Rey to prevent "salting" and in the event of a contest or adverse report by the inspector, he must send it to the assayer of the mint at Denver, Carson Chy and Seattle to be assayed. Upon the basis of his Investigation, the officer decides whether or not the claim is of commercial value. If not of commercial value por carbille of Willes, secretary and treasurer; Joseph A. Murdock and Edwin Van Wagoner, of commercial value, nor capable of being made so immediately, the claim-ant's application is rejected. The laws of the United States permit a claimant to apply for and secure pat-ent after the expenditure of \$500 worth of work upon a mining claim. The courts, both federal and state, have held contest for the land, small evidence of actual ore-value need be shown in order to uphold a mining location. It is a rule practically universal in the courts that if the vein or lode locat-ed is such as to justify a person of ordinary intelligence in following up the indications of ore and in expending his time and money in its development, it affords a sufficient discovery to justify and uphold the location. But the officers of the land department require very much more stringent tests. They apply such tests as are applied to a fully developed and marketable mine. der to uphold a mining location. It "These tests," says the memorial, "are unauthorized by law, entirely un-"are unauthorized by law, entirely un-reasonable and unduly exacting, and have been formulated by some person or persons who are ignorant of the conditions of ordinary mining. Such tests have never been applied before in the history of the mining in the United States. The laws of the United States require could 500 worth of work United States. The laws of the United States require only \$500 worth of work to be performed or improvements to be made upon a mining claim before one may apply for patent. When these improvements have been made, if he has a vein such as the courts have held sufficient to justify the location, he is entitled to a patent under the laws of the United States, whether the claim be situated upon a forest re-serve or elsewhere. "The offlicers of the national forest reserves have formulated rules prac-The officers of the national forest reserves have formulated rules prac-tically nullifying the laws of Congress, and with which it is almost an impos-sibility to comply, notwithstanding the entire good failth of the applicant. Five hundred dollacs does not go far, as a rule, toward developing a paying mine, and after the expenditure of thet sum and after the expenditure of that sum it is a rare mine indeed that will re-spond to the tests required by the officers of the land department. "It requires a mining expert of rare judgment and foresight to determine the prosective value of a mining claim, and even men of the highest oualifications in this respect sometimes find that their unfavorable judgment of a mining claim has proved erroneous and sport sighted. The land depart.

PARK CITY NEWS.

Work at the Western Monitor-The Zinc Plant Closed.

W. W. Armstrong and Everal other shareholders of the Mason Valley Mines company have returned from a trip of inspection and they all feel very well pleased with existing conditions there. A Moapa correspondent writes that owing to the hot weather the Grand Superintendent Andrew Ferm of the Western Monitor informed the Park City Record that for the present work in the shaft at the mine has been dis-continued and efforts are being concen-A Moapa correspondent writes that owing to the hot weather the Grand Guich ore haulers are spending the hot days in the shade. The Grand Guich Mining company has increased the force at its mine 15 men and expects to put on several teams as soon or the hot weather is over. trated in the construction of a large reservoir which is to be used for the purpose of storing water for consumpion during the summer months when the ordinary supply runs low. Of late many improvements have been made at this property, chief among them being the erection of a large two story being the erection of a large two story boarding house equipped in a manner which would be a credit to a much larger concern. A splendid start has been made in the new double com-partment shaft and with the financial backing of which the Western Monitor can now boast, there is reason to be-lieve that a mine will be made of this prospect, if there is a mine to be made in that section. Work so far has been largely in the nature of preliminary prospecting, but every indication is ensouraging and of a nature to warrant the further expenditure of capital. After what has been little more than an experimental run of about three Monday, Ju Amalgamated Copper American Car & Foundry American Smelting & Refining American Smelting & Refining pfd. American Sugar Refining Anaconda Mining Co. Atchison
