—Junction City News Briefs.

Ogden, Aug. 2.—The students and friends of the Ogden high school will regret to learn that Prof. A. E. Wilson, who was elected principal of the high school for this year, will not be able to accept the appointment on account of the illness of his sister in California.

The board of education has been fortunate, however, in securing another thorough educator, Prof. David E. Cloyd, who has been principal of the Spokane, Wash., high school, but was forced to resign on account of political opposition. He bears the best of recommendations as to his ability as a teacher and principal, and it is believed will make a good man for the high school. He is a graduate of the University of Minnesota, also of the Columbia university, with a master's degree. He will remove with his wife and two children to Ogden this month.

automobile ride when the accident occurred. The auto was standing a few feet from the stone curbing, she stepped on to the stone gutter, on which her foot slipped and she fell to the pavement fracturing one of the bones of the lower right leg near the ankle. A physician was summoned who set the bone and she returned home to Ogden. It will be some weeks before she can return to her work in the recorder's office.

**FUNERAL OF JAMES B. RUSSELL.**

From all parts of Weber and Davis counties relatives and friends of the late James B. Russell, assembled at the grove at Roy, Weber county, to pay a tribute of respect to his memory. The funeral services were conducted by Bishop Thomas Holland. A choir rendered several appropriate musical selections. The speakers were Elders H. C. Jacobs, Sr., Lee Hammond, George F. Hunter, Bishop Child and Holland, and Patriarch George W. Larkin. They spoke of the excellent life of the deceased, the many noble traits of character he possessed, and his love for that which is good and godlike, comforting his wife and large posterity in the hope of a glorious resurrection. A large funeral cortege followed his remains to the Ogden City cemetery, where burial was made.

**HOLD-UP ADMITS GUILT.**

John Mitchell, who was arrested on

the charge of holding up Roy Bloomfield and robbing him of \$2.50, last Saturday night, was given a preliminary hearing before Judge Valentine O'Connell yesterday in the municipal court. The testimony of Bloomfield and a young man who witnessed the hold-up was that Mitchell met him in the depot yards and demanded of him his money. Bloomfield resisted and Mitchell's partner came to his rescue and struck Bloomfield over the head with a gun, felling him to the ground and then took his money.

The court, after hearing the evidence, bound him over to answer to the charge to the district court. In default of \$500 bond he was turned over to the custody of the sheriff. Mitchell told the court he was guilty, and is desirous of pleading guilty in the higher court.

**HELD FOR CAR ROBBERY.**

The preliminary hearing of Ed Deal was completed before Judge O'Connell. The evidence tended to show that he had with two others robbed a freight car in the Union depot yards about 10 days ago of 11 suits of clothes, valued at \$160. Arty. Farnsworth appeared for the defendant and put up a hard fight for his discharge. He was held to the district court under \$500 bonds, which he was unable to furnish.

**BODY RECOVERED.**

After almost two months, the body of Eugene Dumalt, the Union Pacific fireman who was drowned in the Weber river, has been recovered, and sent east to Missouri, his former home, for burial.

Dumalt was fireman on a west-bound freight train the early part of June. While crossing the bridge over the river near Devil's Slide in Weber canyon, he was standing on the side of the engine when the accident occurred, and did not observe the danger of the bridge. He was knocked from the engine just as the train was passing over the bridge and fell into the stream, which at that time was a raging torrent. He was quickly swept away down the stream. Every effort was put forth by the railroad employees and the family to locate the body. They dragged the stream, dynamited it, but to no effect. The family offered a reward of \$100 for the recovery of the body before July 1, and many tried to find him, but it was impossible until the water went down. He was found by fellow railroad employees. The body had not gone far in the stream, having lodged in some brush about half way between Devil's Slide and Morgan. He was almost unrecognizable, having been in the water so long. Joseph Howell of this city and a brother of deceased accompanied the body to its destination.

**DARED THEM TO MARRY.**

Peculiar Predicament of a Couple of Wright's Clerks.

Ogden, Aug. 2.—Deputy County Clerk Wm. Van Dyke issued a marriage license yesterday afternoon to Joseph M. McCowan and Miss Vera Reiser, both of Ogden and of lawful age. After the license was delivered to him, he said it was only a joke, but the license

was already prepared and the deputy could not see the joke and demanded the license fee of \$2.50 which McCowan had to put up. It appears that yesterday afternoon at Wright's store, where the two young people are employed as clerks, and who are said to be lovers, the doorwalker, John E. Salmon, dared the young people to get a marriage license and said, if they would he would pay for it and the expenses of the marriage. They took him at his word and went to the clerk's office where the necessary papers to make them man and wife were issued.

**ARRANGING CHOIR EXCURSION.**

Rosa have gone to California in the interest of the Ogden tabernacle choir's proposed trip to Sacramento and other California points on a concert tour and to sing the Irrigation Ode at the opening of the National Irrigation congress. They will be gone about 10 days and will bring back definite word as to whether the trip will be made by the choir or not.

**DEMISE OF LYMAN J. SWEET.**

Veteran and Pioneer of 73 Answers Sudden Summons.

Special Correspondence.

Vernal, Utah Co., July 26.—After a long illness from heart trouble and liver complaint, Lyman Johnson Sweet died July 20 at his home here. He was able to be up and around, however, and in the morning of his death walked out in the orchard, where he was found a short time after, lying under a tree dead.

Mr. Sweet was born in Errol, Cass county, New Hampshire, Sept. 25, 1834. His parents joined the Church of Jesus Christ of Latter-day Saints in 1832, hence Mr. Sweet was one of the very oldest members of the Church. He remembered the Prophet Joseph well. In 1852 he came to Utah and soon went to California and worked in the mines. He returned to Utah in 1877. He married Elizabeth Langston and lived in Payson until 1902, when with his family he moved to Vernal. He was the father of 13 children, seven of whom survive him.

Mr. Sweet was a very quiet man and few people in Utah county knew him, as he seldom went away from home.

**MILFORD.**

**Reservoir Projects for Reclaiming Waste Places in Millard and Beaver.**

Special Correspondence.

Millard, Beaver Co., Aug. 1.—Salt Lake City is the headquarters of two land and water companies, each preparing to operate on a large scale in this county. One of these is the same that organized and is carrying along the Abraham colony in Millard county, the design being to establish something similar on the immense tract of splendid soil skirting either bank of the Beaver river between here and Milesville, where with a sufficient and unending supply of water thousands of families could find homes but which now is a dreary waste.

This company has, it is understood, secured by negotiation the water rights held by the people of Milesville and with these in possession and adopting an immense scheme of reforesting the waters of the so-called river, they expect to keep the land on tap for all needed purposes during the dry and heated term. The other company is headed by Joseph Kimball, and like the first named has some strong men financially considered in its directorate. This company has in contemplation the use of Lake Puffer and some of the other great reservoirs immediately east of Beaver City to be drawn on. In addition to agricultural, mechanical and culinary uses, the water is to be utilized for an electric plant with which towns and private establishments are to be lighted.

For the time yesterday afternoon the mercury came in touch with the 100 mark, the hottest in a long time. A shower during the night cooled things off, which was the best thing that could have happened.
