J. A. Katarwitch Said Members  
Of Local Union Intimi-

## REFUSED TO PAY THE SCALE

Was Surrounded by Gang of Strikers  
And Afraid to Continue His  
Work—Other Witnesses.

When J. A. Katarwitch, a master plumber, was called to the stand in Judge Morris L. Ritchie's court this morning in the injunction suit brought against the local union No. 19 of Journeymen Plumbers, he charged the members of the union with intimidating him after they had gone out on strike because he had refused to pay them an increased scale of wages which would set them \$6.50 a day. Katarwitch was surrounded last June by a gang of strikers and he declared to the court that he was afraid to continue his work on contracts. A short time after he was on the stand, the members of the union were brought in to the court and he said he had no evidence that the strikers had destroyed his property.

Charles J. Higson, a master plumber, was also called as a witness. He related to the court the conferences held last night by the plumbers' union. He said that the only excuse for demanding higher wages was that the cost of living had gone up. Frank J. Carthy, who had gone up on strike, also testified that he was afraid to go to work with the strikers.

## DEFENSE SHOWS THREAT.

In the testimony brought out by the defense in the murder trial of John Korthof, before Judge Morris L. Ritchie, it was shown that Peter Getis, the lead man, had threatened the life of Korthof a number of times. Andre Korthof testified that he heard Getis say that he would kill Korthof. Peter Getis gave a conversation he had with Getis in which Getis threatened to kill Korthof.

## HOME CURE FOR ECZEMA

Oil of Wintergreen, Thymol, Glycerine  
Etc., Used as a Simple Wash.

It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure. Old obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderful soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago and our long experience with this remedy has given us great confidence in its merits.

taining money under false pretenses from M. Curtis, a hack driver of this city. Nelson was brought to Salt Lake and lodged in the county jail. He says that Curtis "had it in for him" because he "jumped" a \$15 board bill. Nelson also admitted having gotten a \$30 watch from Curtis, with the understanding that she should pay for it on time, and that he had never paid Curtis any money for it.

## ALLISON GEORGE CASE GOES TO JURY TODAY

Judge Page Morris Rules That Gov-  
ernment Property Remains  
Trust Fund.

The case of the government against Allison A. George, charged with stealing cattle from the Utah Indians, was finished this afternoon and will probably go to the jury before the afternoon session is closed.

An interesting ruling was made by the bench during the argument. The defense contended that the case should have been tried in a state court instead of before the federal bench, holding that inasmuch as the Indians at the time of the alleged theft were citizens, the defendant should not have been called to any but a state tribunal.

The defense also held that Wash, one of the Utah Indian owners of the property, alleged to have been stolen, was in possession of cattle prior to the time he received a gift of stock from the government. It was claimed that in question and that the government erred.

Judge Page Morris ruled that the property given the Indians by the government remained government property even after the time when the Indians became citizens. "Those gifts by the government were in the shape of a trust fund," said the court, "and it has been held in a number of cases (citing them) that any increase in val-

uation reverts to the government. These decisions rule that the time under which the Indians hold these gifts is that of 'trust,' and all these holdings are exempt from taxation."

## BUS PASSENGERS

Mr. and Mrs. Milton Nobles, who will play at the Longfellow this week, are guests at the Knutsford. Mr. Nobles is one of the old time actors and played in Salt Lake City many years ago. He has made many visits to Salt Lake and on this occasion he expressed surprise at the remarkable growth of the city. "Many years ago," said he, "I could have purchased the ground upon which the Knutsford hotel now stands for \$5,000. Just think how conditions have changed, and it does not seem so very long ago that one could have taken advantage of the cheap prices here for real estate."

J. H. Finlay, a prominent mining engineer of New York, is a guest at the Knutsford.

Herman Volkerdeken, proprietor of the Old Barber distillery at Woodford Co., Kentucky, is stopping at the Knutsford. Mr. Volkerdeken is here on business and is going to the coast.

Charles McBride of Koele and Fred W. Shaver of Birmingham are among the guests at the Kenyon.

A. J. Mackinab, a retired merchant and mining man of Salmon City, Ida., is stopping at the Culien. "Business conditions generally throughout the state of Idaho are excellent," said Mr. Mackinab this morning. "Cattle raising and agriculture are on the boom. There is a great deal of activity in railroad building and the lumbering industry. You will see something stirring in our part of the state."

J. L. Evans of American Falls, Ida., is registered at the Culien.

## BUSINESS AND REALTY

The Oak Creek Orchard company, whose property is located in Millard county, intends to push its development to the limit and in the course of a few years to bring the county into close competition with Brigham City and Cache county in the matter of fruit production. The company has 490 acres of land on the east bench near Millard and thousands of contiguous acres have been taken up of late.

J. E. Ray, president of the company, says that the movement in Millard county is a very marked feature in the development of the agricultural resources of the state. "The Sevier Land and Irrigation company," he says, "has \$1,000,000 at its command for the development of that region and the Fillmore company has taken 25,000 acres of fine land in the eastern part of the county, intending to put it under cultivation at once."

For the last four years the precipitation here has amounted to an average of 18 1/2 inches. On this land alfalfa has paid from \$75 to \$100 an acre and from 17 to 40 bushels of wheat have been raised. Most of the land is going into fruit.

Five store buildings on the west side of south State street between Fifth and Sixth South, have been completed and are ready for occupancy. A number of three-room apartments are in the rear and it is the intention to erect a hotel for men in the near future. The properties cost about \$1,500 and are owned by H. E. Pack of Los Angeles.

Midweek brought the largest deal of the six days thus far in the sale of

property on Main street between Sixth and Seventh South by Bessie Jackson to A. E. Pomeroy, both of Los Angeles, for \$20,000. The property faces west and its dimensions are 126 front by 34 feet. Mr. Pomeroy is already a large holder of Salt Lake realty and is a member of the Salt Lake Realty Owners' company and the West Temple Realty company.

Dr. W. R. Wyoff of Indiana is another eastern man who has been attracted by Salt Lake realty. He has purchased 25 lots on Eleventh East and Eleventh South and one lot on Third West. He is now closing a deal for 40 acres about nine miles from the city which he intends to turn into a fruit and chicken ranch.

The bride wore a gown of white crepe de chine with trimmings of pearl applique, and Mrs. Larson Pratt was matron of honor. Mrs. F. V. Fox presided in the dining room assisted by a number of friends and relatives. Mr. and Mrs. Beard will make their home at Coalville.

## WESTERN MARKET LETTER.

(Special Correspondence.)  
Kansas City Stock Yards, Nov. 8.—Last week was the banner week of the season in receipts of range cattle, the whole range country extending from the panhandle through New Mexico, Arizona and up into Colorado and the northwest being well represented in the supply. The railroads have been promising to furnish more cars, and the decline of shipments from native territory in the last few weeks is enabling them to keep these promises. The market was lower at the opening last week, but improved after Tuesday, and closed the week in good shape with a 15-cent advance Friday. The supply today is liberal from the range districts, but the total run is moderate, at 16,000 head, market strong to 10 higher on killing stuff, 10 to 25 higher on stockers and feeders. Beef steers from Colorado and the west have sold up to \$5.50 recently, although steers weighing over 1,300 pounds are wanted and would bring around \$6, bulk of the beef steers \$4.50 to \$5, stockers today \$4.50 to \$4.75, cows \$3.50 to \$4.50, heifers up to \$5, stock cows and heifers \$2.50 to \$3.75. Beef steers from Texas and New Mexico bring \$4 to \$4.75, stockers \$3.40 to \$4.60, cows and heifers \$2.35 to \$4.10, canners around \$2.50, calves \$3.75 to

\$6.75. Calves gained 25 to 30 cents last week, and are a quarter higher today. A train of commonish Arizona stockers sold here recently at \$3.20 to \$3.50. The feature in the cattle trade here last week was the extra strong call for range bred stockers, and the total shipments of stockers and feeders to the country were enormous.

Sheep and lambs sold good last week till Thursday, when there was some loss in the price, but the market is good today, 10 to 15 higher, run today 5,000 head. Offerings of range stuff are light today, but some heavy tops were made on fed stock, and native lambs at \$7.50, light weight yearlings \$6.35. Choice range lambs would probably bring this price, and grass yearlings are quotable up to \$5.50, sethens \$5, ewes \$4 to \$4.35. Demand from the country keeps up fully as strong as any time this fall, and prices are higher than heretofore. Feeding lambs at 16 to 35, feeding yearlings and yearlings \$1.35 to \$1.45, breeding ewes \$1 to \$1.25, according to flesh and breeding, old ewes around \$1.25. Eastern reports are encouraging, and indicate that mutton is going into consumptive channels as fast as it can be dressed, and if the visible supply can be properly distributed in the marketing, prices should be satisfactory some weeks ahead.

## SERIOUS LOSS BY FIRE.

TABER, Nov. 2.—On Thursday last while threshing oats upon the farm of Andrew Jensen, five miles east of Taber, a spark from the engine set fire to the straw. As a heavy wind was raging at the time, the flames instantly ignited and destroyed his stable, chicken coop and all his hay consisting of 15 tons. The loss falls heavily upon Mr. Jensen. He is over 60 years of age while his wife has been confined to her room with ill health for over two months. The family came to

Canada from Sandy, Salt Lake county, six years ago.

## The Leyson Special Movement

It is reasonable to suppose that a piece of merchandise stamped with the retailers name must be of superior quality, or if otherwise the purchaser would have constantly before him the name of a house that "stung" him and the advertising gained by the retailer would work harm rather than good. Good logic is it not?

The Leyson Special watch movements are all engraved with our name, sufficient evidence of our complete faith in their accuracy.

We furnish this famous movement in all sizes and several grades for men and women and in prices in solid 14K gold cases ranging from \$25 to \$200.00
