

PUBLIC PRINTER OUSTED FROM OFFICE

President Demands Resignation of
Palmer, to Take Effect the
15th Inst.

HE HAD BEEN DICTATORIAL.

Called for Resignation of Two of His
Subordinates and His Own
Was Asked For.

Washington, Sept. 5.—Public Printer F. W. Palmer practically has been ousted from office. It was learned authoritatively tonight that President Roosevelt had demanded Mr. Palmer's resignation, to take effect on the 15th inst.

The demand for the president for Mr. Palmer's resignation was due primarily to the latter's action in trying to force Oscar J. Ricketts, foreman of printing, and L. C. Hay, a foreman of division, out of the government printing office. Mr. Palmer asked for the resignation of Ricketts and Hay on the ground that they had been insubordinate.

As soon as President Roosevelt learned of the situation that had developed, he directed Public Printer Palmer to forward to him his resignation, to take effect in two weeks.

It has been known for some time that Mr. Palmer would not be reappointed to his present office. For several months before President Roosevelt left Washington for Oyster Bay he was casting about for a suitable man for the position of public printer. He offered it to John A. Stecher of New York, but he declined it, having nothing better in view. Until this time there has been no change in the situation.

The investigation made by the commission into the letting of contract for 72 Linotype-setting machines for use in the government printing office disclosed a serious condition of affairs in the management of the office, the office forces being inefficient, having no training, and the standard of efficiency in the establishment was reduced materially.

The evidence adduced by the commission in the course of its inquiry created much bitter feeling among the men holding high positions in the office. One of the direct results of this feeling was the demand made by Public Printer Palmer for the resignation of Ricketts and Hay. As the keep commission inquiry, so far as known, developed nothing to the disadvantage of Ricketts or Hay, the president acted promptly in taking the whole matter out of Palmer's hands and laying it in the hands of the keep commission for such further investigation as might be necessary. Coupled with this action of the president was the demand on Mr. Palmer for his resignation.

With the incoming of Mr. Palmer's successor—and there is ample authority for the statement that he has not been selected yet—is expected a thorough reorganization of the working force of the government printing office will take place. Among the men mentioned in connection with the office are Oscar J. Ricketts, whom the public printer sought to remove, H. L. Brian, chief clerk of the office; William S. Rossiter, chief clerk of the census bureau, and John Leach, public printer in the Philippines. The office pays a salary of \$4,500 a year. The annual disbursements for the government printing office aggregate about \$7,000,000.

COAL MINERS WILL DEMAND RECOGNITION OF UNION

Philadelphia, Sept. 5.—John Mitchell, president of the United Mine Workers of America, was in this city today in his capacity as a vice president of the American Federation of Labor to join with First Vice President Duncan of the federation and others in the settlement of a dispute involving typographers and printers. He will leave for Shamokin tonight.

It can be stated on the highest authority that the convention of anthracite miners which will draft new demands for presentation to the coal companies on the expiration of the strike commission's report on April 1, next will be held in Shamokin between Dec. 8 and 10.

It was learned here today that the December convention at Shamokin will make the following demands: A salary of \$100 a month for the miners; a recognition of the miners' union by the coal operators; the recognition to take the form of a signed agreement.

Second—The substitution of an eight-hour work day for the nine-hour work day awarded by the strike commission, which is now in force throughout the hard-coal fields.

Third—An increase in pay over the minimum wages now paid to men and boys who are not contract miners, but are generally classed as unskilled labor.

Fourth—A uniform scale of wages for workers not actually miners at all collieries.

"Are the members of the union so eager for the recognition of their organization and for the eight-hour day that they are prepared to precipitate a crisis if they are refused them?" Mr. Mitchell was asked.

"I cannot answer that question. You see the miners have not met in convention and it would be presumptuous for me to say in advance what they will or will not do."

PHILADELPHIA CORRUPTION.

Fifty Thousand Names Stricken
From the Lists.

Philadelphia, Sept. 5.—Under unusual conditions the assessors of the 1914 election precincts in this city today made the extra assessment for the purpose of making corrections in the lists made up last May under instructions from the director of the department of public safety, who acted upon the authority of Mayor Weaver, a policeman was stationed at each polling place to guard against possible fraud in the revision of the assessors' lists of voters. The policemen were aided in this work by representatives of the Democratic party and of the City party, a reform organization opposed to the methods of the regular Republicans.

It is estimated by the police that nearly 50,000 names were stricken from the lists today.

Recently a house-to-house canvass of voters was made by the police and the Democratic and City parties, and at its conclusion Dr. Potter announced that the police had found more than 50,000 illegal registrations.

Midshipman Jackson Reduced.

Washington, Sept. 5.—Following the recommendation of the board of midshipmen, the president commuted the sentence in the case of Midshipman Robert Allen Jackson of the navy, who was tried by court-martial and sentenced to dismissal for absenting himself from the battleship Missouri without leave to reduction to a lower class. Every member of the court

FROM HEAD TO FOOT

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood, and through the blood cleanses, repairs and invigorates the whole system. In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It raises every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from food or from Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scall, or Scaly eruptions, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over-persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Dear Sir—Several years ago my blood became impure and I became run down in health. I had no appetite, could not sleep, and was practically unable to work. Suffering from Stomach troubles, indigestion, and a torpid Liver, I was advised to take Dr. Pierce's Golden Medical Discovery. I took it and in a short time I was restored to a normal condition of health. I can speak most highly also of Dr. Pierce's Favorite Peppermint Cure, as it has been used in my family for years in cases of female troubles.

Dr. Pierce's Pellets Cure Constipation.

signed a recommendation for clemency. Jackson was appointed to the academy from Virginia.

FUROR EXISTS IN JAPAN.

Complications Abroad Hostile to
Peace.

Gumahu Pass, Manchuria, Sept. 4. (Monday)—The situation, especially as respects the newspaper controversy, admits of saying little. The army organ publishes a statement to the effect that there are complications abroad hostile to peace. The Russian army's statement to the effect that the latest form of criticism of the management of the war and also of "bureaucratic meddling."

The Chinese have exhibited wide appreciation of the importance of the peace negotiations, but the prospects are not bright. The prospects are not bright. The prospects are not bright.

For days passing trains have been besieged for newspapers by soldiers at such stations as Kuohongchi, Kumahai Pass and Kachiatan. Otherwise this vicinity is unusually quiet.

Taggart Divorce Trial.

Wooten, Sept. 5.—Witnesses on behalf of Maj. J. E. Taggart were called in court here today to rebut testimony offered in behalf of Mrs. Grace C. Taggart. In their affidavits in connection with the divorce were read to show that the alleged quarrel between the Taggarts at Fort Leavenworth had been exaggerated.

Ensign Wade Operated On.

Vallejo, Cal., Sept. 5.—Ensign Chas. T. Wade of the cruiser Bennington, who has been summoned to appear before a court-martial in connection with the recent explosion of the Bennington, was operated on tonight at the Naval hospital for appendicitis. The operation was successful and Ensign Wade's condition is said to be favorable.

Fatal Automobile Accident.

Philadelphia, Sept. 5.—While en route from Atlantic City to Philadelphia today in an automobile, Neil Wolfe, secretary and treasurer of an automobile company of this city, and Miss Marie Hamill, his fiancée and daughter of a wealthy German-town shoddy manufacturer, were thrown from their automobile on a bridge over the west Jersey & Seashore railroad, near Alico, N. J., and buried 20 feet to the tracks below.

Miss Hamill was almost instantly killed and Mr. Wolfe died soon after.

Venezuela's Petition Ignored.

New York, Sept. 5.—The decree of the government closing the offices of the French cable company in Venezuela, has, according to a Herald dispatch from Caracas, thus far been ignored by the company.

Tonnage Record Broken.

Chicago, Sept. 5.—All records for the tonnage of vessels clearing from the district of Chicago in one month were broken in August, when 1,308 ships of all kinds with a registered tonnage of 1,283,958 tons departed, during the same period 1,202 vessels, with a tonnage of 1,280,302 tons, arrived.

Every Throb

Of My Heart Was
Plainly Felt, and
Sometimes Very
Painful.

If your pulse is too strong, and your heart throbs so that you can feel the force of the heart-beat against your chest, your heart is weak and needs attention.

This is usually caused by long continued palpitation, over-work, excessive exercise, heart strain, and the condition indicates serious heart trouble. You should act at once.

The very best thing to do is to take Dr. Miles' New Heart Cure, a remedy that will strengthen the nerves and muscles of the heart, and restore them to their normal condition.

If you neglect to do this, disastrous consequences will surely follow. You will have something like the heart in the heart, faintness, the valves of the heart will become leaky, and the heart left in a death struggle.

"My heart bothered me so that I could feel every pulsation. Could only sleep on my left side. Doctors told me that I had one-fifth enlargement of the heart. I had all the usual symptoms of heart trouble. I took about 15 or 20 bottles of Dr. Miles' New Heart Cure and am completely cured. I have had no symptoms of heart disease for two years, and am attending to my business affairs, which I could not do before."

E. C. GATLIN, Manufacturer, Blue Mount, Kan.

If first bottle does not benefit, your money back.

FREE Write to us for Free Trial Bottle of Dr. Miles' New Heart Cure. It is the only medicine that will cure heart trouble. Also Symptom Blank. You will find out what is wrong, and how to right it. Free. DR. MILES' MEDICAL CO., LAFAYETTE, ILL., U.S.A.

GREAT VOLCANO ON SAMOAN ISLE.

It is on Savali, Ten Miles South
Of Matutu, and Has Created
A New Mountain.

NEARLY A THOUSAND FEET HIGH

Lava Flows from Its Base a Distance
Of Several Miles—Natives Very
Much Scared.

Honolulu, Sept. 5.—The steamship Sierra, which arrived here today from Australia, en route to San Francisco, reports a large volcanic outbreak on the island of Savali, in the Samoan group, which it is stated is very extensive. The outbreak is 10 miles south of Matutu and has created a new mountain, estimated to be nearly 1,000 feet high.

The lava flows from the base of this mountain a distance of several miles. Travelers report that five or six hills are moving apparently on lava foundations. Some have advanced several miles from their starting place, indicating a vast mountain lava area beneath. Ernest Nott and George Furkane, who visited the scene, say that many millions tons of lava are being ejected. The hills are now moving very slowly and the lava is solidifying on the surface. This will eventually stop the further progress, which threatened much fertile territory. The natives had held gatherings and had decided to abandon the threatened towns, but having become assured that there is no danger of loss of life, they are settling down a gain.

A BROKEN HEARTED GIRL.

Commits Suicide Because Her
Lover Was Killed.

Chicago, Sept. 5.—Dependent and heart-broken over the death of her sweetheart, to whom she was to be married, Miss Leona Kreutzinger committed suicide by hanging herself here. Matthew S. Kohl, to whom she had been engaged, was killed in an accident a week ago. He had prepared to leave for San Francisco to make his home. A few minutes after his death George Canoles, his chum at San Francisco, who was to act as the best man at the wedding ceremony, arrived at the house to visit him. He was almost prostrated when he learned of his friend's death, and he returned home after the funeral services. The funeral arrangements will be exactly the same as those conducted over the body of her dead sweetheart. The young man who acted as pallbearers for him will carry her body to the grave.

T. F. GRINDELL MISSING.

Went on an Exploring Expedition
To Tiburon Island.

Phoenix, Ariz., Sept. 5.—Great uneasiness is felt for the safety of Thomas F. Grindell, principal of the public school at Douglas, who left that city about June 1 with one or more companions for the purpose of exploring Tiburon Island in the Gulf of California, which is inhabited by evil Indians, said to be cannibals. Grindell is expected to be back in Hermosillo by July 20, and to arrive home by Aug. 1 or 15 at the farthest. He has not yet been heard from and fears are expressed that he has been murdered by the Indians.

Letter Carriers' Convention.

Portland, Or., Sept. 5.—The National Letter Carriers' association commenced routine session today.

The convention was addressed today by Mrs. Craig of Omaha, Neb., on the subject of woman's rights, and after her speech the convention passed a resolution favoring the extension of the franchise to women.

Another resolution which was referred to the committee on resolutions was introduced on the floor of the convention. It calls attention to a lack of harmony amounting to almost antagonism between carriers and the postoffice department and urges that the officers elected at this convention ascertain the cause of this condition. It urges that the department promulgate a policy by which postoffice carriers of different cities be authorized to promote any carrier of ability to a better position in the postoffice than that of carrier.

At the afternoon session President Keller read his annual report. He recommends, among other things, that the association increase the rate of assessment in the insurance branch 40 per cent.

The first steps in the organization of a ladies' auxiliary of the association was taken today. The officers elected for the new organization follow: President, Mrs. Fred Heffelfinger of Los Angeles; vice president, Mrs. Henry Carl of Toledo, O.; secretary, Mrs. William Wheeler of Portland, Ore.; officers and committees are to be named at a meeting to be held Friday.

E. B. EWING SUICIDES.

He Claimed to Be a Brother-in-Law
Of Senator Cockrell.

Butte, Mont., Sept. 5.—E. B. Ewing claiming to be a brother-in-law of Senator Cockrell of Missouri, shot himself through the head at a Butte hospital this afternoon.

He arrived here three days ago from Yellowstone National park and was ill. He had drawn a check on the Clark Bros. bank, Butte, for \$100 in payment of a bill for board in the park. He was not known there and had no funds in the bank. Ewing was 45 years old. The coroner will hold an inquest.

Albanians in Revolt.

Constantinople, Sept. 5.—Four more battalions of Redif have been called out to join the Third army corps because of the hostile attitude of the Albanians in certain districts of Albania, and the activity of the insurgent bands especially Greeks in Macedonia.

Historic Harvard Home Sold.

Chicago, Sept. 5.—Edwin Morris, the packer, has purchased the historic Harvard homestead at Stratford-on-Avon, England, from the descendants of John Harvard, founder of the Harvard university.

Marie Correll, the English novelist, was the agent of Mr. Morris in the transaction. She is credited with making the suggestion that a clubhouse for

Americans be established in the home-land. Mr. Morris has not yet decided what disposition to make of the property.

SOUTHEAST CAUCASUS TERRORIZED BY TARTARS

St. Petersburg, Sept. 5.—A dispatch from Tiflis, received today, says: "The whole of the southeast Caucasus is now terrorized by Tartars. Refugees are pouring in here from Baku, Elizabetopol and Shusha."

"Details from Shusha show that several engagements were fought between Tartars and Armenians behind regular positions, and that a considerable part of the town was soon in flames."

"According to an official estimate, more than 200 houses were destroyed."

"Official dispatches from Baku say that the workmen quarter of that city was burning last night."

"Troops, under the direction of the governor, are acting with the utmost vigour, but they have not succeeded in restoring order, although there is nothing to fear."

"Armed rioters today attacked the oil works in the suburb of Balakhan, and after a hot fight set fire to them."

"Tartar bands are scouring the country, murdering and pillaging."

"The country is in a state of wild panic and houses and farms are being abandoned."

"The famine in many parts of the country renders the situation more terrible."

"A conflict between nobles and peasants took place today in the village of Grandjeu, where persons were killed or wounded."
