

PRESIDENT ON WOMAN SUFFRAGE

New York, Dec. 4.—The attitude of President Roosevelt and Secretary of State Elihu Root on the subject of woman suffrage was disclosed today at a meeting under the auspices of the National League of Civic Education of Women.

The Rev. Dr. Lyman Abbott, editor of the Outlook, in the course of an address in opposition to granting the right to vote to women read the following letter from President Roosevelt, which he said he read with the president's permission although it was not written "for publication, nor for this occasion."

"Personally, I believe in woman's suffrage," says Mr. Roosevelt at the outset of the letter, which is dated November 10, 1908, "but I am not an enthusiastic advocate of it because I don't regard it as a very important matter. I am unable to see that there has been any special improvement in the position of women in those states in the west that have adopted woman suffrage, as compared with those states adjoining them that have not adopted it. I don't think that giving the women suffrage will produce any marked improvement in the condition of women. I don't believe that it will produce any of the evils feared, and I am very certain that when women, as a whole, take any special interest in the matter they will have the suffrage if they desire it. But at present, I think most of them are lukewarm; I find some actively for it and some actively against it. I am, for the reasons given above rather what you would regard as lukewarm or tepid in my support of it because, while I believe in it, I don't regard

BARONESS VON BERNSTORFF.

The wife of the newly appointed German ambassador prior to her marriage was Miss Margaret Luckemeyer, daughter of Edward Luckemeyer of New York. She is popular in the most exclusive social circles and will take a leading place in Washington's social life this winter.

it as of very much importance. I believe that man and woman should stand on an equality of right, but I don't believe that equality of right means identity of function; and I am more and more convinced that the great field, the indispensable field, for the usefulness of women is as the mother of the family. It is her work in the household, in the home, her work in bearing and rearing the children, which is more than any man's work, and it is that work which should be normally the woman's special work. Just as normally the man's work should be that of the breadwinner, the supporter of the home and, if necessary, the soldier who will fight for the home. There are exceptions as regards both man and woman; but the full and perfect life, the life of highest happiness and of highest usefulness to the state, is the life of the man and woman who are husband and wife, who live in the partnership of love and duty, the one earning enough to keep the home, the other managing the home and children.

"Sincerely yours,
THEODORE ROOSEVELT."

Dr. Abbott, who was the principal speaker at the meeting, argued against what he held would be the infliction of new and unnatural responsibilities and duty upon women by forcing upon them the obligations of public life. The title of his address was "The Assault on Womanhood."

High top shoes a source of constant delight to boys and girls, no present you can give will delight them so much regardless of its cost. They are what every child most desires and in line with our progressive policy of having just what you want when you want it we are showing a wonderful line of these goods.

The buyers for the misses and children, boys and youths have vied with each other in putting out a bunch of gingerly styles that duplicate the grown up sorts. As the father in days of old valued his red top boots, so does the boy of today prize his high tops. The higher the better, and we show the very highest top patterns made.

We advise early buying as notwithstanding our large stock of these goods, previous experience tells us that we will be short of sizes. Boys' extra high top shoes, buckle or plain effects, made for all ages of boys; yes, even for the little shaver, 3 or 4 years old. Little and big girls high top shoes, just like the big girls wear, tan or black in calf skin, storm boots, also black kid button; and when it comes to boys grown up or men's high tops ask any of the fellows that are "wised" up on the high top question and we are the answer.
