

FLOATING FRAGMENTS

Brother Neph Johnson left this afternoon for Kanab.

Elder C. W. Penrose left this afternoon on a visit to Farmington.

The Tabernacle choir reunion, last night, was a delightful affair.

The first company of this year's emigration from Europe will leave Liverpool April 12th.

Lately a Leadville young man called upon a young lady, being seized with a fit of abstraction, he took a gold watch, left and did not return.

R. S. Campbell has been nominated Mayor of Logan, by the People's convention. He is the son of the late respected R. L. Campbell of this city.

Only five persons had their bodies cremated at the Washington, Pa., crematory the past year. Most of the cremations have occurred on the railroads.

The law is rigorously applied to untidy youths who congregate on corners and create disturbances and the nuisance will soon cease. Citizens who are injured and annoyed should complain to the police authorities.

An Eastern paper says: "The winter in St. Petersburg has been strangely mild. Even in January a man could pull an icicle from a fountain without freezing his fingers." We shouldn't talk much about winters after that.

The Home Dramatic Club have just received manuscript copies of the drama of "Ferreo," and Robinson & Crane's famous comedy of "Forbidden Fruit." The Club is now at work on Boucicault's "Tinseltown," which they will produce in a short time.

Mr. Joseph A. West is said to be one of the best field engineers in the West. We were informed by a prominent railroad man yesterday that he accomplished the unusual feat of surveying for the Salt Lake and Western over a distance of 350 miles of desert last season.

A New Yorker, who lost an eye on a street horse-car, has obtained \$10,000 damages from the company. In New York an eye is worth all of \$10,000, for a New Yorker has to have two eyes, and keep them both open to prevent his bosom friends from swindling him.

Some one asks the Sun if a strong umbrella held open over one's head when jumping from a burning building, would not so retard descent as to be of value in such cases. Very likely; and if there is no umbrella handy, grab some woman with a Gainsborough hat on and jump with her.

The Silver Reef Miner of Wednesday says: Yesterday a serious break occurred at the Barbee & Walker mill. While the engine was running at its full capacity the cross-head snapped in two and the piston was driven with terrific force through the cylinder head, sending the fragments in every direction. Engineer Donovan had a narrow escape, being almost directly in front of the cylinder at the time. Temporary repairs are being made, and it is expected the mill will start up by Saturday.

Leavitt Specialty Company will shortly appear at the Theatre. The Daily S. F. Report speaks of their performance at the Bush St. Theatre as follows: "The Leavitt Specialty Company drew a large and fashionable audience last evening. The house, indeed, was literally packed. We can state, right here, that the company is a success and will play to an excellent business during the entire engagement. The programme is thoroughly clean and the performance, despite the fact that it is of the variety order, is one of the most faultless could find no fault with."

Home Missionaries.—Home missionaries of this State will visit the meetings of the city wards to-morrow night.

Religious Services.—Religious services of the Church of Jesus Christ of Latter-day Saints at the Assembly Hall to-morrow afternoon, beginning at 2 o'clock.

Fined.—Yesterday afternoon, Justice Pyper fined one of the four boys who made a disturbance at the 15th Ward school house \$20, and the other three \$10 each, which was just the proper thing to do.

Relieved his Pockets.—In Ogden, yesterday afternoon, three men led an intoxicated individual to a convenient corner, went through his pockets and purloined all his loose cash. The Herald of that town says the festive trio were arrested.

Lost.—A little girl, nine years of age, has been missing since three o'clock yesterday. Her name is Lizzie Brown, she carried a school satchel and wore a brown hood and coat. Her residence is five blocks south of the White House.

The Utah Contest.—By a Washington dispatch it will be seen that the Judiciary committee of the House of Representatives has unanimously resolved to report that A. G. Campbell is not entitled to a seat as Delegate from Utah. It has also decided, by a two-thirds majority, to recommend to the House that Hon. Geo. Q. Cannon, the Delegate elected, be not admitted to a seat. The latter is one of the most unjustifiable in the annals of the Republic. It remains to be seen whether or not the House will endorse this piece of political infamy.

Choir Party.—The Tabernacle Choir reunion, at the Social Hall, last night, was a delightful affair. One of its most charming features, aside from the kindly sociable feeling that prevailed, was the concert part, which was a real musical treat. The programme, which was finely rendered, was as follows:

"Day Slowly Declining," by male voices; song, "Ah, So Pure," W. H. Fisher; song, "Who's at My Window," Miss Noble; song, "The Rose of Summer," Miller's song, by male voices; quartette, and chorus by the choir. "Now Praise we for Our Deliverance."

High Council.—The members of the High Council will meet in the Council Hall on Monday evening, the 27th inst., at 7 o'clock.

William W. Taylor.

THE RECENT SNOW SLIDE.

THE BODIES OF THE VICTIMS FOUND.

By courtesy of Mr. Alva Butler, we are enabled to present some additional facts regarding the fatal snow slide in Big Cottonwood.

The parties who were searching for the bodies of Mr. and Mrs. Teckett and five children were successful in finding them on Thursday last. They were under four feet of snow, packed so close.

They were not frozen, but natural as they lay in bed. The husband and wife and an infant child were in one bed and the other four children, two girls and two boys, were in another. The eldest child, a girl, was eleven years, and the others were graded down at intervals of two years between.

The slide, in all probability occurred a week ago last night, at which time a terrible wind storm prevailed. Mr. Teckett was aged about forty years and his wife thirty-five.

The snowslide came down the mountain about half a mile and in its descent was divided by a huge rock, the larger half striking the old B. & O. house and demolishing it.

The inquest was held to-day and the burial will probably be conducted at 1 p.m. to-morrow.

Emigration.—By letter from President A. Carrington, we learn that the first company of this season's emigration from Europe, is expected to leave Liverpool on Wednesday, April 12th, per S. S. Nevada.

This vessel has been thoroughly refitted, had new engines put in, and is in every way considered a very fine steamer.

It is expected that for the first company the fares will be the same as last season, \$71.50 for adults, from Liverpool to Salt Lake City; half fare for those over five and under twelve years of age; \$10.65 for children over one year and under five; \$5.00 for infants under one year.

The two latter classes are free on the railroads.

It should be distinctly understood that the above rates apply only to those who are members of the Church, as the contracts made with the Steamship company do not include those who are not in the church, and all such will have to pay the usual sea fare.

James H. Hart, the emigration agent, will shortly leave for New York, to arrange for railroad fares. When arrangements are made they will be duly announced.

A Hard Boy.—This morning John Nash, aged 15 years, was arrested for attempting to shoot another boy named Pettit. The incident occurred near the railroad depot.

Mr. Wm. Snowball was passing at the time and called to another lad to hold Nash till he got out of his wagon. The boy did as directed, notwithstanding that Nash struggled desperately to get away.

Mr. Snowball disarmed the young rascal and delivered him to the police.

On being asked why he wanted to shoot Pettit, he replied that the latter had insulted him. On the way to the City Hall he said he would kill Pettit after his release.

John Nash appears to be incorrigible. He has been several times in jail for stealing and other offences. The teacher of the class to which he formerly belonged in the 17th Ward Sunday School, Brother George Felt, has labored with commendable patience to reclaim him, but those efforts have thus far been unavailing.

On one occasion Brother Felt and the entire class visited him at the jail to persuade him to mend his ways, which he promised to do but soon forgot his agreement.

A Great Danger.—The evidence given by Mrs. Wiener, at the inquest held over the remains of the girl Hurst, who committed suicide on Wednesday last, caused a considerable sensation. We refer to her averments to the effect that the deceased had communicated to her the revolting fact that she and eight other girls had been violated in one night at a surprise party.

It was noted that this statement was untrue, for if otherwise is revealed a greater danger to the morality of young women than was supposed to exist in this city. From reliable information we learn beyond doubt that surprise parties of the disreputable character defined in Mrs. Wiener's testimony have been actually held in, or at least on the outskirts of this city.

This fact shows the great necessity for the throwing around the youth, especially the girls, every possible safeguard against the designs of a nest of vile, detestable, cowardly, corrupt villains who enter into combination to despoil the virtue of the innocent.

Parents should make it their business to know the nature of the associations of their children.

A Tempest.—A case that has been creating some small stir is to be tried before United States Commissioner Pearson on Monday. The substance of it is that one George H. Carney circulated a petition to be sent to Washington for the removal of Gen. Bane from his official position in the Land Office in this city.

The grounds given for desiring Bane's official decapitation were alleged manipulations in certain matters in which the General was charged with using his official position to his personal advantage. These allegations are not only stoutly denied, but General Bane had Mr. Carney placed under arrest for libel.

The case has been hanging fire for several days, but is set for Monday sure. A formidable array of witnesses has been summoned and the tempest in miniature has only just begun, but when it will end no man knows. Should General Bane succeed in establishing his point in the criminal suit, he will likely turn in on a suit for damages.

High Council.—The members of the High Council will meet in the Council Hall on Monday evening, the 27th inst., at 7 o'clock.

William W. Taylor.

Fatal Accident.—This afternoon, a carpenter named Fritz, while building an ice house for Mr. H. Wagner, at the latter's brewery, at the mouth of Emigration Canyon, fell from the roof and broke his neck. Deceased leaves a wife and family, who reside in this city.

Information Wanted.—Wm. R. Lovick of Cucamonga, San Bernardino, Co., California, wishes to learn the whereabouts of his father's sister, who married Geo. Sanders or Sanderson, in Yorkshire, England. He says the last he heard of her she was in Illinois, and he has since been informed that she has emigrated to Salt Lake City.

Address Mr. Lovick at Cucamonga, San Bernardino Cal., care of Jno. Smith. Other papers in the Territory please copy.

More Hoodlums.—A small band of hoodlums were deprecating in the 29th Ward last night. During the absence of Brother David Hilton they carried away the front gate of that gentleman's premises, and placed it about a block distant.

Brother Hilton requests us to state that he will pay \$5 for information that will lead to the arrest and punishment of any of the parties.

A gate belonging to another party was also carried away and placed in front of Mr. Dye's premises.

The boys guilty of this senseless conduct are pretty well known, but unfortunately they were not caught in the act. Probably will be if they do not desist.

Arrest and punishment appears to be the only effectual remedy, which should be applied until the nuisance is abated. It is to be hoped the lesson which Justice Pyper gave yesterday to the four boys who made a disturbance in the 16th Ward will not be lost on others of similar inclinations.

MEDALS AND TESTIMONIALS.

IT IS A MATTER OF GENERAL KNOWLEDGE that many houses have relied for their reputation, in their several lines of business, upon the obtaining and advertising of medals, diplomas and testimonials; and that the obtaining of the same has become an affair of management, intrigue and often of downright bribery, rather than a question of intrinsic merit; as well understood by those who have had even the smallest amount of personal experience in competitive contests; and the fact that the awards obtained are made the subject of the

Grossest Misrepresentation

can but be apparent to the general public, the thinking portion of whom understand and appreciate these matters at their true value. The many direct and indirect charges of fraud, favoritism and collusion in reference to the awards at our late

CENTENNIAL EXHIBITION,

and the very general method pursued by the majority of exhibitors, successful and unsuccessful alike, in regard to the value of awards distributed, afford only further corroborations of the views long held by many of our most advanced thinkers, that the whole system of competitive awards is radically wrong, and that instead of its being a fair test of the merits or qualities of the articles in competition, it is but a source of

JEALOUSY, CORRUPTION AND FALSEHOOD.

This principle now so generally understood has been recognized and acted upon by GEORGE WOODS & COMPANY from the beginning of their business career; and they have

NEVER EXHIBITED THEIR INSTRUMENTS TO COMPETE FOR PREMIUMS,

and for similar reasons have never solicited or published a testimonial from professional musicians. That they have acquired such an enviable reputation without the aid of such artifices as many of their competitors have found necessary to adopt, can but be considered as not only an indication of the superiority of these instruments, but of the

CORRECTNESS OF OUR VIEWS UPON THIS IMPORTANT AND OFTEN MOOTED QUESTION.
