NEWS OF THE DAY.

THE People's Trans-continental Freight R. R., is the latest panacea proposed for the alleged exactions and high tariffs, at present enforced by railway companies. It is said that this road will soon be started, will be completed in three years from commencement, and will be managed in the interest of the people.

The terms "internationals," "internationalists," &c., are not unfrequently seen in newspapers, but few people know much about their meaning. In the telegrams to-day appears an explanation, purporting to have come from the Secretary of the Internationalist Society in New York City. He says that the aims of the society in the United States and Great Britain are to stop, by means of the ballot, the exactions and oppressions now imposed by capital on labor and place all on an equality, so far as property is concerned; while the object of the Internationalists of Continental Europe is the overturn of governments by revolution.

A meeting of the New York Produce Exchange is to be held, to take into consideration the means of affording relief to the poor of that city.

The suppression of *L'Univers*, the leading Catholic paper of France, by the government of that country, is regarded as a proof of the subservience of that power to Germany.

Among the business transacted yesterday in the U. S. Senate, was the passage of the bankrupt bill, the introduction of a bill to authorize the coining of twenty-cent silver pieces, a bill to relieve from political disabilities Raphael Semmes, of Alabama notoriety, etc.

The Indians, it is said, have commenced hostilities on the plains; for particulars of an attack on military, see telegraphic news under Laramie.

The third annual meeting of the American Association for the Culture of Fish, assembled in New York city yesterday.

Heavy gales in the Baltic have cause a partial inundation of Kiel and Swinemunde.

News comes of the death, at Vienna of the French historian, Jules Michelet, born at Paris in 1798. He was professor of history in several colleges, and the author of several works, including a History of France, History of the French Revolution, &c., &c. He was a determined opponent of the Jesuits, and wrote several works in opposition to them.

The latest telegraphic news today confirms the accounts of murders and outrages by Indians on the plains; the bodies of murdered men have been found riddled with bullets and arrows. Cavalry have been sent to a station on the U. P., where the Sioux have been driving in ranchmen and stealing stock.

The temperance movement is progressing finely in Ohio, numerous saloons, in various towns, have been closed by the power of prayer, the ladies continuing in prayer all day and as late as half past ten at night.

ABOUT VETOES.

THE Legislative Assembly, by provision of U. S. law, meets once in two years, and sits forty days. This is but a brief space of time in which to accomplish the amount of legislation that is urged as being greatly required by the course of events. His Excellency the Governor says he would like to have considerable legislation done. The Legislature is also anxious to do all that is advisable, and is busily employed in preparing and passing bills. But when those passed bills come before his Excellency, he is pleased to veto them freely. He may think he is right in doing so, but we should like to know on what grounds.

The second section of the Organic Act says that the Governor "shall approve all laws passed by the Legislative Assembly," shall do it "before they shall take effect," of course, or else there would be no use in his doing it at all. Now why does not the Governor do his duty and approve the laws passed by the Assembly? The Organic Act expressly says he "shall approve" them.

Says Worcester, "This verb [shall] is unquestionably a derivative from the Saxon *sceal*, I *owe* or I *ought*, and was originally of the same import. I *shall* denoted, 'It is my duty.'" "In the second and third persons, it implies compulsion, command, promise, or threat."

In this passage in the Organic Act *shall* is used in the third person, and evidently implies command, compulsion, duty, obligation.

Webster's definitions of the word are much of the same import as Worcester's.

We wish to know, therefore, where his Excellency obtains his authority to veto, or refuse to approve, any bill passed by the Legislature. We merely ask for information, as we are not learned in the law. If he has any such authority, and will furnish us information as to where he obtained it, we shall be obliged to him.

Messrs. MANGERS, Sawtelle, Thorne and Lindsay, Misses Walters, Newton and Cogswell and Mr. Rea will appear in "Green Bushes," followed by the "Spectre Bridegroom," at the Theatre this evening.

SENATE.

District of Columbia.

WASHINGTON, 11.—On motion of Thurman the memorial which was presented by him, a few days ago in regard to the government of the District of Columbia, and the memorial of the Governor of the District, were taken from the table and referred to a joint select committee tho investigate the District affairs.

HOUSE.

Indian Matters—The Howard Case.

A number of bills were reported from the Indian committee including one providing that the legality of contracts or agreements made with Indians prior to the 21st of May, '72, shall not be recognized by any government official until such contracts have been examined and endorsed by the Secretary of the Interior and commissioner of Indian affairs; passed.

Comingo reported a bill to secure a more efficient administration of Indian affairs; passed. The bill makes detailed provisions in the direction of prohibiting the perpetration of frauds upon the Indians.

The Senate amendments to the joint resolution for a military court of inquiry in the case of General Howard was taken up and concurred in.

EASTERN.

People's Freight Railroad—Internationalism—Relief of the Poor of N. Y.—France Subservient to Germany.

NEW YORK, 11.—At a meeting of the Cheap Transportation Association, yesterday, information was given that the people's freight road would soon be built across the continent, which would be managed in the interest of the people. After the work is fairly begun it will be completed in three years.

W. W. A. Carsey, secretary of the International Association, says the internationalists of the U. S. and Great Britain differ from those of the continent of Europe, and that while the latter are willing to overturn governments by revolution, the former believe that their objects and aims, which are the equality of all and the stoppage of the exactions of capital and the oppression of workingmen, could be established by means of the ballot.

The president of the Produce Exchange has been requested by the members to convene that body to consider what steps can be taken for the relief of the poor of this city.

A letter from Paris says the recent suspicions of the greatest of the French Catholic papers, *L'Univers*, at the instance of Bismarck, furnishes a striking proof of how complete is the subserviency of the French government to a German order.

Indian Outrages Confirmed.

CHEYENNE, Wy., 11.—Information telegraphed from Fort Laramie, states that on Monday last, Lieut. Robinson; of the 14th infantry, and Corporal Coleman, Co. K. 2nd cavalry, were surrounded by forty or fifty Indians by the saw mill, ten miles from Fort Laramie, and murdered; their bodies were found yesterday, riddled with bullets and arrows, but not otherwise mutilated. The Sioux are reported as raiding in almost every direction, burning ranches, murdering ranch men and stealing stock. A company of cavalry, under the command of Captain Wessels, left here to-day for Potter station, on the U. P. road, where the Indians have been driving in the section men and stealing stock.

Immense Temperance Brigade

XENIA, 11.—Four hundred women have enlisted in the temperance movement here; their organization was completed this noon, work to commence to-morrow morning.

Success of Temperance Movement.

CINCINNATI, 11. — The temperance movement is receiving fresh impetus from repeated successes.

Homicide.

NORWICH, N. Y.—John Young was shot and killed last night by Albert Holmes, the alleged husband of one of the occupants of a house into which Young with two companions tried to force an entrance.

Power of Prayer.

WASHINGTON, O., 11.—In Washington, Ohio, a man named Passmore opened a new saloon last week. Immediately the whole moral and religious power of the town turned upon him; ladies prayed before the door all day and till half-past ten at night. During the snow storm yesterday an immense procession marched to Beck's saloon, Beck having enjoined the women from using a tabernacle in front of his place. Those enjoined remained in the church to pray. Beck, on seeing the procession said he too would stop, and only one remains, he asks till to-morrow to consider. At Blanchester all the saloons are closed; at Logan the ladies likewise celebrate a complete victory; at Lancaster and other places the work is beginning; at Pomeroy a society has been organized on the principle that there is enough moral and religious power in the city to exterminate the business of trafficking in intoxicating drink, and will resort to law only when other means fail.

FOREIGN.

GREAT BRITAIN.

Election Returns—Rioting.

LONDON, 11, 6 a.m.—So far 254 Conservatives and 180 Liberals have been returned to the House of Commons from England, fifteen Conservatives and thirty-six Liberals from Scotland, and twenty-one Conservatives and forty-four Liberals and Home Rulers from Ireland. There was much rioting at Chesterfield and Barnsley yesterday; many policemen were injured.

Another Conservative Elected.

M. Stewart, Conservative, has been elected to Parliament from Wigtonburgh, defeating the Liberal candidate, Geo. C. Young, the Lord Advocate for Scotland, who held the seat in the late Parliament.

Our Country Contemporaries.

Ogden Junction, Feb. 10—

Hon. Ben. Holliday, the Oregon millionaire, arrived in this city this morning from the West, and is on his way East.

At a meeting of the Ogden Kanyon Road Company, last evening, the following gentlemen were elected officers of the company for the ensuing year: Lorin Farr, President; R. Ballantyne, Vice-President; A. F. Farr, I. N. Goodale, C. F. Middleton, Jonathan Browning, Thos. Bingham, Directors.

At a special meeting of the City Council last evening, a petition signed by a large number of our citizens, was presented, requesting the Council to make such arrangements with the Ogden Iron Manufacturing Company as would secure the erection of iron works in this city.

The subject, after considerable discussion was referred to the committee on Public Works, with instructions to report at the next special meeting to be held next Thursday, at 6 p. m.

Provo *Times*, Feb. 9—

We received a call to day from S. Wilkinson, Esq., of American Fork Canyon. He reports that the Miller mine is being worked and that there is more ore now in sight than can be worked up this season. The prospects are far better than they have been in the past and the work this season will be pushed ahead vigorously assoon as the weather opens; the snow is about three feet deep where the smelter is at present.

We were informed to-day of a serious accident which occrrred in Spanish Fork on last Friday evening. It seems that Daniel Eeaks and Edgar Hotton, residents of that place were engaged in a friendly scuffle, which resulted in the former dislocating one of his limbs at the ankle joint. Mr. J. Woodward and Mr. S. Markham were called in and set the limb with great skill. At last accounts the sufferer was in a very critical condition.

We are informed that a number of individuals residing on the bottom lands between Payson and Spanish Fork, contemplate at an early day, uniting themselves together with a portion of their means on the principle of co-operation, and entering into the business of farming on a large scale, and also having a dairy combined, making their own butter and cheese for home consumption and have some to dispose of to the community. Such enterprises as these are very commendable and we hope to see more of them established among our farming community.

Correspondence.

Voices and Legislation.

Editor Deseret News:

From present indications it appears that his Excellency, the Governor, is disposed to veto every bill passed by the Legislature, calculated to benefit the country, yet approves, with readiness and cordiality, those which appropriate money to his friends, availing himself of every technicality to obstruct the course of legislation here, apparently with a design more forcibly to induce Congress to legislate specially for Utah Territory.

His and other communications recently appearing in the public journals, appear to be manufactured, not for home consumption, but for the Washington market.

Embarrassing and discouraging as the foregoing may be to the zealous labors of the thirty-nine legislators, I would suggest to this honorable body to slacken not their hand by reason of these annoyances, and, in after years, the consequences of the labors of both parties will be felt by both in the face of all men.

How is it now with the one man power, so very obnoxious to the "Mormon"-eating community?

Respectfully,
ORSON HYDE.

Salt Lake City, Feb. 10, 1874.

Mild Winter—Sunday School—Concert—Dramatic—Literary Association—Improvements—Room for More Settlers.

HEBER CITY, U. T., Feb. 5th, 1874.

Editor Deseret News:

Snow thus far hereabouts has not exceeded seven inches. Stock has done and is doing well on the range. Outdoor work has not been discontinued. House carpentering, shingling, etc., are progressing without interruption. Sleighing is excellent, and the temperature mild. Four schools are in successful operation. The consolidated Sunday school, under the able management of Superintendents Gallagher, Horrocks, Lindsay, Giles, and Mrs. Harvey, convenes in the Social Hall, and its hundreds of bright-eyed, smiling-faced pupils are a credit to polygamous parents.

This school, a few nights since, treated the inhabitants of this place to a Sunday school concert, which will long be remembered as a truly pleasantly and profitably spent evening. Among the many interesting tableaux, one was a representation, by forty-eight little girls with banners, of the various States and Territories of the Union. Utah and Wyoming were in the foreground, the Goddess of Liberty hovering over them with the motto, "Woman's Rights."

The "Heber City Amateur Dramatic Association" have played several evenings and always to crowded houses. Their entertainments have proved a success, financially as well as otherwise. They will play two nights next week.

The "Young Men's Literary Association" is a live institution and awake to the intellectual interests of the community. It will hold a social entertainment to-morrow evening in the Social Hall, in the interests of a Public Scientific Library. This association is endeavoring to place scientific standard works and instruments within the reach of every citizen of our county, so that the poorest may not necessarily be deprived of reliable information.

Our county population is increasing very rapidly. Splendid residences of brick or stone are springing up, as by magic, in almost every direction. We have an abundance of good soil and water for at least a thousand more. Let them come on, and they will meet with a hearty welcome. We have no lawyers nor doctors, nor would I advise any one of either class to come here to reside permanently, unless he has means of subsistence aside from his profession. Peace, prosperity, union, and well wishing are the prevalent complaints.
