

TAFT'S TRIBUTE TO POPE LEO XIII

One of the Greatest Men Who
Ever Sat on the Throne
Of Saint Peter.

ABOVE ALL HE WAS A MAN.

No Mere Lay Figure, His Intellectual
Character High, His Abilities
Broad.

Washington, June 11.—President Taft gave a vivid mental picture of Pope Leo XIII and declared the lamented pope to have been one of the greatest popes that ever occupied the papal chair, in the course of his address last night before the congress of Catholic missionaries in describing his visit to the Vatican a few years ago, as the representative of the United States in the settlement of the Philippine island question.

"I had the honor of being received by Pope Leo XIII," said the president, "one of the greatest popes that ever sat in that chair, and a man of such high intellectual character, such broad ab-

ilities, that I shall always congratulate myself on having had the opportunity to come into his presence and meeting him. I had supposed he was at 92 years old, was a lay figure rather than the head of the church and that we would really be turned over to the cardinals who really conducted church matters, but my mind was quickly disabused on that point, for as soon as I was brought into his presence I found a man of alert old gentleman quite quick in movement, quick in intellectual appreciation of what was said to him and intensely interested in the subject which the civil or honor and my opportunity to present.

"After an address had been made to him for some 20 minutes, he responded in French in 15 or 20 minutes, showing that he had caught all the points that were made, that he was fully alive to the importance of the issue and that he proposed to have a good deal to say about how that issue should be settled."

Speaking of the failure to reach a definite agreement at Rome, the president told how the pope expressed his disappointment but that he delegated one of his agents to go to the Philippines and that the matter was finally adjusted. And the president added that the question as subsequently settled was satisfactory to both sides, so that there was no real question of the Philippine islands as existing question; no "snakeheads," as Gov. Wright has in the habit of calling them, that can rise to trouble either the civil or church governments in those islands."

THOSE SAVED FROM WRECK TELL EXCITING STORY

New York, June 11.—When the 526 men, women and children from the wrecked Spanish steamer, *Antonio Lopez*, were brought to this port last night on a wrecking tug a remarkable story was told of the exciting incidents

after the vessel went on the sandbar near Fire Island Wednesday night. Four hundred and twenty of the passengers were in the steerage and soon after the ship struck they became panic-stricken. It is said, and two priests who were among them began chanting prayers. This was followed by religious songs, but the passengers in the steerage were not wholly comforted by this and made several efforts to reach the decks. Capt. Miris is said to have ordered the hatches locked and the doors bolted. The arrival of the life-savers' boats rescued the passengers.

HOBBO MILLIONAIRE HOW GOING TO EUROPE

New York, June 11.—J. Eads How, known as the "Millionaire Hobbo," will start for Europe today to organize the unemployed there as he has here into what he called the "committee for the relief of the unemployed." Although How is said to be worth \$2,000,000, he lives as the most modest of the unemployed. He would not announce the name of the steamer on which he is to sail, because he said he was going to work his way across and that it was against the rules of the steamship company to have their employees receive visitors.

OATS AND BARLEY.

Their Mixture Results in Death of Valuable Horses.

New York, June 11.—The mixture of barley with oats shipped here from the west is blamed by veterinarians for the death of a large number of valuable workhorses recently in this city. An investigation showed that intestinal trouble caused the majority of deaths and that the trouble was due to the presence of barley in the oats. The stable superintendents say that western shippers adulterate the oats with barley because it is cheaper and heavier, but that the mixture means death to horses.

Silverton, Ore., Oct. 16, 1905.
JNO. J. FULTON CO.—Gentlemen: I would like you to send me a bunch of your pamphlets. I can send lots of customers to your local druggist, as I am a strong believer in your cure for Bright's Disease, due to the following: The local physicians gave a young lady up as incurable. Her father brought a pamphlet of yours to me for my advice. I found I knew two of those whose names were given, viz: EX-U, S. Sub-Treasurer Spaulding and Dr. J. C. J. F. I was very happy to hear of your cure for the young lady's father ordered six bottles. Before she had finished two she was out driving, and today is teaching school in a high school. I have done lots of talking for you this past four years, and a good many of my customers who have been afflicted are well. The reason that I am writing this is that another one wants to start taking the Compound and wants to read up on your literature.

Yours truly,

JAMES CRAIG.

Did you ever hear of anything else in all the world that was so effective that business men would go among their neighbors and urge them to take it?

We solemnly declare to you that Bright's Disease and Diabetes are now curable in about 87 per cent of all cases by Fulton's Compound. Send for free literature to J. F. Fulton Co., 212 First St., San Francisco, Cal., or to F. J. Hill Drug Co., Salt Lake City.

circuit court of appeals, in an address at the commencement exercises of the Chicago Kent college of law. "If retired at a specified age," said he, "they should not be thrown aside as a worn-out garment, but pensioned, that the closing years of the life of a just judge may be passed in dignity and ease. I would have the appointment made by the governor, for when such responsibility is cast upon the chief justice, the state is weighty in fact, and as well for his own reputation as in the interests of the state, he will seek for ability, experience and ability to fill the position. But when that responsibility is distributed among 20,000 voters more or less, many of them ignorant of the men and of the qualities needed for the office—how much consideration is given to the matter? How much responsibility for the selection is felt by each individual voter?"

FRENCH AUTOMOBILE BUSINESS VERY BAD

New York, June 11.—A. E. Schwartz, foreign representative of an American automobile manufacturer, arrived here from Europe yesterday and reported that the motor car business in France was in a deplorable condition. He said that because of the great overproduction of motor cars abroad the manufacturers are literally begging dealers to dispose of their stock, and that many hundreds of cars are in storage.

Many buildings which for years have been occupied by automobile dealers, he says, now bear the "for rent" sign.

Coupled with the over-production, Mr. Schwartz attributes the repressive action of the government, the police making many arrests as possible and interfering for the most trifling offenses, and the authorities assessing a tax of \$1 for each seat in a motor car and what amounts to practically a tax of \$2 for each horsepower. A 30-horsepower car, seven seats must pay a tax of about \$67.
