strictures on the members of the Board who voted in favor of the measure. It publishes their names—twenty-two in number—and says that the issue should be made for once, and at the election next April every anti-Bible member of the Board, whose term then expires, must be ousted from his place. It says emphatically, "The Bible must be restored to its place in the schools."

There were two resolutions adopted by the Board, the first of which declares that "religious instruction and the reading of religious books, including the Holy Bible, are prohibited in the Common Schools of Cincinnati." To this is appended the explanation that "the true object and intent of this rule is to allow children of the parents of all sects and opinions in matters of faith and worship, to enjoy alike the benefit of the Common School Fund. 'Appropriate singing' is also proscribed in the schools."

By Telegraph.

GENERAL.

Bordentown, N. J., 8.—Admiral Stewart died here yesterday, at a quarter past three, and will be buried at Philadelphia on Wednesday.

Helen, Mont., 7.—A fire broke out at 2 p. m., to-day, at the theatre, and the whole building was in flames when it was discovered; nothing was saved. The fire spread across the street and consumed seven dwellings, total loss \$35,000. The wind was blowing a gale at the time, but fortunately toward the hills, and the town was saved.

Detroit, 4.—A number of vessels have arrived in a disabled state with cargoes gone and cargoes damaged.

New York, 3.—Secretary Boutwell has authorized the State to say that he has not sent any agent to Europe, nor authorized any one to act for him; he has always been in favor of funding the debt at a lower rate of interest, and hopes some time to get it down to four and a half per cent.

The Erie Railroad has authorized for a hundred men to fill the places of the brakemen on strike. It is reported that a large number of men, including some freedmen from Jersey City, and a crowd of New York roughs, have been employed to go to Port Jervis and assist in moving the freight cars which have accumulated there, and to fight the brakemen if they interfere.

Saratoga, 4.—Superintendent Brown, of the Palmer Falls woolen mills, at Corinth, was shot dead last night by the watchman, mistaking him for a burglar.

Boston, 4.—Dr. E. Gilchrist, for thirty-seven years a surgeon in the Navy, died at Chelsea Naval Hospital, on Saturday.

New York, 4.—A. M. Bannister & Co., wine merchants, have suspended the payment of their assets, which exceed their liabilities; they have decided to suspend rather than honor heavily at high rates of interest.

Toronto, 4.—Van Houghmet, Chancellor of Ontario, died on Sunday.

New York.—Captain Higgins, late commander of the privateer *Washington*, he was forced to put the *Washington* in consequence of the inferior quality of the oil received from a schooner off Montserrat Point. He claims that the *Cuba* was legitimately a man-of-war, with a commission from the Cuban government. His intention, at the commencement of his cruise, was to prey upon Spanish commerce in the West Indies, and assist the Cubans in gaining possession of one of the ports of the island. The failure of the scheme is attributed to his inability to obtain coal without running into Wilmington. The officers of the *Cuba* have lost heart by his seizure, but are determined to try it again if they can get another ship.

New York.—A secret investigation has recently been had before a commissioner in the case of Romaldo Milligan and James Caldwell, who have been charged with being implicated in certain raids, with other persons, whose names have not yet been revealed. Samuel L. Blatford is alleged to be among the accused parties.

Col. Rustan, who has been here several days, has just completed the shipment of a hundred thousand Springfield and Enfield rifles to Constantinople, and will make contracts for as many more. Father Hyacinthe has written a letter to the Catholics of the United States, which will be published soon.

Frank Gould and others, Erie Directors, have gone to Port Jervis to settle the recent strike. Fisk took a strong guard to protect him. He will discharge all the men who struck and put these men in their places.

Peter Midot, an insane man, was killed by a clerk at the Harman House, at Port Wayne, Ind. Midot was making a disturbance in the house, when the clerk threw him forcibly out of the doors, crushing his skull. Midot was married and was fifty years of age. The clerk has been arrested.

The Erie brakemen, who were on strike at Port Jervis, were paid off this morning in the number of eighty-eight. The company say they can get all the men they want.

Washington.—Secretary Robinson announces the death of rear Admiral Stewart, and a general order directs that the usual honors be paid to his memory.

Louisville.—About twenty emigrants on their way to Missouri reached here this morning, nearly famished.

Chicago.—Alderman Russell's planing mill was completely destroyed by fire yesterday; loss, \$80,000; it was uninsured. The same structure was partially burned a year ago, causing a loss of \$30,000. Several other structures adjoining have been damaged or totally destroyed. The loss will amount to \$200,000.

Albert Waters, bar-keeper at the "Clipping Blade" saloon, was shot and instantly killed, at one o'clock this morning by some unknown ruffian. Several persons were quarrelling at the time in the bar, but he was taking no part in the affair, when a shot was suddenly fired, striking him in the head. All the inmates of the saloon have been arrested.

Chicago.—The Chicago Relief Society's report show that 1600 families, or over 7,000 persons, were aided during last year, besides nearly \$3,000 furnished transient persons. Over \$350,000 were expended in cash and supplies.

A Washington special says that the reduction in the duties on sugar between England and the United States, from 24 1/2 cents per cwt. to 12 1/2 cents, has only diminished the revenue 12 per cent. The Postmaster General thinks a further reduction to 6 cents would not impair the revenue and accordingly he is negotiating to secure such reduction.

The Third Auditor, Clark, will recommend, in the forthcoming report, for Congress to give authority to settle accounts to certain quartermasters who during the war, were unable to comply with all the forms of the law, where there is evidence to show that no dishonesty has been practiced. This action will relieve a large number of honest officers.

Burlington, Vt.—The Lake House and Noye's block were totally destroyed by fire this morning. One man was fatally injured and nine others more or less so by the falling of walls.

Owego, 4.—A severe gale has prevailed here since Saturday night, causing considerable damage to the shipping on the lake. A number of vessels have been wrecked at various points.

Gardiner, Me.—The city high school was totally destroyed by fire yesterday.

Cleveland.—A freight train on the Sandusky, Mansfield and Newark railroad, was thrown from the track near Mount Vernon, on Sunday, badly smashing the engine and ten cars. The conductor was killed, and the fireman severely hurt; but the engineer only slightly.

St. Louis.—Captain Shaw was examined to-day by the *Synowall* Investigating Committee, and said that when he reached the wreck, on the day following the fire, both the wheelhouses were standing, and he thought, from the position of things, that many persons could have remained on the boat for some time after the fire broke out. In reply to a question whether he, being in Captain Washington's situation on the night of the fire, would have stopped his boat, he said that he was present to state facts and not to give an opinion; he would, however, give an opinion outside of the Committee-room if desired.

Concord, N. H.—Elihu Hampton the murderer, is to be executed to-morrow. He has made a full confession.

Seranton, Pa.—H. Gaylord, Treasurer of the Avondale Relief Fund, acknowledges the receipts to November 6th, to be \$31,239, of which nearly \$11,000 have been paid to widows and orphans, and the balance is on security, invested for the fund.

The Louisville annual meeting of the Association of General Agents, will be held here on Wednesday and Thursday; important questions, touching the transportation of goods will be discussed, and tariffs on freight adopted.

Fort Benton, M. T.—A special messenger from General Sully, the Indian Superintendent, states that the deaths among the Indians from small pox number five hundred, or half of the entire tribe. They are committing suicide by blowing their brains out with revolvers.

Pittsburg.—Mrs. Campbell, residing in the Fifth Avenue, was brutally murdered by her husband some time last night. The murderer surrendered to the police, and confessed that his wife died by falling down a stair. The body of the woman was found covered with blood, having evidently been beaten to death with a poker.

FOREIGN.

New York.—Official telegrams state that the Austrian forces are operating against Dalmatia. The insurgents in the south of Spain, after considerable severe fighting, captured and partially burned the towns of Pobocric and Malina. The insurgents, just previous to their defeat, blew up Fort Stenapa.

The Herald's special, from Florence, says that King Victor Emanuel remains in a critical condition of health. He is seriously ill and is confined to his bed. The medical bulletin, issued to-day, announces that the King is laboring under a severe attack of that military eruption which appears on the surface of the skin and generally spreads over the body. During the past night the King was duly informed that his life was in danger. He received the news calmly, and at an early hour this morning sent for a Confessor, from whom, after a compliance with the Catholic rule of belief, he received absolution and the holy sacrament. He is enjoying, apparently, the greatest tranquility of mind. During the afternoon it was reported that the King was slightly improving.

Mulda, Yucatan, Oct. 26th, via Havana.—There has been a disastrous inundation in this vicinity, causing a heavy loss of property and a number of lives. The town of Multupue was completely destroyed, and in the cemetery many corpses were found floating in the water. Many of the roads in the country are impassable on account of the heavy rocks which have lodged on the highway by the current of the flood.

Paris.—An unknown man was arrested yesterday for provoking around Compeigne; and on his being searched he was found to be armed. He admitted that it was his intention to assassinate the Emperor.

The Minister of Foreign Affairs is quite sick.

There are no further dispatches from Florence, but there is much anxiety to hear from King Victor Emanuel.

The Press says that the Minister of War proceeded to Compeigne yesterday, to consult with the Emperor on matters to be taken in the event of the death of the King of Italy, especially as fears are entertained that the Mazzinians are plotting for an insurrection in Italy, to take place at the end of the present month.

At a late hour to-night, a crowd of 1,500 citizens, accompanied Rochefort to his hotel, crying "Viva Rochefort!" The police did not interfere.

Paris.—Invitations have been issued for a reception at Compeigne on Wednesday. Washburne, the American Minister, is among the invited guests.

Trieste.—By dispatches from Caltra, it is announced that the armed resistance in the Iudra Districts, has been completely subdued.

New Orleans.—The new steamship *Hanover*, from Bremen, has brought 200 immigrants, 50 of whom go to Texas, the remainder will mostly settle in Louisiana.

Havana.—Intelligence from the Interior states that cholera still prevails at Puerto Principe. Yellow fever has also appeared.

A steamer has arrived to-day from Spain with a battalion of troops.

Mobile.—The tracklaying on the Mobile and New Orleans Railroad commenced to-day. The ceremony of driving the first spike was performed by Colman, the proprietor of the Register, who made a pertinent speech.

A Toronto dispatch states that the Canadian and Dominion banks have consolidated.

Correspondence.

CHICAGO, Tuesday Nov. 2nd, 1899.

Editor, *Deseret Evening News*.—Dear Bro.—The first company of Missionaries arrived in this City on Saturday night last, at half-past 7 o'clock, too late to take the trains bound East, so we had to lay here over Sunday. We all put up at the Allan House, situated on Sherman street, opposite the Chicago and Rock Island Railroad Depot, a very nice place for our people to stop at, every accommodation and the charges very reasonable. It would be well to notify the company that start on the 20th to stop here if they have to lay over in this city as the house is convenient to all the Railroad routes. I rendered good assistance to this company, as many of them were not used to traveling, and did not know where to go. The first thing I did on arriving at Omaha was to go to the ticket office and procure tickets for those that failed to get them before they started. It would be well also to notify the company that are to start on the 20th, for every person, men and women, to get their tickets at Salt Lake City before they start, as it will save them a great deal of annoyance and be money in their pockets. Some of the sisters who came in our company had to pay full fare.

The company had a good rest here over Sunday and had an opportunity of seeing Chicago. We found in some localities more whiskeys than in any other place, and all in full blast. At the same time the church bells were ringing and the people looking to their several places of worship, their countenances looking to us as though they were going to a sepulchre.

We were treated very kindly on the Chicago and Rock Island Railroad; they placed first-class cars at our service. I told the Agent at Omaha that we would send a car, and to ourselves which was readily granted, and two of them if we needed them. We found better treatment at this end of the Union Pacific than we did at the other end.

We had several visits while traveling between here and Omaha from that Congress Party that came to Salt Lake City two or three days before Mr. Colfax, Governor Ward, of New Jersey, and several others of the party sat in the cars with us and listened attentively to the elders. A great many other passengers in the same train heard we were "Mormons" and they kept hopping in and out to see what we looked like. I could have sold a great many of our Church publications if I had had them. I have met lots of friends and acquaintances here.

Henry McEwan is with me. We called upon Dr. Fuller, who treated us very kindly. I saw the whole of the company off yesterday to their several routes on the Railroad. I start for Detroit this morning to see my relations, and shall go to New York in a week. It would be well to send a lot of Books of Mormon, Doctrine and Covenants, Answers to Questions, &c. to New York, as I know there will be great call for them.

Praying God to bless His servants at home and abroad, I am your Bro. James Dwyer.

Special Notices.

All lovers of that delicious bivalve the oyster, should see the advertisement in this number of the NEWS, of Joe Simmons, proprietor of the Revere House Saloon. He is receiving them every day from Baltimore per the U. P. R. R. He has also constantly on hand the best brands of ale, beer, porters, tobacco, cigars, besides pig's feet, calves' tongues and other delicacies and delicacies. Lovers of good cheer, who want a nice meal in a hurry, should not fail to visit the Revere House Saloon.

Gillet's Washing Crystal makes Washing easy, removes all stains, and BLUES THE CLOTHES at the same time. Ask your Grocer for it, everybody. d286-122aw w418-2

It Can Not Be Denied. DOOLEY'S BAKING POWDER has not only attained the position of the best, but the cheapest baking powder now in use. Strictly pure in its combination, and so exactly proportioned, that there is no trouble in making light, sweet biscuits, rolls, pastry, &c., every time. It is the cheapest to consumers, as one pound will go further in the culinary department than two pounds of any others in the market. Try it and be convinced. For sale by all grocers.

Gillet's Flavoring Extracts are known to the Trade, from Chicago to the Pacific. All Grocers and Druggists keep them.

A. A. Coburn, of Boston, says, "I used Burnett's Colloidal and Kallistone for Dandruff which would cover my coat collar like a shower of snow, and the Dandruff and Irritation ceased."

Gentlemen, after shaving, who suffer from the smarting effects of soap, will find instant relief in the use of Burnett's Kallistone.

Burnett's Extract of Vanilla is free from Tonka Bean, or other impurities.

Burnett's Florida—All Nature's sweets, in millions of homopathic atoms, seem to have been combined and distilled in the production of this delicious perfume.

Whitcomb's Asthma Remedy in all cases will most surely and quickly afford relief.

All the Grocers in Utah (nearly) sell Gillet's Baking Powder, and it is not surpassed, in Quality or Cheapness, by ANY POWDER IN THIS OR ANY OTHER MARKET.

BAD BLOOD.—The Red Jacket Stomach Bitters are the best blood purifier in existence. They cleanse the stomach, produce appetite, and consequently remove dyspepsia, mental depression, fevers, &c., &c. They are for sale by druggists and general dealers.
