would probably prove fatal. The man is evidently a laborer as his hands are calloused and show the effect of work. He is about 35 years of age and was dressed in a dark shirt, plaid coat and heavy corduroy trousers, and is of sandy complexion. The officers are investigating the case.

The man remained unconscious for about five minutes last evening when he told the nurse his name and where he was from, and tried to tell more but sank into unconsciousness again. He gave his name as James Hartwell, formerly of Utah.

The doctors trepanned his skull last night, but there are little hopes of his recovery.

The police believe the man knows something of the murder of Officer Clark, and think the murderer tried to murder this man to cover up his tracks.

SUPPOSED MURDERER DESCRIBED.

L. S. Helm of Richmond, California, who was beating his way on a freight train which passed the scene of the murder of Officer Clark about an hour after its occurrence, went to the sheriff's office last night and gave further description of the supposed murderer which tallies with that given by Deputy Sheriff Murphy. He says that as the train was passing the man ran alongside and apparently looking for a place to get on. Mr. Helm spoke to him but received a volley of rough, abusive language in reply, with the injunction to mind his own business.

SEQUEL OF JAPANESE RUNAWAY

In Judge Murphy's court yesterday O. Hisayama, a Japanese gambler, was fined \$100 on the charge of lewd conduct. It was necessary at the hearing which attracted many of the residents of the Japanese section, to secure the services of an interpreter, as the defendant stated he could not speak a word of English.

Mrs. Atsu is held at the city jail awaiting the action of the federal authorities. In all probability she will be deported upon the charge of violating the immigration laws and will be taken to San Francisco where she

will be placed upon board the steamer upon which she came to this country. If taken to her own country she will probably be beheaded, as that is the punishment meted out to a woman who deserts her children.

REMAINS ARRIVE.

The remains of Elder Oliver A. Hansen of Bear River City arrived in the city yesterday accompanied by President G. E. Ellsworth of the Northern States mission of the Latter-day Saints' Church. Larkia & Sons took charge of the body and prepared it for interment and sent it to Bear River City where the funeral will be held tomorrow. While on a mission in Norway Mr. Hansen was taken ill and started for Utah in hopes of regaining his health. At Chicago he became worse and it was necessary to send him to a hospital where he died. The deceased is the son of Mr. and Mrs. P. M. Hansen and was 22 years of age.

SALVATION ARMY CHRISTMAS.

The members of the Salvation Army in Ogden have begun the preliminary work of raising funds for the caring of the poor of the city on Christmas day. In every business establishment of the city they have placed small contribution boxes and several hundred appeals have been sent out. The generous responses that have been received thus far are very encouraging to the officers who state that if the generous feeling continues that there will not be a family in Ogden who are in indigent circumstances but what will have a splendid Christmas dinner, a well filled basket of food and toys for children and articles of wearing apparel for the elders.

EUREKA.

RECORD OF THE REAPER.

Mrs. Leo Pendleton and Others Summoned—Elks' Memorial Day.

Special Correspondence.

Eureka, Dec. 3.—John Saunders, a native of England, died in this city last Sunday, and was buried yesterday in the Eureka city cemetery. The deceased was 84 years of age and resided in Tintic for about 30 years. The cause of his death was miners' consumption, with which he had suffered for some time past. For the last two years Mr. Saunders' condition was such that he could not work, but his friends and fellow countrymen looked after his wants.

A very sad death of a young and estimable young woman occurred this morning, at about half past 12 o'clock, when Mrs. Leo Pendleton, aged 25 years, died of typhoid fever. The deceased leaves besides her husband, two little girls, the youngest one seven months of age, and this makes her death extremely sad. The deceased was born and raised in Torrey, Wayne county, where her parents, Wm. and Mary, and they were notified of her death today. The remains will be shipped to Payson, where interment will take place, the family having resided there before coming to Eureka, a few years ago.

SAYS AMERICAN STOMACH SURELY IS DEGENERATE

Westerner Who Secured Big Following in Brooklyn Is Now In New York Meeting The Public.

L. T. Cooper, the young man who has created such a sensation in Brooklyn with his new theory regarding the human stomach, is now in New York explaining his ideas to the public.
Cooper says that ninety per cent of all ill health is due to stomach trouble, and claims to prove this with his medicine. In speaking of his theory during an interview Thursday afternoon he said: "Practically all the chronic ill health of this generation is caused by abnormal stomach conditions. In earlier days, when the human race was in a more robust state, the stomach worked out of doors all day, the tired, drooping, half-sick people that are now so common did not exist. There was sickness, but it was only temporary. There was little of this constant half-sick condition with which so many are afflicted.
"In the animal, or in any of the wild tribes of Africa, or in uncivilized people in any quarter of the globe, you see no general debility, no nerve exhaustion. They are not shut up all day and they do not stuff themselves with food when their bodies have not had enough exercise to justify it. The American people have been doing this for years and the American stomach has in consequence grown slowly weaker.
"In America today there are tens of thousands who do not know what is indigestion with them. Some say nervousness, others kidney and liver trouble, or lung trouble, or constipation. Many have 'treated' for all these things at various times. A common complaint is 'all run down.'
"I have a medicine that positively will do nothing but put the digestive organs in a condition to properly digest and assimilate food. I have had to fight in the courts to retain the sole rights to this medicine, but I won. With it I have already made a fortune. With Louis, Chicago and Boston that few people can be sick with a sound stomach. I have done the same thing in Brooklyn and I will do the same thing in New York. I shall prove every word of this before I leave."
Cooper's New Discovery, the medicine which caused a sensation in New York, is now on sale at leading drug stores throughout the United States. Ask your druggist for it.
