

## MINING, BUSINESS AND STOCKS

STOCK SALES FOR  
MONTH \$346,816.50

Records of the Mining Exchange  
Show That \$31,350 Shares Were  
Transferred in the Pit.

## MARKET WAS DULL THIS WEEK

Nearly all Local Traders Show Shrink-  
ages—Butter-Liberal Held Its Own  
And Closed Stronger.

During the present month there  
was sold on the floor of the Salt  
Lake Stock and Mining Ex-  
change 83,559 shares of stocks  
which brought \$346,816.50. Near-  
ly one-third of this business was  
transacted during the past week,  
which is accounted for by the  
unusually heavy Dally-Judge  
transfers.

The quotations today do not show any  
improvement in the condition of min-  
ing stocks compared to those of a week  
ago. On the contrary some of the trad-  
ers have ended with a weaker tendency.  
Mostly local buying has been done;  
foreign orders being decidedly scarce,  
which is due, no doubt, to the panicky  
conditions prevailing in the east at the  
present time. Dally-West was bought  
sparingly; the stock has continued  
weak with no real good reason, except  
perhaps, less interest has been taken in  
it on the seaboard where it is usually  
one of the most active of Utah stocks.  
Dally-Judge held up very well at the  
beginning, but later relaxed, closing to-  
day with a 10.5% bid; notwithstanding  
that the recent strike in the mines grows  
heavier and displays every indication of  
permanency. Con. Mercus has been  
less active, consequently, the price has  
dropped. Grand Central registered a  
sale today at \$4, the only one of the  
week. Sacramento held fairly steady,  
but dropped off a cent a share. Star  
Consolidated also joined the toboggan-  
ists. Butler-Liberal proved an exception  
and ended slightly to the better. Tetro  
is also some stronger.

The closing quotations and sales were  
posted today as follows:

Copper Mine Near Rock Springs.  
Special Correspondence.  
Rock Springs, Wyo., Oct. 3.—The  
Wyoming and Colorado Copper com-  
pany, which owns a mine in Douglas  
mountain, 125 miles south of Rock  
Springs, recently shipped 2,325 pounds  
of ore to the Taylor and Brunton ore  
smelting works of Salt Lake City and  
received returns of \$24.75, with an of-  
fer of \$2 additional for this ore in car-  
loads or large shipments. Local men  
own the mine.

ADVANTAGEOUS TO UTAH.  
Copper Likely to Do Some Sprinkling if  
Butte Mines Remain Closed.

Local producers anticipate quite a  
sharp advance in the price of copper  
if the Butte mines remain closed any  
length of time. While they deplore  
the misfortune which has fallen to  
the citizens of Butte, the withdrawal  
of the Amalgamated product from the  
market, is likely to work very much to  
the advantage of the Utah copper  
mine owners.  
A Boston broker has sized up the sit-  
uation quite comprehensively in a cir-  
cular which arrived in the mails today.  
It says:  
"The Amalgamated production is  
about 100,000 tons of copper per annum  
out of a total United States production  
of about 275,000 tons. The removal

of this 35 per cent from the productive  
capacity of the country is really more  
important than figures would indicate.  
Five years ago manufacturers using  
copper very largely carried a two or  
three month's supply on hand. Since  
Amalgamated's failure, they hold. Ap-  
proximately 1,500,000 pounds of copper  
have been bought into the smallest amount  
possible, feeling that they could al-  
ways get what they wanted from the  
producers. The result is that now they  
find themselves with this shortage in  
production and no reserve."

SUIT OVER STOCK.  
St. Joe Mining Company Named in the  
Complaint Filed Today.

Suit was filed in the district court to-  
day by John H. Allen and Daniel Moon  
against M. H. Eddy, W. W. Wait, and the  
St. Joe Mining company, in which  
plaintiffs ask that 15,000 shares of stock  
of the St. Joe Mining company, stand-  
ing on the books of the company in the  
name of M. H. Eddy, trustee, be de-  
clared the property of M. H. Eddy, per-  
sonally and that the same be sold to  
satisfy a judgment secured against him  
by plaintiffs, amounting to \$1,268.25.  
It is alleged that said stock was so  
placed on the books of the company by  
Eddy for the purpose of defrauding his  
creditors. It is also asked that the de-  
fendant company be restrained from  
transferring said stock upon its books  
pending this action.

MINERAL SURVEYS ORDERED  
The United States Mining Company  
Wants Patents for Bingham Ground.

Applications for mineral surveys  
were made in the office of the surveyor  
general this week, as follows:  
Survey Nos. 5146, 5147, 5148, 5149 and  
5150 for the Triangle Fraction, Spring  
No. 1, Savage, Cooke Fraction and Pat-  
tern Fraction, Alta Mining Co., made by  
an unorganized mining district, Tooele  
county, application made by Great Di-  
vide Mines Co. Order issued Oct. 24.  
Survey No. 5151 for the Enterprise,  
Enterprise No. 2 and Centennial lodes,  
situated in the Clifton mining district,  
Tooele county, Alta Mining Co., made by  
Marcus E. Jones, application made Oct.  
24. J. H. Pitts, deputy mineral surveyor.

Survey No. 5152 for the Mag Pie,  
Mascoff, Columbus Ex., Snowbird and  
Hecla lode mining claims, situated in the  
Little Cottonwood mining district,  
Salt Lake county. Application made by  
the Superior Alta Mining Co. Ap-  
plication made Oct. 26. J. H. Winwood,  
deputy mineral surveyor.

Survey Nos. 5153, 5154, 5155 and 5156,  
for the History, Ninety-eight Fraction  
Mineral Zone Extension and Consec-  
quent lode mining claims, situated in the  
West Mountain mining district,  
Salt Lake county. Application made by  
the United States Mining Co. Ap-  
plication made Oct. 28. J. H. Winwood,  
deputy mineral surveyor.

Survey Nos. 5157 and 5158 for the  
Hazel, Hazel Lode, and Hazel Lode  
mining claims, situated in the West  
Mountain mining district, Salt Lake  
county. Application made by the Ni-  
agara Mining and Smelting Co. J.  
P. Smith, deputy mineral surveyor.

## TINTIC ORE SHIPMENTS.

One Hundred and Ninety Cars Dis-  
patched.  
Special Correspondence.  
Eureka, Oct. 30.—The shipments from  
the Tintic district this week amount to  
190 cars, an increase over last week's  
shipments of 40 cars. Now that the  
fire has been extinguished in the  
four great mines of Eureka, the output  
will be increased very materially. The  
shipments this week are divided among  
the different properties as follows:  
Ajax 2, Uncle Sam 3, Grand Central 13,  
Mammoth 10, Black Jack (iron) 15,  
Lower Mountain 5, Centennial 2, Di-  
vide 1, Bullion Beck 3, Martha Washington  
3, Swansea 4, South Swansea 5, Star Con  
3, Centennial-Eureka 42, Eagle & Blue  
Bell 2, Dragon Iron mine 35, Yankee  
Con. 7, Laclede 2, Total 190 cars.

## AT THE WAX MINES.

Properties at Soldier Summit to Be  
Opened Up Extensively.  
Supt. T. P. Rigney of the Summit  
Placer company, which is operating the  
oskerite mines at Soldier Summit, is in  
the city purchasing supplies to last  
through the winter.

Mr. Rigney says his company is pre-  
paring to do some extensive develop-  
ment work. In the meantime produc-  
tion will be maintained at a minimum so  
that the progress of the campaign of  
development will not be interfered with.  
The location of the permanent work-  
ing shaft will be determined after a  
few months' work has been performed.

The mine over which Mr. Rigney has  
charge is the only one of the kind in  
operation outside of Europe. It has  
produced extensively and contains  
what is declared to be the finest qual-  
ity of oskerite.

## PLENTY OF SULPHIDES.

Local Market Well Supplied—Ores Com-  
ing from Leadville.  
The local ore market was never sup-  
plied so plentifully with sulphides as  
at the present time; Leadville mines  
are sending a large tonnage this way.  
This is accounted for by the late labor  
troubles in Colorado, so the American  
Smelting & Refining company has been  
taking care of its business from the  
camp named at the local plants.

SETTLEMENTS MADE  
FOR ORE AND BULLION

The ore and bullion settlements  
reported for the fiscal week end-  
ing yesterday, aggregated the  
sum of \$401,395, a decrease of  
\$35,705 compared to the week  
previous, which was probably  
due to some extent to the fire  
in the mines of Tintic, as follows:  
Base Gold  
Saturday.....\$ 26,000 \$ 25,900 \$ 7,395  
Monday.....44,500 22,800  
Tuesday.....35,800 50,200  
Wednesday.....21,200 28,300  
Thursday.....45,100 45,100 6,400  
Friday.....24,700 23,000  
Total.....\$191,300 \$196,300 \$12,795  
With today's settlements the  
record for the month will be  
closed; the total will aggregate  
close to \$2,000,000.

The shipments of copper bullion  
from the independent val-  
uers of the month will be  
close to 667,250 pounds as follows:  
Utah Consolidated.....\$35,500  
Bingham Consolidated.....179,750  
United States.....181,750  
October will aggregate close to  
3,500,000 pounds.

OCTOBER DIVIDENDS  
AMOUNT TO \$224,500

The Great Dally-West of Park City  
Heads the List with 65 Cents  
Per Share, \$17,000.

## SILVER KING FOLLOWS NEXT.

Tintic and Bingham Were Not Heard  
From This Month—Speculation on  
The Latter's Failure.

The month of October will end with  
a light dividend record to its credit.  
Only five mines made contributions of  
this kind to stockholders, the aggregate  
sum being \$224,500. Again, Dally-West  
took the lead and checked out 65 cents  
per share or \$17,000; the Silver King  
came next with its usual \$100,000; Sac-  
ramento was third on the list, with  
\$5,000; the Century mine of Park Valley  
came under the wire fourth in line and  
paid out \$1,500 while the directors of the  
Utah of Fish Springs found a good  
surplus in the treasury after transport-  
ing in wagons across the desert  
and ordered the treasurer to disburse  
\$1,000.

The probabilities are that the velvet  
column will contain larger figures next  
month. It is officially announced that  
the Annie Laurie of Gold Mountain  
will be in line again and judging from  
the record of shipments now being  
made by the Great Central it is safe to  
presume that this Tintic mine will tally.  
The Consolidated Mercus may also be  
in shape to do likewise, yet it is hardly  
expected it will resume the payment  
of dividends until about Jan. 1.

None of the Bingham mines were  
heard from this month; the Utah Con-  
solidated notwithstanding its inten-  
tion to spend \$250,000 in the enlarge-  
ment of its smelter will make a distribu-  
tion, equal to the last one, in Decem-  
ber.

Bingham is rapidly getting in shape  
to produce more dividends. No camp  
in Utah is displaying greater activity  
than Bingham is at the present time.  
Next year the Utah Copper company  
and Tintic company, both of which are  
constructing reduction works in the  
camp will cut an important figure  
in the common stock. The company is  
said to have been mostly from Butte,  
arrived here yesterday morning. Un-  
til the Copper Belt road is completed  
and the Boston and Yampa in-  
crease their forces few new men will  
find places here—Bingham Bulletin.

## GREAT DIVIDE MINES.

Developments at Bingham Property Are  
Of a Very Encouraging Nature.  
Reports from the Great Divide mines,  
says the Bingham Bulletin, are to the  
effect that the tunnel of the big  
group, having been driven about 600  
feet, is passing through lime spar heav-  
ily impregnated with iron—a good in-  
dication that it is near the large east  
and west vein for which it is being  
opened. At and near apex of the  
vein show that according to pitch the  
tunnel must soon encounter its hang-  
ing wall and that property. That  
a large body of mineral carrying great  
values. In the event that an important  
strike is made, as Great Divide hill is  
precipitous many hundreds of feet of  
ore will be exposed. The country line is very  
hard, so that of late the tunnel's progress has  
been slow; but it will soon move faster,  
as machines are being shortly to supercede  
poky hand drills.

The Great Divide, lying immediately  
west of Tooele divide and adjoining  
Highland Boy and Bingham Copper  
No. 1, is the largest group of  
mines in Bingham's line belt, consist-  
ing as it does of some 40 locations, cov-  
ering upwards of 500 acres. It is in  
the heart of a strong and active com-  
pany that will turn capital into prod-  
ucts without stint, and is pro-  
vided with first class equipments and  
buildings and connected by an excellent  
wagon road with the San Pedro  
Railroad, three and one-half miles dis-  
tant. Supplies are being put in for  
vigorous work this winter and the  
ground being sealed with contacts and  
cross fissures it will be remarkable to  
a large mine is not developed before  
spring or in the near future—remark-  
able, because nowhere in the great  
line belt has well directed, thorough  
work failed of meeting such reward  
save where porphyry intrusions have  
presented discouragements to persist-  
ent endeavor. Under such a condition  
does not exist in the Great Divide, and  
the Bulletin will be disappointed if this  
winter does not give it the opportunity  
and pleasure of chronicling a substan-  
tial strike in that property. That  
the big group will be energetically and  
systematically developed is assured by  
the high standing of the company,  
which is officiated by Henry A. McCor-  
nick, president; Walter C. Conner, vice  
president and manager; Joseph H.  
Hurd, secretary; Rodney T. Badger,  
treasurer; and John B. Taylor, engineer  
and superintendent.

## MILLIONS INVOLVED.

Litigation in Progress Between Well  
Known Groups of A. L. A. Mines.  
San Francisco, Oct. 30.—In the United  
States circuit court of appeals to-  
day a motion was made by Kennedy  
J. Hanley, appellant in a suit against  
Charles Sweeney, P. Lewis Clark and  
the Empire State Utah Mining & De-  
velopment company, appellants, praying  
for an order restraining the latter  
from extracting ore from the Skookum  
mine, situated in Shoshone county,  
Idaho.

In May, 1902, the United States cir-  
cuit court for the district of Idaho,  
northern division, entered an order  
restraining the appellants from oper-  
ating the mine until further order of  
the court. Hanley had previously been  
awarded an undivided one-eighth inter-  
est in the property, together with the  
sum of \$175,867 as damages. Upon ap-  
peal to the United States circuit court  
of appeals, the latter tribunal affirmed  
the injunction and thereafter the court  
granted a hearing of the points at is-  
sue in the injunction. It is set forth  
in the petition that, pending the decree  
in the injunction matter, the officers of  
the appellee corporation resumed work  
in defiance of the injunction, taking out  
ores to the value of \$1,200,000, and are  
still continuing operations.  
Petitioner prays for an order com-  
manding appellants to desist forthwith  
from the further extraction of ore,  
and deposit with the United States cir-

cuit court for the district of Idaho,  
northern division, the proceeds of all  
wealth taken from the ground since  
March 1, 1902, and that they cause  
why they should not be punished for  
contempt of court in disobeying the in-  
junction.

## CONCENTRATES.

Silver dropped a quarter of a cent to-  
day.  
The continental-Alta mines, of Alta,  
marketed a car of ore today.

John J. Daly is inspecting the Dally-  
Judge mine at Park City today.

The delinquent stock sale of the Dex-  
ter-Tuscarora Consolidated Gold Mines  
Co., is scheduled for Nov. 11.

William Hatfield went to Tintic last  
night to inspect conditions at the Snow-  
flake mine.

Will C. Higgins, editor of the Mining  
Record, expects to leave for Pay, Nev.,  
this evening on a brief business trip.

A 25-ton lot of ore from the Utah  
mine at Fish Springs is expected to  
arrive at the samplers during the day.

A. J. Cushing, superintendent of the  
Pioneer samplers at Sandy, is on the  
sick list.

At the Pioneer samplers today the  
arrival of nine cars of Tintic and three  
cars of Alta ores were reported.

Treasurer Wallace W. Wait of the  
Blue Acme Copper company, departed  
for Kanab City today, where he will  
remain during the winter.

The American smelter officials, who  
are scheduled to reach the city to-  
morrow, will only make a brief stay. They  
will leave again tomorrow night.

J. W. Cairns, leasing the Erie, is  
getting excellent indications and ex-  
pects that he will soon cut into a good  
ore body—Bingham Bulletin.

Col. Henry Altman is in Helena,  
conducting an examination of copper prop-  
erties near that place and a dispatch  
says some interesting developments are  
looked for.

The Columbus Consolidated has two  
cars of high grade ores at the sampler  
today, which will average up about the  
same as the previous shipments, \$1,000  
per car, net.

A. H. Boyd, well known in Leadville,  
has arrived, and will be in Alta to-  
morrow to take formal possession of the  
Tooele property which recently passed  
into his hands.

Steve Hays and John Butler have  
started work on their Ages and Claret  
claims, adjoining Dalton & Lark. A  
whim was set up this week preparatory  
to sinking—Bingham Bulletin.

Ed F. Frendenthal, manager of the  
Manhattan mines at Pico, has re-  
turned from the south with nothing  
new to report concerning physical con-  
ditions at that property. There is not  
much activity displayed around the  
mine at the present time.

On Monday about 100 miners left  
Butte for Utah, Wyoming and Colorado  
camps. It appears that many were  
headed for Bingham, as upwards of 50,  
said to have been mostly from Butte,  
arrived here yesterday morning. Un-  
til the Copper Belt road is completed  
and the Boston and Yampa in-  
crease their forces few new men will  
find places here—Bingham Bulletin.

From New York sources it is reported  
that the earnings of the American  
Smelting & Refining company, aggre-  
gate \$750,000 per month or approxi-  
mately \$9,000,000 per annum. At this  
rate the concern is earning 15 per cent  
on its common stock. The company is  
said to have from \$10,000,000 to \$20,000,  
000 working capital, of which \$6,000,000  
is in cash. The company has outstanding  
\$20,000,000 each of common and pre-  
ferred stock.

## SALT LAKE BANK CLEARINGS.

Salt Lake clearings for the  
past week as compared with  
the same week a year ago were  
as follows:

	1929.	1930.
Oct. 26.....	\$ 628,271.91	\$ 643,190.95
Oct. 27.....	521,727.50	580,559.07
Oct. 28.....	534,298.32	528,267.97
Oct. 29.....	446,898.32	546,887.65
Oct. 30.....	404,219.94	519,232.39
Oct. 31.....	330,538.12	456,822.33

Totals.....\$2,923,850.08 \$3,312,801.39  
Decrease, \$388,942.36.  
Clearings for October, \$13,299-  
107,514, as against \$13,591,534 for  
the same month last year.

## BUSINESS NOTES.

The week has been an active one in  
local stocks and many of those in the  
list have been dealt in. Deseret Na-  
tional sold at \$23; Z. C. M. at \$161,  
and Home Fire at \$141. Idaho Sugar  
reached \$12.10, and is in lively dem-  
and with few sellers. Part of the final  
payment on its stock has been made,  
and the remainder of the \$250,000 will  
be paid into the treasury Monday. Utah  
Sugar preferred is offered at \$9.00;  
common sold down to \$3.50 and up to \$3.75.  
Options on Fremont county sold at \$11.  
All the sugar mills are running at  
full capacity. The 10,000,000 pound mark  
at Lehi will be passed Monday, and 70-  
000 tons of beets have been received to  
date. Logan and Ogden are also grind-  
ing at a heavy rate and the Idaho and  
Garland plants are expected to start up  
within a week or 10 days. The present  
outlook being that the Idaho mill will  
commence turning out sugar first.

166 Main St.

## MILL WANTED.

Architects Say There is Good Opening  
For Interior Finish Plant.

Architects and builders say there is  
a fine opportunity to start in this city  
a mill for the manufacturing of inter-  
ior finish for buildings. It would cost  
less to get the raw material in here  
than to bring in the crated and finished  
goods; the wood would all be kilned  
here, and consumers could plan better  
and see what they wanted, and that  
they were getting better treatment  
than where the goods are being man-  
ufactured so far away. There has been delay  
and dissatisfaction, the past season, in  
ordering finish from factories in  
other parts of the country, in the matter of  
being imposed upon with green and in-  
perfectly completed work. On one job  
in this city, this summer, the whole of  
one assignment of finish had to be  
dried over here, as it was imperfectly  
done in St. Louis.

## Today's Metal Quotations.

Local settling prices as re-  
ported by the American Smelt-  
ing and Refining company:

canal system, through which the water  
will flow, has been completed a long  
time, and is in full readiness for the in-  
flow of water to the power plant.

A stockholder of the Emery County  
Mercantile company of Price, which  
was destroyed by fire on Sept. 20, is  
authoritative for the statement that the  
company's insurance has all been ad-  
justed and paid, and that it has re-  
tained its outstanding obligations in full.  
The loss approximated \$60,000 with only  
half that amount in insurance. The  
remainder of the loss is borne by the  
stockholders who will receive about 60  
cents on the dollar in the final settle-  
ment. The company will not resume  
business.

Salt Lake stands 35th in the list of  
cities whose bank clearings are chroni-  
cled by Bradstreet for the week end-  
ing last Thursday evening. The figure  
is \$2,923,850, a decrease of 14 1/2  
per cent from the clearings of the cor-  
responding week in the previous year.  
New York has a decrease of 21 1/2 per  
cent, Worcester, Mass., a decrease of  
25 per cent, and Chicago, N. D., a de-  
crease of 6 1/2 per cent.

A fine building is approaching com-  
pletion in the second of the large apart-  
ment buildings belonging to E. D. Mil-  
ler on North Temple street between  
Main and West Temple streets. These  
structures cost \$27,000 each, and contain  
six apartments in each, or 12 altogether.  
As there are nine rooms in each  
apartment, there is ample provision for  
12 good-sized families. Mr. Miller has  
named the buildings the "Wasatch"  
and "Mariposa," in accordance with the  
names of the two streets of giving  
apartment houses distinctive names.  
The Wasatch being the eastern and un-  
finished structure. There is a laun-  
dry in the building, and the building  
the families take turns in using, and  
in the "Wasatch" there will be a large  
billiard room. The fashionable yellow  
brick is used, and the general design  
is attractive. There are two large ten-  
nis courts and croquet grounds in the  
rear, which by another year will be  
used as the sites for nine cottages. An  
entirely electric light plant will  
then be put in. The house telephone  
system is in use, so that each room of  
the two buildings can communicate  
with every other one.

## BUILDING PERMITS WERE ISSUED
