These have come with con-siderable frequency of late, and have been of such character as to astonish such champions as Gus Lawson, the Turvilles, Freeman, and others, with whom he expects to soon begin a season of hard work in California. Rock Island, Ill., Oct. 5 .-- Gov. Roosevelt, who spoke in the city of Davenport, Ia., tonight, thus closing another day of hard campaigning, is beginning to feel the effects of ardnous work undertaken by him at the request of the Republican managers.

Cov. Roosevelt, since he began his llinerary through the Northwestern States, has been speaking from ten to wenty times each day, closing the day's labors usually with a right meeting. Many of these meetings have been in the open air, requiring extra exertion on his part.

He has now been on this journey for more than thirty days, and though more than thirty days, and though strong beyond the powers of most mon-to endure, he is beginning to show signs of distress and a failing voice. He has been worked unmercifully by the state committees of the different States through which he has passed. Revent this has has had a solution Beyond this he has had to endure un-limited hand-shaking, interviews, with-out number and the inconsiderate mobs which have swarmed around him in all cities of any size have been tedi-

ours. If some relief is not afforded his phy-ical powers he may be unable to last to the end of the sampaign. It is even now being suggested that all his east-ern engagements shall be postponed for one week. This matter will be deter-mined by the national committee on the arrival of Gov. Recevent in Chi-cago Saturday night. The trip through the State of Iowa to-day has been a very satisfactory one, large meetings being held at all points where stops were made. The second stop was made at Waterloo, great pre-

stop was made at Waterloo, great pre-parations had been made for the visit and an immense crowd was assembled in the park adjacent to the station to listen to the speaking. The meeting was addressed first by Gov. Roosevelt, next by Gov. Shaw of Iowa. The day was beautiful and the demonstration magnificant magnificent. Gov. Roosevelt said in "I do not appeal to Iowa, because

I do not appear to town, because lowa leads and the rest of us follow. lowa possesses that combination of honesty, courage and common sense which makes us follow and makes us safe in turning to her in any crisis. Now, then, we are asked to give up our material prosperity. Why are we saked to give it up for the sake of turning over the Philippines to an unspeakably cruel and unspeakably cor-rupt syndicate of Chinese half-breeds? "What about the trusts?" asked a voice. volce

## WYOMING TEAM COMING. University Eleven Will Play Y. M.

Every evening now the university campus is the scene of a practice game of football among the students who expect to take part in the fortheoming games, says the Laramie Boomerang, and Coach McMurray is working hard to get out the best material in the university and get it in proper condition for the coming events. From eighteen to twenty athletes are practicing, and from these a team will be selected about the last of next week. Some new material has been coming in the past week and more is expected shortly. Dr. Stroup, who formerly played with the Denver university team, is thinking of attending the un rsity and joining the team. Dr. Owen, the dentist, is also contemplat-ing going in, but has not yet fully decided to do so. Both men would make strong players and would add considerably to the weight of the team, which now rather light. Coach McMurray is instructing the boys to play a fast game. Every day they are put through two hours of good, hard work, which is already prov-ing very effective. Mr. McMurray will give no intimation of whom he will choose to compose the team, and the players are shifted from one could in to another to give them a thorough

I do not owe Mr. Wilkes one cent. The whole matter is just this: I ver Lawson and myself had an agreemnt to ride a wheel that Mr. Wilkes is agent for. He agreed to pay us so much per week. We rode the wheels he furnished us from the lst of June until the 20th of July, Mr. Wilkes then came to us and told us he would not be able to keep up his part of the agreement any longer. He settide with us up to the lst of July, owing us the balance which he has not paid. Law-son continued to ride the Wilkes wheel upon the understanding that it was to be his at the end of the season. Upon Mr. Lawson's departure for Los An-geles Mr. Wilkes demanded the return of the wheel. Lawson turned the wheel

throughout the season. program of games has been As yet no arranged dafinitely. A telegram was received from the Salt Lake Y. M. C. A team this morning asking for a game at Salt Lake on November 17. If the game is played the Salt Lake team will

pay the expenses of our team and the fare to and from that city. The committee having the arrange-ments for games in charge has not yet decided to accept the proposition of the Sult Lakers, but in all probability a same will be arranged for that date. The first game will be played here on November 10 with the university of

lorado. The Golden team has writ-that it will be unable to meet the university boys owing to its inability to raise funds to meet the expense of the home team's trip to Colorado, But there will probably be a game with the Denver Athletic club eleven and also with Boulder.

It is thought there will be five get played during November. One every Saturday at least. There is some doubt now whether a game can be artanged for Thanksgiving day in this city as all teams that have been corresponded with seem to have been cor-responded with seem to have that date filled and it is now so late that it is possible no game will be played here that day. This will be very disap-pointing to our citizens, who have been looking forward with much interest to the Thanksgiving game.

dressed by Gov. Roosevelt tonight, one at Davenpart, Ia., and the other at Rock Island, III. The train arrived at Davenport at 8 o'clock somewhat b hind time. The governor and his party were driven to a tent in the western limits of the city where an immone meeting was held and where he spoke for thirty minutes.

. Immediately upon the conclusion of his remarks at that place, he was driven to Rock Island, where a great street parade was moving. Immense num-bers of people lined the streets on all sides and the governor's carriage was driven for several miles through the shouting populace. It was 9:30 before

he reached the stand to talk. He spoke for not more than twenty minutes. At the Davenport meeting Gov-Roosevelt made the principal address of the day. He spoke along familiar lines. He referred to what he said was the plan of the Democratic campaign ignore the silver issue in the East and

#### WILL SUPPORT M'KINLEY.

#### Wayne McVeagh, Cleveland's Ambassador, Gives His Reasons.

Philadelphia, Oct. 6 .- In a letter t the Ledger, Wayne MacVeagh, who was ambassador to Italy under President Cleveland's administration, gives his reasons for supporting McKinley. Speaking of the war with Spain he says: says: "If Congress had left the matter

few weeks longer in President McKin-ley's hands I believe he could have persunded Spain to withdraw her flux from the American continent in peace as the other Europe nations, with only one exception, had withdrawn theirs Then followed the ignoble, hysterica condition into which we all lashed our solves over victories won from an en-emy whom we outnumbered more than five to one in population and more than twenty to one in all the resources new needed in war. It was in that mood the treaty with Spain was negotiated and ratified."

The amendment to the treaty placing the Philippines on the same footing as Cuba was defeated by Mr. Bryan, he says, and he adds:

says, and he adds: "I do not question that his motives were patriotic, but extend the same charitable construction to President McKinley. When the treaty was ratified without that amendment and thus hed without that amendment and thus became part of the 'suprema low of the land.' the deplorable consequences which have followed would have fol-lowed just the same. In my opinion, if Mr. Bryan had been President. "Nor can I believe anybody with or-dinary some of the large of the same of the
