AMUSEMENTS.

Opheum—At the Opheum this week it is a case of waiting for the trained seals to find wherein the bill is most valuable, and although they come last they fully make up for any sleepy moments in the earlier offerings. The seals have a dexterity about them and an interest in their cute little tricks that compels applause. One larger animal seems to have a corner on skill in certain difficult turns but a pair of youngsters rush to the spot which keeps it constantly on the move. To make the act still better a clown seat is provided with a list of stunts which keeps it constantly on the move. The Arlington Messenger boys, who do some good singing and dancing, are perhaps second in command of the evening's power to please. To open the bill, O'Connor, a sleight of hand expert, does some entertaining things, but he follows them with shadowplay offerings, that become too complete to the bill, with a course the usual Klondike offerings.

Grand—"The Old Cross Roads" a pretty story of the south is playing to well filled houses this week at the Grand. The story is not altogether melodramatic and in the hands of the capable company presenting it, it brings out strong qualities of a romantic and pathetic nature.

Specialties by various members of the cast create pleasing diversion from the development of the plot. Among them are a quartet composed of Flora Ryan, Margaret Miller, Philip Connor and Pierce Young, and a duet number by Miss Ryan and Philip Connor. "The Cross Roads" continues until the end of the week, with matinees Wednesday and Saturday.

Lyric—The Moore stock company is making a special effort to put up a good entertainment at the Lyric this week because the week's run is under the auspices of the Ladies G. A. R. Military band and for that organization. A concert is rendered in front of the theater before each performance. The Gold King and the Jewels, which have come down through the years, without losing in interest and attractions. Its situations and themes are brought out well by the Moore players. The company is determined to present a good show this week whose proceeds are to be devoted to a good cause, that of fitting out Salt Lake's unique band, with uniforms.

LOVE UNWELCOMED WELCOMES DEATH

Jack Wright of Murray Shoots Himself Through Head. Dying Instantly.

Jack Wright, a Murray bartender known as "Blackie," shot himself last night. Death was instantaneous, as he placed the barrel of a 45-caliber revolver close to his temple when he fired. Wright entered the "Denver" saloon about 9:45 o'clock. Jack Samuelson, the night bartender, was not feeling well and was lying upon the billiard table. Wright asked Samuelson how he was feeling and then walking to the rear of the saloon carried out his awful deed.

The suicide is believed to be the culmination of an unhappy love affair in which Wright and a girl in the east figured. He talked about a woman and a few days ago showed friends a picture of a three-year-old baby of which he said he was the father. Where the child is he did not say and little is now left for the authorities to work on.

DEED WAS PREMEDITATED.

That the deed was premeditated is certain, as Wright talked about intending "to do away with himself." He had a lot of friends in Murray, and at that place from Bingham Canyon. At the morgue discharge papers showing the dead man had belonged to the 15th infantry, U. S. A., and to the miners' union at Moscow, Ida., were found in his clothing. His relatives live in Canada.

FOUGHT THE POLICE.

Mrs. Hendyhall Takes Morphine—Says She Wants a Rest.

Stating that she wanted a rest, Fanny Hendyhall, who recently came here from Goldfield with her husband, and residing at 148 west South Temple street, took a large dose of morphine last night. She fought the police and physicians for several minutes before an antidote was given. The woman is now out of danger.

Ed Hendyhall, the husband, came here from Goldfield and lives at a restaurant at 62 west South Temple street. His wife worked with him in the place and stated yesterday she was tired and wanted a rest.

The company owns the Sunshine coal mine in Carbon county, consisting of a tract of 160 acres. The capital stock of the company is \$25,000 fully paid.

SPRY AT 77.

Made Young by Change of Food.

Any food or combination of foods that will restore vigor to the digestive organs of a person 77 years old who had been troubled with indigestion for years, is worth looking into.

"This Kansas woman says: 'I am 77 years old and for many years I have suffered from indigestion which I supposed was caused by old age. Thought the weakened organs would never do good service any more. 'I became so weak I could hardly get about, my head ached, and I was really in a bad way. I lived as I always had, ate meat and other things that were clearly too heavy for my digestion, but I didn't know any better way. 'Five months ago I came to the conclusion that I would not live much longer without help of some kind. I was badly discouraged until one day I read about Grape-Nuts, what it had done for others, and finally I concluded to try it myself. 'Wonder of wonders, what a change it made. I eat three heaping teaspoonsful with cream for breakfast and the same amount for supper, of course, I eat fruit and something light to make up a meal, but I can eat a hearty dinner—leaving out meat. 'How good I feel. I can do more work in a given time than for the past five years. I can walk two miles or more and can hardly believe my own senses as to the change. I did not have much faith at first, but the next thing I knew I was up in the morning and rushing around and doing things so easily I surprised myself. All this change is clearly due to Grape-Nuts and I am thankful.' Name given by the Postum Co., Battle Creek, Mich. Read the little booklet, 'The Road to Wellville,' in packages. 'There's a Reason.'

PLANS MATURING FOR ARID FARMERS

President Harris Working to Secure Aid of Prominent Salt Lakers.

TOPICS FOR DISCUSSION.

They Have Been Selected and Circulars Have Been Sent Out Telling Of General Purposes.

Plans to get all Salt Lakers pulling together for a big Arid Farm congress here in January, are now maturing. Leaders in the movement are asking why Salt Lake should be less hospitable than Denver, and less able to stir community interest in a convention which will help to spread Salt Lake's fame as a good convention town.

The convention topics are already prepared, and leading arid farmers from the west will be assigned papers covering the various points of interest. The general field of discussion will embrace the following: The consideration of the best methods of rendering the lands of the semi-arid west productive where ditch irrigation is impracticable. The determination of the best agricultural methods where crop and live stock farming is practicable.

To encourage the establishment of experimental farms to determine the limitations of scientific soil culture and seed selection; these farms to be operated under the direction of state and federal experiment stations or private enterprises.

To assist the prospective settler in every practical way to determine what land under scientific soil culture methods is susceptible of crop production. To encourage the use of every conservative practical method for developing the semi-arid regions of America.

WHO MAY ATTEND.

Representation at the congress will be as follows, according to circulars just sent out: The governing body of each state and territory may appoint 10 and not more than 20 delegates.

The mayor of each city, five and not more than 10 delegates.

National and State Agricultural associations, not more than five delegates each.

Railroad companies, not more than four delegates each.

Chambers of commerce, commercial clubs and other commercial bodies, two delegates each.

U. S. senators and congressmen, the secretary of agriculture and his assistants, governors of states, officers of state universities, engaged in agricultural work, officers of United States and state experiment stations, engineers and members of state land boards, by virtue of their position, will be entitled to membership in the congress.

It is earnestly urged that all authorities to appoint delegates shall elect such persons as are known to be vitally interested in the subjects that will naturally come under discussion.

The committee having charge of the program for the convention has arranged for a four days' session, during which addresses of great value will be made by scientists and practical farmers who have made a life study of soil culture in the semi-arid regions of the Transmissour country.

It is believed that the successful accomplishment of the purposes of the congress is of profound importance to the country, as it will mean increased population, more homes, more producers, more wealth, wider markets, and a better life for all. It is a thing of everything that is desirable and necessary for the well-being of the nation.

NEW GARRISON IS DUE THIS EVENING

Troops for Fort Douglas Crossing Nevada Desert in Three Trains.

COME FROM THE PHILIPPINES

Regiment is Depleted in Numbers in Consequence of Long Insular Service.

Bucking the stiff winter winds of the Nevada desert the Fifteenth U. S. infantry, entrained in three detachments, is today on its way to Utah.

Some time this evening, perhaps near midnight, the soldiers will march through Salt Lake's streets, and tomorrow they will be at Fort Douglas, comprising a new garrison.

The Fifteenth Infantry is one of the old line regiments whose history extends back for many years preceding the Spanish-American war. Among its officers are men who acquired military fame in these engagements, both in Cuba and in the Philippines. One of them, now waiting at Ft. Douglas for his regiment to arrive, is the man who carried the message to Garcia. Another, Capt. The Fifteenth Infantry now consists of 600 men and 45 officers. They are due here at 5 p. m. and 7 p. m. for the two sections in which the train will arrive, but it is doubtful if they will arrive on time.

The regiment, which has been stationed at Camp Keithly, on Mindanao, in the southern Philippines, comes home for a two year rest, following the general practice of the war department. Tomorrow the battalion of the Twenty-first Infantry, stationed at Fort Douglas since the departure of the Twenty-ninth Infantry, will leave under command of Maj. Leonsauer.
